Brent jumps over \$3 on likely Opec+ supply cut

LAURA SANICOLA August 29

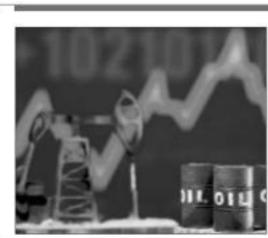

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5.

US West Texas Intermediate (WTI) crude gained \$3.16, or 3.4%, to\$ 96.22 after rallying 2.5% last week.

"Oil prices are inching higher on hopes of a production cut from Opec and its allies to restore market balance in response to the revival of Iran's nuclear deal," said Sugandha Sachdeva, vice president of commodity research at Religare Broking. Banks divided on credit growth outlook: Report

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

Of the total banks surveyed, 48% of banks are expecting non-food industry credit growth to be above 10%, 24% expect growth to be in the range of 8-10% and the remaining 28% expect it to be below 8%, as per the fifteenth round of survey by Ficci and IBA conducted between January and June 2022. The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

The banking sector posted a credit growth of 15.8% year-on-year (y-o-y) as of the fortnight ended August 12, the lat-

est data from the Reserve Banks' credit Bank of India (RBI) grew 15% for shows. With this, banks' credit grew by 15% for two consecutive fortnights in a row, which has been growing over 10% from June onwards. During the quarter that June onwards ended June 30, credit

growth stood at 14.2% as

two consecutive fortnights in a row, which has been growing over 10% from

compared to 6% a year ago. "Major infrastructure development plans have been in place by the government to facilitate quick capital spending with a strong multiplier effect. This is likely to spur demand for infrastructure financing," the report said.

As per the survey, 74% of banks expect infrastructure loans to increase. Among other sectors, an uptick is seen in the long-term loans to metals, chemicals, food processing, pharmaceuticals, auto and real estate sectors. Most banks are expecting credit standards for large enterprises to remain

unchanged as against 78% in the last round. Although personal loan growth trumps other segments, the RBI's sectoral credit data shows an uptick in loans to industry, with loan growth to infrastructure firms at 9.5% in June. As capacity utilisation is at 75% now, the corporate is expected to put to use its sanctioned loans, SBI chairman Dinesh Khara said after its O1FY23 results.

Brent jumps over \$3 on likely Opec+ supply cut

LAURA SANICOLA August 29

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5.

Brent crude was up \$3.16, or 3.1%, at \$104.15 a barrel by 9:52 PM IST, having risen by 4.4% last week.

CRUDE IMPACT

- Saudi Arabia, top producer in Opec, last week raised the possibility of output cuts
- Production cuts, sources say could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West

US West Texas Intermediate (WTI) crude gained \$3.16, or 3.4%, to\$ 96.22 after rallying 2.5% last week.

"Oil prices are inching higher on hopes of a production cut from Opec and its allies to restore market balance in response to the revival of Iran's nuclear deal," said Sugandha Sachdeva, vice president of com-

modity research at Religare Broking.

The price of crude oil has surged this year, with Brent coming close to a record high of \$147 in March as Russia's invasion of Ukraine exacerbated supply concerns. Rising fears over high interest rates, inflation and recession risks have since weighed on the market. **—REUTERS**

Banks divided on credit growth outlook: Report

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

Of the total banks surveyed, 48% of banks are expecting non-food industry credit growth to be above 10%, 24% expect growth to be in the range of 8-10% and the remaining 28% expect it to be below 8%, as per the fifteenth round of survey by Ficci and IBA conducted between January and June 2022. The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

The banking sector posted a credit growth of 15.8% year-on-year (y-o-y) as of the fortnight

ended August 12, the latest data from the Reserve Bank of India (RBI) shows. With this, banks' credit grew by 15% for two consecutive fortnights in a row, which has been growing over 10% from June onwards. During the quarter that ended June 30, credit growth stood at 14.2% as

grew 15% for two consecutive fortnights in a row, which has been growing over 10% from June onwards

Banks' credit

compared to 6% a year ago. "Major infrastructure development plans have been in place by the government to facilitate quick capital spending with a strong multiplier effect. This is likely to spur demand for infrastructure financing, the report said.

As per the survey, 74% of banks expect infrastructure loans to increase. Among other sectors, an uptick is seen in the long-term loans to metals, chemicals, food processing, pharmaceuticals, auto and real estate sectors. Most banks are expecting credit standards for large enterprises to remain unchanged as against 78% in the last round.

Although personal loan growth trumps other segments, the RBI's sectoral credit data shows an uptick in loans to industry, with loan growth to infrastructure firms at 9.5% in June. As capacity utilisation is at 75% now, the corporate is expected to put to use its sanctioned loans, SBI chairman Dinesh Khara said after its Q1FY23 results.

