- b) The members may please visit the Company's Website: <u>www.naclind.com</u> to find more information about the Company.
- c) The Ministry of Corporate Affairs, Government of India has taken a "Green Initiative in the Corporate Governance' by allowing paperless compliance by the Companies and has issued circulars stating that service of notice/documents including Annual Report can be sent by e-mail to its Members. To support this Green Initiative of the Government in full measure, members who have not registered their e-mail addresses, so far, are requested to register their e-mail addresses, in respect of electronic holdings with the Depository through their concerned Depository

Participants. Members who hold shares in physical form are requested to register their e-mail addresses by submitting the e-mail Registrations Form attached with this Annual Report.

- d) Members holding shares in dematerialized form are requested to intimate all changes pertaining to their bank details, National Electronic Clearing Service (NECS)/National Electronic Fund Transfer (NEFT), Electronic Clearing Service (ECS), mandates, nominations, power of attorney, change of address, change of name, e-mail address, contact numbers etc., to their Depository Participant (DP). Changes intimated to the DP will then be automatically reflected in the Company's records which will help the Company and the Company's RTA, to provide efficient and better services. Members holding shares in physical form are requested to intimate such changes to RTA.
- e) In terms of the SEBI Listing Regulations, securities of listed companies can only be transferred in dematerialized form with effect from April 01, 2019, except transmission or transposition of shares. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting their holding to dematerialized form. Members can contact the Company or RTA of the Company for assistance in this regard.
- f) The Securities and Exchange Board of India ('SEBI') has mandated the submission of Permanent Account Number (PAN) by every participant in the securities market. Members holding shares in electronic form are therefore, requested to submit their PAN details to their respective Depository Participants. Members holding shares in physical form are requested to submit their PAN details to the Company or its RTA.

#### g) Updation of PAN and other details:

SEBI vide its Circular dated March 16, 2023 mandated furnishing of PAN, KYC details (i.e. postal address with pin code, email address, mobile number, bank account details) and Nomination details by holders of physical securities. It may be noted that any service request or complaint can be processed only after the folio is KYC compliant. In terms of the above Circular, folios of physical shareholders wherein any one of the above said details such as PAN, email address, mobile number, bank account details and nomination are not available, are required to be frozen with effect from October 1, 2023 and such physical shareholders will not be eligible to lodge grievance or avail service request from the RTA of the Company and will not be eligible for receipt of dividend in physical mode. Further, Shareholders holding shares in physical form are requested to ensure that their PAN is linked to Aadhaar to avoid freezing of folios. Such frozen folios shall be referred by RTA/Company to the administering authority under the Benami Transactions (Prohibitions) Act, 1988 Prevention of Money Laundering Act, 2002, after December 31, 2025. Members holding shares of the Company in physical form are requested to go through the requirements hosted on the website of the Company and furnish the requisite details. Members are also requested to intimate changes, if any, pertaining to their name, postal address, email address, mobile number, PAN, registration of nomination, power of attorney registration, bank mandate details, etc. to their DPs in case the shares are held in electronic form

and to the RTA in case the shares are held in physical form, quoting their folio number. Changes intimated to the DP will then be automatically reflected in the Company's records.

h) To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company of any change in address or demise of any Members as soon as possible. Periodic statement of holdings should be obtained from the concerned DP and holding should be verified from time to time.

#### 13) Listing Fees:

The Company has paid the Listing Fees for the year 2024-25 to BSE Limited (BSE) and National Stock Exchange of India Limited (NSE), the Stock Exchange(s) where the Company's shares are listed.

#### 14) THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

**Step 1**: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

**Step 2:** Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- i) The voting period begins on Sunday, September 22, 2024 (9.00 a.m.) and ends on Tuesday, September 24, 2024 (5.00 p.m.). During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Friday, September 13, 2024 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.

iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

**Step 1**: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/ CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to abovesaid SEBI Circular, Login method for e-Voting and joining virtual meetings for Individual shareholders holding securities in Demat mode CDSL/NSDL is given below:

| Type of shareholders                                                               | Log | jin Method                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

#### Item No.4:

Mr. Raj Kaul was appointed as a Non-Executive and Non-Independent Director, effective May 05, 2023. Subsequently, the Company has entered into a Business Advisory Agreement with Mr. Raj Kaul for a period of three years effective from May 05, 2023. Under this agreement, Mr. Raj Kaul will receive an advisory fees not exceeding USD 75,000 (approximately ₹60 lakh per annum), in addition to fee payable to him for attending the meetings of the Board or Committees thereof, plus reimbursement of travel, out of pocket expenses and incidental expenses along with applicable taxes, at the 36<sup>th</sup> Annual General Meeting of the Company held on September 22, 2023, the members had approved the same.

As per Regulation 17(6)(ca) of the SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations, 2018, a listed entity is required to obtain the approval of members of the Company every year by way of Special Resolution for payment of remuneration to a single Non-Executive Director exceeding 50% of the total remuneration payable to all Non-Executive Directors of the Company.

In this regards, the Company is availing the advisory services from Mr. Raj Kaul and the remuneration being proposed to be paid to him is on par with the fee for advisory services rendering by other professionals holding similar industry specific qualification, experience and knowledge. As the remuneration payable to Mr. Raj Kaul in the Financial Year 2024-25 is likely to exceed fifty percent of the total annual remuneration payable to all Non-Executive Directors of the Company, consent of the Members is accordindly sought for passing a Special Resolution as set out at Item No. 4 of the Notice. The Board also commends the said resolution.

Save and except Mr.Raj Kaul himself and his relatives, to the extent of their shareholding interest, if any, in the Company, none of the other Directors/Key Managerial Personnel of the Company/ their relatives are in any way concerned or interested financially or otherwise, in the resolution set out at the Item No. 4 of the Notice.

#### Item No. 5

The Members may note that pursuant to SEBI's amendment dated July 15, 2023, applicable with effect from April 1, 2024 read with Regulation 17(1D) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the continuation of a Director serving on the Board of Directors of a listed entity shall be subject to the approval by the Members at a general meeting at least once in every five (5) years from the date of their appointment or reappointment, as the case may be.

#### **Performance Overview:**

After achieving record turnover growth for the past four consecutive years, the company faced a contraction in the year under review. The consolidated revenue reached ₹ 1,78,729 lakhs, reflecting a 16% decline compared to the previous year's revenue of ₹ 2,12,550 lakhs. On the profitability front, the company encountered a loss before exceptional items and taxes, amounting to ₹ (7,630) lakhs for the year under review. This marks a significant drop from the previous year's profit of ₹ 12,841 lakhs. Furthermore, the company's financial performance deteriorated into a net loss after tax, with this year's loss standing at ₹ (5,889) lakhs, compared to a profit of ₹ 9,487 lakhs in the previous year. This downturn in performance is primarily attributed to navigating through significant headwinds in the Crop Protection sector amidst a storm of challenges.

#### **Transfer to Reserves**

The Company has not transferred any amount to the General Reserve during the year under review.

#### **Dividend & Dividend Distribution Policy:**

The Directors have not recommended any dividend for the year under review.

As per Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'), the Company has adopted a Dividend Distribution Policy and the same is available on the website of the Company at <u>https://naclind.com/wpcontent/uploads/2023/02/</u> Dividend-Distribution-Policy.pdf.

#### **Domestic Markets:**

NACL's domestic retail business empowers Indian farmers with sustainable and affordable crop protection solutions. Over the past three years, the company's retail business has grown at a CAGR of approximately 18% (compared to industry's growth rate of 6% to 7%) leveraging its strong brand equity, a large field force, and an extensive distribution network across India. In FY 2023-24, our team embraced a farmer-centric approach, educating them through comprehensive field marketing programs and fostering a win-win environment. We are also committed to building long-term, sustainable relationships with key channel partners through dealer club programs.

During the monsoon season (June-September) of 2023, India received 94% of its Long-Period Average (LPA) rainfall. While the forecast predicted  $96\% \pm 4\%$  of the LPA, actual rainfall was close to the forecast. However, uneven rainfall distribution and prolonged dry spells affected sales. Additionally, the 2023 Northeast Monsoon brought varied rainfall patterns, ranging from near-normal to below-normal, with some areas experiencing heavy rainfall events.

Despite all the challenges, the Company has achieved domestic sales of ₹ 1,35,689 lakhs (out of which domestic retail sales are ₹ 85,896 lakhs) for the year under review against ₹ 1,25,395 lakhs (out of which domestic retail sales were ₹ 83,755 lakhs) in the previous year, a growth of about 8%. This growth can be attributed to our consistent efforts in enhancing field marketing activities, introducing new products, focusing on key account management, implementing supportive trade policies, and strengthening our sales and marketing team.

#### Insecticides:

During the year under review, the domestic retail business in the insecticides category achieved a revenue of ₹48,715 lakhs, compared to ₹ 48,834 lakhs in the previous year.

The insecticides market in India for 2023-24 saw significant growth due to major pest outbreaks, such as fall armyworm in maize, whitefly in cotton, and brown planthopper in paddy. Erratic climate patterns, including unpredictable rainfall and temperature fluctuations, particularly affected regions like Punjab and Haryana, further exacerbating these issues.

In response to these challenges, we launched two new products: "Bushi," designed to combat mite infestations, and "Suraksha SC," aimed at controlling lepidopteran pests. Bushi has been highly effective against mite outbreaks in crops such as tea and vegetables, while Suraksha SC has provided critical relief against lepidopteran pests in cotton and pulses. These products underscore our commitment to delivering advanced, targeted solutions to support farmers as they navigate evolving agricultural challenges.

#### **Herbicides:**

The domestic retail business in the herbicide category achieved a revenue of  $\gtrless$  16,445 lakhs during the year under review, compared to  $\gtrless$  16,287 lakhs in the previous year.

The herbicide product line is experiencing rapid growth in the Indian market, driven by increasing adoption among farmers who aim to reduce costs and address challenges related to labor availability. This trend is expected to continue, encouraging us to expand our portfolio across key crops such as paddy, sugarcane, maize, wheat, and soybean. This strategic expansion is reflected in the significant growth of our herbicide product line over the past year. Furthermore, the Company successfully launched two new products, "Rozzer" and "Temboguard," which are combination solutions designed to effectively control weeds in maize crops.

#### Fungicides:

The fungicide category within the domestic retail business generated a revenue of ₹ 16,809 lakhs during the year under review, an increase from ₹ 15,502 lakhs in the previous year.

Despite relatively low demand for fungicides due to favorable weather conditions for crops like grapes, chili, potato, and tomato, the Company experienced notable growth. This success was driven by a strong product portfolio and effective marketing activities. Additionally, the Company expanded its offerings with the introduction of a new product, "Teeka," designed to combat downy mildew in grapes and late blight in potatoes and tomatoes.

#### **Plant Growth Regulators:**

The PGR/Bio Stimulant category within the domestic retail business achieved a revenue of ₹3,926 lakhs for the year under review, compared to ₹3,132 lakhs in the previous year, registering a growth of approximately 34%. This remarkable increase can be attributed to the superior performance of the products and vigorous marketing efforts.

#### **International Market:**

The agrochemical industry faced significant challenges in 2023-24, grappling with high-priced inventory and continuous price declines that made it difficult for buyers to stock confidently or set stable selling prices. This adverse environment led to a 1.9% contraction in the global crop protection market, shrinking from \$80.5 billion to \$78.9 billion. The Middle East and Africa were the hardest hit, experiencing a sharp 7% decline, followed by Asia at 4%, North America at 2.2%, and Latin America at 0.7%. Europe was the only region to show growth, with a modest increase of 2%. Major multinational companies struggled due to reduced demand, exacerbated by high inventory levels and slower stock replenishment by distributors. Persistent price drops compelled these Companies to implement strict cost controls and improve sourcing efficiencies. A notable indicator of the industry's difficulties is the paradox where volume growth occurred, but sales revenue declined as prices stabilized at levels seen in 2021-22.

In response to these challenging market conditions, NACL embarked on a strategy to develop dual growth engines aimed at strengthening its international operations and reducing the risks associated with over-reliance on a single segment. The first growth engine focused on continuing the Key Accounts business, which primarily involves supplying active ingredients to large multinational corporations (MNCs) globally. Concurrently, the company launched a targeted effort to build a portfolio of registrations with national importers in key markets across Asia, Africa, and Latin America. This approach was designed to expand beyond active ingredients to include both generic and differentiated formulations, catering to regional and national players.

Despite strategic initiatives, NACL faced challenges in the international market during FY 2023-24. International sales revenue shrinking to nearly half of the previous year's figures, totaling ₹40,184 Lakhs. This decline was primarily attributed to reduced demand from key accounts due to minimal restocking by channels in major markets and decreased sales of high-value products. Additionally, there was a substantial drop in demand for one of the company's high-value products, Propiconazole, which saw significant declines in both price and volume across key markets such as the U.S., Australia, and Eastern Europe.

However, there were promising developments. The new growth engine, focusing on the export of formulations and active ingredients to national players in Asia and Africa, delivered encouraging results, with a remarkable 250% increase in volume and a 150% rise in sales revenue. Furthermore, the company successfully obtained approvals for over 25 new registrations during the fiscal year.

Looking forward, NACL remains optimistic that both growth engines will drive future expansion. The company plans to introduce new active ingredients and intermediates to its key accounts while scaling up volumes with national importers as more registrations for its generic and differentiated formulations are secured.

By pursuing this dual strategy, NACL is positioning itself to navigate the challenging market environment effectively and capitalize on new opportunities for sustained growth.

#### **Plant Operations:**

The Srikakulam technical plant witnessed an annual production of 9,392 MT during the year under review, a decrease from 10,290 MT in the previous year. Despite significant improvements in productivity and asset utilization in previous years, the drop in fungicide demand impacted overall output. Nevertheless, the plant continued to implement initiatives aimed at energy conservation, effluent reduction, and cost savings. The Zero Liquid Discharge facility operated efficiently throughout the year.

Ethakota formulation unit has been able to satisfactorily meet the market demand effectively with a production of 33,096 MT/KL during the year under review, 38% higher than the previous year's production of 24,002 MT/KL. This unit has been actively engaged in debottlenecking, enhancing productivity, and maintaining high standards of safety and quality.

Safety, quality and overall efficiency improvements remain key priorities across all manufacturing facilities. Both units have fostered a positive working environment, leading to improved productivity and strong relationships at all levels.

#### **Credit Rating:**

The CRISIL Ratings Limited (CRISIL) vide the letter dated July 23, 2024 has assigned the rating for the Long-Term Bank facilities and Short-Term Bank facilities of the Company, the details of which are given herein below:

- a) Long-term Bank facilities: CRISIL A-/Negative(Outlook revised from 'Stable'; Rating Reaffirmed); and
- b) Short-term Bank facilities: CRISIL A2+(Reaffirmed).

#### **Fire Insurance Claim:**

In relation to the appeal filed by The Oriental Insurance Company Limited against the Arbitration Award in favor of the Company, the Company has submitted Execution Petitions to the Hon'ble High Court of Delhi. These petitions seek the deposit of awarded amounts for Material Damage (MD) Claim of ₹1,649 lakhs (including interest) and Business Interruption Policy Claim: ₹1,277 lakhs (including interest). The Hon'ble High Court of Delhi, through orders dated March 19, 2021, and April 09, 2021, directed the Insurance Company to deposit the awarded amounts, including interest up to the date of deposit, with the Court. During the financial year 2021-22, the Court released the deposited amounts to the Company following the submission of equivalent bank guarantees.

