AIMED AT REDUCING DEPENDENCE ON CHINA

Govt plans \$1-billion solar sops

New subsidy plan to target wafer, ingot makers

RUCHI BHATIA February 25

GROWTH AREA

- The plan has the backing of the top advisers in PMO and may be sent to the Cabinet in the next few months
Wafers and ingots manufacturing stands at just 2 GW of capacity built by Adani Enterprises
China dominates global manufacturing, with capacity to produce 2.3 million tonne a year

The proposed subsidy plan hopes to target the local mobile-phone manufacturing industry

THE GOVERNMENT IS finalising a \$1-billion capital subsidy plan to bolster its solar manufacturing industry, according to people with knowledge of the matter, as part of a wider effort to reduce dependence on China and profit from the global energy transition.

The proposal is being made by the new and renewable energy ministry and will target domestic makers of wafers and ingots, one of the weakest segments of the country's solar industry, according to the people. The plan has the backing of the top advisers in Prime Minister Narendra Modi's office and is expected to be presented to the Cabinet for approval in the next few months, they said.

A spokesperson for the new and renewable energy ministry said on Tuesday the government is still discussing with stakeholders how to incentivise domestic manufacturers of ingots, wafers and polysilicon, but there is no formally approved proposal yet.

The domestic industry is heavily reliant on China for imports of solar equipment. While the country has grown its domestic modules and cell-making segments, wafers and ingots manufacturing still stands at just 2 gigawatts of capacity, built by Adani Enterprises.

According to BloombergNEF, India has just over 71 gigawatts of modules and nearly 11 gigawatts of cells capacity.

The proposed subsidy plan hopes to replicate the success of the local mobile-phone manufacturing industry, the people said. The Centre has spent billions of dollars in incentives to

woo companies like Apple and Samsung Electronics to set up manufacturing plants here. Apple's iPhone exports from India have grown sharply since then.

In the solar sector, logistics and quality controls contribute to the high cost of making wafers and ingots, and the subsidies should help ease that, the people said.

China dominates global manufacturing with capacity to produce 2.3 million tonne a year, well ahead of No. 2 Germany with 750,000 tonne.

Reliance bets on 'brain mapping' for IPL ads

MUNSI VENGATTIL, ADITYA KALRA & SAI ISHWARBHARATH B Bengaluru, February 25

CRICKET FEVER

The broadcast rights for the Indian Premier League (IPL) and other cricketing events cost Disney and Reliance nearly \$10 bn in recent years

Reliance is holding a month of closed-door seminars in seven Indian cities to woo small companies to become IPL advertisers

Earlier this month, it decided to end free streaming of IPL on its app, offered since 2023, in its first major sign that it is battling revenue pressures

RIL plans to exploit data to offer ads on the basis of viewers' ages, incomes etc

The price broadcast rights for the Indian Premier League (IPL) and other cricketing events which cost Disney and Reliance nearly \$10 billion in recent years, are set to weigh big on the merged group, which is India's biggest entertainment giant.

Battling competitors Netflix and Amazon in the \$28-billion market, the Reliance-owned venture is holding a month of closed-door seminars in seven Indian cities to woo small companies to become IPL advertisers, offering ad packages worth \$17,000.

Reliance also plans to monetise tiny scorecard space on mobile screens, after having decided this month to end free streaming of IPL on its app, offered since 2023, in its first major sign that it is battling revenue pressures.

Reliance ad rates booklet showed packages started at \$17,000, but wellness startup owner Anita Dewraj, who attended the seminar, said, "I find it cheaper to advertise on Instagram and YouTube."

Reliance is prominently pitching advertising agencies with 'brain mapping' research that it says analysed the brain cells, or neurons, of participants to show its streaming ads have a higher engagement rate than Google.

Digital is the new media battleground in India, where TV channel pricing is strictly regulated and geo-location of ads is not possible on the traditional broadcast medium.

Reliance ad rates booklet showed packages started at \$17,000, but wellness startup owner Anita Dewraj, who attended the seminar, said, "I find it cheaper to advertise on Instagram and YouTube."

Five media executives and Reliance sources, and two company pitch decks, revealed its focus on adding small advertisers as it ramps up digital ad inventory to increase streaming revenues, in strategies Reuters is the first to reveal.

Reliance also plans to monetise tiny scorecard space on mobile screens, after having decided this month to end free streaming of IPL on its app, offered since 2023, in its first major sign that it is battling revenue pressures.

Reliance ad rates booklet showed packages started at \$17,000, but wellness startup owner Anita Dewraj, who attended the seminar, said, "I find it cheaper to advertise on Instagram and YouTube."

Four Indian firms sanctioned by US over Iran crude oil trade

SUKALP SHARMA New Delhi, February 25

THE UNITED STATES has sanctioned four India-based companies over their alleged involvement in trade and transportation of Iranian crude oil and petroleum products. These four are among the 30 persons and vessels in various countries which sanctions were imposed by the US Department of the Treasury's Office of Foreign Assets Control (OFAC), and the US Department of State as part of the Trump administration's "maximum pressure campaign" on Iran.

sanctioned for being commercial or technical managers of vessels allegedly involved in transportation of Iranian oil and petroleum products, while one—Cosmos Lines—has been sanctioned for its alleged involvement in transport of Iranian petroleum products.

Three of the four companies have been sanctioned for commercial or technical managers of vessels allegedly involved in transportation of Iranian oil and petroleum products

These four are among the 30 persons and vessels in various countries which sanctions were imposed by the US Department of the Treasury's Office of Foreign Assets Control (OFAC), and the US Department of State as part of the Trump administration's "maximum pressure campaign" on Iran.

CBI raids 60 locations in ₹6.6K-cr crypto scam

PRESS TRUST OF INDIA New Delhi, February 25

THE CBI ON Tuesday coordinated countrywide searches at 60 locations as part of its probe into ₹6,600 crore GainBitcoin cryptocurrency scam, officials said.

The searches were spread across multiple cities including Delhi NCR, Pune, Chandigarh, Nanded, Kolkata and Bhatnagar, targeting premises allegedly linked to key accused individuals, a CBI spokesperson said in a statement.

The ponzi scam perpetrated through a web of platforms, including a flagship site www.gainbitcoin.com, was allegedly masterminded by Amit Bardwaj (now deceased) and his brother Ajay Bardwaj, the officials said.

Launched in 2015, the illicit operation was camouflaged under the facade of Variabtech, which lured the investors offering extraordinary returns of 10% per month in Bitcoin over an 18-month period using them to purchase the digital currency from external exchanges and deposit it with GainBitcoin through 'cloud mining' contracts, the central agency said.

The four Indian companies are Navi Mumbai-based Flux Maritime, National Capital Region (NCR)-based BSM Marine and Austinship Management and Thanjavur-based Cosmos Lines. Three of these four companies have been

sanctioned for being commercial or technical managers of vessels allegedly involved in transportation of Iranian oil and petroleum products, while one—Cosmos Lines—has been sanctioned for its alleged involvement in transport of Iranian petroleum products.

These four are among the 30 persons and vessels in various countries which sanctions were imposed by the US Department of the Treasury's Office of Foreign Assets Control (OFAC), and the US Department of State as part of the Trump administration's "maximum pressure campaign" on Iran.

The ponzi scam perpetrated through a web of platforms, including a flagship site www.gainbitcoin.com, was allegedly masterminded by Amit Bardwaj (now deceased) and his brother Ajay Bardwaj, the officials said.
