FASHION > TECHNOLOGY > RETAIL

Dear Shareholders,

The fiscal year 2023-24 has been a landmark period for our Company, driven by a thriving Indian economy that stood out for its remarkable resilience during global uncertainties. Our company delivered an exceptional performance across the board, marked by significant growth in both volume and value. We reached a record operating revenue of ₹ 91.3 Crore, compared to ₹62.8 crore from the previous year, reflecting a substantial year-on-year increase of 45.38%. This achievement was supported by a strong margin profile, with an EBITDA of ₹13 Crore and an EBITDA margin of 14.2%.

Fashion & E-Commerce

India's lifestyle market stands at a tall \$130 billion with 80% being fashion's share. Organized fashion is expected to grow at a 15% CAGR over the next 5 years. India's online penetration of lifestyle spends is only 13% as compared to 40-50% in most major global economies.¹

This represents an immense opportunity for our company, as we increase focus on e-commerce as a primary source of business. Rising income levels, shift to organized sector, increasing online penetration and surge in "fashion forward" + "online-first" Gen Z customers makes Fashion & E-Commerce a sector to look out for.

Technology as an enabler

Over the past two years, our company has transformed from a traditional apparel manufacturer to a vertically integrated tech-enabled online fashion retailer. We have developed, over this period, a centralised back-end where operations, design, brand management and merchandising are carried out in a data driven approach. Our algorithms support all major decisions such as demand identification, inventory replenishment, pricing strategies, marketing and so on. Today, we serve as single seamless retail backbone for 15+ brands, managing 12000+ SKUs.

We are now focused on formalizing our technology in the form of an enhanced application with robust user experience and incorporating cutting edge developments from the world of GenAI.

Brand Thomas Scott

Our marquee brand "Thomas Scott" has nearly doubled in revenue over this fiscal year. As the brand expands, we have piloted five physical stores in Bengaluru to create an omnichannel experience for our customers.

We are confident in the long-term vision of making our brand the first choice for fashion & quality focused customers. The brand's differentiated value proposition comes through its trendy assortment, budget friendly pricing, and extraordinary quality.

Investing in Capacity & Sourcing

As our company has embarked on this journey of superior growth, we continue to expand our capacities in Solapur, Bengaluru and Gurgaon.

Today, our factories work at optimal capacity supporting most of our demand. Over this fiscal year, we saw development of an additional unit in Solapur for bottom-wear and expansion of the hand-bags unit in Gurgaon.

Our legacy in manufacturing is the core strength that provides us the ability to launch hundreds of new styles each month while minimizing inventory risk. It also assures remarkably higher quality in output.

As we expand, our sourcing and procurement capabilities have advanced, supported by a strengthened merchandising team proficient in both woven and knitwear categories.

FASHION > TECHNOLOGY > RETAIL

Fulfilment Centres & 2 Day Delivery

We have established three fulfilment centres in Bhiwandi (Maharashtra - West Zone), Gurgaon (Haryana - North Zone), and Bengaluru (Karnataka - South Zone). These centres, combined with strategic partnerships with leading third-party logistics providers, ensure that our goods are positioned near key demand areas.

Our primary objective is to achieve a two-day delivery for the majority of our customers. This focus on rapid delivery not only enhances the customer experience but also increases the likelihood of repeat purchases and minimizes the potential for returns or refunds.

Focus on Premiumization in E-Commerce

As consumer confidence in online shopping grows, we anticipate accelerated growth in the premium fashion segment.

Premiumization in the fashion e-commerce industry refers to the shift towards offering higher-end or luxury fashion products online. Premiumization in the Indian fashion industry is driven by rising disposable incomes, changing consumer preferences for quality and exclusivity, increased brand awareness, enhanced online shopping experiences, social influence, focus on craftsmanship, retail innovations, and cultural shifts towards luxury.

Our company has positioned premiumization as a central theme in our growth strategy.

We are achieving this through:

(i) Emphasizing superior or exclusive fabric qualities that customers perceive as higher value. (ii) Securing licenses or similar supply arrangements to offer premium and luxury brands online. (iii) Developing high-fashion products that command elevated pricing.

TSIL now an Alpha Seller

When we initiated our e-commerce journey in 2022, we relied on established sellers on major marketplaces to list our products online due to prolonged due diligence processes and significant financial entry barriers imposed by certain channels. We achieved this through alpha seller arrangements with our sister concerns and other registered sellers.