As the matter remains sub-judice and based on legal counsel's advice, the Company has not recognized the received deposit amount or any associated interest costs, if any in the books of account.

- 2) Nagarjuna Suraksha GR Chlorantraniliprole 0.4% GR
- 3) Teeka Cyazofamid 34.5% SC
- 4) Temboguard Tembotrione 34.4 SC
- 5) Rozzer Topramezone 336 g/L

#### **Research & Development:**

At the R&D Centre in Shadnagar, near Hyderabad, product development and process improvement innovations are being driven with a focus on the process development of active ingredients (Als) and intermediates for herbicides, insecticides, and fungicides, as well as their formulations. In alignment with the 'Make in India' initiative, processes are being advanced for various generic products, which are at different stages of development.

The R&D facilities in Hyderabad, along with the Quality Control Lab in Srikakulam and Ethakota, have achieved significant milestones, receiving the ISO 17025:2017 Certificate of Accreditation from the National Accreditation Board for Testing and Calibration of Laboratories (NABL). These facilities are also recognized by the Department of Scientific and Industrial Research (DSIR), Government of India.

A key area of R&D efforts is the development and registration of novel formulation products. It is noteworthy that GLP certification was obtained in 2021, allowing the conduction of studies that support global registration, particularly in Africa and Southeast Asia. This GLP certification was successfully renewed in the year under review and is valid until 2027.

The R&D Centre plays a pivotal role in facilitating both domestic and international product registrations through rigorous testing and comprehensive documentation. To date, 518 registrations have been secured within India and 120 for export markets.

#### **Environment Protection and Sustainability:**

The Company continues to uphold high standards in environmental management, with its manufacturing facilities operating well within the stipulated norms, owing to the efficient operation of the Zero Liquid Discharge (ZLD) facilities at Srikakulam and Ethakota. The Srikakulam manufacturing site is equipped with online effluent and emission monitoring devices that continuously upload data to the Pollution Control Board's website, ensuring transparency and compliance. Both sites have also expanded the plantation areas within the factory premises, further contributing to environmental sustainability.

The Company maintains its commitment to excellence in quality, environmental, safety, and health management systems, as evidenced by its certifications: ISO 9001:2015 for Quality Management, ISO 14001:2015 for Environmental Management, and ISO 45001:2018 for Occupational Health and Safety Management Systems. Additionally, both the Srikakulam and Ethakota units are accredited by the National Accreditation Board for Testing and Calibration of Laboratories (NABL), affirming their adherence to stringent standards.

#### **Responsible Care (RC):**

Your Company has successfully implemented the Responsible Care 7 Codes of Management Practices across all its sites

and has secured the recertification of the RC Logo from the Indian Chemical Council (ICC) for another three years. This achievement underscores the Company's commitment to the safe and sustainable management of chemicals and processes, demonstrating our adherence to the highest standards of environmental, health, and safety practices in the chemical industry.

#### **Energy Efficiency and Emission Reduction:**

Your Company has made significant strides in adopting energyefficient technologies at both the Ethakota and Srikakulam sites, resulting in a marked reduction in operational costs and carbon emissions. At the Ethakota site, the transition from diesel to LPG for boiler fuel, and at the Srikakulam site, the shift from furnace oil to LPG for incineration and hot oil systems, have collectively resulted in an impressive 50% cost savings compared to the previous year's expenses. Additionally, these changes have significantly reduced carbon emissions, demonstrating your Company's commitment to sustainable practices.

On an organization-wide level, there have been notable improvements in specific consumption metrics:

- Specific Energy Consumption: Increased by only 0.02% in FY 2022-23 and then significantly decreased by 28.75% in FY 2023-24.
- Specific Power Consumption: Rose by 5.48% in FY 2022-23 and further decreased by 25.18% in FY 2023-24.
- Specific Water Consumption: Decreased by 3.05% in FY 2022-23 and further reduced by 4.82% in FY 2023-24.
- Specific Carbon Emissions: Slightly increased by 0.35% in FY 2022-23, followed by a substantial reduction of 19.20% in FY 2023-24.
- Specific Hazardous Waste Generation: Increased by 18.06% in FY 2022-23, but subsequently decreased by 21.44% in FY 2023-24.

These initiatives reflect our commitment to sustainable practices and our continuous efforts to optimize resource usage and reduce environmental impact.

#### Water Conservation and Reuse:

Your Company's commitment to responsible water management is demonstrated through the implementation of water harvesting systems at all sites. Rainwater is effectively collected and stored for reuse, primarily for plantation and utility purposes, ensuring efficient water usage and sustainability.

#### **Health and Safety:**

The Company's Environment, Health, and Safety (EHS) and Sustainability team is dedicated to fostering a culture of safety and environmental awareness at all our plants. To enhance safety consciousness, the team regularly organizes events such as National Safety Week, World Environment Day, Fire Service Week, and Electrical Safety Week. Additionally, it keeps employees informed and engaged through EHS newsletters, safety flashes, safety contacts, and cautionary notes.

In the year under review, the Company introduced initiatives such as Suraksha Sammelan and the Safety Monthly Star program to recognize and reward outstanding safety practices across all sites. These initiatives are designed to motivate our workforce and reinforce our commitment to maintaining a safe and healthy working environment.

## **Management Discussion and Analysis Report**

## **Economic Overview:**

## **Global Economy:**

The global economy continues to recover gradually from the impacts of the pandemic and geopolitical global tensions such as the Russia-Ukraine war. While there are signs of progress, the pace of recovery remains slow. The conflict have lead to disruptions in global supply chain, financial constraint, and a spike in prices of critical commodities.

Global economic growth is projected at 3.1% in 2024 and 3.2% in 2025, supported by stronger-than-expected resilience in the US, emerging markets, and fiscal support in China. However, this growth rate remains below the 2000–19 average of 3.8% due to restrictive monetary policies, reduced fiscal support, lower productivity growth and increasing geopolitical fragmentation.

Advanced economies are expected to see growth dip slightly from 1.6% in 2023 to 1.5% in 2024, before rising to 1.8% in 2025, driven by stronger US growth offsetting weaker performance in the Euro area. The Euro area is anticipated to recover from 0.5% growth in 2023 to 0.9% in 2024 and 1.7% in 2025 as inflation eases and household consumption strengthens.

Emerging markets and developing economies are forecasted to grow by 4.1% in 2024 and 4.2% in 2025, reflecting upward revisions in several regions. Global inflation is expected to decline from 6.8% in 2023 to 5.8% in 2024 and 4.4% in 2025, with advanced economies experiencing faster deflation compared to emerging markets.

The key challenge for most economies is managing inflation while adjusting monetary policy as wage and price pressures ease. Renewed focus on fiscal consolidation and structural reforms are crucial for boosting productivity, ensuring debt sustainability, and addressing future economic shocks. Enhanced multilateral coordination will be essential for debt resolution and mitigating climate change impacts.

#### Indian Economy:

In FY24, the Indian economy grew by 8.2% in real terms, building on the previous two years' momentum of 9.7% and 7.0%. This growth highlights India's resilience and dynamism. The inflation rate is largely controlled, though specific food item prices remain high. Agriculture and allied sector GVA growth slowed to 0.7% from 4.7% due to uneven monsoon rainfall, prompting government measures to stabilize food supply and mitigate inflation.

The trade deficit has decreased from FY23, with the current account deficit at a manageable 0.7% of GDP. India's robust growth continued into FY24, positioning it as the fifth-largest economy globally, surpassing the UK. Nominal GDP growth for FY2023-24 is projected at 9.6%, down from 14.2% the previous year, driven by strong domestic consumption, investment demand, and capital expenditure.

The Reserve Bank of India (RBI) forecasts a 7% real GDP growth rate for 2024-25, supported by recovering rural demand and a strong growth manufacturing sector. Inflation is managed with the Consumer Price Index (CPI) at 5.4%, down from 6.7% the previous year. The World Economic Outlook projects India's growth at 6.8% for 2024-25 and 6.5% for 2025-26.

The 2023-2024 Union Budget emphasizes "Amrit Kaal" through seven priorities, or "Saptarishi," focusing on inclusive development,

expanded social welfare, infrastructure investment, startup support, green growth, youth empowerment, and financial sector strengthening. It includes initiatives for social welfare, healthcare, education, digital connectivity, and modernizing agriculture.

## **Agriculture Sector**

## **Global Agriculture Landscape:**

The global agriculture sector is undergoing significant transformation due to climate change, resource scarcity, and volatile commodity prices. With the global population projected to reach 10 billion by 2050, agricultural output must increase by 70% over the next three decades to meet rising demand. This requires a shift towards sustainable farming practices and the adoption of advanced technologies.

As of 2023, global crop production for key commodities has remained steady. Wheat production stood at 789.0 million metric tons for both 2022-23 and 2023-24. Coarse grains production increased from 1,451.5 million metric tons in 2022-23 to 1,500.2 million metric tons in 2023-24. Rice production rose from 515.8 million metric tons in 2022-23 to 520.9 million metric tons in 2023-24. Oilseeds production grew from 637.8 million metric tons in 2022-23 to 657.2 million metric tons in 2023-24, while cotton production slightly decreased from 116.4 million metric tons in 2022-23 to 113.7 million metric tons in 2023-24. Regions such as Asia, Europe, and North America continue to play crucial roles in global production, with Asia particularly significant in rice and wheat.

The precision farming market, valued at USD 9.7 billion in 2023, is projected to grow at a CAGR of 14% through 2030. The agricultural drone market, expected to reach USD 7.6 billion by 2028, is expanding at an annual rate of 15.8%. Investment in AgriTech surged to over USD 60 billion in 2023, driven by efforts to develop climate-smart solutions and sustainable practices.

Emerging markets in Asia and Africa are at the forefront of agricultural modernization. Africa's agricultural production is anticipated to rise by 65% by 2030, while Asia is increasingly using mobile platforms for real-time agricultural data. In India, the use of mobile-based platforms grew by 35% in 2023, aiding farmers in decision-making and improving yields.

Addressing food loss and waste, which accounts for nearly 30% of produced food, is critical for achieving global food security. Effective management of food waste could recover enough food to feed 1.26 billion people, essential for meeting future food needs. Agriculture remains vital for poverty reduction, with sector growth significantly improving incomes among the poorest, underscoring the need for continued investment in agricultural development.

#### Indian Agriculture Landscape:

Agriculture plays a vital role in India's economy, with 54.6% of the total workforce engaged in agriculture and allied sector activities. The Agriculture and Allied sector accounts for 18.4% of India's Gross Value Added (GVA) at current prices during 2022-23. The Indian agriculture sector is expected to grow at a CAGR of 7.5% from 2023 to 2028, supported by government initiatives, improved infrastructure, and advancements in agricultural technology.

The Indian agriculture sector has experienced steady growth over the past five years, with an average annual growth rate of 4.2%. However, FY24 estimates reveal a significant slowdown to a seven-year low of just 1.4%. This decline highlights deeprooted challenges, particularly in rural areas where demand has remained sluggish due to low incomes and high inflation. In June 2023, rural inflation stood at 5.7%, while food inflation surged to 9%, straining the purchasing power of rural households and impacting the demand for essential goods, including Fast-Moving Consumer Goods (FMCG). The adverse effects of climate change, such as unseasonal rains and heat waves, have further aggravated food inflation and undermined agricultural productivity. Additionally, rural real wage growth has been minimal or even negative over the past decade, contributing to the financial strain on rural communities.

Recognizing the critical role of agriculture in India's development, the government has prioritized revitalizing the sector in its recent budget, aligning with the broader goal of achieving "Viksit Bharat" by 2047. The agriculture and allied activities budget allocation increased from approximately INR 1.41 trillion in FY24 to INR 1.52 trillion in FY25. Key initiatives include promoting natural farming, launching new crop varieties, initiating a pulses and oilseeds mission, enhancing vegetable production, strengthening supply chains, and developing digital public infrastructure for agriculture. The agricultural research and development (R&D) allocation is set at around INR 9,941 crore for FY25. However, the success of these initiatives depends heavily on efficient fund utilization implementation. Promoting high-value agricultural and production, adopting inclusive and environmentally sustainable farming practices, and encouraging reforms in marketing and trade are essential for ensuring long-term sustainability. Closer coordination between the central and state governments will be vital to enhancing incomes, livelihoods, and rural growth, with the proposed establishment of an Agriculture Council-similar to the GST Council—offering a potential solution for aligning efforts across states.

In terms of production, India's major agricultural commodities have shown mixed trends. Wheat cultivation saw a significant expansion, leading to a 9.62% increase in production from 104.00 million metric tons in 2022-23 to 114.00 million metric tons in 2023-24. Coarse grains production slightly declined from 56.78 million metric tons in 2022-23 to 56.00 million metric tons in 2023-24. Pulses production remained steady, with a marginal increase from 23.20 million metric tons in 2022-23 to 23.82 million metric tons in 2023-24. Oilseeds production decreased from 34.29 million metric tons in 2022-23 to 31.50 million metric tons in 2023-24. Sugarcane production increased from 348.44 million metric tons in 2022-23 to 350.00 million metric tons in 2023-24. while cotton production grew from 32.49 million bales in 2022-23 to 34.00 million bales in 2023-24. Jute and Mesta production saw a slight increase from 9.60 million bales in 2022-23 to 9.91 million bales in 2023-24. Additionally, the rice production in India increased to 134.00 million metric tons in 2023-24 from 129.47 million metric tons in the previous year, driven by favourable monsoon conditions and enhanced irrigation infrastructure.

The Indian agricultural exports have also seen significant growth. India's agricultural exports are expected to increase by 9% in FY24, supported by strong demand from key markets such as the Middle East, Southeast Asia, and Africa. However, the sector faces challenges in terms of low productivity, inadequate infrastructure, and limited access to credit. In response, the government is implementing initiatives such as the Pradhan Mantri Krishi Sinchai Yojana, Soil Health Card Scheme, and e-NAM to address these challenges and promote sustainable agricultural practices. The Pradhan Mantri Krishi Sinchai Yojana aims to improve irrigation efficiency and expand the irrigated area, while the Soil Health Card Scheme focuses on promoting balanced use of fertilizers and improving soil health. The e-NAM initiative seeks to create a unified national market for agricultural commodities, enhancing transparency and reducing transaction costs for farmers. The success of these initiatives will be crucial in ensuring the long-term growth and sustainability of the Indian agriculture sector.

#### **Global Agrochemical Market**

The global agrochemical market has shown remarkable growth and resilience, reaching a valuation of approximately USD 280 billion in 2023. This sector, crucial for enhancing agricultural productivity and food security, is projected to expand to around USD 350 billion by 2028, growing at a steady CAGR of 5.0%. The global crop protection chemicals market size reached US\$ 92.2 Billion in 2023. Looking forward, IMARC Group expects the market to reach US\$ 134.7 Billion by 2032, exhibiting a growth rate (CAGR) of 4.2% during 2024-2032. The increasing global population, expanding agricultural practices, rising need for higher crop yields, shifting consumer preferences, technological advancements, government support and regulations, and climate change-induced pest pressure are some of the major factors propelling the market.

Among the Crop Protection chemicals, Herbicides dominate the global market, accounting for nearly 45% of the total share, driven by their indispensable role in controlling weed proliferation across various crops. Meanwhile, fungicides are witnessing a surge in demand, especially with the increasing threats posed by fungal diseases, showing a robust CAGR of 8.3%.

