Q3 & 9M FY25 Highlights

Key Developments & Outlook	03
Profit & Loss Highlights	04
Story in Charts	05

Key Developments & Outlook

PARTICULARS	CURRENT (Q3 & 9M FY25)	OUTLOOK
Overall Performance	During Q3FY25, the exports remained subdued because of on going elections in USA which is a key export market for the company. The domestic market on the other hand off-stetted the lower export demand.	We are confident that FY26 will be a strong year for the company, backed by a strong export orders along with positive domestic demand.
Tractors	The Tractor division experienced strong demand. The company's revenue contribution from this segment rose from 21% in the 9MFY24 to 24% 9MFY25.	Looking forward, the tractor market is anticipated to maintain its positive trajectory, supported by robust demand from rural areas.
Medium & Heavy Commercial Vehicles (M&HCV)	The volumes in the Medium & Heavy Commercial Vehicles segment were marginally lower, aligning with the overall industry trend.	The drive towards infrastructure growth, rising industrial output, scrappage policy, expansion of the e-commerce sector, etc will propel India's production of M&HCV demand going forward.
Exports	The Exports stood at ₹318.4 Crores in 9MFY25. Export demand was subdued due to macro-economic developments in the key export market.	There is a robust pipeline of orders for exports, encompassing both existing and new products. Anticipate a favourable upward trend in export growth for FY26.
EBITDA/kg	The EBITDA per kg remained muted during 9MFY25, primarily due to reduction in export sales.	With an uptick in export sales contribution, we expect to see a corresponding rise in EBITDA per kg moving ahead.

Way Forward

Deliver on our Strategy

07

Delivering on our Strategy

Manufacture Value Add Products

- A decade ago, Nelcast shifted focus from highly competitive low complexity business to higher value-add products.
- Upgradation of manual moulding line process to fully automated state-of-art High Pressure Moulding Line.
- Increased product capability by installing a 2.1 x 1.2 m size line; becoming one of the very few casting companies in the world with such capabilities.

Expand the Export Business

- Continue to deliver quality at competitive prices compared to local manufacturers.
- Expand the long-standing relationships by increasing business share on existing products & launching new products.
- Build new relationships and expand diversity in our geography & sector split.

Improving Capacity Utilization Levels

- Eliminate operational inefficiencies and bottlenecks across plants.
- Continuous launch of new products.

Cost Optimization

- Better capacity utilization levels to help Nelcast achieve economies of scale, reduce the impact of costs and aid margins.
- Efforts ongoing in energy conservation & investments in renewable energy to control power costs.
- Installed 1 MW inhouse solar power plant at Pedapariaya Plant in Andhra Pradesh, which will aid toward sustainability and cost effectiveness while reducing carbon footprint.

Strategic Location

- Plants are in close proximity (37-140 KM) to Chennai, a major manufacturing hub for automotive companies forms both a key customer base for Nelcast and a reliable source of steel scrap, a crucial raw material
- All 3 plants are within 15-110KM of India's largest source of Silica Sand near Gudur
- Chennai's International airport with direct flights to Europe, Middle-East & Southeast/East Asia makes it convenient for customers to visit and see the world class facilities firsthand
- Close proximity to Krishnapatnam & Chennal seaports gives easy access to Nelcast to reach its customers around the world

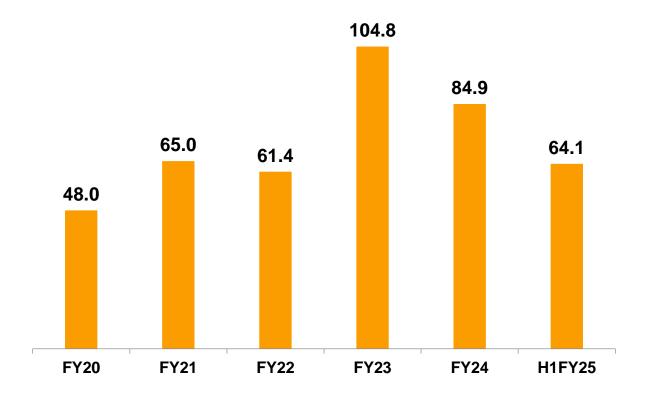

Strong Business Foundation

Cash & Cash equivalents (in ₹ Cr.)