This fiscal year, we have successfully completed the necessary due diligence and contracting to become a direct alpha seller. In the coming financial year, this advancement will significantly reduce our reliance on external sellers.

Closing Notes

I would like to convey my sincere thanks to our Management Team and the outstanding staff for their dedication and enthusiasm over the past year. I am also profoundly grateful to my distinguished colleagues on the Board for their unwavering commitment and valuable insights.

On behalf of everyone at Thomas Scott India Limited, I want to acknowledge our shareholders, customers, bankers, vendors, fulfilment and logistics partners, marketplace partners, and all our business associates.

Your support has been crucial to our achievements, and we deeply appreciate the trust and collaboration that have enabled us to pursue excellence and reach our common objectives.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

MANAGEMENT DISCUSSION & ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

GLOBAL ECONOMY

Amidst the prevailing global economic landscape, challenges such as a subdued manufacturing environment, faltering trade flows and persistent inflation concerns paint a complex picture for the future ahead. However, amidst these challenges, certain sectors, notably services, demonstrate resilience. The recent update from the International Monetary Fund (IMF) offers a glimmer of hope, with a modest upgrade in growth projections for 2024 and 2025. Global growth is projected at 3.1 percent in 2024 and 3.2 percent in 2025, marking an increase from previous forecasts. Global headline inflation is anticipated to decrease to 5.8 percent in 2024 and further to 4.4 percent in 2025, with the latter figure being revised downward additionally, the year 2024 also marks changing geopolitical situation for several nations which may introduce a degree of uncertainty.

INDIAN ECONOMY: Cautiously shining amid global uncertainty

Despite global economic uncertainties, India's economic resilience shines through. India's economy has experienced a significant surge over the past decade, elevating it from the 10th to the 4th position in the global rankings, thereby establishing its position as a major economic powerhouse on the world stage. The revised growth of India for FY 2023-24 estimated to 6.8% from 6.1% reflects stronger-than-expected data in 2023, with GDP growth estimated at 6.4% for 2025. In parallel, the Interim Budget 2024 presented by Union Finance Minister Nirmala Sitharaman outlined pivotal initiatives to propel India towards becoming a developed nation by 2047. Despite the sectors robust growth, India remains committed to its climate goals, aiming to reduce emissions intensity by 45% by 2030 and achieve net-zero emissions by 2070.

TEXTILE INDUSTRY

The market for Indian textiles and apparel is projected to grow at a 10% CAGR to reach US\$ 350 billion by 2030. Moreover, India is the world's 3rd largest exporter of Textiles and Apparel. India ranks among the top five global exporters in several textile categories, with exports expected to reach US\$100 billion. The textiles and apparel industry contributes 2.3% to the country's GDP, 13% to industrial production and 12% to exports. The textile industry in India is predicted to double its contribution to the GDP, rising from 2.3% to approximately 5% by the end of this decade.

Global apparel market is expected to grow at a CAGR of around 8% to reach US\$ 2.37 trillion by 2030 and the Global Textile & Apparel trade is expected to grow at a CAGR of 4% to reach US\$ 1.2 trillion by 2030. During FY24, the total exports of

textiles (including handicrafts) stood at US\$ 35.9 billion. Exports of textiles stood at US\$ 35.90 billion in FY24. In FY24, exports of readymade garments including accessories stood at US\$ 14.23 billion. India's textile and apparel exports to the US, its single largest market, stood at 32.7% of the total export value in FY24.

Market Outlook

The fundamental strength of the textile industry in India is its strong production base of a wide range of fibre/yarns from natural fibres like cotton, jute, silk and wool to synthetic/man-made fibres like polyester, viscose, nylon and acrylic. India's textiles industry contributed 7% to the industry output (by value) in 2022. The Indian textiles and apparel industry contributed 2.3% to the GDP, 12% to export earnings, 13% to industrial production and held 4% of the global trade in textiles and apparel in 2023. The Indian textiles market is expected to be worth US\$ 350 billion by 2030.

