L&T Technology Services earns recognition as a John Deere “Partner-level Supplier”

LTTS recognized for the 4th time for outstanding performance in product & service quality

Bengaluru (India), September 03, 2024: L&T Technology Services Limited (BSE: 540115, NSE: LTTS), a leading global pure-play engineering services company, has earned recognition as a Partner-level supplier for the fourth year in a row in the John Deere Achieving Excellence (AE) Program.

The Partner-level status is Deere & Company’s highest supplier rating. India-headquartered LTTS has been selected for the honor in recognition of its dedication to providing products and services of outstanding quality as well as its commitment to continuous improvement.

LTTS is a provider of multiple services to John Deere, including engineering services spanning areas like digital, product simulation, embedded software development & validation, mechanical design, cost management and analysis.

Suppliers who participate in the Achieving Excellence program are evaluated annually in several key performance categories, including quality, delivery, process alignments, value creation, and relationship. John Deere Supply Management created the program in 1991 to provide a supplier evaluation and feedback process that promotes continuous improvement.

Alind Saxena, Executive Director & President, Mobility & Tech at L&T Technology Services, said, *“We are honored to receive the Partner level recognition for the fourth time from John Deere. Our technology-led, long-standing expertise in product innovation has helped strengthen our relations with an industry leader like John Deere. This recognition is an example of our commitment to provide the best-in-class solutions and exceed expectations of our global customers.”*

About L&T Technology Services Ltd

L&T Technology Services Limited (LTTS) is a listed subsidiary of Larsen & Toubro Limited focused on Engineering and R&D (ER&D) services. We offer consultancy, design, development and testing services across the product and process development life cycle. Our customer base includes 69 Fortune 500 companies and 57 of the world's top ER&D companies, across industrial products, medical devices, transportation, telecom & hi-tech, and the process industries. Headquartered in India, we have over 23,550 employees spread across 22 global design centers, 30 global sales offices and 108 innovation labs as of June 30, 2024.
