MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY AND ECONOMIC SCENARIO

Non-banking finance companies (NBFCs) play an important role in an economy like India, as they provide credit facilities to individuals, small and medium-sized enterprises (SMEs), and other entities that may not have access to traditional banking services. They often cater to niche segments or specific industries that banks may overlook. NBFCs contribute to financial inclusion by extending financial services to underserved and unbanked segments of the population. They often operate in rural and semi-urban areas where traditional banks may not have a strong presence. NBFCs facilitate trade finance activities such as bill discounting, factoring, and export financing. They provide financing solutions to businesses involved in domestic and international trade transactions. NBFCs are leveraging their superior understanding of regional dynamics and customized products and services to expedite financial inclusion in India. Systemically Important NBFCs have demonstrated agility, innovation and frugality to provide formal financial services to millions of Indians.

NBFCs showed an immense growth in lending through digital mode with around 60% of loans riding on the digital payment initiative undertaken through UPI based online payments as the digital lending getting traction, RBI has issued guidelines for digital lending in September, 2, 2022 which was made applicable the 'existing customers availing fresh loans' and to 'new customers getting on boarded', from the date of this circular.

Over the years, India has emerged as one of the fastest-growing economies in the world and an attractive investment destination driven by economic reforms and a large consumption base.

We believe that NBFCs with superior capital adequacy, better margins, frugal cost management, prudent risk management and those incorporating above four key cornerstones in their business models will continue to deliver sustainable growth in the foreseeable future.

OPPORTUNITIES AND THREATS

India's economy is rapidly growing, and there's an increasing demand for financial services across various sectors such as consumer finance, housing finance, vehicle finance microfinance, etc. Embracing technological advancements like digital lending, online loan processing, and mobile banking can help NBFCs reach a wider audience and streamline operations. NBFCs can focus on niche segments or specialized services that traditional banks might overlook. This could include areas like peer-to-peer lending, equipment financing, or financing for small and medium enterprises (SMEs). As large NBFCs tap new segments, co-lending and partnerships with the emerging and mid-sized NBFCs will gain traction and the regulatory environment is evolving to accommodate the growth of NBFCs, providing them with opportunities for expansion and diversification under a supportive framework.

While regulatory support can be an opportunity, it also poses a threat. Any changes in regulations or compliance requirements can significantly impact NBFC operations, especially if they are not adequately prepared and do not institutionalize a robust compliance framework. In the recent past, Regulatory actions for consistent non-compliance has significant impact on business of the Companies like Pay TM or Kotak Mahindra Bank.

NBFCs rely heavily on borrowing to fund their operations. Any disruptions in the credit markets or a loss of investor confidence can lead to liquidity crunches, making it difficult for them to meet their obligations. The financial services sector in India is highly competitive, with both traditional banks and new fintech startups vying for market share. NBFCs need to differentiate themselves and offer unique value propositions to stay ahead. With the increasing digitization of financial services, NBFCs are vulnerable to cyber threats such as data breaches, hacking, and fraud. Protecting customer data and maintaining cybersecurity infrastructure is crucial to safeguarding their operations and reputation.

OUTLOOK

Non-Banking Financial Companies (NBFCs) are set to announce robust results on the back of strong credit, Upcycle, higher disbursements and higher collections.

NBFCs would maintain loan growth of around 17% year on year basis in the next fiscal year on back of higher demand for loan against property, housing loan, vehicle finance loan and personal loan. The existing on balance sheet liquidity would help in maintaining funding cost for certain quarters.

However, a rising interest Rate, regime would impact funding costs for incremental borrowing across capital market instruments.

BUSINESS SEGMENT ANALYSIS

During the period under review, the Company's activities was majorly restricted to Capital Market, NBFC and related fields which specifically involve in trading and dealing in Securities and Mutual Funds.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (the ‘ICAI’) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and informing our opinion thereon, and we do not provide a separate opinion on these matters.

Management's Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with accounting principles generally accepted in India, including Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of Financial Statement

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve

collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system with reference to the Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with the mall relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of G.K. CONSULTANTS LIMITED**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of **G.K. CONSULTANTS LIMITED** (“the Company”) as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the “internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of internal Financial control over Financial Reporting issue by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedure that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2.2 Financial Instruments

a. Date of Recognition

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

b. Initial Measurement

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Company commits to purchase or sell the asset.