Government Initiatives

The Indian government has come up with several export promotion policies for the textiles sector. It has allowed 100% FDI in the sector under the automatic route. Other Initiatives taken by the Government of India are:

- The Government of India has earmarked a corpus of Rs. 1,000 crore (US\$ 127.72 million) dedicated to research and development of the technical textiles sector.
- The seven textile parks announced in the Union Budget 2022-23 should attract investments.
- In July 2023, PM MITRA Park, Amravati expected to attract investment of Rs. 10,000 crore (US\$ 1.20 billion) and create employment for 300,000 individuals.
- In May 2023, an investment of around Rs. 6,850 crore (US\$ 824.25 million) is expected in the PM MITRA Park in Madhya Pradesh and Rs. 8,675 crore (US\$1.04 billion) in other parts of the state.
- In September 2023, Grasim Industries plans to open nearly 120 retail stores over the upcoming 2 years, by expanding its footprint in smaller cities and towns.
- In June 2023, the Government has approved R&D projects worth US\$ 7.4 million (Rs. 61.09 crore) in the textile sector. 20 R&D Projects have been approved under the National Technical Textiles Mission in Geotech, Protech, Indutech, Sustainable Textiles, Sportech, Buildtech and Speciality Fibres.
- The Ministry of Textiles, Government of India, along with Energy Efficiency Services Ltd. (EESL), has launched a technology upgradation scheme called

SAATHI (Sustainable and Accelerated Adoption of Efficient Textile Technologies) for reviving the power loom sector of India.

- The Directorate General of Foreign Trade (DGFT) has revised rates for incentives under the Merchandise Exports from India Scheme (MEIS) for two subsectors of textiles Industry - readymade garments and made-ups - from 2% to 4%.
- The Textile Ministry of India earmarked Rs. 690 crore (US\$ 106.58 million) for setting up 21 readymade garment manufacturing units in seven states for development and modernisation of the Indian textile sector.
- Under the Union Budget 2023-24, the government has allocated Rs. 4,389.24 crore (US\$ 536.4 million) to the Ministry of Textiles.

OPPORTUNITIES

India has one of the fastest-growing economies. This creates a boost in the purchasing power of the people while it also spurs the demand for products of the textile industry. This boost results in a wide range of capacity to manufacture different products that can be transported within India as well as across the world. Apart from this, India has one of the most extremely varied textile sectors as it has hand-woven textiles on one end while capital intensive mills on the other end which results in an enormous number of opportunities in the textile industry, as follows

- **Global Expansion of Market:** Globally expanding market is one of the biggest opportunities for online shopping. In the developed and developing countries the majority of the consumers possess electronic devices. They use to purchase goods online through e-fashion platforms. Internet facilitates the reach of websites all-round the globe, therefore market area is now vast with a grand increase in the number of potential consumers. Anyone can take advantage of e-commerce in execution of e-fashion business from anywhere and anytime without any interruption. Since a major part of population is interested in online purchase and it can become the most effective way to sale and purchase fashion and textile products, there is a big scope of business expansion with growing population.
- **Changing trends:** As per the new changing trends it becomes clear that the generation Z feels more comfortable in buying products from internet only and this trend will be conceded in future as well. In the coming years the fast and effective e-commerce with easy financial transactions will acquire key position in the world Trade.
- **Technological Advancement:** The accessibility of internet facility and the number of its users are increasing day by day which induce people towards online purchase of fashion and textile products. The rapid development of AI, Internet and e-commerce, computer and information technology literacy, easy availability

of low priced smart phones and increased purchasing power are have amplified the number of internet users and e-shoppers.

- **Role of Influencers:** Social media has become an integral part of our everyday living and there are several internet users who have a large number of followers on social media. These people are known as “influencers”. They present a powerful marketing opportunity for efashion sellers by promoting various e-fashion products among their followers and motivating them to purchase online. The influencers play very important role and efashion industry can take advantage of this.
- **Diversification of new product lines:** Various clothing brands diversify their products in related categories according to customer demand such as traditional wear, shoes, cosmetics and other accessories. It explores multiple dimensions and extensive possibilities for brilliant progress into the lines, especially in the emerging markets where the competition is low and demands are highly unsaturated.

THREATS

Though there are many opportunities and investments in the textile industry, like any other industry, the textile industry of India also undergoes certain challenges. The frequently changing policies stated by the government at the central and state levels create immense pressure on the textile industry.

