- (xxi) **Voting through Electronic Means:** Pursuant to the Section 108 of the Companies Act, 2013, Rule 20 of the Companies (Management And Administration) Rules, 2014, as amended from time to time and Regulation 44 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, the Company is pleased to provide the facility to the Members a facility to exercise their right to vote at the 33rd Annual General Meeting (AGM) by electronic means.
- (xxii) The Members whose name appears in the Register of Members of the Company as on **23rd September, 2023** may cast their votes on electronic voting system from place other than the venue of the meeting (remote e-voting). The remote e-voting shall commence on **27th September, 2023 at 09:00 AM and ends on 29th September, 2023 at 05:00 PM**. Once the vote on a resolution is cast by the shareholder, the shareholder shall not be allowed to change it subsequently. The e-voting module shall be disabled by CDSL for voting thereafter.

THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING:

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- a. The voting period **begins on Wednesday, 27-09-2023 at 9.00 a.m.** and **ends on Friday, 29-09-2023 at 5.00 p.m.** During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date **23-09-2023** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- b. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- c. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- d. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are

PAOS INDUSTRIES LIMITED Annual Report 2023

advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to above said SEBI Circular, Login method for e-Voting **for Individual shareholders holding securities in Demat mode CDSL/NSDL** is given below:

Other Comprehensive Income for the period	--	--
Basic- Earning per equity share of Rs.10/-	(0.48)	(0.51)

The company has not carried on any business activity during the year under review.

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The financial statements have been prepared as per the Ind-AS whereby the preferential share capital has been classified into debt liability and to find out the present value the nominal value of these preference shares has been discounted @10% being rate of dividend payable on these shares. The dividend/interest accrued there-upon for the relevant financial year has been included and booked as "finance cost" however since the last three years, the amortization of Deferred Revenue through the Statement of Profit & Loss Account has been discontinued in order to stop booking notional "Other Income". The loss for the FY 2023 stands at Rs.29.04 Lakhs as compared to Rs.31.07 lakhs during FY 2022.

As per provisions of Ind AS 28, the Share of Loss from the Joint Venture has been recognised only to the extent of carrying amount of Investment before recognizing loss. The unrecognised losses amounting to Rs.34,23,425/- for FY 2022-2023 will be recognised when the share of Profits of the Company in M/s PAOS Productions equals the value of investment not recognised and the aggregate amount not recognised till 31-03-2023 amounts to Rs.2,26,93,981/-. Accordingly, the Value of Investment made in PAOS Productions being in Negative not recorded in the books in order to comply with the provisions of Ind AS-28.

INFORMATION ON STATE OF COMPANY'S AFFAIR

The company has not carried any commercial activity during the year under review. It has no labour force but employed only administrative personnel.

FUTURE PROSPECTS

The company has entered into joint venture by becoming a Partner in a Partnership Firm namely "PAOS Productions". The said Joint venture has started its commercial production and sales in Financial Year 2020-2021. However, up to 01.10.2021 the share of company in the said Joint Venture was 50%. But the Share of Company in Joint Venture M/s PAOS Productions has been reduced from 50% to 20% during the year 2021-2022 to conserve on depletion of its investment value because being new unit M/s PAOS Productions is incurring losses due to claiming of substantial depreciation on fixed assets as available to it under the provisions of Income Tax Act. Presently, M/s PAOS Productions is a joint venture entity among the partners namely M/s PAOS Industries Ltd. with 20% share, Sh. Sanjeev Bansal with 5% Share, Smt. Rama Bansal with 25% share, Sh. Sahil Bansal with 25% share and Sh. Salil Bansal with 25% Share as on 31-03-2023. During the current year, the said Joint Venture had incurred losses of Rs.171.17 Lakhs as compared to Rs.353.55 Lakhs during the Financial Year 2021-2022.

DIVIDEND

Your Directors express their inability to recommend any dividend for the year.

DEPOSITS

During the year under review, the Company has not accepted or renewed any deposits falling within the

PAOS INDUSTRIES LIMITED Annual Report 2023

purview of the Companies Act, 2013 and the rules made there-under however the company has received and accepted money/loan only from its Managing Director namely Mr. Sanjeev Bansal which does not fall within the definition of deposits in terms of Rule 2(1)(c) of the Companies (Acceptance of Deposits), Rule, 2014, as amended. The amount of said money/loan stands at Rs.1424.09 Lakhs as on 31.03.2023. These borrowings from director are interest free and presently the exact date of their repayment is not certain because the company is not carrying on any commercial or business activity and does not have any operating assets as on date to repay it, hence its classification as per Ind-AS is not presently feasible. However, these loans are financial liability and have been presented and disclosed under Non-Current Borrowings considering them to be not being paid within One year.

TRANSFER OF UNCLAIMED DIVIDEND TO INVESTOR EDUCATION AND PROTECTION FUND

Since no Dividend declared and paid during last year, the provisions of Section 125 of the Companies Act, 2013 does not apply.

TRANSFER TO RESERVES IN TERMS OF SECTION 134 (3) (J) OF THE COMPANIES ACT, 2013

The profit/loss of the current year has been transferred to the Reserves & Surplus.

MANAGEMENT DISCUSSION AND ANALYSIS

While it has been the practice of the Company to regularly share with Members the developments/information on the Company and the Industry Front. However, this section and format is being offered as part of the Annual Report. The company's Joint Venture namely PAOS Productions has started its operation in first quarter of financial year 2020-2021. The company is a partner in the said firm with 20% profit/loss sharing ratio at the end of year. The said entity is engaged into manufacturing of soaps and detergents. A lot of inventions are under way in the Joint Venture and the new products & SKUs are being added therein and the company is expected to achieve better results through its Joint Venture.