Banks divided on credit growth outlook: Report

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

Of the total banks surveyed, 48% of banks are expecting non-food industry credit growth to be above 10%, 24% expect growth to be in the range of 8-10% and the remaining 28% expect it to be below 8%, as per the fifteenth round of survey by Ficci and IBA conducted between January and June 2022. The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

The banking sector posted a credit growth of 15.8% year-on-year (y-o-y) as of the fortnight ended August 12, the lat-Banks' credit

est data from the Reserve Bank of India (RBI) shows. With this, banks' credit grew by 15% for two consecutive fortnights in a row, which has been growing over 10% from June onwards. During the quarter that ended June 30, credit growth stood at 14.2% as

grew 15% for two consecutive fortnights in a row, which has been growing over 10% from June onwards

compared to 6% a year ago. "Major infrastructure development plans have been in place by the government to facilitate quick capital spending with a strong multiplier effect. This is likely to spur demand for infrastructure financing, the report said. As per the survey, 74% of banks expect infra-

structure loans to increase. Among other sectors, an uptick is seen in the long-term loans to metals, chemicals, food processing, pharmaceuticals, auto and real estate sectors. Most banks are expecting credit standards for large enterprises to remain unchanged as against 78% in the last round.

Although personal loan growth trumps other segments, the RBI's sectoral credit data shows an uptick in loans to industry, with loan growth to infrastructure firms at 9.5% in June. As capacity utilisation is at 75% now, the corporate is expected to put to use its sanctioned loans, SBI chairman Dinesh Khara said after its Q1FY23 results.

Brent jumps over \$3 on likely Opec+ supply cut

LAURA SANICOLA August 29

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5.

Brent crude was up \$3.16, or 3.1%, at \$104.15 a barrel by 9:52 PM IST, having risen by 4.4% last week.

CRUDE IMPACT

- Saudi Arabia, top producer in Opec, last week raised the possibility of output cuts
- Production cuts, sources say could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West

US West Texas Intermediate (WTI) crude gained \$3.16, or 3.4%, to\$ 96.22 after rallying 2.5% last week.

"Oil prices are inching higher on hopes of a production cut from Opec and its allies to restore market balance in response to the revival of Iran's nuclear deal," said Sugandha Sachdeva, vice president of com-

modity research at Religare Broking.

The price of crude oil has surged this year, with Brent coming close to a record high of \$147 in March as Russia's invasion of Ukraine exacerbated supply concerns. Rising fears over high interest rates, inflation and recession risks have since weighed on the market. **—REUTERS**

Banks divided on credit growth outlook: Report

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

The banking sector posted a credit growth of 15.8% year-on-year (y-o-y) as of the fortnight

Brent jumps over \$3 on likely Opec+ supply cut

LAURA SANICOLA August 29

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5.

Brent crude was up \$3.16, or 3.1%, at \$104.15 a barrel by 9:52 PM IST, having risen by 4.4% last week.

CRUDE IMPACT

- Saudi Arabia, top producer in Opec, last week raised the possibility of output cuts
- Production cuts, sources say could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West

US West Texas Intermediate (WTI) crude gained \$3.16, or 3.4%, to\$ 96.22 after rallying 2.5% last week.

"Oil prices are inching higher on hopes of a production cut from Opec and its allies to restore market balance in response to the revival of Iran's nuclear deal," said Sugandha Sachdeva, vice president of com-

modity research at Religare Broking. The price of crude oil has surged

this year, with Brent coming close to a record high of \$147 in March as Russia's invasion of Ukraine exacerbated supply concerns. Rising fears over high interest rates, inflation and recession risks have since weighed on the market. **—REUTERS**

Brent jumps over \$3 on likely Opec+ supply cut

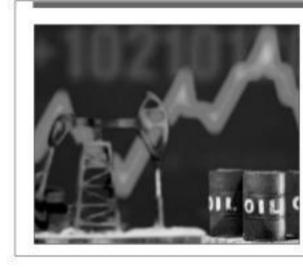

LAURA SANICOLA August 29

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5. Brent crude was up \$3.16, or

3.1%, at \$104.15 a barrel by 9:52 PM IST, having risen by 4.4% last week.

CRUDE IMPACT

- Saudi Arabia, top producer in Opec, last week raised the possibility of output cuts
- Production cuts, sources say could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West

US West Texas Intermediate (WTI) crude gained \$3.16, or 3.4%, to\$ 96.22 after rallying 2.5% last week.

"Oil prices are inching higher on hopes of a production cut from Opec and its allies to restore market balance in response to the revival of Iran's nuclear deal," said Sugandha Sachdeva, vice president of com-

modity research at Religare Broking.