Another challenge that the textile industry faces is the limitation to access the latest and best technology while also failing to meet the global standards in the competitive export market. Apart from these issues like child labour, competition from neighbouring countries regarding low-cost garments, personal safety norms. Some of the challenges the Indian textile industry faces are:

- **Highly Competitive Market:** Since the e-fashion business is executed at global level, the existence of global competition is always there, in addition to competition at local or domestic level. This is caused by low investment requirements to start online business as compared to the traditional brick and mortar shops. Many new players are entering in the market employing their maximum potentials. The newcomers have to compete with the already established big brands in the e-fashion market in addition to the competition with each other. The survival, establishment and recognition are big challenges for new startups. Great efforts and techniques are required to build status in the e-fashion industry flanked by the big companies, reputed brands and giant players as the customers prefer buying from the established brands rather new startups.
- **Requisites for Innovation:** In the present era the customers are always in search of innovative and unique textile products. These innovations in fashion productions always put financial burden on the manufacturers. It exploits various

resources such as human creativity, energy, labour, time, money, etc. in the form of products, promotional techniques and even the cost of production.

- **Web Spoofing and Privacy concerns:** A very few customers have expertise in identification of fake websites hence there is always risk of web spoofing. Customers access to the genuine website and submit their personal details while registering on the e-commerce platforms and the hackers redirect them towards fake websites and acquire the confidential personal information of the customers. The personal details of the customers are exposed to the unauthorized parties without customers' knowledge. The personal information and data transmitted over the internet can be hacked during transmission and misused by the hackers.
- **Amendments in Government Regulations:** Constantly changing government policies indicate that the rules and regulations regarding online sales will gradually become more rigid and stringent. Tax guidelines for online sale point towards increase in trade tariffs, which in turn add to the cost of products available on e-fashion platforms. Consequently the consumers will be diverted towards traditional marketing system. Moreover data-centric regulations are enhancing complexity in setting up online stores.

Risk and Concern

- 1. Operational Risk:** These risks have a broad scope that covers elements like workers' health and safety, product quality, management externalities, and regulatory compliance. Monitoring factory conditions and work processes can help gauge your overall risk exposure on specific operations and facilitate the necessary improvements.
- 2. Supply Chain Risk:** A study by the Institute of Supply Management revealed that about 75 percent of organizations reported supply disruptions since the commencement of the pandemic, and this brought about a renewed focus on supply chain risk mitigation.
- 3. Risk of rejections:** High rejection rates for finished goods could result in business and reputation loss.

THOMAS
SCOTT

FINANCIAL STATEMENT & AUDIT REPORT

Independent Auditors' Report

TO THE MEMBERS OF

THOMAS SCOTT (INDIA) LIMITED

Report on Audit of the Financial Statements

Opinion

We have audited the financial statements of Thomas Scott (India) Limited (“the Company”), which comprise the Balance Sheet as at 31st March, 2024, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2024, the Profit and total comprehensive profit, changes in equity and its cash flow for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (‘SAs’) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor’s Responsibilities for the Audit of the standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (‘ICAI’) together with the ethical requirements that are relevant to our audit of the standalone financial statements under provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined that there are no key audit matters to be communicated in our report.

Other Information

The Company’s Board of Directors is responsible for preparation of the other information. Other information comprises the information included in the Company’s Annual Report, but does not include the financial statements and our auditor’s report thereon.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

Responsibilities of Management and those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to preparation of these standalone Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with provisions of the Act for safeguarding assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for audit of the standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by management.
- Conclude on appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

Report on Other Legal and Regulatory Requirements

ANNEXURE ‘B’ TO INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Thomas Scott (India) Limited (‘the Company’) as of 31st March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring orderly and efficient conduct of its business, including adherence to Company’s policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting records, and timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial control over financial reporting was established and maintained and if such control operated effectively in all material respects.

Our audit involved performing procedures to obtain audit evidence about adequacy of the Company’s internal financial controls system over financial reporting and their operating effectiveness. Our audit of the internal financial controls over financial reporting included obtaining an understanding of the internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating design and operating effectiveness of the internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risk of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding reliability of financial reporting and preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note 1

SIGNIFICANT ACCOUNTING POLICIES:

1. Background

Thomas Scott (India) Ltd (TSIL or the Company) incorporated in India with its registered office in Mumbai, is involved in business of manufacturing and trading of Textile and Textile products.

2. Basis of preparation of Financial Statements

i) Compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except defined benefit plan measured at fair value of plan assets less present value of defined benefit plan.

iii) Current & non current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III to the Act.

iv) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest rupees as per the requirement of Schedule III, unless otherwise stated.

3. Use of Estimate

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the period reported. Actual results could differ from those estimates. Any revision to accounting estimates is recognised in accordance with the requirements of the respective accounting standard.