Moreover, the insecticides segment, vital for safeguarding crops from pests, was valued at USD 20.46 billion in 2023 and is anticipated to grow significantly, reaching USD 34.74 billion by 2033 at a CAGR of 5.43%. This growth is fuelled by continuous advancements in chemical formulations and integrated pest management strategies. In addition to these segments, the plant growth regulators market has also gained traction, with a promising forecast of reaching USD 4.6 billion by 2029 at a CAGR of 7.2%. These figures underscore the growing global dependence on agrochemicals to sustain agricultural output amid challenges such as climate change and land degradation.

Emerging markets, particularly in regions like Latin America and Asia-Pacific, are driving a significant portion of the demand due to the rapid adoption of modern farming techniques and the increasing pressure on arable land. Governments and private sectors are investing heavily in research and development, enhancing the efficacy of agrochemicals and minimizing their environmental impact. Sustainable practices, biopesticides, and precision agriculture are also playing crucial roles in the evolution of the global agrochemical market.

#### **Indian Agrochemical Market**

India's agrochemical market is experiencing a robust upward trajectory, valued at approximately USD 11 billion in 2023, and is projected to expand to USD 16 billion by 2028, with a healthy CAGR of 7.2%. This growth is driven by the country's dependence on agriculture, which employs nearly 50% of the workforce and contributes around 15% to its GDP. The herbicides market in India, an essential component in managing weeds for crops such as rice and wheat, is poised to grow from USD 2.5 billion in 2023 to USD 3.5 billion by 2028, driven by a CAGR of 7.2%. Additionally, fungicides and insecticides are seeing similar momentum, with expectations for substantial growth in the coming years.

The Indian government's proactive policies have further spurred this growth, with notable investments in agricultural credit and research and development. The allocation of ₹ 20,00,000 crores towards agricultural credit and ₹ 2,500 crores for sector-specific research signals strong governmental support in boosting agrochemical usage and innovation. Furthermore, the Indian agrochemical industry is transitioning towards more sustainable and environmentally friendly solutions, including bio-based agrochemicals and integrated pest management techniques, aligning with global trends.

India also serves as a significant exporter of agrochemicals, with major markets in Asia, Latin America, and Africa. Indian companies are increasingly focusing on backward integration, advanced formulations, and R&D to compete globally. The sector's growth reflects both domestic demand and export potential, making India a pivotal player in the global agrochemical landscape.

## Strengths, Opportunities and Outlook

## Agrochemical Industry's Growth Potential

India ranks as the fourth-largest producer and exporter of agrochemicals globally, with the industry projected to reach \$8.1 billion by 2025, reflecting robust growth across the value chain. The Indian agrochemical market continues to expand, driven by fundamental factors such as increasing domestic demand, rising export opportunities, and strategic collaborations. The off-patent products and introduction of innovative solutions in product development have further boosted industry dynamics.

The sector is poised for continued growth, supported by the following key drivers:

## a) Diversification of Product Portfolio

Insecticides dominate the domestic agrochemical market, accounting for 60% of the demand, followed by fungicides and herbicides. This broadening product spectrum underscores the sector's responsiveness to evolving agricultural needs and highlights its adaptability in addressing different crop protection challenges.

#### b) Driving Efficiency and Competitiveness

The Indian agrochemical industry is experiencing a transformation fuelled by mergers, acquisitions, and strategic investments. These initiatives have bolstered operational efficiencies, reduced costs, and accelerated research and development. This, in turn, enhances the industry's competitiveness, positioning it to meet the changing demands of global and domestic agriculture.

#### c) Untapped Potential in Agrochemical Application

Despite its size, India's agrochemical usage remains relatively low at 0.27 kg per hectare, significantly lagging behind developed economies. This gap presents a substantial growth opportunity for the sector to expand its reach and influence over agricultural practices, particularly in crop protection and enhancing yield across agricultural landscapes in India.

#### d) Government-Led Ecosystem Enhancements

The Indian government's support for the agriculture sector continues to positively impact agrochemical usage and demand. Initiatives focusing on crop diversification, soil health, water management, and climate-resilient farming techniques are creating an environment for sustainable agricultural practices. These measures reduce dependency on traditional agrochemicals while encouraging the adoption of advanced, eco-friendly products.

#### e) Technology-Driven Innovation

Emerging technologies such as precision agriculture, drone-based pesticide application, and digital platforms are revolutionizing the agrochemical industry. These innovations allow for the development of precision technologies and digital services tailored to the needs of modern, tech-savvy farmers, thereby creating new growth avenues. This integration of digital tools such as Al is expected to increase productivity while reducing environmental impact.

## f) Growth of Contract Farming

Contract farming is gaining traction in India, presenting new collaboration opportunities for agrochemical companies. Provisions for contract farming in the Model Agricultural Produce Market Committee (APMC) Act have been adopted by 15 states. This growing practice facilitates consistent demand for agrochemicals and presents a stable platform for partnerships between agribusinesses and farmers.

## g) Rising Foreign Investments

The influx of foreign investment into India's agrochemical sector is introducing cutting-edge technologies and innovations. This strengthens the sector's ability to meet diverse agricultural demands sustainably, while also enhancing the global competitiveness of Indian agrochemical products.

## h) Sustainability and Climate Change Adaptation

The agrochemical industry is increasingly prioritising sustainability, driven by rising environmental awareness and climate change impacts on agriculture. This has led to the development of biopesticides and other eco-friendly solutions that cater to the modern agricultural landscape. As India's agriculture faces the challenges of climate change, the agrochemical sector is innovating resilient solutions, including climate-adaptive products and services, to support sustainable farming practices.

The dynamic nature of India's agrochemical industry necessitates continuous innovation to enhance crop productivity, minimise environmental impact, and meet changing consumer and market demands. While challenges remain, the sector's vast growth potential is undeniable. By adapting to the shifting agricultural landscape and driving innovation, companies in this industry are well-positioned to secure a sustainable and prosperous future.

## Challenges, threat, risk and concerns:

The agrochemical industry in India faces a myriad of complex challenges that shape its growth trajectory and operational landscape. These challenges, which range from regulatory hurdles to environmental concerns, require innovative & strategic responses to adapt sustainable growth within the sector.

## a) Complexity of the Registration Process

A key obstacle to the agrochemical industry's expansion is the complexity and delays associated with the registration process for new molecules. In ever changing environmental conditions these delays contribute to reduction of product life cycle & elongated R&D timelines and increased costs, impacting both profitability and innovation. To address this, a collaborative effort between the industry, government, and regulatory bodies is required to streamline the approval process and facilitate quicker market entry for new products.

b) Cost Competitiveness : Fluctuating unpredictable raw material prices and high production costs, combined with competitive markets, exert significant stress on profit margins. Companies need to manage these cost pressures while maintaining product quality and investing in research and development to stay competitive. Circumvent through this issue requires a combination of supply chain resilience, strategic sourcing, and potential investments in in-house raw material production.

## c) Scaling and Focus Dilemmas

The absence of a reliable contract manufacturing framework

within the Indian agrochemical sector limits scalability. This challenge diverts resources from critical areas such as product discovery, research, and marketing, affecting overall efficiency. Addressing the concerns & contract manufacturing partnerships could unlock scalability, enabling core manufacturing companies to focus on innovation and expansion, ultimately driving growth and operational excellence.

#### d) Safety and Health Concerns

Safety in the agrochemical industry is a critical concern due to unawareness and inadequate facilities during both manufacturing and usage phases. Improper handling of harzardous chemicals exposes workers and end-users, espcially untrained farmers and laborers, to significant health risks. Without proper safety practices, the potential for harm increases throughout the supply chain. To address these challanges, the implementation of stricter safety protocols, enhanced training programs for workers and farmers, and improved access to protective equipments are essential to ensure a safer and more responsible agrochemical industry.

## e) Environmental Impact

The environment impact of agrochemical production and use continues, in-spite of the high cost implementation and maintenance pose challenges for the industry. Adopting air and water pollution control measures, are necessary for compliance with regulatory standards. The erratic weather patterns, such as the unseasonal, unpredictable and and drought causes variation in leads to crop damage and lower pest infestation levels, resulting in decreased demand for agrochemicals. Balancing environmental responsibility with economic viability is essential for the long-term sustainability of the industry.

#### f) Perception and Adoption Challenges

The agrochemical industry grapples with multifaceted perception issues. particularly surrounding the environmental and health impacts of chemical usage. Even though India being the lowest user of pesticides, negative perceptions among consumers and farmers, combined with a lack of training on efficient pesticide use, hinders the adoption of agrochemical products. Limited practical knowledge on optimal application techniques further compounds this issue. Addressing these concerns requires concerted efforts to educate stakeholders on proper usage techniques & the benefits of using correct pesticide at correct dose & correct time and the benefits for agrochemicals and proper usage techniques, as well as promoting sustainable practices.

#### g) Competition from Imported Agrochemicals

India's agrochemical market also faces stiff competition from imported products, which benefit from relatively low import duties. This makes it more cost-effective for foreign companies to sell their products in India, posing challenges for domestic manufacturers. Strengthening local manufacturing capabilities and increasing import duties on agrochemicals may help create a more level playing field for Indian companies.

In conclusion, while the Indian agrochemical industry is poised for substantial growth, addressing these challenges through innovation, regulatory reforms, and strategic partnerships is essential for maintaining momentum. By focusing on sustainability, safety, and operational efficiency, the industry can navigate these obstacles and continue its path toward responsible, long-term growth.

#### **Financial Performance:**

During the year 2023-24, the Revenue from operations 1,78,084 Lakhs reflects an increase of 16% over the previous year. The EBIT and Cash Profit stood at 1,632 Lakhs and ₹ (2,861) Lakhs respectively compared to ₹ 20,777 Lakhs and 12,873 Lakhs. The financial performance of Company in 2023-24 was as under:

## **Industry Outlook and Strategic Path Forward**

The future of the agrochemical industry lies in collaborative efforts aimed at educating farmers on the safe and efficient use of agrochemicals. By enhancing knowledge and promoting responsible practices, the industry has the potential to transform challenges into opportunities, driving sustainable growth.

The agrochemical sector remains integral to Indian agriculture and the national economy. Continued reforms, along with innovations in technology, , marketing, taxation, finance, and the quality of agricultural inputs, are essential for positioning India as a global leader in agriculture and economic progress.

## **Human Resources**

As of March 31, 2024, NACL Industries employed 1399 individuals. The Company fosters harmonious industrial relations and provides employees with opportunities for continual growth. Comprehensive training programs and initiatives are implemented to enhance both individual and team performance, ensuring a motivated and capable workforce.

## **Corporate Social Responsibility**

At NACL, community engagement is a cornerstone of our business. We work closely with local communities to address their needs and enhance their quality of life. Our initiatives in Srikakulam and Ethakota include providing clean drinking water, supporting educational institutions, offering medical assistance, and investing in infrastructure. We consistently engage with residents and authorities to implement impactful community development projects.

## QEHS (Quality, Environment, Health, and Safety)

## Quality:

NACL is a process-driven organisation with comprehensive quality management systems. Our technical formulation manufacturing sites and R&D centres are equipped with state-of-the-art quality control laboratories lead by highly qualified staff and skilled personnel. These facilities adhere to the highest standards of quality, and notable achievements including NABL accreditation for the Srikakulam technical plant, the Ethakota formulation plant and the R&D centre in Shadnagar.

## **Environment:**

Environmental stewardship is a priority at NACL. Going above norms, ~70% of the land of the land at our Srikakulam site is dedicated to green cover, and we encourage visitors to contribute by planting saplings. The site boasts a world-class Zero Liquid Discharge (ZLD) facility, valued at ₹30 crore, which enables full water recycling and efficient effluent management. Our Ethakota unit also features a ZLD system and substantial green cover, playing a key role in preserving the local ecosystem. Plant your own tree" is a unique concept in vogue at R&D and manufacturing sites, with active participation from all the Associates.

## Health:

Our Occupational Health Centres (OHCs) at Srikakulam and Ethakota provide 24/7 medical support. These centres are equipped with emergency beds, medical supplies, and an ambulance. Regular health assessments and preventive checkups are conducted for all employees to ensure their well-being.

## Safety:

Safety is paramount at NACL. Advanced safety infrastructure is in place at critical points across our facilities, with cutting-edge fire detection and prevention systems. The management gives lot of impetus on preventive measures by adapting latest practices in study HARA/HIRAC//HAZOP/SDS and training everyone. We conduct regular safety trainings, simulations, inspections, and audits to ensure compliance with safety protocols. Additionally, we actively involve employees in safety management and hold annual awareness events during Safety Week and Fire Week.

## **Internal Control Systems and Their Adequacy**

The Company maintains a robust internal control system that is continuously reviewed and updated. This ensures the safeguarding of assets, compliance with regulations, and timely resolution of issues. Our Audit Committee rigorously reviews internal audit reports and ensures that any necessary corrective actions are promptly taken. Regular dialogue with internal and statutory auditors ensures the smooth functioning of these systems.

## **Cautionary Statement**

In this annual report, we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other

statements written and oral that we periodically make, contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should kindly bear this in mind. We undertake no obligation to publicly update any forwardlooking statements, whether as a result of new information, future events or otherwise.

## SECTION B: MANAGEMENT AND PROCESS DISCLOSURES

This section is aimed at helping businesses demonstrate the structures, policies and processes put in place towards adopting the NGRBC Principles and Core Elements.

The National Guidelines on Responsible Business Conduct (NGRBC) released by the Ministry of Corporate Affairs has updated and adopted nine areas of Business Responsibility. These are briefly as under:

- P1 Businesses should conduct and govern themselves with integrity and in a manner that is ethical, transparent and accountable
- P2 Businesses should provide goods and services in a manner that is sustainable and safe
- P3 Businesses should respect and promote the well-being of all employees, including those in their value chains
- P4 Businesses should respect the interests of and be responsive to all its stakeholders
- P5 Businesses should respect and promote human rights
- P6 Businesses should respect and make efforts to protect and restore the environment
- P7 Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent
- P8 Businesses should promote inclusive growth and equitable development
- P9 Businesses should engage with and provide value to their consumers in a responsible manner

## Governance, leadership and oversight

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)

We have found that in the long run, investment in becoming more sustainable pays off. Our people, customers and suppliers have responded remarkably well to the changes we have made in our journey rigorous safety standards has ensured that we maintain our leadership position in the industry while upholding our responsibility towards the planet. For the past five years, we have consistently remained a 'zero accident' operation, which, given the industry we operate in, is no mean feat.

We strive for continuous, sustainable improvements, innovations and practices. We will continue to challenge ourselves to disrupt traditional practices and adopt cutting-edge technologies that align with our sustainability goals.

This year we have also published our maiden sustainability report that is a reflection of our accomplishments, our safety systems, and our commitment to become more sustainable. This trust is mirrored by how our stakeholders have supported our sustainability vision and our commitment by adapting and growing with us.

Our growth is a measure of the faith our customers have in us. While we have consistently prioritised improving our production systems and reducing the cost of production through technology adoption, we have also adopted responsible practices for the safe handling and disposal of chemicals and implemented several measures, such as the zero liquid discharge (ZLD) system, at our plants.

We have made hard decisions to become more sustainable, because we believe that we must leave this world a better place than the one we inherited. Our commitment to sustainability thus extends beyond our company to the world.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

Prevention of safety-related incidents is one of our highest priorities. We have an extensive safety programme, which includes formal training for all employees, preventive measures such as pre-job safety analyses and a system aimed at identifying risks, taking corrective actions and preventing incidents. We regularly conduct internal audits of this safety system. Our management team has implemented a structured process for handling, monitoring, documenting and learning from near-miss accidents. We have taken stringent measures to reduce the number of recordable incidents Company wide and the monetary incentives of most employees are linked to fulfilling the Company's safety targets.

## Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

NACL's direct engagement with internal and external stakeholders involves face-to-face and online discussions.

Indirect engagement involves reviewing publications, responses, feedback forms and surveys. Outcomes from the direct and indirect engagement process are reported to the Committees of the Board and respective vertical heads for further action. While a number of circumstances and decisions govern specific stakeholder consultation processes, our internal and external stakeholder engagement follows a broad continuous process.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes. Public hearings held at Srikakulam to inform community about the capacity expansion plans of the Srikakulam plant. Based on community feedback to ensure the environment/groundwater remains protected and local youth are given employment, NACL has budgeted for additional ZLD system, giving 95% local employment during construction phase and 85% local employment in operation phase, post trial period.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation. Yes.

The ZLD treatment process is implemented in all three manufacturing sites to remove all the liquid waste from a system. The focus of ZLD is to treat wastewater economically and produce clean water that is suitable for reuse at the plant for various purposes, such as horticulture. Hazardous waste generated from the processes is scientifically processed at site and what cannot be processed is sent for safe disposal to authorized partners approved by CPCB/SPCBs.

Solid wastes generated from the manufacturing process, solvent distillation, effluent treatment system, DG sets and boilers is sent to cement plants for co-incineration or to the TSDF (Treatment, Storage, and Disposal Facilities) for landfill. Waste oil and used batteries from the DG sets are sent to authorized recyclers. Other solid wastes like containers and empty drums are returned to the product seller or sold to authorized buyers after detoxification. Coal ash from boilers and thermic fluid heater is sold to brick manufacturers.

Functional Head leads this activity and engage the experienced person from the function to carry out this. Against each risks, response strategy and recovery plan are be prepared. Each function carry out the testing of business continuity plan once in a year and record the observations. All the recorded points are discussed in Management Review Committee. Each unit has prepared the disaster management plan in the form of On-site emergency management plan (OSEP).

OSEP is designed based on quantitative risk assessment and HARA (Hazard Analysis and Risk Assessment). It covers all the scenarios such as explosion, fire, toxic gas release etc. OSEP organogram is prepared to execute if required. Roles and responsibilities are assigned to personnel. Adequate resources are maintained in the unit. Periodical mock drills areconducted to assess the gaps.

6. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard.

No significant adverse impact to the environment, arising from the value chain.

We ensure sustainability within the supply chain: The quality of our products is of utmost importance and suppliers are only on boarded after a series of stringent checks to warrant that they are aligned with the expectations of the company. We onboard our suppliers after taking into consideration the required quality, EHS, and sustainability criteria.

We are committed to engaging with our suppliers to help them improve the social and environmental impact of the materials and services they offer. The supplier code of conduct (CoC) and sustainable supply chain questionnaire helps us assess and align our suppliers with core values as they sign up to foster a culture of honesty, accountability, and integrity. The CoC also helps us in integrating sustainability parameters into our supply chain. The CoC covers aspects such as labour rights, anti-bribery and corruption, health and safety, environment, ethics, data privacy, confidentiality, and information protection.

## **Corporate Governance Report**

## A. CORPORATE GOVERNANCE: GUIDING PRINCIPLES

NACL is guided in thought and action by the philosophy of SERVING SOCIETY THROUGH INDUSTRY.

This philosophy is defined by principles of concern, commitment, quality and integrity in all its acts and relationships with all stakeholders in the broadest sense including customers, investors, business associates, lenders, vendors, employees and the community at large, which always inspired and guided the company's thinking and conduct.

# B. PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE:

The Company views Corporate Governance under the following major parameters:-

- Transparency in relation to appointments, remuneration, meetings of the Directors on the Board of the Company, responsibility and accountability of the Board of Directors.
- Providing correct, accurate and relevant information to the shareholders regarding the functioning and performance of the Company pertaining to financial and other non-financial matters.
- 3) Internal and external controls and audits.

## Date of Report:

The information provided in the Corporate Governance Report for the purpose of unanimity is as on March 31, 2024. The report is updated as on the date of the report wherever applicable.

## The Governance Structure:

The Company's Governance structure is based on the principles of freedom to the Executive Management within a given framework to ensure that the powers vested in the Executive Management are exercised with due care and responsibility so as to meet the expectation of all the stakeholders. In line with these principles, the Company has framed three tiers of Corporate Governance structure viz.,

- 1) The Board of Directors: The primary role of the Board of Directors is to protect the interest and enhance value for all the stakeholders. It conducts overall strategic supervision and control by setting the goals and targets, policies, reporting mechanism and accountability, and decision-making process to be followed. The Board also ensures that the Company effectively and efficiently works towards achieving its mission and is committed to continual quality improvement.
- 2) Committees of Directors: Committees are usually formed by the Company as a means of improving Board effectiveness and efficiency, in areas where more focused, specialized and technical discussions are required. Committees enable better management of full Board's time and allow in-depth scrutiny and focused attention. The Committees play an important role:
  - to strengthen the governance arrangements of the Company and support the Board in the achievement of the strategic objectives of the Company;

- to strengthen the role of the Board in strategic decision making and supports the role of Non-Executive Directors in challenging executive management actions;
- to maximize the value of the input from Non-Executive Directors, given their limited time commitment;
- to support the Board in fulfilling its role, given the nature and magnitude of the agenda.

The Company have formed Audit Committee, Stakeholders Relationship Committee, Nomination and Remuneration Committee, Corporate Social Responsibility Committee, Banking Committee and Risk Management Committee which are focused on financial reporting audit and internal controls, investors grievances and related issues, appointment and remuneration of Directors and Senior Management employees, implementation and monitoring of CSR activities, bank related transactions including availment of loans/working capital limits/renewals of credit facilities and related bank transactions of the Company, equity issue related matters and the risk management framework.

3) Executive Management: The entire business, including the support services are managed with clearly demarcated responsibilities and authorities at different levels.

## C. BOARD OF DIRECTORS:

The Company has a balanced and diverse composition of Board of Directors, which primarily takes care of the business needs and stakeholders' interest. The Board consists of eminent persons with considerable professional expertise and experience in setting up and operating agrochemical manufacturing plants and pesticide formulations, and in other fields such as Marketing, Sales, Finance, Accounts, Legal and Taxation. All Board appointments are made on merit, in the context of the skills, experience, independence and knowledge which the Board as a whole requires to be effective.

2) Mr. Raj Kaul was appointed as Director of the company w.e.f May 05,2023

3) Mr. Santanu Mukherjee was appointed as an Independent Director of the Company w.e.f July 27, 2023

4) Dr. Lakshmi Kantham Mannepalli was appointed as an Independent Director of the Company w.e.f January 23, 2024

Directors were appointed or re-appointed with the approval of the shareholders and shall remain in office in accordance with the provisions of the Companies Act, 2013. All the Non-Executive Directors (except Independent Directors and Investor Nominee Director) are liable to retire by rotation unless otherwise specifically approved by the shareholders.

None of the Directors on the Board is a member of more than 10 Committees and Chairman of more than 5 Committees across all the Listed Companies in which he/she is a Director as specified in Regulation 26 of the Listing Regulations. The necessary disclosures regarding Committee positions in other public Companies have been made by all the Directors. None of the Directors hold office in more than 20 Companies and in more than 10 public Companies as prescribed under Section 165(1) of the Companies Act, 2013. None of the Directors of the Company are serving as Director in more than 7 (seven) Listed Entities.

All the Independent Directors of the Company have given their respective declarations/disclosures under Section 149(7) of the Act and Regulation 25(8) of the Listing Regulations and have confirmed that they fulfill the independence criteria as specified under section 149(6) of the Act and Regulation 16 of the Listing Regulations and have also confirmed that they are not aware of any circumstance or situation, which exist or may be reasonably anticipated, that could impair or impact their ability to discharge their duties with an objective independent judgment and without any external influence. The Board of Directors confirms that the Independent Directors fulfill the conditions specified in the Act and the Listing Regulations and are independent of management. All the Independent Directors had registered with Indian Institute of Corporate Affairs and had complied with Rule 6 (1) and (2) of Companies (Appointment and Qualification of Directors) Rules, 2014. The tenure of the Independent Directors is in accordance with the provisions of the Act and rules made thereunder.

Since none of the independent directors have resigned before the expiry of their tenure, no detailed reasons for resignation and confirmation by such directors are required.

# **Independent Auditor's Report**

# To the Members of NACL Industries Limited

# Report on the Audit of the Standalone Financial Statements

# **Qualified Opinion**

We have audited the standalone financial statements of NACL Industries Limited (the "Company") which comprise the standalone balance sheet as at 31 March 2024, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, except for effects of the matter described in the Basis for Qualified Opinion section of our report, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and its loss and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

# **Basis for Qualified Opinion**

We draw attention to note 44 to the standalone financial statements. The Company has trade receivables aggregating to INR 7,796 lakhs as at 31 March 2024 (netted off with subsequent collections up to the date of this report), for which we have received unreliable responses to our independent balance confirmation

# **Revenue Recognition - Existence**

See Note 3.1 and Note 22 to standalone financial statements

requests from some of these customers. Management is initiating an independent investigation into this matter, pending which, it has made a provision of INR 1,880 lakhs against these receivables. Pending such investigation, we are unable to determine whether any adjustments to these standalone financial statements are necessary.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

# **Key Audit Matter**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion, we have determined the matters described below to be the key audit matter to be communicated in our report.

| The key audit matter                                                                                                                                                 | How the matter was addressed in our audit                                                                                                                                                                                                                                       |  |  |  |

# Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 "The Auditor's Responsibilities Relating to Other Information.

# Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

# Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# **Report on Other Legal and Regulatory Requirements**

- 1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2 A. As required by Section 143(3) of the Act, we report that:
  - a. We have sought and, except for the matter described in the Basis for Qualified Opinion paragraph, obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the effects of the matter described in the Basis for Qualified Opinion paragraph above and for the matters stated in the paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
  - c. The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.
  - d. Except for the effects of the matter described in the Basis for Qualified Opinion paragraph above, in our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e. On the basis of the written representations received from the directors as on 31 March 2024 and 21 May 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164(2) of the Act.
  - f. the qualification relating to the maintenance of accounts and other matters connected therewith are as stated in the Basis of Qualified Opinion paragraph above and in the paragraph 2A(b) above on reporting under Section 143(3)(b) and paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
  - g. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
  - a. The Company has disclosed the impact of pending litigations as at 31 March 2024 on its financial position in its standalone financial statements Refer Note 31 to the standalone financial statements.
  - b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - c. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

- d (i) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 43 to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - (ii) The management has represented that, to the best of its knowledge and belief, other than as disclosed in the Note 43 to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - (iii) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.
- e. The final dividend paid by the Company during the year, in respect of the same declared for the previous year, is in accordance with Section 123 of the Act to the extent it applies to payment of dividend.
- f. Based on our examination which included test checks, except for the instances mentioned below, the Company has used accounting softwares for maintaining its books of account which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective softwares:
  - (a) The feature of recording audit trail (edit log) facility was not enabled at the database layer to log any direct data changes and for certain fields/ tables of the accounting software used for financial reporting.
  - (b) In the absence of independent auditor's report in relation to controls at service organisation for accounting software used for maintaining the books of account relating to payroll process, which is operated by a third-party service provider, we are unable to comment whether audit trail feature of the said software was enabled and operated throughout the year for all relevant transactions recorded in the software.

Further, for the accounting softwares for which audit trail (edit log) feature was enabled and operated, we did not come across any instance of audit trail feature being tampered with. C. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

# Annexure A to the Independent Auditor's Report on the Standalone Financial Statements of NACL Industries Limited for the year ended 31 March 2024

# (Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and Right-of-Use assets.
  - (B) The Company has maintained proper records showing full particulars of intangible assets.
- (i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment and Right-of-Use assets by which all property, plant and equipment are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment and right-of-use assets were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
  - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee) disclosed in the standalone financial statements are held in the name of the Company.
  - (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right-of-Use assets) or intangible assets or both during the year.
  - (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory, except goods-in-transit and stocks lying with third parties, has been physically verified by the management during the year.For stocks lying with third parties at the year-end, written confirmations have been obtained and for goods-intransit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory
  - (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company except as follows:

| Quarter  | Name of bank                                                                                                                                                                           | Particulars         | Amount as<br>per books<br>of account<br>(in INR<br>lakhs) | Amount as<br>reported in<br>the quarterly<br>return/<br>statement (in<br>INR lakhs) | Amount of<br>difference<br>(in INR<br>lakhs) | Whether<br>return/<br>statement<br>subsequently<br>rectified |

# Annexure B to the Independent Auditor's Report on the standalone financial statements of NACL Industries Limited for the year ended 31 March 2024

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Subsection 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

# **Qualified Opinion**

We have audited the internal financial controls with reference to financial statements of NACL Industries Limited ("the Company") as of 31 March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, except for the effects of the material weakness described in paragraph (a) of the Basis for Qualified Opinion section of our report below on the achievement of the objectives of the control criteria, the Company has maintained, in all material respects, adequate internal financial controls with reference to financial statements based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note") and except for the possible effects of the material weaknesses described in paragraphs (a) and (b) of the Basis for Qualified Opinion section of our report below, the Company's internal financial controls with reference to financial statements were operating effectively as of 31 March 2024.

We have considered the material weakness identified and reported above in determining nature, timing, and extent of audit tests applied in our audit of the 31 March 2024 financial statements of the Company, and the material weakness has affected our opinion on the standalone financial statements of the Company and we have issued a qualified opinion on the standalone financial statements.

# **Basis for Qualified opinion**

According to the information and explanations given to us and based on our audit, the following material weakness has been identified as at 31 March 2024:

- The Company did not have appropriate internal controls for review and reconciliation of customer balances, which could potentially result in material misstatement in revenues, trade receivables, related balances and expenses.
- b) The Company's internal financial controls over establishing customer credit limits were not operating effectively, which could potentially result in material misstatement in revenues, trade receivables, related balances and expenses.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

# Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

# **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

# Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# Notes forming part of the standalone financial statements

# 1. General Information

NACL Industries Limited ("the Company") is a Public Limited Company listed with the BSE Limited and National Stock Exchange of India Limited. The Company's registered office is at Plot No.12-A, "C"- Block, Lakshmi towers, Nagarjuna hills, Panjagutta, Hyderabad, Telangana, India - 500082.

The Company is in the business of crop protection and manufactures both Technicals (Active Ingredient) and Formulations. It manufactures all kinds of pesticides, insecticides, acaricides, herbicides, fungicides and other plant growth chemicals. The Company's formulation business is mainly in the Indian market and sells through its large retail dealer network spread across India. The Company has a range of branded formulations. It also exports technicals and formulations and does toll manufacture for certain multinational companies.

# 2. Basis of preparation

# a. Statement of compliance

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies Act, 2013 ('Act'). The standalone financial statements are approved for issue by the Company's Board of Directors on June 06, 2024. These standalone financial statements are subjected to approval by the shareholders of the Company.

