2.8 Earning Per Share (EPS)

In determining earnings per share (EPS), the Company considers the net profit after tax and includes the post tax effect of any extra-ordinary / exceptional item. In absence of any dilutive effect of equity shares the basic and diluted EPS are calculated on the same basis. The number of shares used in computing basic and diluted earnings per share is the weighted average number of shares outstanding during the period

2.9 Cash Flows

Cash flows are reported using the indirect method, whereby net profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.
