US Q1 GDP growth was slower on soft consumer spending

MATTHEW BOESLER
May 30

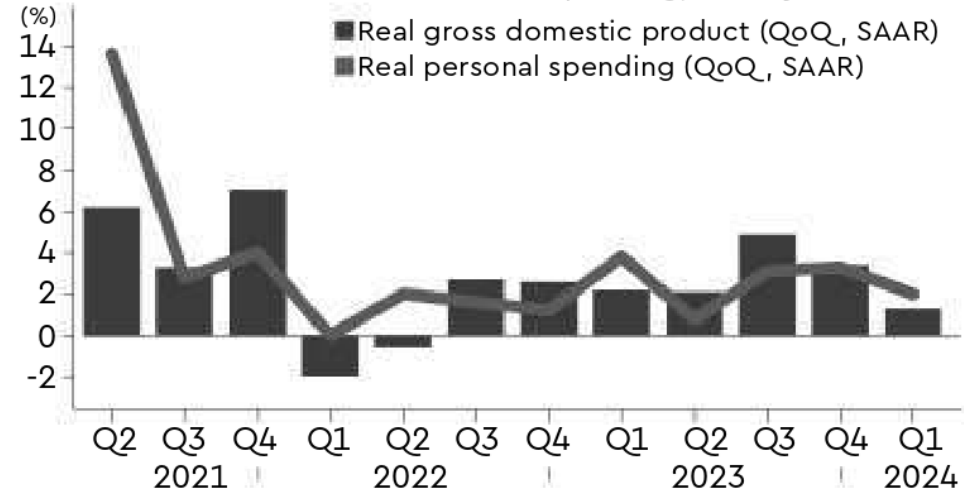

THE US ECONOMY grew at a slower pace in the first quarter than initially reported, primarily reflecting softer consumer spending on goods.

Gross domestic product rose 1.3% annualized in the first three months of the year, below the previous estimate of 1.6%, Bureau of Economic Analysis figures published Thursday showed. The economy's main growth engine — personal spending — advanced 2.0%, versus the previous estimate of 2.5%.

The numbers underscore a loss of momentum to start 2024 after continual upside surprises in 2023. High interest rates, waning pandemic-era savings and slower income growth are some of the key factors weighing on American households and businesses.

US ECONOMY COOLED IN FIRST QUARTER

Revised data showed softer consumer spending, notably on vehicles

Source: Bureau of Economic Analysis/Bloomberg

Consumer spending was marked down as outlays for goods — particularly autos — were much softer.

Federal government spending slowed, while imports picked up compared to the first estimate. Net exports subtracted from growth for the first time in two years.

The downward revision to

consumer spending was partially offset by stronger business and residential investment. A key measure of underlying domestic demand known as final sales to private domestic purchasers rose 2.8%, versus the initially reported 3.1% increase. Economists have pointed to the strength in this metric as

reason to believe that demand is still strong, even if the headline GDP figure looks weak by comparison.

Alongside its second estimate of GDP, the BEA also publishes data on gross domestic income, its other main measure of economic activity. GDI rose 1.5% in the first quarter, according to the report.

GDP measures spending on goods and services, whereas GDI measures income generated and costs incurred from producing those same goods and services. The GDI data include figures on corporate profits. In the first quarter, adjusted pre-tax profits fell 0.6%, the first decline in a year.

After-tax profits as a share of gross value added for non-financial corporations, a measure of aggregate profit margins, were little changed at 15.2%. —**BLOOMBERG**

Musk ready to testify in SEC probe over Twitter stock disclosures

REUTERS
New York, May 30

ELON MUSK HAS settled his latest legal fight with the US Securities and Exchange Commission by agreeing to testify for the regulator's probe into his 2022 acquisition of social media site Twitter, according to a Thursday court filing.

Musk and the SEC have agreed on an undisclosed date when the Tesla CEO will undergo questioning, they said in court papers. Musk also agreed not to appeal the court decision that ordered him to comply with the agency's subpoena.

The SEC sued Musk in October to compel him to testify after he refused to attend a September interview for the investigation. The billionaire said the SEC was trying to "harass" him through unwarranted investigations.

The probe concerns whether Musk broke federal securities laws in 2022 when he bought stock in Twitter, which he later renamed X. It is also reviewing statements and SEC filings he made in relation to the deal, the agency has previously said.

Rafah raid fallout: Israel lifts food sale ban in Gaza

Ramallah, May 30

THE ISRAELI MILITARY has lifted a ban on the sale of food to Gaza from Israel and the occupied West Bank as its battlefield offensive chokes international aid, according to Palestinian officials, businessmen and international aid workers.

Army authorities gave Gazan traders the green light to resume their purchases from Israeli and Palestinian suppliers of food such as fresh fruit, vegetables and dairy goods this month, days after Israeli forces launched an assault on the enclave's southernmost city of Rafah, the people said.

The offensive against Rafah, a key gateway into Gaza from Egypt, has effectively halted the flow of UN aid to the devastated Palestinian territory.

UNCONDITIONAL EU NOD KKR's \$24-bn Telecom Italia deal approved

REUTERS
Brussels, May 30

US INVESTMENT FIRM KKR secured unconditional EU antitrust approval on Thursday for its 22-billion-euro (\$24 billion) acquisition of Telecom Italia's (TIM) fixed-line network.

The deal is significant as it marks the first time that a big telecoms operator in a major European country is divesting its landline grid, potentially paving the way for others to follow suit.

The European Commission's announcement confirmed a Reuters' story last week. "The Commission investigated the impact of the transaction on the market for wholesale broadband access services in Italy and concluded that it would not significantly reduce the level of competition," the EU executive, which also acts as the EU antitrust watchdog, said.

KKR has sought to address concerns of Telecom Italia's rivals about those rivals' existing contracts put in place after the creation of Fiber-

WeWork cleared to exit bankruptcy

A US BANKRUPTCY judge on Thursday approved WeWork's Chapter 11 bankruptcy plan, allowing the shared office space provider to eliminate \$4 billion in debt and hand the company's equity over to a group of lenders and real estate technology company Yardi Systems. Flexible workspace provider WeWork expanded at breakneck speed but racked up steep losses on its over-extended real estate portfolio before filing for bankruptcy protection in November 2023. —**REUTERS**

Cop, Telecom Italia's last-mile grid unit, and has offered a pledge to keep them on the same terms and prices, people with direct knowledge of the matter have told Reuters. This informal remedy has also allayed EU worries, they said.

The Commission said a master services agreement (MSA) that will govern the relationship between NetCo (the grid acquired by KKR) and TIM post-transaction is not an integral part of the transaction, as it is not an agreement through which KKR acquires control over NetCo.

Some rivals including Vodafone had voiced concerns about the master services agreement. TIM's landline network covers nearly 89% of households in Italy and its fibre and copper cables stretch over 2.3 million kms (1.4.3 million miles). The grid sale is part of a government-backed plan to cut Telecom Italia debt.