### b. Basis of measurement

The standalone financial statements have been prepared on historical cost basis except for the following items, which are measured on an alternative basis on each reporting date.

| Item Basis                                    | Measurement                                                                                             |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------|
| Derivative Financial instruments              | Fair Value                                                                                              |
| Non derivative financial instruments at FVTPL | Fair Value                                                                                              |
| Debt and equity securities at FVOCI           | Fair Value                                                                                              |
| Net defined benefit<br>(asset)/ liability     | Fair Value of plan assets<br>less the present value<br>of the defined benefit<br>obligation. (Note 3.7) |

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs

# (All amounts in ₹ lakhs, unless otherwise stated)

to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for similar assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For changes that have occurred between levels in the hierarchy during the year the Company re-assesses categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

### c. Current/ Non-current classification

The Company classifies an asset as current asset when:

- it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the asset primarily for the purpose of trading;
- it expects to realise the asset within twelve months after the reporting period; or
- the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when -

- it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the liability primarily for the purpose of trading;
- the liability is due to be settled within twelve months after the reporting period; or
- it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition

of assets for processing and their realisation in cash or cash equivalents. The Company's normal operating cycle is twelve months.

#### d. Functional and presentation currency

These standalone financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded to the nearest lakhs, unless otherwise indicated.

#### e. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### A. Critical Judgements

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the standalone financial statements:

#### **Contingencies (refer note 31)**

In the normal course of business, contingent liabilities may arise from litigations and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, we treat them as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the standalone financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings, we do not expect them to have a materially adverse impact on our financial position.

#### **Reverse Factoring**

Presentation of amounts related to supply chain financing arrangements in the balance sheet and in the statement of cash flows

#### B. Assumptions and estimation uncertainties

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

#### (All amounts in ₹ lakhs, unless otherwise stated)

### Estimation of net realisable value of inventories (refer note 3.15)

Inventories are stated at the lower of cost and net realisable value. In estimating the net realisable value of inventories, the Company makes an estimate of future selling prices and costs necessary to make the sale.

#### Refund liability (refer note 3.1)

The Company accepts sales returns as per the policy. Accruals for estimated product returns, which are based on historical experience of actual sales returns and adjustment on account of current market scenario is considered by Company to be reliable estimate of future sales returns.

# Measurement of Expected credit loss (ECL) allowance for trade receivables and other financial assets (refer note 3.17)

The Company uses practical expedient when measuring expected credit losses, which is based on a provision matrix that takes into account historical credit loss experience and is adjusted for current estimates.

### Provision for employee benefits (refer notes 3.7, 32)

The Company uses actuarial assumptions to determine the obligations for employee benefits at each reporting period. These assumptions include discount rate, expected long-term rate of return on plan assets, rate of increase in compensation levels and mortality rates.

### Useful lives of Property, plant and equipment (refer note 3.12)

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by Management at the time the asset is acquired and is reviewed at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

### Claims, provisions and contingent liabilities (refer note 31)

If any ongoing litigations against the Company with various regulatory authorities and third parties, where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is disclosed in

notes to the financial statements.

#### Employee Stock option plan (ESOP)

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognised, together with a corresponding increase in 'Share based payment' reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share

#### 3. Material accounting policies

#### 3.1 Revenue recognition

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those goods. Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch/ delivery depending on the terms of contracts with customers. Revenue is also recognised where goods are ready as per customer request and pending dispatch at the instruction of the customer. In such cases, the products are separately identified as belonging to the customer and the Company does not hold the right to redirect the product to another customer. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Accruals for discounts/incentives are estimated (using the most likely method) based on accumulated experience and underlying schemes and agreements with customers.

For contracts that permit the customer to return an item, revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Therefore, the amount of revenue recognised is adjusted for expected returns, which are estimated based on the historical data related to sale returns. In these circumstances, a refund liability and a right to recover returned goods asset are recognised. The right to recover returned goods asset is measured at the former carrying amount of the inventory less any expected costs to recover goods. The refund liability is included in other financial liabilities and the right to recover returned goods is included in other current assets. The Company reviews its estimate of expected returns at each reporting date and updates the amounts of the asset and liability accordingly.

At contract inception, since for most of the contracts it is expected that the period between the transfer of the promised goods or services to a customer and payment for these goods or services by the customer will be one year or less, practical expedient in Ind AS 115 have been applied and accordingly the Company does not adjust the promised amount of consideration for the effects of any significant financing component.

#### **Contract balances**

Contract assets: The Company classifies its right to

(All amounts in ₹ lakhs, unless otherwise stated)

consideration in exchange for deliverables as either a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon passage of time. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset where the right to consideration is unconditional upon passage of time.

**Contract liabilities:** A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is received.

Other operating revenue

Revenue from operations includes "Other Operating Revenue" which consists of export incentives, interest on overdue trade receivables, scrap and by-products sales.

Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same and the Company will comply with the conditions associated with the relevant scheme. Interest on overdue trade receivables is accrued on a time basis, by reference to the outstanding overdue trade receivables.

#### 3.2 Other income

- Dividend income from investments is recognised when the right to receive the payment is established.
- Interest income is recognised using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

#### 3.3 Leases

The Company's Right-of-use asset classes primarily consist of leases for warehouses and vehicles. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs plus any initial direct costs and an estimate of costs to

dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

depreciated Right-of-use assets are from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property, plant and equipment. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate at the lease commencement date.

Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

#### 3.4 Insurance claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

#### 3.5 Foreign currencies transactions and translations

In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences on monetary items are recognised in the standalone statement of profit and loss in the period in which they arise.

#### 3.6 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to (All amounts in ₹ lakhs, unless otherwise stated)

get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in standalone statement of profit and loss in the period in which they are incurred.

#### 3.7 Employee benefits

#### **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan where the Company's legal or constructive obligation is limited to the amount that it contributes to a separate legal entity. Contributions in respect of Employees Provident Fund, Employee's State Insurance scheme and Pension Fund which are defined contribution schemes, are made to a fund administered through Regional Provident Fund Commissioner and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

#### **Defined benefit plans**

The Company's Gratuity scheme for its employees is a defined benefit retirement benefit plan. Obligations under the gratuity scheme is covered under a Scheme of Life Insurance Corporation of India (LIC) and contributions in respect of such scheme are recognised in the standalone statement of profit and loss. The liability as at the Standalone Balance Sheet date is provided for using the projected unit credit method, with actuarial valuations being carried out as at the end of the year by a qualified actuary.

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the standalone balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to standalone statement of profit and loss.

#### Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurement

The Company presents the first two components of defined benefit costs in the standalone statement of profit and loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate determined by reference to market yields at the end of the reporting period on government bonds.

#### **Compensated absences**

The employees of the Company are entitled to compensated absences. The employees can carry-forward a portion of the unutilised accrued compensated absence and utilise it in future periods or receive cash compensation at retirement or termination of employment for the unutilised accrued compensated absence. The Company records an obligation for compensated absences in the period in which the employee renders the services that increase this entitlement. The Company measures the expected cost of compensated absence based on actuarial valuation made by an independent actuary as at the standalone balance sheet date on projected unit credit method. Compensated absences expected to be maturing after 12 months from the date of balance sheet are classified as non-current.

#### 3.8 Share based payment arrangement

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equitysettled share based payments is expensed on a straightline basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, during the vesting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the standalone statement of profit and loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

#### 3.9 Earnings per share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit attributable to equity shareholders by weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

#### 3.10 Taxation

Income tax expense comprises current tax expense and deferred tax expense. Current and deferred taxes are recognised in standalone statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, (All amounts in ₹ lakhs, unless otherwise stated) the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

#### **Current Tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

#### **Deferred Tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the standalone financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Temporary differences in relation to a right-of-use asset and a lease liability for a specific lease are regarded as a net package (the lease) for the purpose of recognising deferred tax.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that

it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

### 3.11 Statement of Cash flows and Cash and cash equivalents

Cash comprises cash on hand and in bank. The Company considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from the date of purchase, to be cash equivalents. Such cash equivalents are subject to insignificant risk of changes in value.

Cash flows are reported using indirect method, whereby profit / (loss) before tax is adjusted for the effects of transaction of non - cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

#### 3.12 Property, plant and equipment

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Property, plant and equipment are stated in the Standalone Balance Sheet at cost, less accumulated depreciation and impairment losses, if any. Cost includes purchase price, attributable expenditure incurred in bringing the asset to its working condition for the intended use and cost of borrowing till the date of capitalisation in the case of assets which are qualifying assets as per Ind AS 23, Borrowing costs.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes materials cost and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use. (All amounts in ₹ lakhs, unless otherwise stated) Transition to Ind AS

The cost property, plant and equipment at 1 April 2016, the Company's date of transition to Ind AS, was determined with reference to its carrying value recognised as per the previous GAAP (deemed cost), as at the date of transition to Ind AS.

#### Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably.

#### Depreciation

Depreciation is calculated on the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in the statement of profit and loss. Depreciation on additions/(disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready for use/ (disposed off).

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

| Asset                  | Management's<br>estimate of<br>useful life | Useful<br>life as per<br>Schedule II |
|------------------------|--------------------------------------------|--------------------------------------|
| Buildings              | 30 – 60 years                              | 30 – 60 years                        |
| Plant and equipment    | 15                                         | 10 – 15 years                        |
| Furniture and fixtures | 10 years                                   | 10 years                             |
| Vehicles               | 8 years                                    | 8 years                              |
| Office equipment       | 5 years                                    | 5 years                              |
| Computers              | 3 – 6 years                                | 3 – 6 years                          |

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Freehold Land is not depreciated.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the standalone statement of profit and loss.

#### 3.13 Intangible assets

Intangible assets are measured on initial recognition at cost and subsequently are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Cost of an intangible asset comprises of purchase price and attributable expenditure on making the asset ready for its intended use.

Intangible assets under development are carried at cost, comprising direct cost and related incidental expenses. Intangible assets under development are capitalised only

when technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use the asset and the costs can be measured reliably. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis for preparing the asset for its intended use.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the standalone statement of profit and loss when the asset is derecognized.

#### Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates and these future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other expenditure is recognised in profit or loss as incurred.

#### Amortisation

Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use.

The estimated useful life of an identifiable intangible asset is as under:

- Computer software is amortised over a period of 3 years
- Developed products are amortised over a period of 3 years

The estimated useful life and amortisation method are reviewed periodically at the end of each reporting period.

#### 3.14 Impairment of Non-financial assets

The Company assesses at each reporting date whether there is an indication that non-financial asset (excluding inventories, contract assets and deferred tax assets)/ cash generating unit (CGU) may be impaired. If any indication exists the Company estimates the recoverable amount of such assets/ CGU and if carrying amount exceeds the recoverable amount, impairment is recognised.

For impairment testing, assets are grouped together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount is the higher of the fair value less cost to sell and its value in use. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss.

An impairment loss in respect other assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is (All amounts in ₹ lakhs, unless otherwise stated)

any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### 3.15 Inventories

Inventories are valued at lower of cost, calculated on "Weighted average" basis and net realisable value. Cost incurred in bringing each product to its present location and condition are accounted as follows:

Raw Materials, Packing Materials, Stores and Spares: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

Finished goods and work-in-progress: Cost includes direct materials, labour and a proportion of manufacturing overheads based on the normal operating capacity, but excludes borrowing costs.

Traded goods: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price of inventories less all the estimated costs of completion and the costs necessary to make the sale.

The net realisable value of work-in-progress is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in the production of finished products are not written down below cost except in cases when a decline in the price of materials indicates that the cost of the finished products shall exceed the net realisable value.

The comparison of cost and net realisable value is made on an item-by-Item basis.

#### **3.16 Contingent liabilities**

Provisions are recognised only when there is a present obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reasonable estimate of the amount of obligation can be made. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). Contingent liabilities are disclosed for (i) possible obligation which will be confirmed only by future events not wholly within the control of the Company or (ii) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

#### **Contingent assets**

Contingent asset is not recognised in standalone financial statements since this may result in the recognition of income

that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognized.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

#### **3.17 Financial Instruments**

#### (i) Initial recognition and Measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the standalone statement of profit and loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

#### (ii) Subsequent Measurement

#### Non-derivative financial instruments:

#### a. Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost using the effective interest method if it is held with in a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

### b. Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Impairment losses (and reversal of impairment

#### (All amounts in ₹ lakhs, unless otherwise stated)

losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

#### c. Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income.

#### d. Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through standalone statement of profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### **Financial guarantee contracts**

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

#### **Derivative financial instruments:**

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in statement of profit and loss depends on

the nature of the hedging relationship and the nature of the hedged item.

#### **Effective interest method**

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at Fair Value Through Profit or Loss (FVTPL). Interest income is recognised in standalone statement of profit and loss and is included in the "other income" line item.

#### Hedge accounting:

The Company designates derivative contracts in a cash flow hedging relationship by applying the hedge accounting principles designated in a hedging relationship, used to hedge its risks associated with change in interest rates on the recognised liability.

At the inception of the hedge relationship, the Company documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk. These derivative contracts are stated at the fair value at each reporting date.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in statement of profit and loss.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to statement of profit and loss in the periods when the hedged item affects profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in statement of profit and loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in statement of profit and loss. (All amounts in ₹ lakhs, unless otherwise stated)

### Investment in subsidiaries and associates

On initial recognition, these investments are recognized at fair value plus any directly attributable transaction cost. Subsequently, they are measured at cost.

### Derecognition of financial assets and financial liabilities

#### **Financial asset:**

The Company de-recognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company retains substantially all the rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in standalone statement of profit and loss if such gain or loss would have otherwise been recognised in standalone statement of profit and loss on disposal of that financial asset.

#### **Financial liabilities**

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the standalone statement of profit and loss.

#### Impairment of Financial assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit and loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in the standalone statement of profit and loss.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. As a practical expedient, the Company uses a provision matrix to determine impairment loss

of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognised in the standalone statement of profit and loss.

#### 3.18 Fair value measurement

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised.

### 3.19 Changes in material accounting policies

Material accounting policy information

#### (All amounts in ₹ lakhs, unless otherwise stated)

The Company adopted Disclosure of Accounting Policies (Amendments to Ind AS 1) from 01 April 2023. Although the amendments did not result in any changes in the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

#### **3.20 Recent Pronouncements**

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

iv) Fair value of shares granted during the year:

Options were priced using Black-Scholes Merton Options pricing model. Where relevant, the expected life used in the model has been adjusted based on management's best estimate for the effects of non-transferability, exercise restrictions, and behavioural considerations. Expected volatility is based on the historical share price volatility over the past years.

The following assumptions were used for calculation of fair value of grants as per Black-Scholes Merton Options Pricing model:

Nature and purpose of reserves:

- a) **General Reserves:** General reserve was created through an annual transfer of profits from retained earnings in accordance with applicable regulations. General reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.
- b) Capital reserve: This represents capital subsidy received from government in earlier years for promotion of investment in backward areas.
- c) Security premium: Security premium represents the amount received in excess of the face value of the equity shares. The utilisation of the security premium reserve is governed by the relevant provisions of the Companies Act, 2013 ("Act").
- d) Reserve for equity instruments through other comprehensive income: This reserve represents the cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through other comprehensive income, net of amounts reclassified to retained earnings when those assets have been disposed off.
- e) Share Options Outstanding Account: This reserve relates to share options granted by the Company to its employees under its employee share option plans.
- f) Effective portion of cash flow hedge reserve: When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income and accumulated in the cash flow hedging reserve. The cumulative gain or loss previously recognised in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the related forecasted transaction.
- g) Retained earnings: Retained earnings represents the Company's undistributed earnings after taxes.

#### (c) **Unsecured loans:**

The Company participates in a supply chain financing arrangement (SCF) with banks, which is disclosed under borrowings. The principal purpose of this arrangement is to provide funding to the Company, and accordingly the Company derecognizes original liabilities upon banks paying the Company's suppliers. Payments to the suppliers by the banks are presented as part of operating activities and payments to the banks by the Company are presented as part of financing activities.

