SPEAKER POST: A CONTEST AFTER 26 YEARS, BOTH SIDES MOBILISE THEIR MPs

It's Birla vs Suresh amid consensus logjam

Home minister Amit Shah with BJP partners during the filing of nomination in support of NDA MP Om Birla for the post of Lok Sabha Speaker on Tuesday

LIZ MATHEW & MANOJ C G New Delhi, June 25
PARLIAMENT SEEMS HEADED for a rare contest for the Lok Sabha Speaker's post after the government and Opposition failed to reach a breakthrough Tuesday.

Speaker after the government pushed back on the issue. While the NDA has renominated BJP MP Om Birla, who was the Speaker in the 17th Lok Sabha, for the post, INDIA has fielded eight-time Congress MP Kodilkunnil Suresh. The election for the post is scheduled for Wednesday.

Rahul to be LoP in Lok Sabha

CONGRESS LEADER RAHUL Gandhi will occupy the post of Leader of Opposition in the Lok Sabha and a letter about the decision has been sent to Pro-tem Speaker Bhartruhari Mahtab.

The decision on Rahul Gandhi's appointment as the Leader of Opposition was made after a meeting of the floor leaders of the INDIA bloc at Charge chief Mallikarjun Kharge's residence.

Sensex tops 78,000 Automakers speeding up expansion

Sumeet Bagadia, executive director at Choice Broking, said 23,800 points will act as an immediate resistance for the Nifty going ahead. In case the 50-stock index tops this level, it will likely fly towards 24,000 points in the coming sessions, he said.

Interestingly, the benchmark indices have already risen over 5% this month and are set to register their best month so far in 2024. On the other hand, the midcap index is up over 7%, while the small-cap index has been an outperformer with nearly 11% gains for the month.

Analysts believe benchmark indices will consolidate with a positive bias until the Budget next month, with pre-Budget gains in some sectors.

While 24,000 points could be on the cards for the Nifty before the Budget, experts advise caution when it comes to adding fresh positions in the broader market and some sectors which are trading at hefty valuations.

Experts believe investors will look at earnings as key trigger for further direction after the Budget as the overhang of big domestic events would be behind us.

VORA EXPECTS DOMESTIC two-wheeler volumes to increase at a compound 8-9% over FY25-26 driven by strong growth in the 125 cc segment and pick-up in EV volumes.

Retail sales of ICE two-wheelers in FY24 stood at 17.51 million units, up 9.3% over FY23. The bulk of the capex, or roughly two-thirds, will be incurred by legacy heavyweights Maruti Suzuki, Tata Motors and Mahindra & Mahindra (M&M).

Maruti Suzuki has indicated it wants to have a capacity of 4 million units by 2030-31 even as it enhances its suite of products to 27-28 - including hybrids and EVs - from 17 currently.

Meanwhile, Hyundai India has said it will commit ₹32,000 crore as it develops an EV platform in the country and builds a supply chain to localise the production of components.

Outlining Mahindra & Mahindra's plans, executive director Rajesh Jejurikar has said the company is developing both ICE and EV portfolios.

M&M intends to invest around ₹27,000 crore in the next few years and is targeting 23 launches by 2030 across SUVs and LCVs. "It is how we want to drive globalisation over the next 6-7 years. We need products which are going to be globally competitive," Jejurikar said.

ICE and EV portfolios. M&M intends to invest around ₹27,000 crore in the next few years and is targeting 23 launches by 2030 across SUVs and LCVs.

Adani Group plans to invest ₹1.3-trn in FY25

TALKING ABOUT THE capex plan, Singh said of the ₹1.3-trillion investment, Adani Green Energy (AGEL) will spend about ₹34,000 crore. The company plans to add 6GW to 7GW this financial year, Singh said.

The group also plans to raise \$500 million in project financing in the current fiscal. Singh said Adani New Industries (ANIL), Adani Connex, Adani Airports, ARTL (Roads) are 85% of its capex in FY25.

"This year is mostly an asset completion year for us. We have completed copper. We will complete the Navi Mumbai airport by the end of the year or early next year," he said.

The group, which plans to invest \$100 billion in the next 10 years in the energy transition and infrastructure sectors, will launch the initial public offering of its airport business by 2027-28, Singh said.

The entire funding plan for the next decade has been tied up with 68% of the funding coming from internal cash flow, Singh said.

Chairman Gautam Adani recently said the group is in manufacturing of every major component required for green energy generation.

The conglomerate has recorded 4.2 billion consumer interactions across businesses in a year. Margins are 30% after deploying all the capital, while cash per share growth stands at 43.2%, the CFO said.
