Zen Technologies Expands Cutting-Edge Defence Portfolio at Aero India 2025 for Battlefield Readiness and Global Security

Unveils AI-Driven Innovations to Strengthen Combat Precision, Training, and Strategic Defence Operations

Zen Technologies Limited, India's leading anti-drone technology and Defence training solutions provider, unveiled a new suite of next-generation combat and training systems on Day 4 of Aero India 2025, reinforcing India's position as a leader in advanced military technology. Following the Chief of Defence Staff (CDS) launch of Zen's AI-powered defence systems on Day 2, the Company has now unveiled a new suite of indigenous innovations aimed at enhancing battlefield readiness, mission effectiveness, and global security. Developed entirely in-house, these advanced solutions are designed to meet the evolving demands of air, land, and naval forces, reinforcing India's self-reliance in defence technology while equipping modern military forces with next-generation capabilities.

Speaking on the latest launches, **Ashok Atluri, Chairman and Managing Director, Zen Technologies,** said: "Our newest defence solutions integrate AI, simulation, and advanced combat technologies to equip forces for modern warfare. By expanding our portfolio at Aero India 2025, we reinforce our leadership in developing indigenous, next-gen military combat and training solutions that ensure mission success".

New Defence Solutions Unveiled on Day 4

- <u>Drone-Based Attack and Defence in Virtual Simulation (IWTS)</u>

 A next-gen firearms simulator for Defence and Security Forces, enabling hyper-realistic combat training with AI-powered analytics.
- Indigenous Propulsion System for UAVs (RPAs) A groundbreaking propulsion system which is modular, hybrid and fuel efficient for extended endurance and operational efficiency.
- **Airborne Killer Drone System** A high-speed, AI-powered powered drone system with autonomous target detection and tracking, precision strike capability, 100+ km operational range and autonomous swarm capabilities.
- <u>Tactical Engagement Simulator (TacSim)</u> A state-of-the-art force on force training system for soldiers with the advance features of drone engagement.

Live Demonstrations at Aero India 2025

Zen Technologies' booth (Hall A, Booth AR 5.1) hosted live demonstrations, providing an interactive experience with AI-driven defence solutions, immersive VR-based combat training, and real-time battlefield analytics. These advanced innovations position India at the forefront of global defence technology.

"India's defence advancements are gaining worldwide recognition, and Aero India is the perfect platform to showcase our cutting-edge solutions. With deployments across the Indian Army, Air Force, and international markets, our technologies continue to shape the future of military readiness," added Ashok Atluri.

By unveiling this new set of AI-driven combat and training solutions, Zen Technologies further solidifies its global leadership in next-generation defence innovations, ensuring superior battlefield readiness and mission success.

About Zen Technologies Limited

Zen Technologies Limited is a pioneer and leader in providing world class state-of-the art Defense Training and Anti-Drone solutions and has a proven track record in building training systems for imparting defense training and measuring combat readiness of security forces. With a dedicated R&D (recognized by the Ministry of Science and Technology, Government of India) and production facility in Hyderabad, the Company has applied for over 155 patents and shipped more than 1,000 training systems around the world. With over 30 years' experience fielding realistic combat training solutions to armed forces worldwide, Zen constantly updates its portfolio to include new solutions for emergent threats. Leveraging their world-class, in-house production facilities, Zen has developed strategic solutions tailored to the specific needs of End Users Ministry of Interiors and Ministry of Defence including customized training programs aligned with the requirements of the U.S. Army and U.S. Department of Defense.