2.3 Financial Assets

Financial asset is recognised on trade date initially at cost of acquisition net of transaction cost and income that is attributable to the acquisition of the financial asset. Cost equates the fair value on acquisition. Financial asset measured at amortised cost and Financial measured at fair value through other comprehensive income is presented at gross carrying value in the financial statements. Unamortised transaction cost and incomes and impairment allowance on financial asset is shown separately under the heading "Other non-financial asset", "Other non-financial liability" and "Provisions" respectively.

a. Cash and Cash Equivalents

Cash and cash equivalents include cash at banks and on hand, demand deposits with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

The Company follows the policy of crediting the customer's account only on receipt of amount in the bank and as such no cheques in hand are taken into consideration.

b. Inventories

The company has valued the inventories at fair value in the Financial Statements.

c. Property, Plant and Equipment

Property, plant and equipment are carried at cost less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment includes interest on

borrowings attributable to acquisition up to the date the asset is ready for its intended use & other incidental expenses incurred up to that date. Subsequent expenditure relating to fixed assets is capitalised only if such expenditure results in an increase in the future benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives & residual value

Depreciation on Property, Plant and Equipment is provided in accordance with the provisions of Schedule II of the Companies Act, 2013. Tangible assets are depreciated on straight line basis method over the useful life of assets, as prescribed in Part C of Schedule II of the Companies Act, 2013.

The estimated useful lives for the different types of assets are:

- (i) Furniture and Fixtures - 10 years
- (ii) Office Equipment owned - 5 years
- (iii) Computers - 3 years
- (iv) Air Conditioners – 10 years

The Company provides pro-rata depreciation from the day the asset is put to use and for any asset sold, till the date of sale. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognised in the statement of profit and loss.

d. Intangible Assets

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Intangible Assets are amortised on straight-line basis over the useful life of the asset up to a maximum of 5 years commencing from the month in which such asset is first installed.

The Company provides pro-rata depreciation from the day the asset is put to use and for any asset sold, till the date of sale.

e. Impairment of Assets

At the end of each year, the Company determines whether a provision should be made for impairment loss on Property, Plant and Equipment to determine whether there is any indication that the asset have suffered an impairment loss. An impairment loss is charged to Statement of Profit and Loss in the year in which, an asset is identified as impaired, when the carrying value of the asset exceeds its recoverable value. The impairment loss recognised in prior accounting periods is reversed if there has been a change in the estimate of recoverable amount.

f. Investments

Long-term investments (excluding investment properties), are carried individually at cost less provision for diminution, other than temporary if any, in the value of such investments. Investments are nil in the company.

g. Reclassifications within classes of financial assets

A change in the business model would lead to a prospective re-classification of the financial asset and accordingly the measurement principles applicable to the new classification will be applied. During the current financial year and previous accounting period there was no change in the business model under which the Company holds financial assets and therefore no reclassifications were made.

h. Modification and De-recognition of financial assets**Modification of financial assets**

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and/or timing of the contractual cash flows either immediately or at a future date. The Company renegotiates loans to customers in financial difficulty to maximise collection and minimise the risk of default. A loan forbearance is granted in cases where although the borrower made all reasonable efforts to pay under the original contractual terms, there is a high risk of default or default has already happened and the borrower is expected to be able to meet the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness).

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- 1) the rights to receive cash flows from the asset have expired, or
- 2) the Company has transferred its rights to receive cash flows from the asset and substantially all the risks and rewards of the asset, or the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Write-off

Impaired loans and receivables are written off, against the related allowance for loan impairment on completion of the Company's internal processes and when the Company concludes that there is no longer any realistic prospect of recovery of part or all of the loan.

For loans that are individually assessed for impairment, the timing of write off is determined on a case-by-case basis. A write-off constitutes a de-recognition event. The Company has the right to apply enforcement activities to recover such written off financial assets. Subsequent recoveries of amounts previously written off are credited to the income statement.

2.4 **Financial Liability and Equity**

Debt and equity instruments that are issued are classified as either financial liabilities or equity in accordance with the substance of the contractual arrangement.

a. Financial liabilities

A financial liability is a contractual obligation to deliver cash or another financial asset or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company or a contract that will or may be settled in the Company's own equity instruments and is a non-derivative contract for which the Company is or may be obliged to deliver a variable number of its own equity instruments, or a derivative contract over own equity that will or may be settled other than by the exchange of a fixed amount of cash (or another financial asset) for a fixed number of the Company's own equity instruments.

Financial liability is recognised initially at cost of acquisition net of transaction costs and incomes that is attributable to the acquisition of the financial liability.

De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

b. Equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

No gain/loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.5 **Segment reporting**

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment wherever applicable.

2.6 **Revenue Recognition**

Ind-AS 115 Revenue from Contracts with Customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers. Revenue is generally recognised on accrual basis as and when they are earned. Revenue is recognised when (or as)

the Company satisfies a performance obligation by transferring a promised good or service to a customer.

