Gateway Distriparks Launches Double Stack Rail Services at ICD Faridabad

04.11.2024 Mumbai/Delhi - Gateway Distriparks Limited (GDL), a leading multimodal logistics company in India, has launched Double Stack Rail services at its Inland Container Depot (ICD) in Faridabad. This milestone marks ICD Faridabad as the first and only location in the region to offer Double Stack services, providing a significant competitive advantage with direct connectivity to major seaports such as Mundra, Pipavav, and Nhava Sheva via the Western Dedicated Freight Corridor (WDFC).

This strategic enhancement establishes Gateway Distriparks as a pioneer in the logistics sector, offering a first-mover advantage. With the addition of ICD Faridabad, GDL now operates Double Stack services at three hubs, including its ICDs in Gurgaon and Viramgam, all connected through the WDFC. The introduction of Double Stack Rail services at ICD Faridabad will enhance the carrying capacity, improve the productivity of GDL's 34 trainsets, and facilitate container movement from its other ICD locations.

The development provides substantial benefits to exporters and importers across Delhi NCR, Haryana, Uttar Pradesh, and nearby regions. With up to 30% more capacity per trip, Double Stack services help optimize freight costs, streamline operations, and reduce delivery times. By boosting supply chain reliability and reducing the carbon footprint associated with transportation, the new service will contribute to sustainable economic growth in the area. Gateway Distriparks expects to lower carbon emissions aligning with the company's commitment to environmental responsibility.

Mr. Prem Kishan Dass Gupta, Chairman & Managing Director – Gateway Distriparks, commented: *"The launch of Double Stack Rail services at ICD Faridabad reinforces our leadership in logistics innovation and efficiency. It reflects our commitment to enhancing supply chain reliability for our customers while promoting a more sustainable and efficient logistics ecosystem. We are confident that this strategic move will significantly benefit our customers by reducing transit times and logistics costs, ultimately contributing to the growth of the region's trade."*

About Gateway Distriparks

Gateway Distriparks has a network of 10 container terminals strategically located across the country, operating a fleet of 34 trainsets along with 560+ trailers for transportation between its facilities and maritime ports, as well as first & last mile connectivity to provide end to end solutions to the EXIM industry. The company offers general & bonded warehousing, rail & road transportation, container handling services and other value added services. Through Snowman Logistics Limited, its associate company, the company offers also cold chain logistics and 5PL distribution services across the country.
