

We refer to our communication dated 10<sup>th</sup> February 2023 on the proposed brownfield expansion of our Hydrofluoric Acid capacity in its existing unit from 14,850 MT to 29,700 MT to be implemented in 15 to 18 months from the date of announcement.

We wish to inform you that the Company has completed the expansion project and commissioned the expanded capacity on 7<sup>th</sup> October 2024.

Speaking on the occasion, **K. Sendhil Naathan, Managing Director of Tanfac Industries**, said,

*"We are excited to announce that we have completed the expansion project at the cost of around ₹ 100 crores and commissioned the new State of the art HF plant as planned. With this TANFAC site has become one of the largest HF plants in India. In line with earlier communication, we intend to use majority of HF to manufacture high-end specialty fluoride molecules within our group companies. This expansion will sustain our growth trajectory going forward."*

Please find below the details required under Regulation 30 of Listing Regulations.
