MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Indian Economy Overview

After Pandemic Indian retail industry emerged as one of the fast-paced and most dynamic industries due to the entry of several new players. India is the fifth-largest and preferred retail destination globally. India's retail sector is expected to drive growth with retail development taking place not just in major cities and metros, but also in tier II and III cities. Healthy economic growth, changing demographic profile, increasing disposable income, urbanization, changing consumer tastes and preferences are some of the factors driving growth in the organized retail market in India.

Even as the global conflict remained geographically distant from India, ripples comprised increased oil import bills, inflation, cautious government and a sluggish equity market. India's economic growth remained at 6.8% in FY 2022-23. India emerged as the second fastest-growing G20 economy in FY 2022-23. India overtook UK to become the fifth-largest global economy. India surpassed China to become the world's most populous nation *(Source: IMF, World Bank)*

Despite global uncertainties, India's FMCG market stands tall with a forecasted growth of 7-9% for the full year 2023. Pressure on the consumers and low confidence levels and high unemployment rate could act as headwinds.

Annexure “B” to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **Aditya Consumer Marketing Limited** (“the Company”) as of **31st March 2023** in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial

controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial

controls over financial reporting were operating effectively as at **31st March 2023**, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

As per The Companies (Indian Accounting Standards) Rules, 2015, Indian Accounting Standards shall not apply to companies whose securities are listed or are in the process of being listed on SME exchange

b. Use of estimates:

The preparation of the financial statements requires the management of the Company to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosures relating to the contingent liabilities as at the date of financial statements and reported amounts of income and expenditure during the period. Examples of such estimates include provisions for doubtful trade receivables and advances, employee benefits, provision for income taxes, impairment of assets and useful lives of plant, property & equipment.

c. Plant, Property & Equipments

The company has Plant, Property & Equipments. However, it is not having any jointly owned assets. In applicable cases, where costs of borrowing related to the acquisition or construction of plant, property & equipments that are attributable to the qualifying assets are capitalised as part of the cost of such asset, in all applicable cases. All other borrowing costs are recognized as expenses in the periods in which they are incurred.

Depreciation is the systematic allocation of the depreciable amount of an asset over its useful life. The depreciable amount of an asset is the cost of an asset or other amount substituted for cost, less its residual value. The useful life of an asset is the period over which an asset is expected to be available for use by an entity, or the number of production or similar units expected to be obtained from the assets by the entity.

The useful life of plant, property & equipments owned by the company have been considered at the lives suggested in Part C of the Schedule II of The Companies Act, 2013 except in case of Plant which has been considered at higher than suggested life.

e. Impairment

At each balance sheet date, the Company reviews the carrying amounts of its plant, property & equipment to determine whether there is any indication that those assets suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. The recoverable amount is the higher of an asset's net selling price and value in use. In assessing the value in use, the estimated future cash flows expected from the continuing use of the asset and from its ultimate disposal are discounted to their present values using a pre-determined discount rate that reflects the current market assessments of the time value of money and risks specific to the asset.

f. Operating leases

The Company has Lease arrangements where the risk and rewards incidental to ownership of an asset substantially vest with the lessor and classified as operating leases.

Rental income and rental expenses, if any, on assets given or obtained under operating lease arrangements are recognized on a straight line basis over the term of the lease.

The initial direct costs relating to operating leases, if any, are recorded as expenses as they are incurred.

g. Investments

The company has no Long-term investments.

h. Inventories

Inventories in the shape of Finished Goods, if any, are valued at the lower of cost or net realizable value. Cost includes all expenses incurred to bring the inventory to its present location and condition. Cost is determined on a weighted average basis.

i. Cash & Cash Equivalents

Cash and cash equivalents includes cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consists of cash and short term deposits, as defined above, net of outstanding bank overdraft as they are being considered as integral part of the Company's cash management. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

j. Employee Benefits

(i) Short term employee benefits: The undiscounted amount of short term employee benefits expected to be paid in exchange for services rendered by employees is recognized during the period when the employee renders the service. These benefits include compensated absences such as paid annual leave and performance incentives payable within twelve months.

k. Revenue recognition

Revenue is the gross inflow of cash, receivables or other consideration arising in the course of the ordinary activities of an enterprise from the sale of goods, from the rendering of services and from the use by others of enterprise resources yielding interest, royalties and dividends. Revenue is measured by the charges made to customers or clients for goods supplied and services rendered to them and by the charges and rewards arising from the use of resources by them.

In a transaction involving the sale of goods, performance has been regarded as being achieved when the following condition have been fulfilled:- the seller of the goods has transferred to the buyer the property in the goods for a price or all significant risks and rewards of ownership have been transferred to the buyer and the seller retains no effective control of the goods transferred to a degree usually associates with ownership; and - no significant uncertainty exists regarding the amount of the consideration that will be delivered from the sale of the goods. The revenue recognition is in lines with the principles as laid down on AS 9 issued by The Institute of Chartered Accountants of India.

l. Taxation

Current tax expense is determined in accordance with the provisions of the Income Tax Act, 1961. Deferred tax assets and liabilities are measured in accordance with the provisions of AS 22 using the tax rates, which have been enacted or substantively enacted at the balance sheet date. Deferred tax expense or benefit is recognized on timing differences being the differences between taxable incomes and accounting incomes that originate in one period and are capable of reversing in one or more

In the event of unabsorbed depreciation and carry forward of losses, deferred tax assets are recognized only to the extent that there is virtual certainty that sufficient taxable income will be available to realize these assets. In other situations, deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available to realize these assets.

The weighted average number of equity shares outstanding during the year is adjusted for events if any of bonus issue to existing shareholders and share split.

o. Contingent liabilities and provisions

Provisions are recognized in respect of present probable obligations, the amount of which can be reliably estimated.
