Company Overview

Comprehensive Electrical Solutions PIGL's Expertise

Founded in 1975, Power & Instrumentation (Gujarat) Ltd. (PIGL, The Company) has established itself as a leading force in the electrical contracting sector, specializing in providing comprehensive Engineering, Procurement and Construction (EPC) solutions.

The company offers a wide range of services, in the field of electrical engineering ranging in the transmission & distribution sector & also provides post installations maintenance services. The expertise spans across designing, supplying, installing and maintaining energy-efficient power systems across the industry.

With a proven track record, Power & Instrumentation (Gujarat) Ltd. has successfully completed over 35 airport projects, electrified more than 100000 BPL households, laid more than 20000 Km of HT & LT lines. The company is actively involved in projects involving generation, transmission and distribution demonstrating its versatility and the repeated order are testimony to the company's commitment to quality.

The company's service portfolio covers the complete spectrum in electrical services ranging from the construction and maintenance of indoor and outdoor substations, providing alternate power back up by means generating sets & UPS Sytems, power distribution panels, lighting solutions, access control systems, fire fighting, ELV works and building management systems. Serving a diverse clientele across industrial, commercial and governmental sectors, Power & Instrumentation (Gujarat) Ltd. is known for its meticulous project execution and on-time delivery.

In May 2023, the company successfully migrated to the main boards of the National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE), marking a significant milestone in its growth journey.

PIGL's Commitment: Mission, Vision, & Values

Mission

We want to dedicate our experience & expertise in providing energy efficient services. We want to blend our experience with groundbreaking innovation & provide futuristic solutions to our customers. We want to be a socially responsible company and cater to the segments of the society for whom electricity is still a dream. The company shall work with consciousness & ethics to be a leader nationally & globally.

Vision Statement

Be the leader in providing integrated solutions for engineering & installations covering the complete industry ranging from Generation to Distribution. We want to create sustainable infrastructure for the future generations. We will strive to achieve the motto of " I M POSSIBLE"