OPPORTUNITIES AND STRENGTH

India is a country with growing population and here the household penetration of soaps is 99%. People belonging to different income levels use different brands, which fall under different segments, but all income levels use soaps, making it the second largest category in India. Rural consumers in India constitute 70% of the population. Rural demand is growing, with more and more soap brands being launched. Thus the soap industry has signs of healthy growth ahead. The promoters of the company had a strong standing of more than 60 years in the business of Soaps & Detergents manufacturing and has the ability to face any kind of challenges in the said business.

THREATS

There is lot of competition in the market and popular imported and Indian brands and continuous increases in raw material prices and other costs are main threats. Further there can be risks inherent in meeting unforeseen situation which too are not uncommon in the industry.

RISK AND MANAGEMENT PERCEPTION

The operations of Joint Venture Project may be subject to general business risks and competition in the industry, which can affect the growth of the company. Your company continuously updates its systems and procedures to reduce uncertainties and risks and explore new market to cope with the competition.

OVERVIEW

Financial Statements of the Company have been prepared in compliance with the requirements of the Companies Act, 2013 and Ind-AS. The management of the Company accepts responsibility for the integrity and objectivity of these financial statements, as well as various estimates and judgments used therein. The estimates and judgments relating to financial statements have been made on a prudent and reasonable basis so that financial statements reflect in a true and fair manner, the form and substance of transactions and reasonably present the company's state of affairs and profit/loss for the year. The predictions and future estimates in any statements given in this report are based on current environment. However, many unforeseen and uncontrollable external factors may alter these predictions.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has proper and adequate internal control systems to ensure that all financial transactions are authorized and recorded correctly. There are no operation(s)/ transaction(s) during the year. This system ensures that all assets of the Company are properly protected against loss and put to authorized use only. However to pay off bank liabilities and the company pursuant to approval of members had disposed off its assets. The Audit Committee meets at regular intervals to review audit observations and implementation of corrective actions and submit reports of its observations to the Board of Directors.

HUMAN RESOURCES/INDUSTRIAL RELATIONS

The relations of Company remained very cordial with staff and other concerned during the year under review but it is very unfortunate that there is no workforce in the company.

OUTLOOK

The company may be viable with the start of Joint Venture Project in the name of PAOS Productions and is expected to have better future in time to come by operating through the Joint Venture.

CAUTIONARY STATEMENT

Statement in the Management Discussion and Analysis describing Company objectives, expectations, projections, estimates may be "forward looking statements" within the meaning of applicable laws and regulations. Actual position and circumstances may differ. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

CORPORATE GOVERNANCE REPORT

1. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Corporate Governance refers to a combination of laws, regulations, procedures, implicit rules and good corporate practices which ensure that a Company meets its obligations to optimize shareholders' value and fulfill its responsibilities to the community, customers, employees, Government and other segments of society.

The Principles of Corporate Governance and Code of Business Principles are the cornerstones of your Company. Your Company believes these principles distinguish a well-managed Company from a not so well managed Company. These principles ensure transparency, integrity and accountability which are vital for the long and sustained growth of your Company. Your Company has been practicing these principles long before these were made mandatory for listed Companies.

Your Company's endeavor has always been to engage persons of eminence as independent directors who can contribute to the corporate strategy, provide an external perspective and be a source of challenge and evaluation wherever appropriate. Your Company has the good fortune of having independent directors.

The company had established a code of governance based on transparency and accountability. For PAOS Industries Limited, Good Corporate Governance means adoption of best practices to ensure that the Company operates not only within the regulatory framework, but is also guided by broader business ethics. The adoption of such corporate practices- based on the transparency and proper disclosures – ensures accountability of the persons in charge of the Company and brings benefits to investors, customers, creditors, employees and the society at large.

2. BOARD OF DIRECTORS COMPOSITION

During the year, the Company has a strong and broad-based Board consisting of four Directors with adequate blend of professionals, executive, non-executive and independent Directors. The Composition of the Board of Directors comprises of eminent and distinguished personalities, one of which is executive Director (but no remuneration is paid to executive director), one is non-executive director and two are Independent Directors. As mentioned in the Regulation 15 of Chapter IV of SEBI (Listing Obligations and Disclosure Requirements) regulations, 2015, your company's paid up equity share capital was less than Rs.10.00 Crores and Net worth of the company was less than Rs.25 Crores. Therefore your company fits the criteria mentioned within and therefore, the Regulations [17, 17A, 18, 19, 20, 21,22, 23, 24, 24A, 25, 26, 27] and clauses (b) to (i) of sub-regulation (2) of regulation 46 and para C, D and E of Schedule V of SEBI (LODR) Regulations, 2015, by means of exemption provided in Regulation 15(2), are not applicable to your company. As Company followed the voluntary practices to follow and comply with corporate governance throughout the year.

PAOS INDUSTRIES LIMITED Annual Report 2023

Independent Auditor's Report on Standalone Financial Statements

To The Members of PAOS Industries Limited

Report on the Audit of the Standalone Financial Statements

We have audited the accompanying standalone financial statements of PAOS Industries Limited ("the Company") which comprise the Balance Sheet as at 31st March 2023, the statement of Profit and Loss (including Other Comprehensive Income), the statement of changes in Equity and the Statement of Cash Flows Statement for the year ended on that date and a summary of significant accounting policies and other explanatory information, (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, its loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholders' Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

PAOS INDUSTRIES LIMITED Annual Report 2023

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility for the Audit of Standalone Financial Statements:

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within "the Group" to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial.
- Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore

PAOS INDUSTRIES LIMITED Annual Report 2023

the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE "B" TO THE INDEPENDENT AUDITORS REPORT ON STANDALONE FINANCIAL STATEMENTS

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Subsection 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial control over the financial reporting of "**PAOS Industries Limited**" ("the company") as of 31st March, 2023 in conjunction with our audit of the standalone financial statements of the company for the year ended on that date:

Management's Responsibility for Internal Financial Controls:

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility:

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements:

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that-

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PAOS INDUSTRIES LIMITED Annual Report 2023

Opinion:

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the criteria for internal control with reference to standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Background

PAOS Industries Limited (Formerly known as Raj Agro Mills Limited) is domiciled and incorporated under the provisions of the Companies Act, 1956. The company has changed its name, main objects and registered office in terms of Special Resolutions passed in the 28th Annual General Meeting which was duly approved by the MCA. The Company has entered into new project of laundry soap, toilet soap and detergents powders formulations without manufacturing of LABSA facility by entering into a Joint Venture by becoming a Partner in a newly incorporated Partnership Firm namely "PAOS Productions" in terms of Partnership deed dated 27.08.2018.

