WABAG secures consortium order worth USD 371 Million (~INR 3,251 Crores) for Al Haer Independent Sewage Treatment Plant located in the city of Riyadh, the Kingdom of Saudi Arabia

February 09, 2025: VA TECH WABAG ('WABAG'), a leading pure-play water technology Indian Multinational Group, continues to expand its presence and strengthen its leadership position in the Middle East region by securing a significant consortium order worth USD 371 Million (~INR 3,251 Crores) from Al Haer Environmental Services Company towards Engineering, Procurement and Construction ('EPC') of a 200 MLD Independent Sewage Treatment Plant ('ISTP'), including connections to outfall delivery facilities.

This ISTP is being developed by a consortium of Miahona Company (lead), Marafiq, and N.V. Besix S.A. for its off-taker, the Saudi Water Partnership Company ('SWPC'). SWPC is the principal off-taker for water and wastewater projects in the Kingdom of Saudi Arabia.

An ISO 9001 Company

WABAG, early this year secured Engineering and Procurement ('EP') order of a 20 MLD Industrial Wastewater Treatment Plant ('IWWTP') at Ras Tanura Refinery Complex, the Kingdom of Saudi Arabia, where Miahona Company is the project developer. WABAG's excellent track record with Miahona Company and solid reputation in the Middle East spanning over four decades coupled with a technically superior proposal were key factors in securing this repeat order from Miahona Company Consortium. WABAG has been active in Saudi Arabia for decades, building and operating water and wastewater treatment plants. This new order further strengthens its portfolio in the region.

The EPC consortium for this project comprises of WABAG and Mutlaq Al-Ghowairi Contracting Company ('MGC'). WABAG as the Technology Partner and Leader of the EPC Consortium will Design and Build the 200 MLD Independent Sewage Treatment Plant, while MGC will undertake the scope of laying the transmission pipelines and construction of the reservoirs.

This ISTP is part of the Kingdom's 'Vision 2030', which aims to provide reliable sewage treatment services and improve the quality of life for residents in the Kingdom.

Commenting on this order win, Mr. Sivakumar V, Regional Head – Sales and Marketing, said, "We are extremely happy to secure this 200 MLD Independent Sewage Treatment Plant order from our existing client. We express our gratitude to Miahona Company, Marafiq, Besix Group and SWPC for their trust and confidence in WABAG. This state-of-the-art technology order is a testament to our technological superiority and commitment to delivering high-quality solutions worldwide. This order win marks another significant milestone for us in Saudi Arabia and reinforces our leadership position in the Middle East Region."