Values

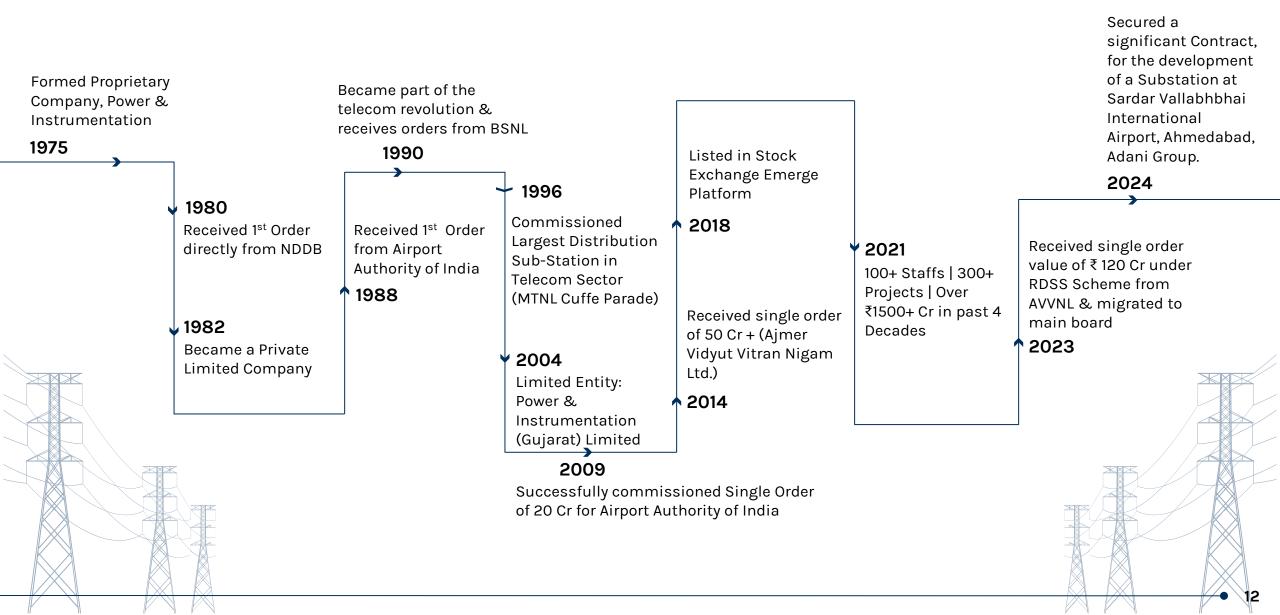

The core essence of the company is the values on which it has been build. We are dedicated to pass on the same to the future generations. We have nurtured and inculcated our DNA with integrity, compassion & transparency as we move forward to the new ages.

President (Operations)	General Manager (Projects)	Dy . General Manager (Projects)	General Manger (Estimation & Procurement)	Chief Financial Officer
Mr. Kuldeep Rathod has over 16 years of experience in procurement and the techno-commercial domain. He has worked as diverse roles in CGD, EPC, and manufacturing organisations, showcasing adeptness in navigating the intricacies of entire supply chain management process.	Mr. Rajendra Saini is general manager of project in our company. He has more than 15 years of experience in projects of national & international levels.	Mr. Anu Nair is Deputy General manager in our company . He has more than 10 years of experience in technical design head who has been involved in completing major projects of national & international levels.	Mr. Venugopal is general manager in our company. He has more than 15 years of experience in project and tender field.	Mr. Rohit Maheshwari, aged 33 years, is the Chief Financial Officer of our Company. He has vast Experience in the field of accounting & finance.

Experienced Advisors

Industry Overview

India is the third-largest producer and consumer of electricity worldwide, with an installed power capacity of 442.85 GW as of April 30, 2024.

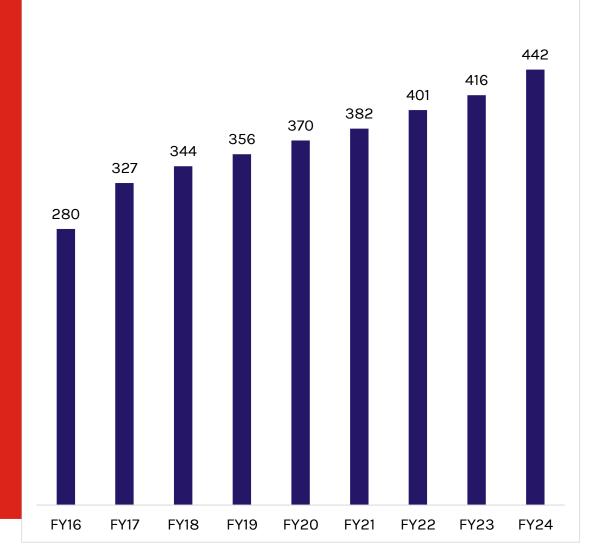

India's total installed power generation capacity has increased by approximately 80% over the last decade, reaching 4,46,190 MW (4.46 GW) in June 2024. The installed capacity, which stood at 2,48,554 MW in March 2014, has reached 4,46,190 MW Additionally, the installed capacity in the renewable sector has surged from 75,519 MW in March 2014 to 1,95,013 MW in June 2024.

According to estimates provided by the Central Electricity Authority (CEA), India's renewable energy generation is projected to see substantial growth by 2029-30

Solar power emerges as the leading contributor among renewable sources, constituting a significant 53.36% (equivalent to 67.07 GW) of the total installed renewable capacity (excluding large hydro), which currently stands at 125.69 GW as of April 30, 2023.

India's first Battery Storage and Solar Power based initiative, named 'Suryagram-Modhera', was inaugurated in Gujarat during October 2022. This collaborative effort between the Ministry of New and Renewable Energy (MNRE) and the Gujarat government has resulted in a system providing uninterrupted renewable power supply around the clock.