The Company has its Registered Office at Village Pawa, G.T. Road, Near Civil Airport, Ludhiana-141120, Punjab. The Company is primarily listed on BSE Limited.

The standalone financial statements were approved and adopted by Board of Directors of the Company in their meeting dated May 30, 2023.

2. Basis of preparation

2.1. Statement of compliance with Ind AS

The financial statements (on standalone basis) of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

PAOS INDUSTRIES LIMITED Annual Report 2023

The Company had prepared its standalone financial statements in accordance with the Accounting Standards notified under Section 133 of the Companies Act, 2013 read together with the Companies (Accounts) Rules 2014 (referred as "Indian GAAP"). The Company's annual financial statements are prepared complying in all material respects with the Ind AS notified under Section 133 of the Companies Act, 2013.

2.2. Overall consideration

The standalone financial statements have been prepared on going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements. These financial statements are prepared under the historical cost convention, except for certain financial instruments that are measured at fair value at the end of each reporting period.

The standalone financial statements have been prepared considering all Ind AS notified by MCA till reporting date i.e. 31st March 2023. The significant accounting policies used in preparing the financial statements are set out in note 3 of the notes to the standalone financial statement.

2.3. Functional and presentation of currency

The financial statements are prepared in Indian Rupees which is also the Company's functional currency. The figures therein are rounded off to nearest Lakhs upto two decimals thereof.

2.4. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal market or the most advantageous market must be accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as below:

Level 1 – Unadjusted quoted price in active markets for identical assets and liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 – unobservable inputs for the asset or liability.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy.

Fair values have been determined for measurement and/or disclosure purpose using methods as prescribed in "Ind AS 113 Fair Value Measurement".

2.5. Use of significant accounting estimates, judgments and assumptions

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosure of contingent liabilities as on the date of financial

PAOS INDUSTRIES LIMITED Annual Report 2023

statements and reported amounts of income and expenses for the periods presented. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. Significant estimates and critical judgment in applying these accounting policies are described below:

i) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation based on industry practice, Company's past history and existing market conditions as well as forward looking estimates at the end of each reporting period.

ii) Contingencies

Management judgment is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

iii) Income taxes

Provision for tax liabilities require judgments on the interpretation of tax legislation, developments in case law and the potential outcomes of tax audits and appeals which may be subject to significant uncertainty. Therefore, the actual results may vary from expectations resulting in adjustments to provisions, the valuation of deferred tax assets, cash tax settlements and therefore the tax charge in the statement of profit and loss.

iv) Impairment of non-financial assets

The carrying amounts of assets are reviewed at each balance sheet date for any indication of impairment based on internal / external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of a) fair value of assets less cost of disposal and b) its value in use. Value in use is the present value of future cash flows expected to derive from an assets or Cash-Generating Unit (CGU).

Based on the assessment done at each balance sheet date, recognised impairment loss is further provided or reversed depending on changes in circumstances. After recognition of impairment loss or reversal of impairment loss as applicable, the depreciation charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life. If the conditions leading to recognition of impairment losses no longer exist or have decreased, impairment losses recognised are reversed to the extent it does not exceed the carrying amount that would have been determined after considering depreciation / amortisation had no impairment loss been recognised in earlier years.

3. Significant Accounting Policies

3.1. Presentation and disclosure of standalone financial statement

All assets and liabilities have been classified as current and non-current as per Company's normal operating cycle and other criteria set out in the division II of Schedule III of the Companies Act, 2013 for a company whose financial statements are made in compliance with the Companies (India Accounting Standards) Rules, 2015.

Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, 12 months has been considered by the Company for the purpose of current / non-current classification of assets and liabilities.

3.2. Property, Plant and Equipment and Depreciation

Recognition and measurement

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The company depreciates property, plant and equipment over their estimated useful lives using the straight line basis. The estimated useful lives of assets as prescribed under Part C of Schedule II of the Companies Act 2013 except the assets costing Rs.5000/- or below on which depreciation is charged @ 100% per annum on proportionate basis, are as follows:

Building - 30-60 years.
Plant and Machinery - 15 years.
Office Equipment - 5 Years
Computer Equipment - 3 years.
Furniture and fittings - 10 years
Vehicles excluding Motor cycles- 8 years.
Motor cycles – 10 years.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other 'non-current assets' and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred.

The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

However, as there is no Property, Plant and Equipment in the books of the Company at any time during the year ended 31.03.2023. Hence, no depreciation has been provided in the books of Accounts.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is de-recognised.

3.3. Intangible assets and amortisation

Recognition and measurement

Intangible assets are recognized only if it is probable that the future economic benefits attributable to asset will flow to the Company and the cost of asset can be measured reliably. Intangible assets are stated at cost of acquisition/development less accumulated amortization and accumulated impairment loss if any.

Cost of an intangible asset includes purchase price including non - refundable taxes and duties, borrowing cost directly attributable to the qualifying asset and any directly attributable expenditure on making the asset ready for its intended use.

Intangible assets under development comprises of cost incurred on intangible assets under development that are not yet ready for their intended use as at the Balance Sheet date.