The price of crude oil has surged this year, with Brent coming close to a record high of \$147 in March as Russia's invasion of Ukraine exacerbated supply concerns. Rising fears over high interest rates, inflation and recession risks have since weighed on the market. **—REUTERS**

Banks divided on credit growth outlook: Report

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

Of the total banks surveyed, 48% of banks are expecting non-food industry credit growth to be above 10%, 24% expect growth to be in the range of 8-10% and the remaining 28% expect it to be below 8%, as per the fifteenth round of survey by Ficci and IBA conducted between January and June 2022. The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

The banking sector posted a credit growth of 15.8% year-on-year (y-o-y) as of the fortnight

ended August 12, the latest data from the Reserve Bank of India (RBI) shows. With this, banks' credit grew by 15% for two consecutive fortnights in a row, which has been growing over 10% from June onwards. During the quarter that ended June 30, credit growth stood at 14.2% as

grew 15% for two consecutive fortnights in a row, which has been growing over 10% from June onwards

Banks' credit

compared to 6% a year ago. "Major infrastructure development plans have been in place by the government to facilitate quick capital spending with a strong multiplier effect. This is likely to spur demand for infrastructure financing, the report said. As per the survey, 74% of banks expect infra-

structure loans to increase. Among other sectors, an uptick is seen in the long-term loans to metals, chemicals, food processing, pharmaceuticals, auto and real estate sectors. Most banks are expecting credit standards for large enterprises to remain unchanged as against 78% in the last round. Although personal loan growth trumps

other segments, the RBI's sectoral credit data shows an uptick in loans to industry, with loan growth to infrastructure firms at 9.5% in June. As capacity utilisation is at 75% now, the corporate is expected to put to use its sanctioned loans, SBI chairman Dinesh Khara said after its Q1FY23 results.

Brent jumps over \$3 on likely Opec+ supply cut

LAURA SANICOLA August 29

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5.

Brent crude was up \$3.16, or 3.1%, at \$104.15 a barrel by 9:52 PM IST, having risen by 4.4% last week.

CRUDE IMPACT

- Saudi Arabia, top producer in Opec, last week raised the possibility of output cuts
- Production cuts, sources say could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West

US West Texas Intermediate (WTI) crude gained \$3.16, or 3.4%, to\$ 96.22 after rallying 2.5% last week.

"Oil prices are inching higher on hopes of a production cut from Opec and its allies to restore market balance in response to the revival of Iran's nuclear deal," said Sugandha Sachdeva, vice president of com-

modity research at Religare Broking.

The price of crude oil has surged this year, with Brent coming close to a record high of \$147 in March as Russia's invasion of Ukraine exacerbated supply concerns. Rising fears over high interest rates, inflation and recession risks have since weighed on the market. **—REUTERS**

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

The banking sector posted a credit growth of 15.8% year-on-year (y-o-y) as of the fortnight

Brent jumps over \$3 on likely Opec+ supply cut

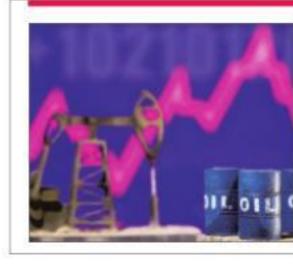

LAURA SANICOLA August 29

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5.

Brent crude was up \$3.16, or 3.1%, at \$104.15 a barrel by 9:52 PM IST, having risen by 4.4% last week.

Banks divided on credit growth outlook: Report

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

Of the total banks surveyed, 48% of banks are expecting non-food industry credit growth to be above 10%, 24% expect growth to be in the range of 8-10% and the remaining 28% expect it to be below 8%, as per the fifteenth round of survey by Ficci and IBA conducted between January and June 2022. The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

The banking sector posted a credit growth of 15.8% year-on-year (y-o-y) as of the fortnight ended August 12, the lat-Banks' credit

est data from the Reserve Bank of India (RBI) shows. With this, banks' credit grew by 15% for two consecutive fortnights in a row, which has been growing over 10% from June onwards. During the quarter that ended June 30, credit growth stood at 14.2% as

compared to 6% a year ago. "Major infrastructure development plans have been in place by the government to facilitate quick capital spending with a strong multiplier effect. This is likely to spur demand for infrastructure financing, the report said. As per the survey, 74% of banks expect infra-

structure loans to increase. Among other sectors, an uptick is seen in the long-term loans to metals, chemicals, food processing, pharmaceuticals, auto and real estate sectors. Most banks are expecting credit standards for large enterprises to remain unchanged as against 78% in the last round.