Installed Electricity Generation Capacity (GW)

GW - GigaWatt, MW - MegaWatt Source: IBEF

Revamped Distribution Sector Scheme (RDSS)

- The Government of India has introduced the Revamped Distribution Sector Scheme (RDSS) as part of its efforts to significantly reduce Aggregate Technical & Commercial (AT&C) losses across the country.
- The overarching goal of the scheme is to bring down technical and commercial losses to a range of 12-15 percent nationwide by the fiscal year 2024-25, and to eliminate the gap between costs and revenues by the same timeline
- With a comprehensive budget of ₹3.03 lakh Cr spanning from FY 2021-22 to FY 2025- 26, the RDSS signifies India's commitment, encompassing a projected Government Budgetary Support of ₹97,631 Cr.

National Smart Grid Mission (NSGM)

As of June 30th, the National Smart Grid Mission has approved a significant number of smart consumer meters across India.

The total count stands at 222 million (22.24 Cr) sanctioned meters. Among these, contracts have been awarded for the installation of 36.5 million (3.65 Cr) meters. Presently, around 13.2 million (1.35 Cr) smart meters have been successfully installed and put into operation.

The Central government aims to install 25 crore smart meters by the end of 2025.

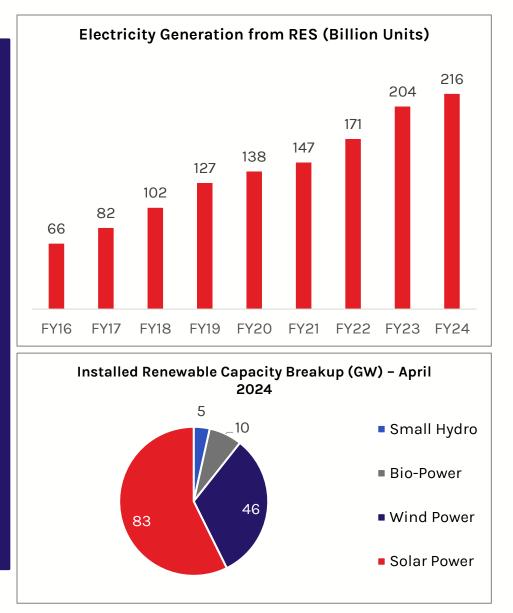

State	Smart Meter Sanctioned	Smart Meter Installed
Uttar Pradesh	3.09 Cr	12 Lakh
Tamil Nadu	3.00 Cr	1.29 Lakh
Maharashtra	2.35 Cr	2.75 Lakh
West Bengal	2.12 Cr	1.01 Lakh
Bihar	1.72 Cr	42.64 Lakh
Kerala	1.32 Cr	805
Haryana	10.00 Lakh	8.47 Lakh
Assam	69.21 Lakh	26.15 Lakh

Overview Of India's Renewable Energy Landscape

 The International Energy Agency's World Energy Outlook projects a growth of renewable energy supply to 4,550 GW in 2040 on a global basis.

- Installed renewable power generation capacity has increased at a fast pace over the past few years, posting a CAGR of 15.32% between FY16 and FY24. India has 143.6 GW of renewable energy capacity in FY24.
- As of April 2024, 43.28% of the total power installed capacity is from non-fossil-based sources, which fulfils the target of 40% by the end of 2022.
- The country plans to reach 450 GW of installed renewable energy capacity by 2030, with 280 GW (over 60%) expected from solar power. This ambitious target will also provide investment opportunities worth US\$ 221 billion by 2030.

India's Solar Surge Powering The Future

POWER & INSTRUMENTATION (GUJ.) LTD AN ISO 9001: 2015 COMPANY

India Solar Energy Market

Due to its favorable location in the solar belt (400 S to 400 N), India is one of the best recipients of solar energy with abundant availability

As of June 2024, India's total installed solar capacity reached 87.2 GW

The Indian Solar EPC Market

This led to a surge of new entrants, underscoring a dynamic solar industry ripe with abundant prospects. The fiscal year 2022-23's Union Budget allocated ₹3,365 Cr to the solar power sector, particularly for off-grid solar initiatives.