Amortization and useful lives

Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence etc. Amortization methods and useful lives are reviewed at each financial year end and adjusted prospectively.

PAOS INDUSTRIES LIMITED Annual Report 2023

In case of assets purchased during the year, amortization on such assets is calculated on pro-rata basis from the date of such addition.

3.4. Inventories

Inventories of raw materials, stores and spares, trading goods, work-in-progress and finished goods are valued at cost or net realisable value, whichever is lower. However, materials and other items held for use in the production of Inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The cost in respect of the aforesaid items of inventory is computed as under:

- In case of raw materials, Chemicals and consumables are valued at cost or net realizable value whichever is lower, cost being purchase price on FIFO basis plus other expenses incurred in bringing the inventories to their present location and condition, including duties (other than those subsequently recoverable from the taxation authorities).
- In case of stores and spares, are taken at estimated value.
- In case of work-in-process, valued at cost or net realizable value whichever is lower, cost i.e. Raw materials, Chemicals & Consumables at 100% of the cost & other direct expenses at 75% of the unit cost.
- In case of finished goods valued at Net Realizable value.

3.5. Revenue recognition

The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the entity.

Sales of goods

Revenue from the sale of goods is recognised on transfer of significant risks and rewards of ownership and effective control to the buyer, as per terms of the contracts and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sales of goods. Revenue is measured at fair value of the consideration received or receivable net of returns (if any), trade discounts and rebates.

Sales are presented gross of excise duty and net of Goods and Service Tax (GST), wherever applicable.

Interest income

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included under the head "other income" in the statement of profit and loss.

3.6. Foreign currency transaction

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. As at the Balance Sheet date, foreign currency monetary items are translated at closing exchange rate. Exchange difference arising on settlement or translation of foreign currency monetary items are recognised as income or expense in the year in which they arise.

Foreign currency non-monetary items which are carried at historical cost are reported using the exchange rate at the date of transactions.

3.7. Employee benefits

- Short term employee benefits

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss in the period in which the employee renders the related service.

- Post-employment benefits & other long term benefits

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees of the Company. The Gratuity Plan provides a lump-sum payment to vested

PAOS INDUSTRIES LIMITED Annual Report 2023

employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The company has a defined benefit plan viz Gratuity for its employees. The liability for gratuity is measured on an un-discounted basis without going in for Actuarial Valuation and are expensed in the Profit & Loss Account.

3.8. Borrowing cost

Borrowing costs (net of interest income on temporary investments) that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the respective asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. Ancillary cost of borrowings in respect of loans not disbursed are carried forward and accounted as borrowing cost in the year of disbursement of loan.

All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expenses calculated as per effective interest method, exchange difference arising from foreign currency borrowings to the extent they are treated as an adjustment to the borrowing cost and other costs that an entity incurs in connection with the borrowing of funds.

3.9. Taxes on income

Tax expenses for the year comprises of current tax, deferred tax charge or credit and adjustments of taxes for earlier years. In respect of amounts adjusted outside profit or loss (i.e. in other comprehensive income or equity), the corresponding tax effect, if any, is also adjusted outside profit or loss.

Provision for current tax is made as per the provisions of Income Tax Act, 1961.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, and deferred tax assets are recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which such deferred tax assets can be utilized. In situations where the Company has unused tax losses and unused tax credits, deferred tax assets are recognised only if it is probable that they can be utilized against future taxable profits. Deferred tax assets are reviewed for the appropriateness of their respective carrying amounts at each Balance Sheet date.

At each reporting date, the Company re-assesses unrecognised deferred tax assets. It recognises previously unrecognised deferred tax assets to the extent that it has become probable that future taxable profit allow deferred tax assets to be recovered.

3.10. Cash and cash equivalents

Cash and cash equivalents include cash in hand, bank balances, deposits with banks (other than on lien) and all short term and highly liquid investments that are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

For the purpose of cash flow statement, cash and cash equivalent as calculated above also includes outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

3.11. Cash Flow statement

The cash flow statement is prepared in accordance with the Indian Accounting Standard (Ind AS) - 7 "Statement of Cash flows" using the indirect method for operating activities.

3.12. Provisions, contingent liabilities, contingent assets

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

3.13. Earnings per share

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of shares outstanding during the year. The weighted average numbers of shares also includes fixed number of equity shares that are issuable on conversion of compulsorily convertible preference shares, debentures or any other instrument, from the date consideration is receivable (generally the date of their issue) of such instruments.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholder' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

3.14. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3.14.1. Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

Investments in equity instruments at Fair Value through Other Comprehensive Income (FVTOCI)

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- It has been acquired principally for the purpose of selling it in the near term; or
- On initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- It is a derivative that is not designated and effective as a hedging instrument or a financial guarantee. Dividends on these investments in equity instruments are recognised in profit or loss when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in profit or loss are included in the 'Other income' line item.

Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Impairment of financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model based on 'simplified approach' for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the twelve month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in statement of profit and loss.

De-recognition of financial asset

The Company de-recognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On de-recognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

3.14.2. Financial liability and equity instrument

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs. Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest rate method (EIR) or at Fair Value through Profit or Loss (FVTPL).

However, financial liabilities that arise when a transfer of a financial asset does not qualify for de-recognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

PAOS INDUSTRIES LIMITED Annual Report 2023

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in profit or loss. The remaining amount of change in the fair value of liability is always recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Company that are designated by the Company as at fair value through profit or loss are recognised in profit or loss.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability or (where appropriate) a shorter period, to the gross carrying amount on initial recognition.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Reclassification

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

De-recognition of financial liabilities

The Company de-recognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing

PAOS INDUSTRIES LIMITED Annual Report 2023

financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in profit or loss.

Lease:

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e. the lessee and the lessor. Ind AS 116 introduces a single lease accounting model for lessee and requires the lessee to recognize right of use assets and lease liabilities for all leases with a term of more than twelve months, unless the underlying asset is low value in nature. Currently, operating lease expenses are charged to the statement of profit and loss. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17."

