MANAGEMENT DISCUSSION AND ANALYSIS REPORT

a) Structure and Developments, Opportunities and Threats, Performance, Outlook, Risks and Concerns

The real estate industry is moving beyond what it perceives as cyclical headwinds — i.e., rising interest rates, declining gross domestic product (GDP), sinking deal flows — and taking a long-term approach to real estate assets. The mood among the real estate professionals we interviewed for this year's Emerging Trends is cautious optimism. Their plan: Ride out the current slump and reposition their firms for another period of sustained growth and strong returns.
