Dear Sir/ Madam,

**Subject: Intimation regarding Credit Rating under Regulation 30 of SEBI (LODR) Regulations, 2015**

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please note that CareEdge has revised the Ratings which was assigned CARE C (Stable, Reaffirmed) to CARE D in respect of the Company's banking facilities.

The reason for such downward revision is due to delays in debt servicing.

The rating letter received from CareEdge is enclosed.

This is for your information and records.

## SecureKloud Technologies Limited

Facilities/Instruments	Amount (₹ crore)	Rating <sup>1</sup>	Rating Action
Long Term Bank Facilities	17.12	CARE D	Revised from CARE C; Stable

Details of instruments/facilities in Annexure-1.

### Rationale and key rating drivers

The revision in the rating assigned to the bank facilities of SecureKloud Technologies Limited (SecureKloud) takes into account the delays in debt servicing.

### Rating sensitivities: Factors likely to lead to rating actions

#### Positive factors

- Satisfactory track record of timely repayment and servicing of debt obligation for a continuous period of 90 days.
- Improvement in liquidity position
- Resolution of governance related issues and strengthening of the corporate governance architecture in the company and management

#### Analytical approach: Consolidated

Devcool Inc., USA	100%
SecureKloud Technologies Inc., Canada	100%
Serj Solutions Inc., USA	100%
Nexage Technologies Inc., USA	100%

### Detailed description of the key rating drivers:

#### Key weaknesses

##### Delay in debt servicing:

The company in the monthly No-default declaration has reported delays in debt servicing of its term loan.

##### Continued operating losses:

The company has been incurring losses at operational level due to increased R&D spending over the past 2 years for the platform business. The company has spent about ₹ 91 crore over FY21 and FY22 which was booked as expenses in P&L account. The revenue from this R&D activity is not as envisaged due to the platform model's acceptance in the healthcare segment being low leading to lower revenue and continued operating losses in FY24. However, with the rationalization of R&D and reduction in discretionary spends, the operational losses have declined in FY24.

Further, majority of the company's employees are based out of the US due to which the employee costs have been high. The company has cut down on employees in FY24. However, with the scale continuing to being modest, the employee utilisation continues to remain low and the high employee costs continue to strain the profitability of the company.

**Modest financial risk profile marked by negative tangible network:**

The company's tangible net-worth has also seen an erosion after the write-off ₹ 624.95 crore of capitalised internally developed software in FY20. Due to continuous operating losses, the tangible net-worth has continued to remain negative in FY23 and FY24. The company has a total debt of ₹ 110.45 crore as on March 31, 2023, out of which ₹ 31.37 crore is in the form of unsecured loans from the promoter. The total debt as on March 31, 2024, stood at ₹ 120.69 crore. The company, through its step-down subsidiary, has raised fund by issue of convertible promissory notes for a value of USD 5.2 mn and the company has already received the first tranche of USD 2 mn in December 2023. This is expected to be utilised towards repayment of debt in the subsidiary book and working capital requirements.

**Geographical concentration**

The company caters to USA market primarily. 98% of the consolidated revenue is from the USA for the past two years. This high dependence on USA for revenue exposes the company to geographical concentration risk especially with higher employee costs.

**Presence in highly competitive industry:**

The company has a relatively moderate scale of operations in a highly competitive industry which would restrict the company's bargaining power with high value clients. It faces competition from IT giants and other small-scale players. The company is also exposed to risks of regulatory framework and immigration policy changes in USA. All the above would put pressure on the margins of the company.

**Impact of SEBI Order and governance issues:**

Pursuant to receipt of certain complaints alleging inter-alia financial mis-reporting/ irregularities by promoters and management of the Company and the resignation of the Company's statutory auditor, viz. Deloitte Haskins and Sells citing various corporate governance issues including fraud relating to irregularities and inconsistencies in financial statements and books of accounts of the Company, SEBI had initiated an investigation and Grant Thornton was appointed as forensic auditor. In this regard, SEBI has issued a final order with directives and penalties for the company and its officials. In SEBI order dated Dec 16, 2022, Mr. Suresh Venkatachari, Mr. R S Ramani and Mr. Gurumurthy Jayaraman were prohibited from being associated with the securities market in any manner, including as a director or Key Managerial Personnel in a listed company or an intermediary registered with SEBI, for a period of one year, from the date of coming into force of the direction. Following this order, the promoter Mr. Suresh Venkatachari stepped down as chairman of the company with effect from January 19, 2023. The company had sought appeal against this order in SAT, however, no order has been passed. Subsequently after the lapse of the restriction period stipulated by SEBI, Mr. Suresh Venkatachari again appointed as the additional director chairman & CEO with effect from February 7, 2024.

**Key strengths****Domain and Industry expertise coupled with tie-ups with public cloud enterprises:**

SecureKloud is focussed on cloud transformation and data pipeline management services. Since its inception, the company has developed in-house patented softwares such as CloudEz platform and has continued to develop technology platforms like DataEz, readbl.ai, blockedge.io and CloudAuth etc. Furthermore, the company has also tied up as a service partner with public cloud system providers such as AWS, Azure, Google Cloud Services, IBM Smart Cloud and VMWare. Being in a highly regulated vertical like healthcare, SecureKloud also has expertise and has been certified in regulatory compliances such as HIPAA (Health Insurance Portability and Accountability Act), HITRUST and GxP.

**Liquidity: Poor**

The liquidity of the company remained stretched with high working capital utilisation at about 94% for the twelve months ended November 2023. At consolidated level, the company's cash accruals remain negative, and the free cash and balances also remain low at about ₹ ₹ 3.57 crore as on March 31, 2024.

The company's long term debt obligation as on March 31, 2023, stood at ₹ 38.83 crore out of which ₹ 31.37 crore is unsecured loan from its erstwhile promoter, Mr. R S Ramani. Total long term debt obligation as on March 31, 2024, is ₹ 35.83 crore. The company had reported delays in payments with regards to the loan from Mr. R S Ramani in the past. Further, the company had reported delays in servicing of term loans from April 2024.

**Environment, social, and governance (ESG) risks:** Not applicable
