Scoring of each case into one of the five bands of A – E with A being the best and E being the worst

... and decide whether to disburse or not disburse the loan within 60 minutes.

GRO Score – Risk Bands Stacking up on Historical Portfolio

Default rates across score bands – All customers assessed Since Inception

Score Band wise break up of recent disbursals (Jan 24 – Jun 24)

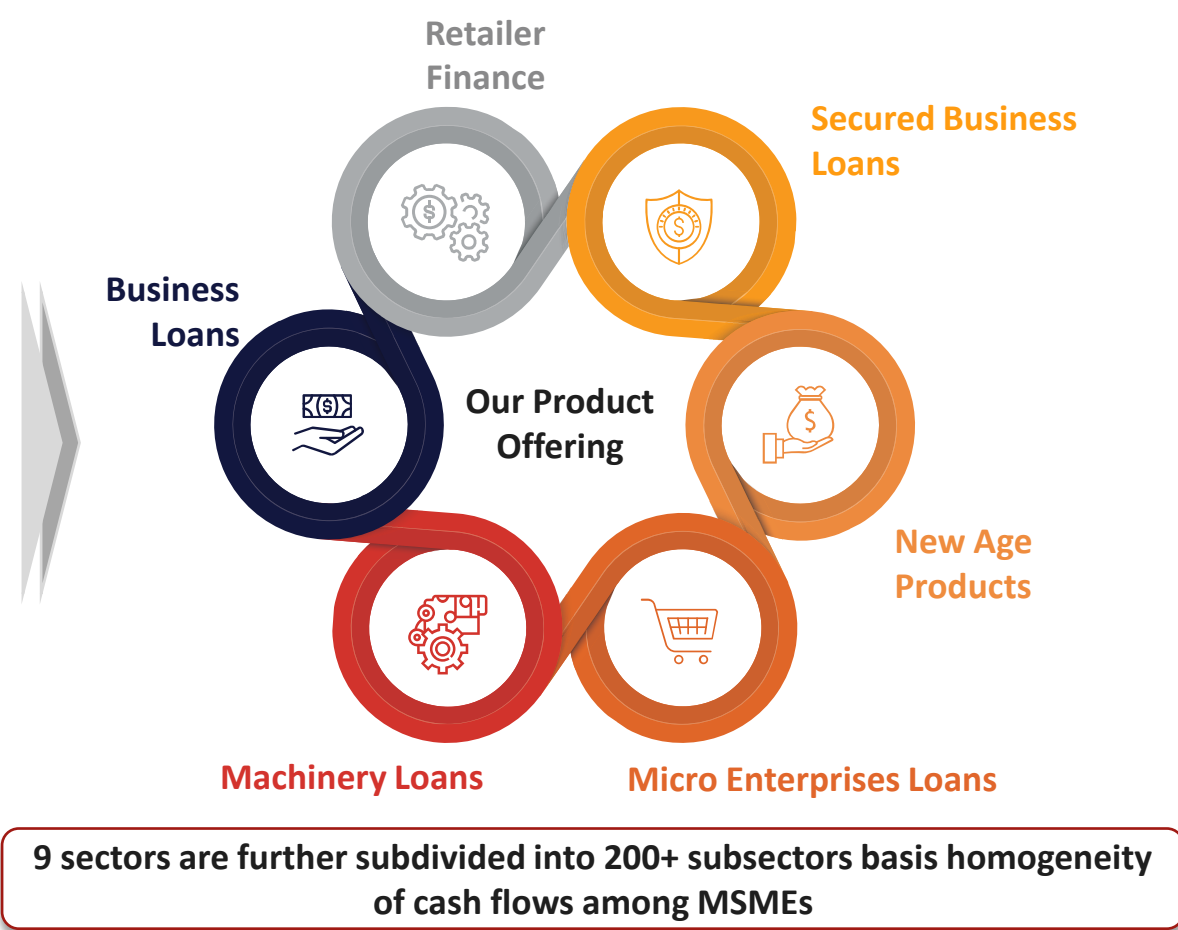

Segments A+,A, B – contributing to majority share of disbursals and lever for calibrated increase of throughput

To that effect we have analysed both sets of data i.e. cases disbursed and rejected by UGRO. Performance across risk bands was observed to be stacking up for both sets of data

Explanation note : Scores are computed based on repayment track record of loan applicants and submitted bank statements. Default rate tracking is done based on quarter-end credit bureau data; “default” represents incidence of 90 dpd in any business purpose credit facility reported in bureau during a period of six months from the point of assessment at UGRO Capital