Although personal loan growth trumps other segments, the RBI's sectoral credit data shows an uptick in loans to industry, with loan growth to infrastructure firms at 9.5% in June. As capacity utilisation is at 75% now, the corporate is expected to put to use its sanctioned loans, SBI chairman Dinesh Khara said after its Q1FY23 results.

Brent jumps over \$3 on likely Opec+ supply cut

LAURA SANICOLA August 29

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5.

Brent crude was up \$3.16, or 3.1%, at \$104.15 a barrel by 9:52 PM IST, having risen by 4.4% last week.

Brent jumps over \$3 on likely Opec+ supply cut

LAURA SANICOLA August 29

OIL PRICES ROSE more than \$3 a barrel on Monday, extending last week's gain, as potential Opec+ output cuts and conflict in Libya helped to offset a strong US dollar and a dire outlook for US growth.

Saudi Arabia, top producer in the Organization of the Petroleum Exporting Countries (Opec), last week raised the possibility of production cuts, which sources said could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West.

Opec+, comprising OPEC, Russia and allied producers, meets to set policy on September 5. Brent crude was up \$3.16, or

3.1%, at \$104.15 a barrel by 9:52 PM IST, having risen by 4.4% last week.

CRUDE IMPACT

- Saudi Arabia, top producer in Opec, last week raised the possibility of output cuts
- Production cuts, sources say could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West

US West Texas Intermediate (WTI) crude gained \$3.16, or 3.4%, to\$ 96.22 after rallying 2.5% last week.

"Oil prices are inching higher on hopes of a production cut from Opec and its allies to restore market balance in response to the revival of Iran's nuclear deal," said Sugandha Sachdeva, vice president of com-

modity research at Religare Broking. The price of crude oil has surged

this year, with Brent coming close to a record high of \$147 in March as Russia's invasion of Ukraine exacerbated supply concerns. Rising fears over high interest rates, inflation and recession risks have since weighed on the market. **—REUTERS**

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

CRUDE IMPACT

- Saudi Arabia, top producer in Opec, last week raised the possibility of output cuts
- Production cuts, sources say could coincide with a boost in supply from Iran should it clinch a nuclear deal with the West

US West Texas Intermediate (WTI) crude gained \$3.16, or 3.4%, to\$ 96.22 after rallying 2.5% last week.

"Oil prices are inching higher on hopes of a production cut from Opec and its allies to restore market balance in response to the revival of Iran's nuclear deal," said Sugandha Sachdeva, vice president of commodity research at Religare Broking. The price of crude oil has surged this year, with Brent coming close to a record high of \$147 in March as Russia's invasion of Ukraine exacer-

bated supply concerns. Rising fears over high interest rates, inflation and recession risks have since weighed on the market. **—REUTERS**

Banks divided on credit growth outlook: Report

FE BUREAU Mumbai, August 29

BANKERS HAVE DIFFERENT expectations of loan growth going ahead even as the current level of non-food credit has witnessed a rapid increase in the past couple of months. Although the banks are optimistic, some are expecting the pace of loan growth to slow down over the next six months, a report by the trade body Federation of Indian Chambers of Commerce & Industry (Ficci) and Indian Banks' Association (IBA) said.

Of the total banks surveyed, 48% of banks are expecting non-food industry credit growth to be above 10%, 24% expect growth to be in the range of 8-10% and the remaining 28% expect it to be below 8%, as per the fifteenth round of survey by Ficci and IBA conducted between January and June 2022. The survey consisted of 25 banks including the public sector, private sector and foreign banks, which all put together represent about 76% of the banking industry, as classified by asset size.

The banking sector posted a credit growth of 15.8% year-on-year (y-o-y) as of the fortnight Banks' credit

ended August 12, the latest data from the Reserve Bank of India (RBI) shows. With this, banks' credit grew by 15% for fortnights in a two consecutive fortnights in a row, which has been growing over 10% from June onwards. During the quarter that June onwards ended June 30, credit growth stood at 14.2% as

grew 15% for two consecutive row, which has been growing over 10% from

compared to 6% a year ago. "Major infrastructure development plans have been in place by the government to facilitate quick capital spending with a strong multiplier effect. This is likely to spur demand for infrastructure financing," the report said.

As per the survey, 74% of banks expect infrastructure loans to increase. Among other sectors, an uptick is seen in the long-term loans to metals, $chemicals, food \, processing, pharmaceuticals, auto$ and real estate sectors. Most banks are expecting credit standards for large enterprises to remain

unchanged as against 78% in the last round. Although personal loan growth trumps other segments, the RBI's sectoral credit data shows an uptick in loans to industry, with loan growth to infrastructure firms at 9.5% in June. As capacity utilisation is at 75% now, the corporate is expected to put to use its sanctioned loans, SBI chairman Dinesh Khara said after its Q1FY23 results.