(d) During the year ended 31 March 2024, there has been a deviation with respect to certain ratios such as Debt Service Coverage ratio and EBIDTA of the Company in comparison to the prescribed limits as per the respective loan agreements. The management has however obtained a confirmation prior to the approval of the financial statements from such lenders on the satisfactory discharge of its debt servicing obligations and that the existing repayment schedules as per the sanction terms would continue. Accordingly, borrowings continue to be classified in accordance with the terms of the repayment schedule agreed with the lenders.

Note: The Company has not made any defaults in repayment of principal and interest on the above loans.

(i) There are no unrecognised deferred tax assets and liabilities as at 31 March 2024 and 31 March 2023.

(ii) In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods, the Company has recognised deferred tax assets as there is convincing evidence that sufficient taxable profit will be available against which the unabsorbed depreciation and business loss can be utilised by the entity. It is expected that any reversals of the deferred tax liability would be offset against the reversal of the deferred tax assets.

#### 32. Defined benefit plans

#### a) Contribution to provident fund and other funds

#### - Provident fund:

The Company makes provident fund contributions which are defined contribution plans for qualifying employees. Under the scheme, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. These contributions are made to the fund administered and managed by the Government of India. The Company's monthly contributions are charged to the Statement of Profit and Loss in the period they are incurred. Total expense recognised during the year aggregated ₹ 738 lakhs (March 31, 2023: ₹ 649 lakhs).

#### - Gratuity (funded):

Amount recognised in statement of profit and loss in respect of gratuity ₹ 209 lakhs (March 31, 2023: ₹ 170 lakhs).

#### b) Gratuity

In accordance with the 'Payment of Gratuity Act, 1972' of India, the Company, provides for Gratuity, a defined retirement benefit plan (the 'Gratuity Plan') covering eligible employees. Liabilities with regard to such Gratuity plan are determined by an independent actuarial valuation and are charged to the Statement of Profit and Loss for the year determined. The Gratuity fund is administered through a scheme of Life Insurance Corporation of India (LIC).

The present value of the defined benefit obligation and the related current service cost and past service cost, were measured using the projected unit credit method. These defined benefit plans expose the Company to actuarial risks, such as longevity risk, currency risk, interest rate risk and market (investment) risk. The gratuity plan is funded. The funding requirements are based on the gratuity fund's actuarial measurement framework set out in the funding policies of the plan and the Company contributes to LIC.

Amounts recognised in statement of profit and loss in respect of these defined benefit i.e. Gratuity plans are as follows:

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Expected contribution to the post employee benefits plan during the next financial year is expected to be ₹ 209 lakhs (March 31, 2023: ₹ 160 lakhs)

The weighted average duration of the defined benefit obligation is 7 years (March 31, 2023: 6.62 years)

#### (c) Compensated absences:

(All amounts in ₹ lakhs, unless otherwise stated)

The Company provides compensated absences benefits to the employees of the Company which can be carried forward to future years. Since the compensated absences do not fall due wholly within twelve months after the end of the year in which the employees render the related service and are also not expected to be utilised wholly within twelve months after the end of the year, the benefit is classified as a long-term employee benefit. During the year ended March 31, 2024, the Company has incurred an expense on compensated absences amounting to ₹ 276 lakhs (March 31, 2023: ₹ 402 lakhs). The Company determines the expense for compensated absences basis the actuarial valuation of the present value of the obligation, using the Projected Unit Credit Method.

#### 34.1 Capital management

The Company's capital management objective is to maximise the total shareholder return by optimising cost of capital through flexible capital structure that supports growth. Further, the Company ensures optimal credit risk profile to maintain/enhance credit rating. The Company determines the amount of capital required on the basis of annual operating plan and long-term strategic plans. The funding requirements are met through internal accruals and long-term/short-term borrowings. The Company monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Company.

#### 34.2 Financial instruments by category

#### Notes:

(i) Borrowings include non-current and current borrowings (Refer Note 16)

(ii) The management assessed that fair value of cash and cash equivalents, trade receivables, other current financial assets, trade payables, current borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments, and hence these are carried at amortised cost. For non-current borrowings, the valuation model considers the present value of expected payments discounted using the borrowing rate provided by the banks/ financial institutions. The own non-performance risk was assessed to be insignificant.

(iii) Investments (unquoted) are measured at fair value through initial designation in accordance with Ind AS 109.

#### 34.3 Fair Value by hierarchy

#### Valuation technique and key inputs

#### Level 1

Quoted prices (unadjusted) in an active market for similar assets or liabilities.

#### Level 2

Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Quantitative disclosures of fair value measurement hierarchy-Level 2 for financial instruments:

| Particulars                | As at<br>March 31, 2024 | As at<br>March 31, 2023 |
|----------------------------|-------------------------|-------------------------|
| Financial Instruments      |                         |                         |
| Derivative financial asset | 7                       | 9                       |

The Company enters into derivative financial instruments with various counterparties principally, banks with investment grade credit ratings. Foreign exchange forward contracts and interest rate swaps are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, etc. As at March 31, 2024 the mark-to-market value of derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk. The changes in counterparty credit risk had insignificant impact on the hedge effectiveness assessment for derivatives designated in hedge relationships.

(All amounts in ₹ lakhs, unless otherwise stated)

#### Level 3

Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Quantitative disclosures of fair value measurement hierarchy-Level 3 for financial instruments:

| Particulars                | As at<br>March 31, 2024 | As at<br>March 31, 2023 |
|----------------------------|-------------------------|-------------------------|
| Financial Assets           |                         |                         |
| Unquoted preference shares | 1                       | 1                       |

The fair values of the unquoted prefernce shares have been estimated using a Discounted Cash Flow model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, earnings growth, discount rate, and probabilities of the various estimates within the range used in management's estimate of fair value for these unquoted preference investments.

#### Valuation inputs and relationships to fair value:

The following table summarises the valuation technique used in measuring the fair value of the financial instruments, as well as the significant unobservable inputs used. The total value of investments in unquoted preference shares are not material. Hence quantitative

disclosures are not disclosed.

#### Transfer between Level 1 and 2:

There have been no transfers from Level 2 to Level 1 or vice-versa in 2023-24 and no transfers in either direction in 2022-23.

#### 34.4 Financial risk management

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company audit committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Company audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

#### **Financial risk factors**

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company has adequate internal processes to assess, monitor and manage financial risks. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The liquidity risk is measured by the Company's inability to meet its financial obligations as they become due.

#### **Market risk**

Market is the risk that the fair value of future cash flows of financial instrument will fluctuate because of changes in market prices. Market risk comprises of foreign currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the returns.

#### **Foreign currency exposure**

(All amounts in ₹ lakhs, unless otherwise stated)

The Company is exposed to foreign exchange risk through imports from overseas suppliers in various foreign currencies, exports to customers abroad, bill discounting, buyer's credit, packing credit. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies. The Company monitors and manages its financial risks by analysing its foreign exchange exposures. The Company, in accordance with its Board approved risk management policies and procedures, enters into foreign exchange forward contracts to manage its exposure in foreign exchange rates.

The following table analyses foreign currency exposures from financial instruments that have not been hedged by a derivative instrument as of March 31, 2024:

#### Interest rate swap contract:

Under Interest rate swap contracts, the Company agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amount. Such contract enables Company to mitigate the risk of cash flow exposures on the issued variable rate debt. The fair value of interest rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract, and is disclosed below. The average interest is based on the outstanding balances at the end of the reporting period.

#### Sensitivity analysis:

For the year ended March 31, 2024 and March 31, 2023, every increase / decrease of 1% in the respective interest rate compared to existing rate of interest of the Company would impact profit before tax by ₹ 583 lakhs/ (₹ 583 lakhs) and ₹ 650 lakhs/ (₹ 650 lakhs) respectively and Impact Equity, net of tax by ₹ 436 lakhs/ (₹ 436 lakhs) and ₹ 486 lakhs/ (₹ 486 lakhs) respectively.

#### **Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, deposits with banks, foreign exchange transactions and other financial instrument. Credit risk is managed through credit approvals, monitoring the creditworthiness and establishing credit limits of customers to which the Company grants credit terms in the normal course of business. The company collects security deposits from its dealer customers which act as security against the outstanding trade receivables from such dealer customers. In the event of default, these security deposits can be adjusted against the uncollectible trade receivables from such dealer customers. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of expected losses in respect of trade and other receivables and investments.

#### Expected credit loss (ECL):

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Credit risk is managed (i) through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to whom the Company grants credit terms in the normal course of business. The credit period on sale of goods varies with seasons and markets and generally ranges between 30 to 180 days. Before accepting any new customer, the Company assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed annually.

As a practical expedient, the Company uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL allowance (or reversal) during the year is recognised in the statement of profit and loss.

(ii) Movement in the Impairment loss on trade receivables

## **Independent Auditor's Report**

#### To the Members of NACL Industries Limited

## Report on the Audit of the Consolidated Financial Statements

#### **Qualified Opinion**

We have audited the consolidated financial statements of NACL Industries Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") and its associate, which comprise the consolidated balance sheet as at 31 March 2024, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements of such subsidiaries as were audited by the other auditors and based on the separate financial statements of the subsidiaries and associate referred to in the other matters section below, except for the effects of the matter described in the *Basis for Qualified Opinion* section of our report, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group and its associate as at 31 March 2024, of its consolidated loss and other comprehensive loss, consolidated changes in equity and consolidated cash flows for the year then ended.

#### **Basis for Qualified Opinion**

We draw attention to note 43 to the consolidated financial statements. The Company has trade receivables aggregating to INR 7,796 lakhs as at 31 March 2024 (netted off with subsequent collections up to the date of this report), for which we have received unreliable responses to our independent balance confirmation requests from some of these customers. Management is initiating an independent investigation into this matter, pending which, it has made a provision of INR 1,880 lakhs against these receivables. Pending such investigation, we are unable to determine whether any adjustments to these consolidated financial statements are necessary.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group and its associate in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of reports of the other auditors referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

#### **Key Audit Matter**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion, we have determined the matter described below to be the key audit matter to be communicated in our report.

#### **Other Information**

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's annual report, but does not include the financial statements and auditor's report thereon. The Holding Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

#### Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group and of its associate are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and and of its associate are responsible for overseeing the financial reporting process of each company.

## Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements of such entities or business activities within the Group and its associate to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of the section titled "Other Matters" in this audit report.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

a. We did not audit the financial statements of four subsidiaries, whose financial statements reflects total assets (before consolidation adjustments) of ₹ 32,457 lakhs as at 31 March 2024, total revenues (before consolidation adjustments) of ₹ 17,852 lakhs and net cash outflows (before consolidation adjustments) amounting to ₹ 117 lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to our reliance on the work done and the reports of the other auditor.

b. The financial statements of two subsidiaries, whose financial statements reflects total assets (before consolidation adjustments) of ₹ 17 lakhs as at 31 March 2024, total revenues (before consolidation adjustments) of ₹ 12 lakhs and net cash outflows (before consolidation adjustments) amounting to ₹ 2 lakhs for the year ended on that date, as considered in the consolidated financial statements, have not been audited either by us or by other auditors. The consolidated financial statements also include the Group's share of net profit and other comprehensive income of ₹ 108 lakhs and ₹ 4 lakhs, respectively for the year ended 31 March 2024, as considered in the consolidated financial statements, in respect of one associate, whose financial statements have not been audited by us or by other auditors. These unaudited financial statements have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associate, and our report in terms of subsection (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries and associate, is based solely on such unaudited financial statements. In our opinion and according to the information and explanations given to us by the Management, these financial statements are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of this matter with respect to the financial statements certified by the Management.

#### **Report on Other Legal and Regulatory Requirements**

- 1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2 A. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries, as were audited by other auditors, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:
  - a. We have sought and, except for the matter described in the Basis for Qualified Opinion paragraph, obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors except for the effects of the matter described in the Basis for Qualified Opinion paragraph above and for the matters stated in paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
  - c. The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - d. Except for the effects of the matter described in the Basis for Qualified Opinion paragraph above, in our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e. On the basis of the written representations received from the directors of the Holding Company as on 31 March 2024 and 21 May 2024 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164(2) of the Act.
  - f. With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies incorporated in India and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
- B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, as noted in the "Other Matters" paragraph:
  - a. The consolidated financial statements disclose the impact of pending litigations as at 31 March 2024 on

the consolidated financial position of the Group, its associate. Refer Note 31 to the consolidated financial statements.

- b. The Group, its associate did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2024.
- c. There has been no delay in transferring amounts to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2024.
- The respective management of the Holding d (i) Company and its subsidiary companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary companies respectively that, to the best of their knowledge and belief, as disclosed in the Note 42 to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiary companies to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any of such subsidiary companies ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - The respective management of the Holding (ii) Company and its subsidiary companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary companies respectively that, to the best of their knowledge and belief, as disclosed in the Note 42 to the consolidated financial statements, no funds have been received by the Holding Company or any of such subsidiary companies from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiary companies shall directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
  - (iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiary companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditors notice that has caused us or the other auditors to believe that the representations under subclause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.

- e. The final dividend paid by the Holding Company during the year, in respect of the same declared for the previous year, is in accordance with Section 123 of the Act to the extent it applies to payment of dividend.
- f. Based on our examination which included test checks and that performed by the respective auditors of the subsidiary companies incorporated in India whose financial statements have been audited under the Act, except for the instances mentioned below, the Holding Company and its subsidiary companies have used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we and respective auditors of such subsidiary companies did not come across any instance of audit trail feature being tampered with.

## Annexure B to the Independent Auditor's Report on the consolidated financial statements of NACL Industries Limited for the year ended 31 March 2024

#### Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Subsection 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

#### **Qualified Opinion**

In conjunction with our audit of the consolidated financial statements of NACL Industries Limited (hereinafter referred to as "the Holding Company") as of and for the year ended 31 March 2024, we have audited the internal financial controls with reference to financial statements of the Holding Company and such companies incorporated in India under the Act which are its subsidiary companies and its associate, as of that date.

In our opinion and based on the consideration of reports of the other auditors on internal financial controls with reference to financial statements of subsidiary companies, as were audited by the other auditors, except for the effects of the material weakness described in paragraph (a) of the Basis for Qualified Opinion section of our report below on the achievement of the objectives of the control criteria, the Holding Company and such companies incorporated in India, have, in all material respects, adequate internal financial controls with reference to financial statements, based on the internal financial controls with reference to financial statements criteria established by the Holding Company and such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note") and except for the possible effects of the material weaknesses described in paragraphs (a) and (b) of the Basis for Qualified Opinion section of our report below, the Holding Company's and such companies' internal financial controls with reference to financial statements were operating effectively as of 31 March 2024.

We have considered the material weakness identified and reported above in determining nature, timing, and extent of audit tests applied in our audit of the 31 March 2024 financial statements of the Company, and the material weakness has affected our opinion on the consolidated financial statements of the Company and we have issued a qualified opinion on the consolidated financial statements.

#### **Basis for Qualified opinion**

According to the information and explanations given to us and based on our audit, the following material weaknesses have been identified as at 31 March 2024:

- The Holding Company did not have appropriate internal controls for review and reconciliation of customer balances, which could potentially result in material misstatement in revenues, trade receivables, related balances and expenses.
- b) The Holding Company's internal financial controls over establishing customer credit limits were not operating effectively, which could potentially result in material misstatement in revenues, trade receivables, related balances and expenses.

