ANNEXURE-D**MANAGEMENT DISCUSSION AND ANALYSIS****Economic Overview**

Global Economy: The global economy in FY 2023-24 was characterized by moderate growth, with several economies recovering from the impacts of the pandemic and navigating challenges such as inflationary pressures, fluctuating interest rates, and geopolitical tensions. The real estate sector, especially in major global cities, saw varied performance due to changes in demand patterns, supply chain constraints, and evolving investor sentiment.

Indian Economy:

The Indian economy continued its growth trajectory, recording a GDP growth rate of [insert percentage]. Government initiatives, including infrastructure development, affordable housing schemes, and policy reforms, significantly contributed to the economic landscape. The real estate sector, a key contributor to the GDP, witnessed steady growth driven by increased urbanization, rising income levels, and favorable government policies.

2. Industry Overview

Real Estate Sector in India: The Indian real estate sector showed resilience and growth during FY 2023-24, despite facing challenges such as rising construction costs, interest rate hikes, and regulatory changes. Key trends that shaped the industry included:

- Residential Segment: The residential real estate market saw a surge in demand, particularly in affordable and mid-segment housing. Homeownership sentiment remained strong, fueled by low mortgage rates, urban migration, and changing lifestyle preferences post-pandemic.
- Commercial Segment: The commercial real estate sector faced a mixed year, with demand for office spaces rebounding in Tier 1 cities, while flexible and hybrid working models continued to shape the demand for co-working spaces.
- Retail and Hospitality: The retail and hospitality segments witnessed a gradual recovery, supported by increased consumer spending, the return of tourism, and the opening of new retail formats in urban areas.
- Regulatory Environment: The sector continued to adapt to regulatory changes, including the implementation of the Real Estate (Regulation and Development) Act (RERA), which enhanced transparency and accountability.

Affordable housing continues to remain a significant opportunity for players and key focus area of government, major short supply of housing lies in the economically weak and low-income segments. The government's constant push for affordable housing has shifted the focus from high-end and luxury segments to the affordable segment.

PERFORMANCE HIGHLIGHTS:

The Company did not report any turnover during the financial year , as there was no new projects started by the Company.

During the financial year, company posted a loss of Rs. 13.77 Lacs for the financial year 2023-24 as against loss of Rs. 10.48 Lacs for the previous financial year 2022-23. Loss was on account of inability of the Company to undertake any new projects during the financial year post the completion of existing project at Karjat and therefore there was no operational income recorded during the financial year .

- The Company has reported accumulated losses of Rs. 603.74 lakhs (Previous Year Rs.589.96 Lacs) which has resulted in substantial erosion of net worth of the Company . The management is evaluating various options including starting a new line of business

FUTURE PROSPECTS/OUTLOOK:

A cyclical downturn combined with impact of demonetization, GST and the implementation of the Real Estate (Regulation and Development) Act, 2016 has created uncertainty in the sector. Further owing to GST, IBC & NBFC crisis and the subvention scheme ban it has been tough for the sector to align itself with these new regulations, the measures have been instrumental to bring transparency, accountability and fiscal discipline over the last few years.

As India awaits policy reforms to pick up speed, your Company firmly believes that the demand for Real Estate in a country like India should remain strong in the medium to long term. Your Company's well accepted brand, contemporary architecture, well designed projects in strategic locations, strong balance sheet and stable financial performance even in testing times make it a preferred choice for customers and shareholders. Your Company is ideally placed to further strengthen its development potential by acquiring new land parcels.

The auditor in the previous financial year had commented on Material Uncertainty Related to Going Concern status of the Company owing to net loss of Rs 301.03 lakhs for the year ended 31st March, 2022 which had resulted in substantial erosion of net worth of the Company. There were circumstances which may cast a doubt on the ability of the company to continue as a going concern. However , Management is of the view that its current assets are more than its total outside liabilities and management is evaluating various options including starting a new line of business .

THREATS RISKS AND CONCERNS

The real estate market is inherently a cyclical market and is affected by macroeconomics conditions, changes in applicable government schemes, changes in supply and demand for projects, shortage in manpower, availability of consumer financing and illiquidity. The present Russia-Ukraine crisis along with rising cost of inputs in the real estate sector has made the situation worse.

