- 1) The Directorate General of Trade Remedies (DGTR) has published their Final Findings vide Gazette Notification dated December 23, 2024, recommending the imposition of an anti-dumping duty of 35% of CIF value on import of specified "Manganese Zinc based Ferrites Core" with China origin whether exported from China or any third country, with the exception of lower rate of 31% for one producer and nil rate for the other two producers specified in the duty table.
