**PRESS RELEASE**

## **Infosys Foundation and Indian National Academy of Engineering Collaborate to Transform Engineering Education in India**

*With an investment of over INR 38 crore from Infosys Foundation, collaboration to focus on enhancing engineering education through educator upskilling and project-based learning over the next four years*

**Bengaluru, India – December 19, 2024:** [Infosys Foundation](#), the philanthropic and CSR arm of [Infosys](#), today announced that it has signed a four-year MoU with the [Indian National Academy of Engineering \(INAE\)](#) to enhance and transform engineering education in India. This collaboration will aim to upskill educators associated with INAE and provide students with quality internships and project mentorship assigned by INAE. Infosys Foundation has committed a grant of over Rs 38 crore for this initiative, to uplift the quality of training for engineering professionals and institutions.

Through this initiative, educators will be able to upskill themselves through a mix of in-person and virtual support, strengthen their technical expertise, classroom management ability, and enhance student engagement. Under this program, INAE will provide students enrolled in Bachelor of Technology (B. Tech) and Bachelor of Engineering (B. E.) courses with project-based internships and year-long mentorships. INAE will also equip them with essential technical and professional skills which will boost their employability. Around 600 accomplished mentors, drawn from the top academic institutions in India, will aim to mentor over 2,000 teachers and 1,700 students.

**Prof. Indranil Manna, INAE**, said, “We thank Infosys Foundation for helping us take forward our mission to raise the quality and credibility of the engineering education ecosystem in India. By bridging the gap between academia and industry through practical learning and educator development, we aim to inspire a new generation of talent, a refreshed engineering curriculum and teaching methodologies.”

**Sumit Virmani, Trustee, Infosys Foundation**, said, “Our collaboration with INAE furthers Infosys Foundation’s commitment to shaping the future of education in India. By working with INAE, we hope to empower educators with the right set of teaching skills, and provide students with real-world learning experiences through internships, and meaningful guidance from mentors that will collectively contribute towards boosting employability of the engineering workforce in India.”

## **About Infosys Foundation**

Established in 1996, Infosys Foundation supports programs in the areas of education, healthcare, women empowerment, and environmental sustainability, amongst others. Its mission is to work with the underprivileged across the country and strive towards a more equitable society. Infosys Foundation takes pride in working with all sections of society, selecting projects with infinite care, and working in areas that are traditionally overlooked by society at large.

## **Safe Harbor**

Certain statements in this release concerning our future growth prospects, or our future financial or operating performance, are forward-looking statements intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results or outcomes to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding the execution of our business strategy, increased competition for talent, our ability to attract and retain personnel, increase in wages, investments to reskill our employees, our ability to effectively implement a hybrid work model, economic uncertainties and geo-political situations, technological disruptions and innovations such as Generative AI, the complex and evolving regulatory landscape including immigration regulation changes, our ESG vision, our capital allocation policy and expectations concerning our market position, future operations, margins, profitability, liquidity, capital resources, our corporate actions including acquisitions, and cybersecurity matters. Important factors that may cause actual results or outcomes to differ from those implied by the forward-looking statements are discussed in more detail in our US Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2024. These filings are available at [www.sec.gov](http://www.sec.gov). Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