As per Ind AS 116, the lessee needs to recognise depreciation on rights of use assets and finance costs on lease liabilities in the statement of profit and loss. The lease payments made by the lessee under the lease arrangement will be adjusted against the lease liabilities. The Company is currently not required to evaluate the impact on account of implementation of Ind- AS 116 which might have significant impact on key profit & loss and balance sheet ratio i.e. Earnings before interest, tax, depreciation and amortisation (EBITDA), Asset coverage, debt equity, interest coverage, etc.

3.15. Recent Pronouncements

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

Ind AS 1, Presentation of Financial Statements – This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and the impact of the amendment is insignificant in the standalone financial statements.

Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors – This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its Standalone financial statements.

Ind AS 12, Income Taxes – This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its Standalone financial statements.

PAOS INDUSTRIES LIMITED Annual Report 2023

22C Financial Risk management objectives and policies

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The Company's financial liabilities comprise of borrowings, trade payable and other liabilities to manage its operation and financial assets includes trade receivables and other receivables etc. that arise from its operation.

The Company has instituted a self governed Risk Management framework based on identification of potential risk areas, evaluation of risk intensity, and clearcut risk mitigation policies, plans and procedures both at the enterprise and operating levels. The framework seeks to facilitate a common organisational understanding of the exposure to various risks and uncertainties at an early stage, followed by timely and effective mitigation. The Audit Committee of the Board reviews the risk management framework at periodic intervals. Our risk management procedures ensure that the management controls various business related risks through means of a properly defined framework.

22D Market Risk

Market Risk is the risk that changes in market prices such as foreign exchange rates will effect groups income or value of its holding financial assets/ instruments. The company does not have significant foreign exchange risk.

22E Credit risk

Credit risk refers to the risk of default on its obligation by the customer / counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is carrying value of respective financial assets. The company has very insignificant credit risk as no major financial assets as at balance sheet date.

22F Liquidity Risk

The Company's principle sources of liquidity are cash and cash equivalents and current investments. The Company monitors its risk of shortage of funds to meet the financial liabilities using a liquidity planning tool. The Company plans to maintain sufficient cash and marketable securities to meet the obligations as and when falls due.

23 Segment Information

The Company has entered into a Joint Venture by becoming a Partner in a Partnership Firm namely "PAOS Productions" which is engaged in the business of laundry soap, toilet soap and detergents powders formulations without manufacturing of LABSA facility. The Company was earlier operating in only one business segment viz. "Manufacturing of Vanaspati & refining of Oils", which is the reportable segment in accordance with the requirements of Ind AS -108 on "Operating Segments", prescribed by Companies (Indian Accounting Standards) Rules 2015. Since the Company is not into direct operations, hence the requirement of giving geographical segment note is not applicable to the company.

PAOS INDUSTRIES LIMITED Annual Report 2023

Independent Auditor's Report on Consolidated Financial Statements

To The Members of PAOS Industries limited (formerly Raj Agro Mills Limited)

Report on the Audit of the Consolidated Financial Statements

We have audited the accompanying Consolidated financial statements of PAOS Industries Limited (formerly known as Raj Agro Mills Limited) ("the Company") and its joint venture PAOS productions (the company and its joint venture together referred to as "the Group"), which comprise the consolidated Balance Sheet as at **31st March 2023**, the consolidated statement of Profit and Loss (including Other Comprehensive Income), the consolidated statement of change in Equity and the consolidated Statement of Cash Flows for the year then ended and a summary of significant accounting policies and other explanatory information, (hereinafter referred to as "the Consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of consolidated affairs of the Company as at **March 31, 2023**, The consolidated loss, consolidated total comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the Consolidated financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Act and the Rules made there-under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholders' Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Consolidated Financial Statements

The respective Board of Directors/partners of the entities included in the Group are responsible for the matters stated in section 134(5) of the Companies Act, 2013("the act") with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, including consolidated other comprehensive income, consolidated cash flows and consolidated changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India.

The respective Board of Directors of the company and the Partners of the firm are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of

PAOS INDUSTRIES LIMITED Annual Report 2023

appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated financial statements, the respective Board of directors/Partners of the entities included in the Group are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors/Partners of the entities included in the Group is responsible for overseeing the Company's financial reporting process.

Auditors' Responsibility for the Audit of Consolidated Financial Statements:

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within "the Group" to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial.
- Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PAOS INDUSTRIES LIMITED Annual Report 2023

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required under the provisions of section 143(3) of the Act, we report that;
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.

ANNEXURE – "A" TO THE INDEPENDENT AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

(Referred to in paragraph (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to Consolidated financial statements under Clause (i) of sub-section 3 of section 143 of the Companies act 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the company for the year ended March 31, 2023 we have audited the internal financial controls over financial reporting of "PAOS Industries Limited formerly Raj Agro Mills Limited" ("the company") as of 31st March, 2023 (hereinafter referred to as "company") and its Joint Venture, PAOS Productions, a Partnership Firm constituted in India.

Management's Responsibility for Internal Financial Controls:

The respective Board of Directors of the Company and the Partners of the firm are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective entities of the Group considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility:

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls

PAOS INDUSTRIES LIMITED Annual Report 2023

with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to consolidated financial statements of the Company and its joint venture.

Meaning of Internal Financial Controls over Financial Reporting :

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that-

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls with reference to consolidated financial statements:

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2023, based on the criteria for internal control with reference to consolidated financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Background

PAOS Industries Limited (Formerly known as Raj Agro Mills Limited) is domiciled and incorporated under the provisions of the Companies Act, 1956. The company has entered into joint venture by becoming a Partner in a Partnership Firm namely "PAOS Productions" in terms of Partnership deed dated 27.08.2018. The company and its Investment in partnership firm is treated as joint venture for the purpose of consolidation (collectively referred as "the Group") The Group has entered into new project of laundry soap, toilet soap and detergents powders formulations without manufacturing of LABSA facility.