- Received an investment grade rating for short term (A1) and long term (A) fund from ICRA on the back of adequate liquidity, strong relationship with major OEMs and a diversified clientele
- Installed Capacity has been created for 160,000
 Metric Tons per Year. Can be further enhanced
 by 50,000 MT within the existing plants with
 minimal investment

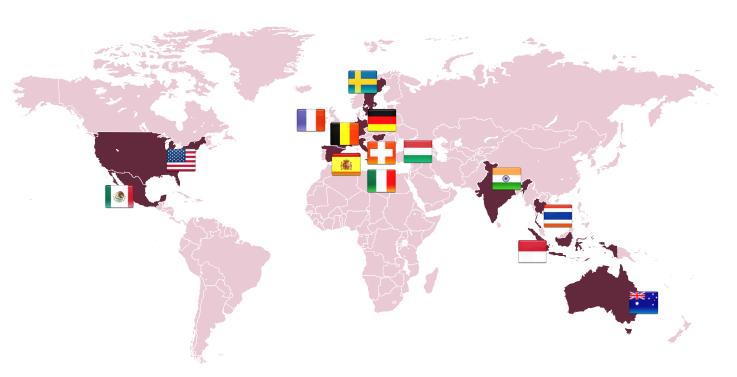

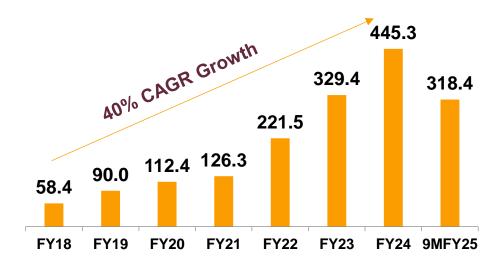

Strong Export Growth Potential

- India is being viewed as a key cog in the global automotive supply chain and sourcing machined castings from India is now becoming an attractive option for global customers.
- Nelcast is among only a few companies in the industry capable of meeting the requirements of top global OEMs & Tier 1s.
- Currently, Nelcast exports machined castings to reputable corporates in North America, Europe and Southeast Asia.

Revenue from Exports (in ₹ Cr.)

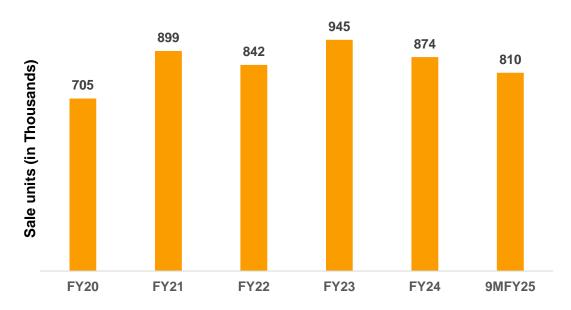

Large Market Opportunity

Indian Tractor Industry

The Industry remained sluggish in FY2024; Anticipated to see an uptick in growth by 3-5% in FY25

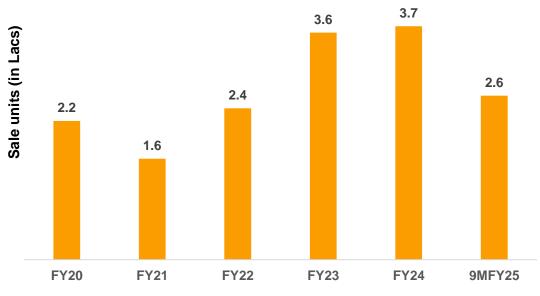

Source: Tractors and Mechanization Association

The tractor sales in India have witnessed a steep decline in key states in west and south in the first 9 months of the fiscal year. The slowdown was due to the tapering of agricultural activities. However, the domestic tractor market is expected to regain the momentum and achieve modest growth of 3-5% in FY25, driven by the expectation of normal monsoon, new government formation and good replacement demand.

Indian M&HCV Industry

Domestic M&HCV sales crossed 3,50,000 units in FY24

Source: SIAM, CMIE

The domestic commercial vehicle industry saw a marginal increase of 4% YoY, this growth was tempered by a decline in the Light Commercial Vehicles (LCVs) and SCVs categories primarily due to degrowth in CNG segment. However, the market is expected to regain the momentum post the general elections.