4. Property, plant and equipment

Tangible assets

All items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure i.e. directly attributable to the acquisition of the items.

Subsequent costs are included in the assets carrying amount or recognised as separate assets, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Depreciation

Depreciation on the property, plant and equipment is provided on written down value method at the rates prescribed and in the manner specified in Schedule II to the Companies Act, 2013. The gain and loss on disposal are determined by comparing proceeds with carrying amount. These are included in the statement of profit and loss.

5. Intangible Assets

Computer software

Computer software are stated at cost, less accumulated amortization and impairments, if any.

Amortization method and useful life

The company amortizes computer software using straight-line method over the period of 6 years.

Gain & Losses on disposal are determined by comparing proceeds with carrying amount. These are included in the statement of Profit and Loss.

6. Cash & Cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash and Cheque in hand, bank balances, demand deposits with banks and other short-term highly liquid investments with maturities of three months or less that are readily convertible to known amounts of cash & which are subject to an insignificant risk of changes in value.

7. Leases

Operating lease

As a lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company, as lessee, are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

8. Inventories

Inventories are valued at lower of cost or net realisable value. Cost comprise all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Due allowance is estimated and made for defective and obsolete items, wherever necessary.

9. Revenue Recognition

Revenue from contracts with customers is recognised when control of the goods is transferred to the customer which usually is on delivery of goods to the transporter at an amount that

reflects the consideration to which the Company expects to be entitled in exchange for those goods. Revenue are measured at the fair value of the consideration received or receivable and net of indirect taxes.

The Company does not expect to have any contracts where the period between the transfer of promised goods to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

A contract asset is the right to consideration in exchange for goods transferred to the customer. If the company performs by transferring the goods to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. The Company does not have any contract assets as performance under right to consideration occurs within a short period of time and all rights to consideration are unconditional.

A contract liability is the obligation to transfer goods to a customer for which the Company has received consideration from the customer. If a customer pays consideration before the Company transfers goods to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the company performs under the contract.

10. Impairment of non- financial assets

The Company assesses at each reporting date whether there is any objective evidence that a non-financial asset or a group of non-financial assets are impaired. If any such indication exists, the Company estimates the amount of impairment loss. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the individual asset/cash generating unit is made.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognised in profit or loss. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, then the previously recognized impairment loss is reversed through profit or loss.

11. Foreign Exchange Transaction

(a) Functional and presentation currency

The financial statements are presented in Indian rupees (INR), which is Company's functional and presentation currency.

(b) Transaction and balances

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

12. Employee benefits

Short term employee benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

Post –employment Benefits

The Company operates the following post-employment schemes:

- a. defined benefit plans such as gratuity; and
- b. defined contribution plans such as provident fund.

Defined Benefit Plans

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Defined Contribution plans

Under defined contribution plans, provident fund, the Company pays pre-defined amounts to separate funds and does not have any legal or informal obligation to pay additional sums. Defined Contribution plan comprise of contributions to the employees' provident fund with the government and certain state plans like Employees' State Insurance and Employees' Pension Scheme. The Company's payments to the defined contribution plans are charged to Statement of Profit and Loss as incurred.

Other employee benefits

The liabilities for earned leave is determined on the basis of accumulated leave to the credit of the employees as at the year-end charged to the statement of profit and loss as per the Company's rules being the short term benefits.

13. Tax Expenses

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the Balance Sheet date.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used for taxation purpose.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period. Deferred tax is not provided for an unabsorbed losses.

14. Earning per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year,

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares

15. Cash Flow Statement

Cash flows are reported using the indirect method whereby the profit before tax is adjusted for the effect of the transactions of a non-cash nature, any deferrals or accruals of past and future operating cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

16. Provision and Contingent Liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated.

Contingent Liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or

more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

17. Borrowing Costs

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

18. Segment Reporting

Operating segments are reported in manner consistent with the internal reporting provided to the chief operating decision maker. The management assesses the financial performance and position of the Company and makes strategic decisions. The chief operating decision maker consists of the Directors of the Company.

(e) Financial Assumptions

The principal financial assumptions used in the valuation are shown in the table below:

Particulars	For the year ending	
	31-Mar-24	31-Mar-23
Discount rate (per annum)	7.20%	7.50%
Salary growth rate (per annum)	4.50%	4.50%
Attrition /Withdrawal rate (per annum)	5.00%	5.00%
Mortality rate (% of IALM 12-14)	100%	100%

The discount rate indicated above reflects the estimated timing and currency of benefit payments. It is based on the yields / rates available on applicable bonds as on the current valuation date.

