# Management Commentary

## Mr. Mandar Joshi

WHOLE TIME DIRECTOR AND CEO

The chemical industry in India in general was affected by weak demand during Q1 FY25. Imported raw material prices remained volatile due to higher freight rates caused by Red Sea issues.

For IVP, both Foundry Chemicals and PU Chemicals demand remained subdued as production at customer end was affected due to shortages of labor in view of severe heat wave and elections in India. Intense competition from lower-priced imports added to the difficulties. Despite these challenges, our Y-o-Y performance showed significant improvement in EBITDA and PBT, in spite of flat Revenue. However Q-o-Q showed decline in Revenue, EBIDTA and PBT.

Looking ahead to FY25, India's healthy GDP growth is expected to support domestic demand. IVP, with its focus on the domestic market, aims to grow volumes and increase market share. Our installed capacities, diverse product portfolio, and R&D efforts position us well to capitalize on emerging opportunities and drive improved performance as demand recovers.