A 'material weakness' is a deficiency, or a combination of deficiencies, in internal financial control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

#### Management's and Board of Directors' Responsibilities for Internal Financial Controls

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the relevant subsidiary companies in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

## Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Other Matters**

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to four subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

The internal financial controls with reference to financial statements insofar as it relates to the associate, which is a company incorporated in India and included in these consolidated financial statements, have not been audited either by us or by other auditors. In our opinion and according to the information and explanations given to us by the Management, such unaudited associate company is not material to the Holding Company.

Our opinion is not modified in respect of above matters.

#### 2. Basis of preparation

#### a. Statement of compliance

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under section 133 of the Companies Act, 2013 ('Act'). The consolidated financial statements are approved for issue by the Company's Board of Directors on June 06, 2024. These consolidated financial statements are subjected to approval by the shareholders of the Company.

#### b. Basis of measurement

The consolidated financial statements have been prepared on historical cost basis except for the following items, which are measured on an alternative basis on each reporting date.

| Item Basis                                    | Measurement                                                                                    |
|-----------------------------------------------|------------------------------------------------------------------------------------------------|
| Derivative Financial instruments              | Fair Value                                                                                     |
| Non derivative financial instruments at FVTPL | Fair Value                                                                                     |
| Debt and equity securities at FVOCI           | Fair Value                                                                                     |
| Net defined benefit (asset)/ liability        | Fair Value of plan assets less the present value of the defined benefit obligation. (Note 3.8) |

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for similar assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. If the inputs used to measure the fair value

of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For changes that have occurred between levels in the hierarchy during the year the Group re-assesses categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### c. Current/ Non-current classification

The Group classifies an asset as current asset when:

- it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the asset primarily for the purpose of trading;
- it expects to realise the asset within twelve months after the reporting period; or
- the asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when -

- it expects to realise the asset, or intends to sell or consume it, in its normal operating cycle;
- it holds the liability primarily for the purpose of trading;
- the liability is due to be settled within twelve months after the reporting period; or
- it does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. The Group's normal operating cycle is twelve months.

#### d. Functional and presentation currency

These consolidated financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded to the nearest lakhs, unless otherwise indicated.

#### e. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies the directors of the Group are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered (All amounts in ₹ lakhs, unless otherwise stated)

to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### A. Critical Judgements

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements:

#### Contingencies (refer note 31)

In the normal course of business, contingent liabilities may arise from litigations and other claims against the Group. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, we treat them as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the consolidated financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings, we do not expect them to have a materially adverse impact on our financial position.

#### B. Assumptions and estimation uncertainties

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

## Estimation of net realisable value of inventories (refer note 3.16)

Inventories are stated at the lower of cost and net realisable value. In estimating the net realisable value of inventories, the Group makes an estimate of future selling prices and costs necessary to make the sale.

#### Refund liability (refer note 3.2)

The Group accepts sales returns as per the policy. Accruals for estimated product returns, which are based on historical experience of actual sales returns and adjustment on account of current market scenario is considered by Group to be reliable estimate of future sales returns.

## Measurement of Expected credit loss (ECL) allowance for trade receivables and other financial assets (refer note 3.18)

The Group uses practical expedient when measuring expected credit losses, which is based on a provision matrix that takes into account historical credit loss experience and is adjusted for current estimates.

## Provision for employee benefits (refer notes 3.8, 32)

The Group uses actuarial assumptions to determine the obligations for employee benefits at each reporting period. These assumptions include discount rate, expected long-term rate of return on plan assets, rate of increase in compensation levels and mortality rates.

### Useful lives of Property, plant and equipment (refer note 3.13)

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by Management at the time the asset is acquired and is reviewed at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

## Claims, provisions and contingent liabilities (refer note 31)

If any ongoing litigations against the Group with various regulatory authorities and third parties, where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is disclosed in notes to the financial statements.

#### 3. Material accounting policies

#### 3.1 Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and all entities which are controlled by it. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

Entities controlled by the Company are consolidated from the date control commences until the date control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

(All amounts in ₹ lakhs, unless otherwise stated)

Items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries are combined like to like basis.

All intragroup assets and liabilities, equity, income, expenses, and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group does not have any Non-controlling interests.

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests (NCI) and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

The Group's interests in equity-accounted investees comprise interests in associates. Associates are those entities in which the Group has significant influence, but not control or joint control, over the financial and operating policies.

Interests in associates are accounted for using the equity method. They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI of equity-accounted investees, until the date on which significant influence or joint control ceases.

#### 3.2 Revenue recognition

Revenue is recognised upon transfer of control of promised goods to customers in an amount that reflects the consideration which the group expects to receive in exchange for those goods. Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch/ delivery depending on the terms of contracts with customers. Revenue is also recognised where goods are ready as per customer request and pending dispatch at the instruction of the customer. In such cases, the products are separately identified as belonging to the customer and the group does not hold the right to redirect the product to another customer. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Accruals for discounts/incentives are estimated (using the most likely method) based on accumulated experience and underlying schemes and agreements with customers.

For contracts that permit the customer to return an item, revenue is recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Therefore, the amount of revenue recognised is adjusted for expected returns, which are estimated based on the historical data related to sale returns. In these circumstances, a refund liability and a right to recover returned goods asset are recognised. The right to recover returned goods asset is measured at the former carrying amount of the inventory less any expected costs to recover goods. The refund liability is included in other financial liabilities and the right to recover returned goods is included in other current assets. The Group reviews its estimate of expected returns at each reporting date and updates the amounts of the asset and liability accordingly.

At contract inception, since for most of the contracts it is expected that the period between the transfer of the promised goods or services to a customer and payment for these goods or services by the customer will be one year or less, practical expedient in Ind AS 115 have been applied and accordingly the Group does not adjust the promised amount of consideration for the effects of any significant financing component.

#### **Contract balances**

Contract assets: The Group classifies its right to consideration in exchange for deliverables as either a receivable or as unbilled revenue. A receivable is a right to consideration that is unconditional upon passage of time. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset where the right to consideration is unconditional upon passage of time.

Contract liabilities: A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is received.

#### Other operating revenue

Revenue from operations includes "Other Operating Revenue" which consists of export incentives, interest on overdue trade receivables, scrap and by-products sales.

Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same and the Group will comply with the conditions associated with the relevant scheme. Interest on overdue trade receivables is accrued on a time basis, by reference to the outstanding overdue trade receivables.

#### 3.3 Other income

- Dividend income from investments is recognised when the right to receive the payment is established.
- Interest income is recognised using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

#### 3.4 Leases

The group's Right-of-use asset classes primarily consist of leases for warehouses and vehicles. The group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the group assesses whether: (i) the contract involves the use of an identified asset (ii) the group has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the group has the right to direct the use of the asset.

At the date of commencement of the lease, the group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (shortterm leases) and low value leases. For these short-term and low value leases, the group recognizes the lease payments as an operating expense on a straight-line basis over the (All amounts in  $\mathbb{R}$  lakhs, unless otherwise stated) term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs plus any initial direct costs and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property, plant and equipment. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rate at the lease commencement date.

Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

#### 3.5 Insurance claims

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

#### 3.6 Foreign currencies transactions and translations

In preparing the financial statements of the Group, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are translated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured based on historical

cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Exchange differences on monetary items are recognised in the consolidated statement of profit and loss in the period in which they arise.

#### **Foreign operations**

On consolidation, the assets and liabilities of foreign operations are translated into Indian rupees at the rate of exchange prevailing at the reporting date and their statements of profit or loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the Group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in OCI and accumulated in the equity (as exchange differences on translating the financial statements of a foreign operation). On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in Consolidated Statement of Profit or Loss.

#### 3.7 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in consolidated statement of profit and loss in the period in which they are incurred.

#### 3.8 Employee benefits

#### **Defined contribution plans**

A defined contribution plan is a post-employment benefit plan where the Group's legal or constructive obligation is limited to the amount that it contributes to a separate legal entity. Contributions in respect of Employees Provident Fund, Employee's State Insurance scheme and Pension Fund which are defined contribution schemes, are made to a fund administered through Regional Provident Fund Commissioner and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

#### **Defined benefit plans**

The Group's Gratuity scheme for its employees is a defined benefit retirement benefit plan. Obligations under the gratuity scheme is covered under a Scheme of Life Insurance Corporation of India (LIC) and contributions in respect of such scheme are recognised in the consolidated statement of profit and loss. The liability as at the Consolidated Balance Sheet date is provided for using the projected unit credit method, with actuarial valuations being carried out as at the end of the year by a qualified actuary.

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the consolidated balance sheet

#### (All amounts in ₹ lakhs, unless otherwise stated)

with a charge or credit recognised in other comprehensive income in the period in which they occur. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan ('the asset ceiling'). Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to consolidated statement of profit and loss.

Defined benefit costs are categorised as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurement

The Group presents the first two components of defined benefit costs in the consolidated statement of profit and loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate determined by reference to market yields at the end of the reporting period on government bonds.

#### **Compensated absences**

The employees of the Group are entitled to compensated absences. The employees can carry-forward a portion of the unutilised accrued compensated absence and utilise it in future periods or receive cash compensation at retirement or termination of employment for the unutilised accrued compensated absence. The Group records an obligation for compensated absences in the period in which the employee renders the services that increase this entitlement. The Group measures the expected cost of compensated absence based on actuarial valuation made by an independent actuary as at the consolidated balance sheet date on projected unit credit method. Compensated absences expected to be maturing after 12 months from the date of balance sheet are classified as non-current.

#### 3.9 Share based payment arrangement

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equitysettled share based payments is expensed on a straightline basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, during the vesting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the consolidated statement of profit and loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

#### 3.10 Earnings per share

The Group presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit attributable to equity shareholders by weighted average number of equity shares outstanding

during the period. Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

#### 3.11 Taxation

Income tax expense comprises current tax expense and deferred tax expense. Current and deferred taxes are recognised in consolidated statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

#### **Current Tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

### **Deferred Tax**

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Temporary differences in relation to a right-of-use asset and a lease liability for a specific lease are regarded as a net package (the lease) for the purpose of recognising deferred tax.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each (All amounts in ₹ lakhs, unless otherwise stated)

reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

### 3.12 Statement of Cash flows and Cash and cash equivalents

Cash comprises cash on hand and in bank. The Group considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from the date of purchase, to be cash equivalents. Such cash equivalents are subject to insignificant risk of changes in value.

Cash flows are reported using indirect method, whereby profit / (loss) before tax is adjusted for the effects of transaction of non - cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Group are segregated.

#### 3.13 Property, plant and equipment

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Property, plant and equipment are stated in the Consolidated Balance Sheet at cost, less accumulated depreciation and impairment losses, if any. Cost includes purchase price, attributable expenditure incurred in bringing the asset to its working condition for the intended use and cost of borrowing till the date of capitalisation in the case of assets which are qualifying assets as per Ind AS 23, Borrowing costs.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes materials cost and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

#### **Transition to Ind AS**

The cost property, plant and equipment at 1 April 2016, the Group's date of transition to Ind AS, was determined with reference to its carrying value recognised as per the previous GAAP (deemed cost), as at the date of transition to Ind AS.

#### Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

#### Depreciation

Depreciation is calculated on the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in the statement of profit and loss. Depreciation on additions/(disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready for use/ (disposed off).

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

| Asset                  | Management's<br>estimate of<br>useful life | Useful<br>life as per<br>Schedule II |  |  |
|------------------------|--------------------------------------------|--------------------------------------|--|--|
| Buildings              | 30 – 60 years                              | 30 – 60 years                        |  |  |
| Plant and equipment    | 15 years                                   | 10 – 15 years                        |  |  |
| Furniture and fixtures | 10 years                                   | 10 years                             |  |  |
| Vehicles               | 8 years                                    | 8 years                              |  |  |
| Office equipment       | 5 years                                    | 5 years                              |  |  |
| Computers              | 3 – 6 years                                | 3 – 6 years                          |  |  |

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Freehold Land is not depreciated.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the consolidated statement of profit and loss.

### 3.14 Intangible assets

Intangible assets are measured on initial recognition at cost and subsequently are carried at cost less accumulated amortisation and accumulated impairment losses, if any.

Cost of an intangible asset comprises of purchase price and attributable expenditure on making the asset ready for its intended use.

Intangible assets under development are carried at cost, comprising direct cost and related incidental expenses. Intangible assets under development are capitalised only when technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete and use the asset and the costs can be measured reliably. The amount capitalised comprises expenditure that can be directly attributed or allocated on a reasonable and consistent basis (All amounts in  $\mathbb{R}$  lakhs, unless otherwise stated) for preparing the asset for its intended use.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the consolidated statement of profit and loss when the asset is derecognized.

#### Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates and these future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other expenditure is recognised in profit or loss as incurred.

#### Amortisation

Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use.

The estimated useful life of an identifiable intangible asset is as under:

- Computer software is amortised over a period of 3 years
- Developed products are amortised over a period of 3 years

The estimated useful life and amortisation method are reviewed periodically at the end of each reporting period.

#### 3.15 Impairment of Non-financial assets

The Group assesses at each reporting date whether there is an indication that non-financial asset (excluding inventories, contract assets and deferred tax assets)/ cash generating unit (CGU) may be impaired. If any indication exists the Group estimates the recoverable amount of such assets/ CGU and if carrying amount exceeds the recoverable amount, impairment is recognised.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount is the higher of the fair value less cost to sell and its value in use. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss.

An impairment loss in respect other assets for which impairment loss has been recognised in prior periods, the Group reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### 3.16 Inventories

Inventories are valued at lower of cost, calculated on "Weighted average" basis and net realisable value. Cost incurred in bringing each product to its present location and condition are accounted as follows:

Raw Materials, Packing Materials, Stores and Spares: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

Finished goods and work-in-progress: Cost includes direct materials, labour and a proportion of manufacturing overheads based on the normal operating capacity, but excludes borrowing costs.

Traded goods: Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price of inventories less all the estimated costs of completion and the costs necessary to make the sale.

The net realisable value of work-in-progress is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in the production of finished products are not written down below cost except in cases when a decline in the price of materials indicates that the cost of the finished products shall exceed the net realisable value.

The comparison of cost and net realisable value is made on an item-by-Item basis.

#### 3.17 Contingent liabilities

Provisions are recognised only when there is a present obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reasonable estimate of the amount of obligation can be made. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). Contingent liabilities are disclosed for (i) possible obligation which will be confirmed only by future events not wholly within the control of the Group or (ii) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

#### **Contingent assets**

Contingent asset is not recognised in consolidated financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognized.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

### 3.18 Financial Instruments

(i) Initial recognition and Measurement

(All amounts in ₹ lakhs, unless otherwise stated) Trade receivables and debt securities issued are

initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are recognised when a Group becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the consolidated statement of profit and loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

#### (ii) Subsequent Measurement

Non-derivative financial instruments:

#### a. Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost using the effective interest method if it is held with in a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

# b. Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Group has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not

reclassified to profit or loss.

# c. Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income.

#### d. Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through consolidated statement of profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

### Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### **Derivative financial instruments:**

The Group enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in statement of profit and loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in statement of profit and loss depends on the nature of the hedging relationship and the nature of the hedged item.

## **Effective interest method**

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at Fair Value Through Profit or Loss (FVTPL). Interest income is recognised in consolidated statement of profit (All amounts in ₹ lakhs, unless otherwise stated) and loss and is included in the "other income" line item.

### Hedge accounting:

The Group designates derivative contracts in a cash flow hedging relationship by applying the hedge accounting principles designated in a hedging relationship, used to hedge its risks associated with change in interest rates on the recognised liability.