The salary growth rate indicated above is the Company's best estimate of an increase in salary of the employees in future years, determined considering the general trend in inflation, seniority, promotions, past experience and other relevant factors such as demand and supply in employment market, etc.

(f) Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below has been determined based on reasonably possible changes of assumptions occurring at the end of the

reporting period, while holding all other assumptions constant. The results of sensitivity analysis are given below:

Particulars	31-Mar-24	31-Mar-23
Defined Benefit Obligation (Base)	34.71	27.10

Particulars	31-Mar-24		31-Mar-23	
	Decrease	Increase	Decrease	Increase
Discount Rate (- / + 1%) (% change compared to base due to sensitivity)	37.85 9.10%	32.04 -7.7%	29.48 8.80%	25.07 -7.5%
Salary Growth Rate (- / + 1%) (% change compared to base due to sensitivity)	31.94 -8.0%	37.91 9.2%	25.00 -7.8%	29.53 9.0%
Attrition Rate (- / + 50% of attrition rates) (% change compared to base due to sensitivity)	33.62 -3.2%	35.19 1.4 %	26.05 -3.9%	27.63 1.9 %
Mortality Rate (- / + 10% of mortality rates) (% change compared to base due to sensitivity)	34.69 -0.10%	34.74 0.10%	27.09 -0.10%	27.12 0.10%

Please note that the sensitivity analysis presented above may not be representative of actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

There is no change in the method of valuation for the prior period. For change in assumptions please refer to section 5 above, where assumptions for prior period, if applicable, are given.

29. Segment Reporting:

Based on the “management approach” as defined in Ind AS 108 Operating Segments, the Director of the Company has been identified as Chief Operating Decision Maker (CODM). The Chief Operating Decision Maker evaluates the Company’s performance and allocate resources on the analysis of various performance indicator by business segment.

The company has only one geographical segment as it caters the need of domestic market only.

30. Financial Risk Management:

Financial risk management objectives and policies

The Company’s financial risk management is an integral part of how to plan and execute its business strategies. The Company’s financial risk management policy is set by the Managing Board.

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments.

Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings.

Market Risk- Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, treasury performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

Exposure to interest rate risk

Particulars	As at 31 st March 2024	As at 31 st March 2023
Borrowing Bearing Fixed rate of interest	370.08	2161.95
Borrowing Bearing Variable rate of interest	219.58	343.77

Credit risk

Credit risk arises from the possibility that the counter party may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Individual risk limits are set accordingly.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forward-looking information such as:

- i) Actual or expected significant adverse changes in business
- ii) Actual or expected significant changes in the operating results of the counterparty
- iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations
- iv) Significant increase in credit risk on other financial instruments of the same counterparty

0-6 months	1828.31	2021.81
Beyond 6 months	605.25	540.20
Total	2433.56	2562.01

Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time, or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risk are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

The table below analyses the financial liability of the company into relevant maturity groupings based on the remaining period from reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flow.

31. Capital Risk Management

Risk Management

The Company's objectives when managing capital are to

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders
- maintain an optimal capital structure to reduce the cost of capital

The Company monitors capital on the basis of the following debt equity ratio:

Particulars	As at 31 st March 2024	As at 31 st March 2023

E.P.S. Excluding exceptional item	12.58	5.22
E.P.S. Including exceptional item	12.58	5.22

33. Fair Value Measurement

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

· Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans repayable on demand approximate their carrying amounts largely due to short term maturities of these instruments.

Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

The carrying amounts and fair values of financial instruments by category are as follows:

Particulars	As at 31 st March 2024		As at 31 st March 23			
	Carrying Amount	Level of input used in		Carrying Amount	Level of input used in	
		L1	L2		L1	L2
Financial Assets at amortised cost						
Trade Receivable	2433.56	-	-	2562.01	-	-
Cash & Cash Equivalent	4.51	-	-	659.37	-	-
Other Financial Assets	580.33			546.75

Other Financial Liability	122.98	-	-	1594.87	-	-
Trade Payable	1084.85			2777.89		

The Financial Instruments are categorised in two level based on the inputs used to arrive at fair value measurement as described below

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