RISK MANAGEMENT

Execution Risk: The Real Estate and construction projects are subject to various execution risks like regulatory hurdles, delay in receipt of approvals, availability of labour and raw material, etc. Any such delay may result in cost overruns and impact the Company's operations unfavorably.

Liquidity Risk: The Real estate business has significant initial outflow with staggered and long-term inflows. Delays in project cycle; inadequate funding resources may have an impact on the liquidity position of the Company.

Regulatory Environment: Our operations are exposed to uncertain political, legal and economic environment, government instability and complex legal systems and laws and regulations in India and abroad. Our ability to manage, evolve and improve our operational, financial and internal controls across the organization and to integrate our widespread operations and derive benefits from our operations is key to our growth strategy and results of operations.

Mitigation Strategies:

- **Diversification:** The company has diversified its portfolio across segments and geographies to reduce

dependency on any single market.

- **Cost Management:** Implementing advanced construction technologies and efficient project management practices has helped in controlling costs and maintaining profitability.
- **Customer Focus:** Emphasis on customer satisfaction, timely project delivery, and innovative marketing strategies has strengthened brand loyalty and demand.

Real Estate Sector in India: The Indian real estate sector showed resilience and growth during FY 2023-24, despite facing challenges such as rising construction costs, interest rate hikes, and regulatory changes. Key trends that shaped the industry included:

- **Residential Segment:** The residential real estate market saw a surge in demand, particularly in affordable and mid-segment housing. Homeownership sentiment remained strong, fueled by low mortgage rates, urban migration, and changing lifestyle preferences post-pandemic.
- **Commercial Segment:** The commercial real estate sector faced a mixed year, with demand for office spaces rebounding in Tier 1 cities, while flexible and hybrid working models continued to shape the demand for co-working spaces.
- **Retail and Hospitality:** The retail and hospitality segments witnessed a gradual recovery, supported by increased consumer spending, the return of tourism, and the opening of new retail formats in urban areas.
- **Regulatory Environment:** The sector continued to adapt to regulatory changes, including the implementation of the Real Estate (Regulation and Development) Act (RERA), which enhanced transparency and accountability.

Report on the Audit of Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of Sikozy Realtors Limited (The Company), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (Including Other Comprehensive Income), the Cash Flow Statement, the Statement of Changes in Equity and Notes to the Ind AS Financial Statement for the year then ended including a summary of significant accounting policies and other explanatory information (Hereinafter referred to as the "Ind AS Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act 2013 (The 'Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act, of the state of affairs (financial position) of the Company as at March 31, 2024, its Loss (including other Comprehensives income) and its Cash Flows and changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143 (10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements Section of our report. We are Independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the Ind AS Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our ethical responsibilities in accordance with these requirements and the Code of the Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Material Uncertainty Related to Going Concern

We draw attention to Note no.30 of the Notes to the financial statements, the Company has reported a net loss of Rs 13.77 lakhs for the year ended 31st March, 2024 (Previous Year Rs 10.48 Lakhs) and, as of date has reported accumulated losses of Rs. 603.74 lakhs (Previous Year Rs. 589.96 Lakhs) which has resulted in substantial erosion of net worth of the Company.

In spite of these events or conditions which may cast a doubt on the ability of the company to continue as a going concern, the management is of the opinion that going concern basis of accounting is appropriate in view of the fact that its current assets are more than its total outside liabilities and management is evaluating various options including starting a new line of business.

Therefore, financial statements of the Company have been prepared on a going concern basis. Our opinion is not modified in respect of the said matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in **the Material Uncertainty Related to Going Concern section**, we have determined following matters to be communicated in our report as key Audit matter.

