Fineotex Strategic Rationale

Fineotex Overview

- **Specialty chemicals** producer with a focus on textiles chemicals
- Successful expansion into the cleaning and hygiene segment
- **Experts in providing technical solutions to customers**
- Attractive industry dynamics with technical barriers to entry and high levels of development and product customization
- Biotex Malaysia spearheads the R&D solutions, application research and product development

Customised Solution

Besides manufacturing specialty chemicals, we also offer customized technical solutions and services through our dedicated focus on R&D activities by our strong alliances with partners and institutions.

This has helped

- In expanding our **new customer acquisition** and **customer** stickiness
- In increasing our **market share** and wallet share
- In reducing customer acquisition cost

The Synergy between the Textile chemical and Cleaning and Hygiene

- Fineotex utilised its fundamental strength in the textile chemical industry to enter the cleaning and hygiene industry
- Numerous chemical compounds that are utilised in the textile specialty segment have potential applications in the cleaning and hygiene segment as well
- This expansion allows Fineotex to diversify its business and revenue streams while leveraging its core competencies
- Its move into the cleaning and hygiene segment aligns with the heightened importance of cleanliness post-pandemic has increased demand for hygiene products
- Fineotex aims to maintain the same standards of quality and performance in its cleaning and hygiene products as its textile chemicals
- We actively encourage sustainability and endeavor to minimise our environmental footprint by fostering collaboration and knowledge sharing between the textile and cleaning and hygiene industries

Tailored solutions across the textile value chain with a focus on realisations

Range of products over several industries - textile, detergent, leather and allied industries

Provide the much-needed exposure for students and help provide practical experience, which will benefit the industry in the long term

Growth in Textile Chemical Industry and Cleaning and Hygiene

Textile Chemical

Growth outlook for Specialty Chemicals

- **Emerging markets** provide companies with the opportunity to produce customized product offerings through expansion and growth
- The sudden growth in demand for niche chemical **products** is projected to influence the **development of** exports in developing countries significantly
- The growth in the Indian specialty chemicals market has been driven by the country's strong process engineering capabilities, low-cost manufacturing capabilities, and abundant manpower

FCL is a leading chemical manufacturer, with a zero liquid discharge system, eco-friendly products, and recognition for promoting sustainable practices

Cleaning and Hygiene

Growth outlook for Cleaning and Hygiene

- The growing consumer awareness of cleanliness and **hygiene** is one of the primary factors driving the market in India
- Indian **government promoting** the need for proper hygiene and cleanliness across residential and commercial spaces is acting as a significant growthinducing factor
- Projected factors such as rising incomes, changing lifestyles and infrastructural developments are expected to drive growth and increase the demand in future

FCL foresees driving the Indian cleaning market, which is scattered and highly unorganized, leading to a lack of strong players in this sector