The Company has its Registered Office at Village Pawa, G.T. Road, Near Civil Airport, Ludhiana-141120, Punjab. The Company is primarily listed on BSE Limited.

The consolidated financial statements were approved and adopted by board of directors of the Company in their meeting dated May 30, 2023.

2. Basis of Preparation

2.1. Statement of Compliance with Ind AS

The financial statements (on consolidated basis) of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

The Group has prepared its consolidated financial statements in accordance with the Accounting Standards notified under Section 133 of the Companies Act, 2013 read together with the Companies (Accounts) Rules 2014 (referred as "Indian GAAP"). The Company's annual financial statements are prepared complying in all material respects with the Ind AS notified under Section 133 of the Companies Act, 2013.

The consolidated financial statements have been prepared on going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements. These financial statements are prepared under the historical cost convention, except for certain financial instruments that are measured at fair value at the end of each reporting period.

The consolidated financial statements have been prepared considering all Ind AS notified by MCA till reporting date i.e. 31st March 2023. The significant accounting policies used in preparing the financial statements are set out in note 3 of the notes to the consolidated financial statement.

2.2. Basis of consolidation & Overall Consideration

The financial statements incorporate the consolidated financial statements of the Group, both unilaterally and jointly.

(a) Joint venture and Equity method accounting

Interests in partnership firm treated as joint ventures for the purpose of consolidation and accounted for using the equity method, after initially being recognised at cost in the Consolidated Balance Sheet.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in the Consolidated Statement of Profit and Loss, and the Group's share of Other Comprehensive Income of the investee in Other Comprehensive Income. When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

The financial statements of joint venture consolidated are drawn upto the same reporting date as that of the Company.

2.3. Functional and presentation of currency

The consolidated financial statements are prepared in Indian Rupees which is also the Company's functional currency. The figures therein are rounded off to nearest Lakhs upto two decimals thereof.

2.4. Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal market or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

PAOS INDUSTRIES LIMITED Annual Report 2023

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as below:

Level 1 – Unadjusted quoted price in active markets for identical assets and liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – unobservable inputs for the asset or liability

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy.

Fair values have been determined for measurement and / or disclosure purpose using methods as prescribed in "Ind AS 113 Fair Value Measurement".

2.5. Use of significant accounting estimates, judgements and assumptions

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosure of contingent liabilities as on the date of financial statements and reported amounts of income and expenses for the periods presented. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. These estimates, judgments, and assumptions affect the application of accounting policies and reported amount of assets and liabilities, the disclosures of contingent assets and liabilities at the date of financial statements and reported amount of revenues and expenses during the period.

Key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. Significant estimates and critical judgement in applying these accounting policies are described below:

i) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation based on industry practice, Group's past history and existing market conditions as well as forward looking estimates at the end of each reporting period.

ii) Contingencies

Management judgment is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Group as it is not possible to predict the outcome of pending matters with accuracy.

iii) Income taxes

Provision for tax liabilities require judgments on the interpretation of tax legislation, developments in case law and the potential outcomes of tax audits and appeals which may be subject to significant uncertainty. Therefore, the actual results may vary from expectations resulting in

PAOS INDUSTRIES LIMITED Annual Report 2023

adjustments to provisions, the valuation of deferred tax assets, cash tax settlements and therefore the tax charge in the statement of profit and loss.

iv) Impairment of non-financial assets

The carrying amounts of assets are reviewed at each balance sheet date for any indication of impairment based on internal / external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of a) fair value of assets less cost of disposal and b) its value in use. Value in use is the present value of future cash flows expected to derive from an assets or Cash-Generating Unit (CGU).

Based on the assessment done at each balance sheet date, recognised impairment loss is further provided or reversed depending on changes in circumstances. After recognition of impairment loss or reversal of impairment loss as applicable, the depreciation charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life. If the conditions leading to recognition of impairment losses no longer exist or have decreased, impairment losses recognised are reversed to the extent it does not exceed the carrying amount that would have been determined after considering depreciation / amortisation had no impairment loss been recognised in earlier years.

3. Significant Accounting Policies

3.1. Presentation and disclosure of consolidated financial statement

All assets and liabilities have been classified as current and non-current as per Group's normal operating cycle and other criteria set out in the division II of Schedule III of the Companies Act, 2013 for a Group whose financial statements are made in compliance with the Companies (India Accounting Standards) Rules, 2015.

Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, 12 months has been considered by the Group for the purpose of current / non-current classification of assets and liabilities.

3.2. Property, Plant and Equipment and Depreciation

Recognition and measurement

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. The company depreciates property, plant and equipment over their estimated useful lives using the straight line basis. The estimated useful lives of assets as prescribed under Part C of Schedule II of the Companies Act 2013 except the assets costing Rs.5000/- or below on which depreciation is charged @ 100% per annum on proportionate basis, are as follows:

Building - 30-60 years.
Plant and Machinery - 15 years.
Office Equipment - 5 Years
Computer Equipment - 3 years.
Furniture and fittings - 10 years
Vehicles excluding Motor cycles- 8 years.
Motor cycles – 10 years.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other 'non-current assets' and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred.

PAOS INDUSTRIES LIMITED Annual Report 2023

The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss.

Depreciation methods, useful lives and residual values are reviewed periodically, including at each financial year end.

However, as there is no Property, Plant and Equipment in the books of the Company at any time during the year ended 31.03.2023. Hence, no depreciation has been provided in the books of Accounts.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is de-recognised.

3.3. Intangible assets and amortisation

Recognition and measurement

Intangible assets are recognized only if it is probable that the future economic benefits attributable to asset will flow to the Group and the cost of asset can be measured reliably. Intangible assets are stated at cost of acquisition/development less accumulated amortization and accumulated impairment loss if any.

