Annual eye screening must for diabetics to save eyesight: Dr Agarwals Eye Hospital

Chennai, Nov 15: "There are 101 million people diagnosed with diabetes and 136 million people diagnosed with prediabetes in India. Around 10% of individuals (approx. 1 in 10) with diabetes will develop some form of diabetic eye disease post 10 years of their diagnosis or even earlier. This can lead to severe vision loss or even blindness. However, a vast portion of diabetics population do not go for eye checkups because there is not enough awareness that diabetes could affect eyes as much as it does heart or kidney. Also, diabetic retinopathy can remain free of symptoms initially" said Dr. Manoj Khatri, Clinical Lead and Head, Department of Vitreo-Retina, Dr Agarwals Eye Hospital, Chennai.

"Regular screening and early detection of the risks of this disorder can help crores of Indians either to prevent or manage diabetes. Type 2 diabetes can even be prevented, or its onset can be delayed with a few lifestyle changes and healthy eating. Keeping

blood sugar, blood pressure, and cholesterol in control; reducing weight, having good food, regular exercise, and leading a stress-free life can go a long way in diabetic patients preserving vision" added Dr. Manoj Khatri.

In view of the theme of "Breaking Barriers, Bridging Gaps" of the World Diabetes Day, 2024, which falls on November 14, Dr Agarwals Eye Hospital is organizing a two-week long free ophthalmic consultation in the city for diabetic patients who are 50 years or above, from November 14. The hospital offers consulting services also to people of all age groups by charging only 50% of the fee. For Registration: 95949 24048

In a media statement, Dr. Manoj Khatri said that diabetic retinopathy leads to abnormal growth of blood vessels in the eyes, and affects the vision by causing internal swelling/bleeding, blocking of fluids, damaging retina and optic nerves, and even displacing retina. Diabetic retinopathy can be diagnosed through a comprehensive eye examination of retina and macula. Treatment of diabetic retinopathy includes laser surgery to seal leaking blood vessels, injection of medications into the eyes to decrease inflammation as well as certain abnormal growth factors, and surgical procedure to remove and replace the gel-like fluid in the back of the eye to repair a retinal detachment or vitreous hemorrhage.

Chennai, Nov 15: Children's Day is a poignant reminder of the innocence, potential, and joy that our little ones bring into our lives. As parents, we strive to provide them with the best possible future, which inevitably involves sound financial planning. One of the most effective tools to achieve this is through Systematic Investment Plans (SIPs).

Financial planning is akin to laying the foundation of a strong building. A strong foundation ensures stability, growth, and the ability to weather storms. Similarly, a solid financial plan provides the security and opportunities your child needs to thrive. Whether it's higher education, a dream wedding, or starting a business, financial planning helps you set clear goals and work towards them systematically. It can also help in the creation of a potential safety net. Unexpected expenses can arise at any time. A strong financial safety net ensures you can handle these situations without compromising your child's future. Furthermore, by involving your child in the financial planning process, you can instill valuable lessons about money management, saving, and investing.

Benefits of SIP
SIP encourages regular, disciplined investing by

allowing the investor to invest a fixed amount at regular intervals. Rupee Cost Averaging means that investor invests a fixed amount regularly, regardless of the market conditions. When the market is down, investor gets to buy more units, and when the market is up, investor gets to buy fewer units. Compounding is a concept where the returns on your investments generate their own returns. In Conclusion Financial planning is the cornerstone of securing your child's future. By laying a strong financial foundation, you can ensure that they have the resources to pursue their dreams, whether it's higher education, a dream wedding, or starting a business. Systematic Investment Plans (SIPs) offer a disciplined approach to investing, allowing you to invest a fixed amount regularly.

business. Systematic Investment Plans (SIPs) offer a disciplined approach to investing, allowing you to invest a fixed amount regularly.