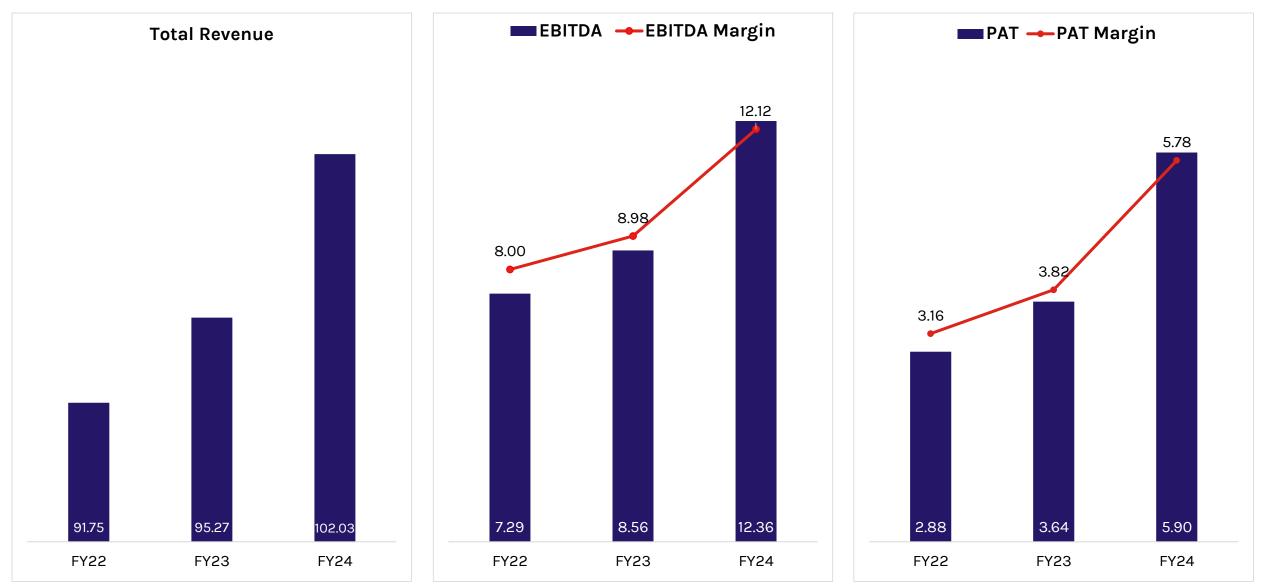

This achievement holds great significance as India's ambitious goal is to establish 500 GW of renewable energy capacity by 2030.

To support the ambitious solar energy expansion, the government is investing significantly in strengthening the transmission and distribution infrastructure. This is crucial to ensure efficient grid integration and reliable power delivery.

Future Roadmap

the Central Public Works Department, enhancing its market position and broadening its service portfolio.

Eligibility for High-Value Contracts:

By 2025, PIGL aims to qualify for larger orders valued at ₹300-350 Cr, enhancing its market opportunities and revenue potential.

Phased Growth Strategy:

The company is scaling up operations to strengthen its market position, with plans to sustain growth through operational excellence.

Strong Revenue Growth Forecast:

PIGL anticipates a 50% year-on-year revenue growth, driven by market expansion and improved execution.

Focus on Execution and Expansion:

The company is enhancing its execution capacity now to enable future operational expansion.

Diversification into Renewable Energy:

PIGL is entering the solar EPC and BESS markets, tapping into the growing demand for renewable and storage solutions.

Market Strengthening through Acquisition:

The acquisition of Peaton Electrical expands PIGL's capabilities in manufacturing of electrical panels and compact substations, boosting its market presence.