Cost of an intangible asset includes purchase price including non - refundable taxes and duties, borrowing cost directly attributable to the qualifying asset and any directly attributable expenditure on making the asset ready for its intended use.

Intangible assets under development comprises of cost incurred on intangible assets under development that are not yet ready for their intended use as at the Balance Sheet date.

Amortization and useful lives

Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence etc. Amortization methods and useful lives are reviewed at each financial year end and adjusted prospectively.

In case of assets purchased during the year, amortization on such assets is calculated on pro-rata basis from the date of such addition

3.4. Inventories

Inventories of raw materials, stores and spares, trading goods, work-in-progress and finished goods are valued at cost or net realisable value, whichever is lower. However, materials and other items held for use in the production of Inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The cost in respect of the aforesaid items of inventory is computed as under:

- In case of raw materials, Chemicals and consumables are valued at cost or net realizable value whichever is lower, cost being purchase price on FIFO basis plus other expenses incurred in bringing the inventories to their present location and condition, including duties (other than those subsequently recoverable from the taxation authorities).
- In case of stores and spares, are taken at estimated value.
- In case of work-in-process, valued at cost or net realizable value whichever is lower, cost i.e. Raw materials, Chemicals & Consumables at 100% of the cost & other direct expenses at 75% of the unit cost.
- In case of finished goods valued at Net Realizable value.

3.5. Revenue recognition

The Group recognizes revenue when the amount of revenue can be measured reliably and it is

probable that the economic benefits associated with the transaction will flow to the entity.

Sales of goods

Revenue from the sale of goods is recognised on transfer of significant risks and rewards of ownership and effective control to the buyer, as per terms of the contracts and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sales of goods. Revenue is measured at fair value of the consideration received or receivable net of returns (if any), trade discounts and rebates.

Sales are presented gross of excise duty and net of Goods and Service Tax (GST), wherever applicable.

Interest income

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included under the head "other income" in the statement of profit and loss.

3.6. Foreign currency transaction

Transactions denominated in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. As at the Balance Sheet date, foreign currency monetary items are translated at closing exchange rate. Exchange difference arising on settlement or translation of foreign currency monetary items are recognised as income or expense in the year in which they arise.

Foreign currency non-monetary items which are carried at historical cost are reported using the exchange rate at the date of transactions.

3.7. Employee benefits

- Short term employee benefits

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits and they are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss in the period in which the employee renders the related service.

- Post-employment benefits & other long term benefits

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees of the Company. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

The liability for gratuity is measured on an un-discounted basis without going in for Actuarial Valuation and are expensed in the Profit & Loss Account.

3.8. Borrowing cost

Borrowing costs (net of interest income on temporary investments) that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the respective asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. Ancillary cost of borrowings in respect of loans not disbursed are carried forward and accounted as borrowing cost in the year of disbursement of loan.

All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expenses calculated as per effective interest method, exchange difference arising from foreign currency borrowings to the extent they are treated as an adjustment to the borrowing cost and other costs that an entity incurs in connection with the borrowing of funds.

3.9. Taxes on income

Tax expenses for the year comprises of current tax, deferred tax charge or credit and adjustments of taxes for earlier years. In respect of amounts adjusted outside profit or loss (i.e. in other comprehensive income or equity), the corresponding tax effect, if any, is also adjusted outside profit or loss.

Provision for current tax is made as per provisions of the Income Tax Act, 1961.

PAOS INDUSTRIES LIMITED Annual Report 2023

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, and deferred tax assets are recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that future taxable profits will be available against which those deductible temporary differences, carry forward tax losses and allowances can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxation authority.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which such deferred tax assets can be utilized. In situations where the Group has unused tax losses and unused tax credits, deferred tax assets are recognised only if it is probable that they can be utilized against future taxable profits. Deferred tax assets are reviewed for the appropriateness of their respective carrying amounts at each Balance Sheet date.

At each reporting date, the Group re-assesses unrecognised deferred tax assets. It recognises previously unrecognised deferred tax assets to the extent that it has become probable that future taxable profit allow deferred tax assets to be recovered.

3.10. Cash and cash equivalents

Cash and cash equivalents include cash in hand, bank balances, deposits with banks (other than on lien) and all short term and highly liquid investments that are readily convertible into known amounts of cash and are subject to an insignificant risk of changes in value.

For the purpose of cash flow statement, cash and cash equivalent as calculated above also includes outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

3.11. Cash flow statement

The cash flow statement is prepared in accordance with the Indian Accounting Standard (Ind AS) - 7 "Statement of Cash flows" using the indirect method for operating activities.

3.12. Provisions, contingent liabilities, contingent assets

A provision is recognised when the Group has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risk specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

3.13. Earnings per share

Basic earnings per share is computed using the net profit for the year attributable to the shareholders' and weighted average number of shares outstanding during the year. The weighted average numbers of shares also includes fixed number of equity shares that are issuable on conversion of compulsorily convertible preference shares, debentures or any other instrument, from the date consideration is receivable (generally the date of their issue) of such instruments.

Diluted earnings per share is computed using the net profit for the year attributable to the shareholder' and weighted average number of equity and potential equity shares outstanding during the year including share options, convertible preference shares and debentures, except where the result would be anti-dilutive. Potential equity shares that are converted during the year are included in the

PAOS INDUSTRIES LIMITED Annual Report 2023

calculation of diluted earnings per share, from the beginning of the year or date of issuance of such potential equity shares, to the date of conversion.

3.14. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3.14.1. Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are subsequently measured at fair value.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

Investments in equity instruments at Fair Value through Other Comprehensive Income (FVTOCI)

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- It has been acquired principally for the purpose of selling it in the near term; or
- On initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or

- It is a derivative that is not designated and effective as a hedging instrument or a financial guarantee. Dividends on these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in profit or loss are included in the 'Other income' line item.

Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Group's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of the investment and the amount of dividend can be measured reliably.

Impairment of financial assets

The Group recognizes loss allowances using the expected credit loss (ECL) model based on 'simplified approach' for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the twelve month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in statement of profit and loss.

De-recognition of financial asset

The Group de-recognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On de-recognition of a financial asset other than in its entirety (e.g. when the Group retains an option to repurchase part of a transferred asset), the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

3.14.2. Financial liability and equity instrument

Classification as debt or equity

PAOS INDUSTRIES LIMITED Annual Report 2023

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs. Repurchase of the Group's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the Effective Interest Rate method (EIR) or at Fair Value through Profit or Loss (FVTPL).

However, financial liabilities that arise when a transfer of a financial asset does not qualify for de-recognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Group, and commitments issued by the Group to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Group as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Group as an acquirer in a business combination to which Ind AS 103 applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in profit or loss. The remaining amount of change in the fair value of liability is always recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Group that are designated by the Group as at fair value through profit or loss are recognised in profit or loss.

Financial liabilities subsequently measured at amortised cost

PAOS INDUSTRIES LIMITED Annual Report 2023

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability or (where appropriate) a shorter period, to the gross carrying amount on initial recognition.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Reclassification

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

De-recognition of financial liabilities

The Group de-recognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability de-recognised and the consideration paid and payable is recognised in profit or loss.

Lease

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract i.e., the lessee and the lessor. Ind AS 116 introduces a single lease accounting model for lessee and requires the lessee to recognize right of use assets and lease liabilities for all leases with a term of more than twelve months, unless the underlying asset is low value in nature. Currently, operating lease expenses are charged to the statement of profit and loss. Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17."

As per Ind AS 116, the lessee needs to recognise depreciation on rights of use assets and finance costs on lease liabilities in the statement of profit and loss. The lease payments made by the lessee under the lease arrangement will be adjusted against the lease liabilities. The Company is currently not required to evaluate the impact on account of implementation of Ind AS 116 which might have significant impact on key profit & loss and balance sheet ratio i.e. Earnings before interest, tax, depreciation and amortisation (EBITDA), Asset coverage, debt equity, interest coverage, etc.

3.15. Recent Pronouncements

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

Ind AS 1, Presentation of Financial Statements – This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has

PAOS INDUSTRIES LIMITED Annual Report 2023

evaluated the amendment and the impact of the amendment is insignificant in the consolidated financial statements.

Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors – This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its Consolidated financial statements.

Ind AS 12, Income Taxes – This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Group has evaluated the amendment and there is no impact on its Consolidated financial statements.

PAOS INDUSTRIES LIMITED Annual Report 2023

(*) These unsecured loans are not public deposits but interest free loans by the promoter directors and initially the loan was provided by the promoter directors pursuant to stipulations imposed by the company bankers and upon slippage of company's bank accounts into Non Performing Asset (NPA); the part of bank liabilities have been paid by obtaining these loans from promoter directors. The company is obliged to pay off these unsecured interest free loans and is expected to repay the same within the time period as decided by board.

These borrowings from directors are interest free and presently the exact date of their repayment is not certain because the company is not carrying on any commercial or business activity and does not have any operating assets as on date to repay it, hence its classification as per Ind AS is not presently feasible. However, these loans are financial liability and have been presented and disclosed under Non-Current Borrowings considering them to be not being paid within One year.

300000 10% Redeemable Non-cumulative Participative Preference Shares of Rs.100/- each issued pursuant to Special Resolution dated 30.09.2008 out of which 200000 Shares issued on 13.03.2009 and 100000 Shares issued on 20.03.2009.

Terms of Preference Shares

- 1 The said Preference Shares shall carry a right to fixed preferential dividend of 10% per annum in relation to the capital paid thereon.
- 2 The holders of the said shares shall have a right to attend their class meetings and shall be entitled to vote on resolutions affecting their right directly.
- 3 The preference shares shall rank in priority to the equity share holders for payment of dividend or arrears of dividend.
- 4 In winding up the preference shares shall rank in priority to the equity shareholders for repayment of capital and payment of arrears of dividend and shall also have a right to participate in the surplus assets of the Company.
- 5 The preference shares shall be redeemable at the option of the Company but in any case not later than 20 years from the date of issue.
- 6 All the preference shares may be redeemed simultaneously or in parts issued to the preference share holders on pro-rata basis.

22C Financial Risk management objectives and policies

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The Company's financial liabilities comprise of borrowings, trade payable and other liabilities to manage its operation and financial assets includes trade receivables and other receivables etc. that arise from its operation.

The Company has instituted a self governed Risk Management framework based on identification of potential risk areas, evaluation of risk intensity, and clearcut risk mitigation policies, plans and procedures both at the enterprise and operating levels. The framework seeks to facilitate a common organisational understanding of the exposure to various risks and uncertainties at an early stage, followed by timely and effective mitigation. The Audit Committee of the Board reviews the risk management framework at periodic intervals. Our risk management procedures ensure that the management controls various business related risks through means of a properly defined framework.

22D Market Risk

Market Risk is the risk that changes in market prices such as foreign exchange rates will effect groups income or value of its holding financial assets/ instruments. The company does not have significant foreign exchange risk

22E Credit risk

Credit risk refers to the risk of default on its obligation by the customer / counter party resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is carrying value of respective financial assets. The company has very insignificant credit risk as no major financial assets as at balance sheet date.

22F Liquidity Risk

The Company's principle sources of liquidity are cash and cash equivalents and current investments. The Company monitors its risk of shortage of funds to meet the financial liabilities using a liquidity planning tool. The Company plans to maintain sufficient cash and marketable securities to meet the obligations as and when falls due.