At the inception of the hedge relationship, the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group documents whether the hedging instrument is highly effective in offsetting changes in fair values or cash flows of the hedged item attributable to the hedged risk. These derivative contracts are stated at the fair value at each reporting date.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in statement of profit and loss.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to statement of profit and loss in the periods when the hedged item affects profit or loss.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or when it no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in statement of profit and loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in statement of profit and loss.

# Derecognition of financial assets and financial liabilities

#### Financial asset:

The Group de-recognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group retains substantially all the rewards of ownership of a transferred financial asset, the Group continues to recognize the financial asset and also recognizes a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the

asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in consolidated statement of profit and loss if such gain or loss would have otherwise been recognised in consolidated statement of profit and loss on disposal of that financial asset.

#### **Financial liabilities**

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the consolidated statement of profit and loss.

#### **Impairment of Financial assets**

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit and loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in the consolidated statement of profit and loss.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. As a practical expedient, the Group uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based (All amounts in ₹ lakhs, unless otherwise stated)

on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL loss allowance (or reversal) during the year is recognised in the consolidated statement of profit and loss.

#### 3.19 Fair value measurement

In determining the fair value of its financial instruments, the Group uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised.

#### 3.20 Changes in material accounting policies

## Material accounting policy information

The Group adopted Disclosure of Accounting Policies (Amendments to Ind AS 1) from 01 April 2023. Although the amendments did not result in any changes in the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

#### 3.21 Recent accounting pronouncements

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Group.

## 14.2 Rights, preferences and restrictions attached to equity shares:

The Parent Company has only one class of issued, subscribed and fully paid up equity shares having a face value of ₹ 1 each per share. Each holder of equity shares is entitled to one vote per share. The dividend (other than interim dividend) proposed, if any, by the Board of Directors is subject to the approval of the Shareholders in the ensuing Annual General Meeting. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to number of equity shares held by the shareholders.

iv) Fair value of shares granted during the year:

Options were priced using Black-Scholes Merton Options pricing model. Where relevant, the expected life used in the model has been adjusted based on management's best estimate for the effects of non-transferability, exercise restrictions, and behavioural considerations. Expected volatility is based on the historical share price volatility over the past years.

The following assumptions were used for calculation of fair value of grants as per Black-Scholes Merton Options Pricing model:

iv) Fair value of shares granted during the year:

Options were priced using Black Scholes Merton Options pricing model. Where relevant, the expected life used in the model has been adjusted based on management's best estimate for the effects of non-transferability, exercise restrictions, and behavioural considerations. Expected volatility is based on the historical share price volatility over the past years.

The following assumptions were used for calculation of fair value of grants as per Black-Scholes Merton Options Pricing model:

#### Nature and purpose of reserves:

- a) General Reserves: General reserve was created through an annual transfer of profits from retained earnings in accordance with applicable regulations. General reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.
- b) Capital reserve: This represents capital subsidy received from government in earlier years for promotion of investment in backward areas.
- c) Security premium: Security premium represents the amount received in excess of the face value of the equity shares. The utilisation of the security premium reserve is governed by the relevant provisions of the Companies Act, 2013 ("Act").
- d) Reserve for equity instruments through other comprehensive income: This reserve represents the cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through other comprehensive income, net of amounts reclassified to retained earnings when those assets have been disposed off.
- e) Share Options Outstanding Account: This reserve relates to share options granted by the Company to its employees under its employee share option plans.
- f) Effective portion of cash flow hedge reserve: When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income and accumulated in the cash flow hedging reserve. The cumulative gain or loss previously recognised in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the related forecasted transaction.
- g) Retained earnings: Retained earnings represents the Company's undistributed earnings after taxes.

#### Notes:

- 1. In respect of the year ended March 31, 2023, shareholders approved at the Annual General Meeting held on September 22, 2023 a final dividend of ₹ 0.25 per equity share. The total amount paid with respect to final dividend is ₹ 497 lakhs.
- 2. FY 2022-23: The Board of Directors in its meeting held on October 21, 2022 and on January 31, 2023 approved interim dividend of ₹ 0.30 and ₹ 0.15 per Equity Share of ₹ 1 each respectively. These amounts are paid within the financial year 2022-23.

#### (c) Unsecured loans :

The Group participates in a supply chain financing arrangement (SCF) with banks, which is disclosed under borrowings. The principal purpose of this arrangement is to provide funding to the Group, and accordingly the Group derecognizes original liabilities upon banks paying the Group's suppliers. Payments to the suppliers by the banks are presented as part of operating activities and payments to the banks by the Company are presented as part of financing activities.

(d) During the year ended 31 March 2024, there has been a deviation with respect to certain ratios such as Debt Service Coverage ratio and EBIDTA of the Parent Company in comparison to the prescribed limits as per the respective loan agreements. The management has however obtained a confirmation prior to the approval of the financial statements from such lenders on the satisfactory discharge of its debt servicing obligations and that the existing repayment schedules as per the sanction terms would continue. Accordingly, borrowings continue to be classified in accordance with the terms of the repayment schedule agreed with the lenders.

Note: The Group has not made any defaults in repayment of principal and interest on the above loans.

Movement in deferred tax assets and liabilities for the year ended March 31, 2023

(i) There are no unrecognised deferred tax assets and liabilities as at 31 March 2024 and 31 March 2023.

(ii) In assessing the realizability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods, the Group has recognised deferred tax assets as there is convincing evidence that sufficient taxable profit will be available against which the unabsorbed depreciation and business loss can be utilised by the Group. It is expected that any reversals of the deferred tax liability would be offset against the reversal of the deferred tax assets.

#### 32. Defined benefit plans

## a) Contribution to provident fund and other funds

#### **Provident fund**

The Group makes provident fund contributions which are defined contribution plans for qualifying employees. Under the scheme, the Group is required to contribute a specified percentage of the payroll costs to fund the benefits. These contributions are made to the fund administered and managed by the Government of India. The Group's monthly contributions are charged to the Statement of Profit and Loss in the period they are incurred. Total expense recognised during the year aggregated ₹ 785 lakhs (March 31, 2023: ₹ 658 lakhs).

#### Gratuity (funded):

Amount recognised in statement of profit and loss in respect of gratuity ₹ 214 lakhs (March 31, 2023: ₹ 176 lakhs).

#### b) Gratuity

In accordance with the 'Payment of Gratuity Act, 1972' of India, the Group, provides for Gratuity, a defined retirement benefit plan (the 'Gratuity Plan') covering eligible employees. Liabilities with regard to such Gratuity plan are determined by an independent actuarial valuation and are charged to the Statement of Profit and Loss for the year determined. The Gratuity fund is administered through a scheme of Life Insurance Corporation of India.

The present value of the defined benefit obligation and the related current service cost and past service cost, were measured using the projected unit credit method. These defined benefit plans expose the Group to actuarial risks, such as longevity risk, currency risk, interest rate risk and market (investment) risk. The gratuity plan is funded. The funding requirements are based on the gratuity fund's actuarial measurement framework set out in the funding policies of the plan and the group contributes to LIC.

The estimates of future salary increases considered in the actuarial valuation take account of price inflation, seniority, promotion and other relevant factors such as demand and supply in the employment market. The discount rate is based on the prevailing market yields of Government of India securities as at the Balance Sheet date for the estimated term of the obligation.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior years.

Expected contribution to the post employee benefits plan during the next financial year is expected to be ₹ 209 lakhs (March 31, 2023: ₹ 160 lakhs)

The weighted average duration of the defined benefit obligation is 7 years (March 31, 2023: 6.62 years)

### (c) Compensated absences:

The Group provides compensated absences benefits to the employees of the Group which can be carried forward to future years. Since the compensated absences do not fall due wholly within twelve months after the end of the year in which the employees render the related service and are also not expected to be utilised wholly within twelve months after the end of the year, the benefit is classified as a long-term employee benefit. During the year ended 31 March 2024, the Group has incurred an expense on compensated absences amounting to ₹ 295 lakhs (March 31, 2023: ₹ 409 lakhs). The Group determines the expense for compensated absences basis the actuarial valuation of the present value of the obligation, using the Projected Unit Credit Method.

#### **33. Financial instruments**

#### 33.1 Capital management

The Group's capital management objective is to maximise the total shareholder return by optimising cost of capital through flexible capital structure that supports growth. Further, the Group ensures optimal credit risk profile to maintain/enhance credit rating. The Group determines the amount of capital required on the basis of annual operating plan and long-term strategic plans. The funding requirements are met through internal accruals and long-term/short-term borrowings. The Group monitors the capital structure on the basis of net debt to equity ratio and maturity profile of the overall debt portfolio of the Group.

Notes:

(i) Borrowings include non-current and current borrowings (Refer Note 16)

(ii) The management assessed that fair value of cash and cash equivalents, trade receivables, other current financial assets, trade payables, current borrowings and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments, and hence these are carried at amortised cost. For non-current borrowings, the valuation model considers the present value of expected payments discounted using the borrowing rate provided by the banks/ financial institutions. The own non-performance risk was assessed to be insignificant.

(iii) Investments (unquoted) are measured at fair value through initial designation in accordance with Ind-AS 109.

(All amounts in ₹ lakhs, unless otherwise stated)

### 33.3 Fair Value by hierarchy

Valuation technique and key inputs

#### Level 1

Quoted prices (unadjusted) in an active market for similar assets or liabilities.

#### Level 2

Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

#### Quantitative disclosures of fair value measurement hierarchy-Level 2 for financial instruments:

| Particulars                | As at March 31,<br>2024 | As at March 31,<br>2023 |
|----------------------------|-------------------------|-------------------------|
| Financial Liabilities      |                         |                         |
| Derivative financial asset | 7                       | 9                       |

The Group enters into derivative financial instruments with various counterparties principally, banks with investment grade credit ratings. Foreign exchange forward contracts and interest rate swaps are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques include forward pricing using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, yield curves of the respective currencies, etc. As at March 31, 2024 the mark-to-market value of derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk. The changes in counterparty credit risk had insignificant impact on the hedge effectiveness assessment for derivatives designated in hedge relationships.

#### Level 3

Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Quantitative disclosures of fair value measurement hierarchy-Level 3 for financial instruments:

| Particulars                | As at March 31,<br>2024 | As at March 31,<br>2023 |
|----------------------------|-------------------------|-------------------------|
| Financial Assets           |                         |                         |
| Unquoted preference shares | 1                       | 1                       |

The fair values of the unquoted preference shares have been estimated using a Discounted Cash Flow model. The valuation requires management to make certain assumptions about the model inputs, including forecast cash flows, earnings growth, discount rate, and probabilities of the various estimates within the range used in management's estimate of fair value for these unquoted preference investments.

Valuation inputs and relationships to fair value:

The following table summarises the valuation technique used in measuring the fair value of the financial instruments, as well as the significant unobservable inputs used. The total value of investments in unquoted preference shares are not material. Hence quantitative disclosures are not disclosed.

#### 33.4 Financial risk management

The Company's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group audit committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

#### **Financial risk factors**

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Group has adequate internal processes to assess, monitor and manage financial risks. The Group's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The liquidity risk is measured by the Group's inability to meet its financial obligations as they become due.

#### **Market risk**

Market is the risk that the fair value of future cash flows of financial instrument will fluctuate because of changes in market prices. Market risk comprises of foreign currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the returns.

#### Foreign currency exposure

The Company is exposed to foreign exchange risk through imports from overseas suppliers in various foreign currencies, exports to customers abroad, bill discounting, buyer's credit, packing credit. The exchange rate between the rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the results of the Company's operations are adversely affected as the rupee appreciates/ depreciates against these currencies. The Company monitors and manages its financial risks by analysing its foreign exchange exposures. The Company, in accordance with its Board approved risk management policies and procedures, enters into foreign exchange forward contracts to manage its exposure in foreign exchange rates.

The following table analyses foreign currency exposures from financial instruments that have not been hedged by a derivative instrument as of March 31, 2024:

#### Interest rate risk:

(All amounts in ₹ lakhs, unless otherwise stated)

The Group draws term loans, working capital demand loans, avails cash credit, foreign currency borrowings including buyer's credit, packing credit etc. for meeting its funding requirements. The Group manages the interest rate risk by maintaining appropriate mix/portfolio of borrowings having fixed and floating rate of interest. The borrowings are serviced on a timely manner and repayments of the principal and interest amounts are made on a regular basis.

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows:

#### Interest rate swap contract

Under Interest rate swap contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amount. Such contract enables Group to mitigate the risk of changing interest rates on the cash flow exposures on the issued variable rate debt. The fair value of interest rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract, and is disclosed below. The average interest is based on the outstanding balances at the end of the reporting period.

#### **Credit risk**

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, deposits with banks, foreign exchange transactions and other financial instrument. Credit risk is managed through credit approvals, monitoring the creditworthiness and establishing credit limits of customers to which the Group grants credit terms in the normal course of business. The group collects security deposits from its dealer customers which act as security against the outstanding trade receivables from such dealer customers. In the event of default, these security deposits can be adjusted against the uncollectible trade receivables from such dealer customers. The Group establishes an allowance for doubtful debts and impairment that represents its estimate of expected losses in respect of trade and other receivables and investments.

#### **Expected credit loss (ECL):**

(i) The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to whom the Group grants credit terms in the normal course of business. The credit period on sale of goods varies with seasons and markets and generally ranges between 30 to 180 days. Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customer. Limits attributed to customers are reviewed annually.

As a practical expedient, the Group uses a provision matrix to determine impairment loss of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. The ECL allowance (or reversal) during the year is recognised in the statement of profit and loss.

(iii) The concentration of risk with respect to trade receivables is reasonably low, as Company's customers are located in several jurisdictions representing large number of minor receivables operating in independent markets. Trade receivable amounting to ₹ 6,711 lakhs (March 31, 2023: ₹ 14,020 lakhs) is due from customers who represent more than 5% of total trade receivables.

The Group's exposure to credit risk for trade receivables by geographic region is as follows:

#### 37. Leases:

The Group leases land, office buildings and vehicles. The land lease runs for a period of 99 years and other leases typically run for a period of 3 to 5 years, with an option to renew the lease at the renewal date. Lease payments are renegotiated at renewal date to reflect market rentals except for vehicle leases.

The Group has certain leases with lease terms of less than 12 months or with low value. The Group applies short term lease and lease of low value assets recognition exemption for these leases. The incremental borrowing rate applied for leases is ranging from 7.62% to 9.67%.

(All amounts in ₹ lakhs, unless otherwise stated)

#### 39. Insurance claim

An Appeal has been filed by the Insurance Company (The Oriental Insurance Company Limited) against the Arbitration Award that was disposed in favour of the Parent Company, before the Hon'ble High Court of Delhi. Pending final disposal of the above appeal, the Parent Company has filed the Execution Petitions before Hon'ble High Court of Delhi for deposit of awarded amount in Material Damage (MD) Claim of ₹ 1,649 lakhs (includes interest) and Business Interruption Policy claim of ₹ 1,277 lakhs (includes interest) with the Court. With respect to the execution petition filed by the Parent Company in both the cases, the Hon'ble High Court of Delhi has passed an order vide its order dated March 19, 2021 & April 9, 2021 directed the Insurance Company to deposit the awarded amount towards Material Damage claim & Business Interruption Policy respectively together with the interest upto the date of deposit with Court. During the financial year 2021-22, the amount deposited by the Insurance Company has been released by the Court in favour of the Parent Company after submission of equivalent bank guarantee. As the matter is subjudice and as advised by its legal council, the Parent Company has not recognized the deposit amount received as income and the interest cost, if any in the books of account.
