RISING PRODUCTION OF PAPER INDUSTRY

(In Million Tonnes Per Annum (MTPA), Source: SAMCO/IPMA & CRISIL)

Domestic Paper Demand & Trends

Trends in Overall Paper Industry

- FY21 and FY22 saw export growth from Indian paper mills due to capacity expansion, tech upgrades, and improved product quality, gaining global acceptance
- Exports were heavily catered to Sri Lanka and other Southeast Asian nations amidst economic crises
- Paper export growth halted as global pulp prices dropped, flooding Indian markets with international products
- Players are lobbying for higher import duties on paper products, fueled by ASEAN countries' Free Trade Agreements with India
- ASEAN countries, Japan, and China export to India, while neighboring countries like Sri Lanka, Bangladesh, Iran, and the UAE import from India

Key Growth Drivers

- India's per capita paper consumption low at ~14 kg against global average of ~57 kg
- Online retail industry expected to grow 20-25% in next 2-3 years, boosting packaging demand
- Corporate sector's use of computers and photocopying machines is driving demand
- Co-working and opening of offices in new locations to drive demand growth
- Government spending on education and National Education Policy implementation to boost demand from education sector

Barriers to Growth

- Rising prices of raw materials due to inflationary pressures
- Proliferation of digitisation pose a marginal threat to W&P segment
- Weak demand across end- use industries on account of weak economic activity

Industry Dynamics - Consolidation is Inevitable

India is Fastest Growing Paper Market in the World

Higher environmental concerns & awareness, leading to substitution of plastic with paper products

Increasing GDP, rising per capita income & expenditure consequently leading to increase in per capita consumption of paper

Rising literacy rates, increasing number of schools and universities in the country and higher student enrolments

Rapid urbanisation coupled with rising proportion of organised retail and increasing preference for ready-to-eat food products

Consolidation in the Industry is Inevitable

- ✓ High Capital Intensity
- ✓ Economies of Scale
- ✓ Technology Upgradation
- ✓ Cost of Environmental Compliance
- ✓ Threat from Imports
- ✓ Advent of GST
- ✓ Industry Acquisition

Our Certifications

The mark of responsible forestry

The Forest Stewardship Council® (FSC) is an international certification system that promotes environmentally appropriate, socially beneficial, and economically viable management of forests and plantations

- ✓ The FSC does this by setting standards on forest products, along with certifying and labelling them as eco-friendly
- ✓ The Forest Stewardship Council® (FSC) mark means that the wood or paper you are buying comes from responsibly managed forests
- ✓ To become FSC certified, forest operations must meet demanding environmental, social and economic requirements, as confirmed by an independent third party such as SCS Global Services

Forest Stewardship Council® (FSC) forest management certification strengthens your position in the marketplace - guaranteeing your customers that products from your forestry operations meet the world's most stringent environmental, economic, and social standards for responsible forest management

SARA- Certified for Being a 'Well Managed Group Plantation'

The Society for Afforestation, Research and Allied (SARA) promoted and supported by WCPM has continuously obtained certifications for developing 'Well Managed Group Plantations' since 2011

Formed by eminent personalities, which includes forestry, agriculture, financial experts and progressive farmers with the Objective of greening the country, meeting socio-economic and environmental conditions of rural mass

Promote & encourage tree - farming practices on low productive and degraded lands for additional income to the farmers/farming community partnering with the SARA

- Establish seed orchards for getting good hybrid seeds
- Undertake R&D activities in the field of forestry, horticulture and other areas
- Create employment opportunities to the rural community
- Practice zero wastage with respect to all the associated operations
- Plan and manage the plantations in accordance with principles and criteria for the farm forestry
- Protect the environment by establishing a sylvaco system and Agroconosis

(SARA) has obtained the certificate for being a 'Well Managed Group Plantation' since 2011. At present, the Company is in a position to manufacture FSC® certified products viz; FSC® -100%, FSC® -MIX in its printing & writing papers and FSC® - Recycled logo on paperboards