When (or as) a performance obligation is satisfied, the Company recognizes as revenue the amount of the transaction price (excluding estimates of variable consideration) that is allocated to that performance obligation.

a. Interest Income

Interest income from investments/financial assets is recognized when it is certain that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable. The interest income is earned on loans, advances and bank deposits.

b. Dividend Income

Dividend income is accounted for on receipt basis. The company is dealing in trading of shares & securities and dividend earned on such dealings of shares is shown as other operating revenue. Such income is generally accounted when the Company's right to receive dividend is established.

c. Fees and commission Income

Fee for professional advisory services is accounted as and when service is rendered provided there is reasonable certainty of its ultimate realisation.

Revenue from commission income is recognised when the service is performed.

d. Sale of products

Sales are recognised on transfer of significant risks and rewards of ownership to the buyer as and when the same are traded on Stock Exchange.

e. F & O Income

Income and/or loss on Future and Options as well as derivative dealings are recognised in books of assets are on maturity of such transactions on settlement date. Outstanding/Pending transactions/positions, which are not settled by end of any period, are not recognised as income or loss.

2.7 Employees Benefits

Gratuity

As per terms of employment, none of the employee of the company is entitled for gratuity.

Compensated Absences/Leave Encashment

As per the company's employment policy, employees are not entitled for leave encashment.

Other short-term benefits

Expense in respect of other short-term benefits is recognized on the basis of the amount paid or payable for the period during which services are rendered by the employee.

2.8 Borrowing Costs

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan wherever applicable. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/development of the qualifying asset upto the date of capitalisation of such asset is added to the cost of the assets wherever applicable.

2.9 Leases

Leases are classified as operating lease where significant portion of risks and reward of ownership of assets acquired under lease is retained by the lessor. Leases of assets under which substantially all of the risks and rewards of ownership are effectively retained by the lessee are classified as finance lease.

Assets given under finance lease are recognised as a receivable at an amount equal to the net investment in the lease. Lease rentals are apportioned between principal and interest on the internal rate of return. The principal amount received reduces the net investment in the lease and interest is recognised as revenue.

Lease rental - under operating leases (excluding amount for services such as insurance and maintenance) are recognised on a straight-line basis over the lease term, except for increase in line with expected inflationary cost increases.

2.10 Foreign currencies transactions

Transactions in currencies other than the Company's functional currency are recorded on initial recognition using the exchange rate at the transaction date. At each Balance Sheet date, foreign currency monetary items are reported at the rates prevailing at the year end. Non-monetary items that are measured in terms of historical cost in foreign currency are not retranslated.

Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance Sheet date at the closing spot rate are recognised in the Statement of Profit and Loss in the period in which they arise.

2.11 Other Expenditure

Other expenses are accounted on accrual basis.

2.12 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post-tax effect of extraordinary items, if any) by the number of equity shares outstanding during the year.

2.13 Taxation

a. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by

changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

b. Current Taxes

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company, if applicable.

c. Deferred Taxes

The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in future; however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognised only if there is reasonable certainty of realisation of such assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably certain (as the case may be) to be realised. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets.

d. Goods and Services Input Tax Credit

Goods and Services tax input credit is accounted for in the books in the period in which the supply of goods or service received is accounted and when there is no uncertainty in availing/utilising the credits.

2.14 Provisions, contingent liabilities and contingent assets

The Company creates a provision when there is a present obligation as a result of past events and it is probable that there will be outflow of resources and a reliable estimate of the obligation can be made of the amount of the obligation.

Contingent liabilities are not recognised but are disclosed in the notes to the financial statements. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent assets are neither recognised nor disclosed in the financial statements.

2.15 Statement of Cash Flows

Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- i. changes during the period in operating receivables and payables transactions of a non-cash nature;
- ii. non-cash items such as depreciation, provisions, deferred taxes, unrealised foreign currency gains and losses, and undistributed profits of associates and joint ventures; and
- iii. all other items for which the cash effects are investing or financing cash flows. Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

2.16 Other accounting policies

Non-material accounting policies encompass those that hold importance for the Company's financial statements without being material in terms of their impact on the financial statements.

Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Company's primary business segments are reflected based on the principal business carried out, i.e. lending activities as Non-Banking Finance Company (NBFC) regulated by the Reserve Bank of India ('RBI'). The risk and returns of the business of the Company is not associated with geographical segmentation, hence there is no secondary segment.

2.17 Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31 March, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

- 2.18 Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 31 March, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from 1 April, 2023, as below:

a. Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general-purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

b. Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company does not expect this amendment to have any significant impact in its financial statements.

c. Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.