Assessing the carrying value of Inventory

<p>As at March 31, 2024, the carrying value of inventory is Rs. 13.21 lakhs (Pr Yr 13.21Lakhs) The inventories are carried at lower of cost and net realizable value (‘NRV’). The determination of the NRV involves estimates based on prevailing market conditions and taking into account the estimated future selling price, cost to complete projects and selling costs.</p> <p>We identified the assessment of the carrying value of inventory as a key audit matter due to the significance of the balance that involves estimates and judgement</p>	<p>Our procedures in assessing the carrying value of the inventories included, among others, the following: We read and evaluated the accounting policies with respect to inventories and land advances/deposits We assessed the Company’s methodology applied in assessing the carrying value under the relevant accounting standards including current market conditions in assessing the net realizable value having regard to project development plan and expected future sales. We made inquiries with management with respect to work-in-progress on test check basis to understand key assumptions used in determination of the net realizable value/ net</p>

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the other information. The Other information comprises the information included in Management Discussion and Analysis, Board's Report including Annexures in the Board Report and Shareholder information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If based on the work we have performed, we concluded that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and Those Charged with Governance for the Standalone Financial Statements.

The Company's Board of Director is responsible for the matters stated in Section 134(5) of The Companies Act, 2013 ("The Act"), with respect to the preparation and presentation of these Ind AS financial statements that give a true and fair view of the state of affairs (financial position), Profit/Loss (financial performance) (Including Other Comprehensive Income) and changes in the Equity and cash flows of the Company in accordance with the Accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules 2015, as amended.

This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies;

making judgment and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operation, or has no realistic alternative but to do so.

The Board of Directors of the Company are also responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS Financial statements as whole are free from material misstatement, whether due to fraud or errors and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or errors and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment, and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or errors, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as, fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting

estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements, or if such disclosures are inadequate to modify our opinion. Our conclusions are based on the audit evidence obtained upto the date of audit report.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiency in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguard.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in audit of Ind As financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes about public disclosures about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order,2020 (The 'Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the **Annexure A**, a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. Further to our comment in Annexure 'A' As required by section 143 (3) of the Act, we report that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit:
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Ind AS financial statements dealt with by this Report are in agreement with the books of account.

ANNEXURE “B” TO THE INDEPENDENT AUDITORS’ REPORT of even date to the Members of Sikozy Realtors Limited on the Ind AS Financial statement for the year ended 31st March, 2024

Independent Auditor’s report on the Internal Financial Controls under clause(i)of Sub-section 3 of Section 143 of The Companies Act, 2013 (The” Act”)

In conjunction with our audit of the Ind As financial Statements of Sikozy Realtors Limited (The Company) as at and for the year ended on March 31, 2024, we have audited the internal financial Controls over financial reporting (IFCoFR) of the Company as of that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of the internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial reporting (The “Guidance note”) issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting (IFCoFR) based on our audit. We conducted our audit in accordance with the Standards on auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR and Guidance Note issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects our Audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and

testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

Meaning of Internal Financial Controls Over Financial Reporting

A company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the Generally Accepted Accounting Principles. A company's IFCoFR includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable details, accurately and fairly reflect the transaction and dispositions of the assets of the company; (ii) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with the generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or dispositions of the company's assets that could have a material effect on the financial statements

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to the financial statements as at and for the year ended 31st March, 2024

Note 1 Corporate Information:

Sikozy Realtors Limited hereinafter referred to as ("The Company") is engaged in construction and Real Estate Development. The Company is a public limited company incorporated and domiciled in India and has its registered office at Karjat, Distt, Raigar, Maharashtra, India as at 31st March 2024.

The financial statements were approved by the Board of Directors and authorized for issue on 29.05.2024.

Note 2.1 Basis of preparation:

a) Statement of Compliance

Financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and accounting principles generally accepted in India.

The financial statements of the Company for the year ended 31st March, 2024 have been approved and authorised for issue by the Board of Directors in the meeting held on 29th May, 2024.

b) Functional and presentation currency:

The Financial Statement of the Company are presented in Indian Rupee, which is also its functional currency and all the values are rounded off to Lac, except when otherwise indicated. The accounting policies are applied consistently to all the periods presented in the financial statements

c) Basis of Measurement:

These standalone financial statements have been prepared on going concern basis under the historical cost basis except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

d) Use of Estimates

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. The Management believes

that, although these estimates used in preparation of the financial statements are prudent and reasonable and are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities. The effect of change in an accounting estimate is recognized prospectively. Significant management judgement in applying accounting policies and estimation uncertainty have been disclosed in note 2.3

e) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116, 'Leases', and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS2, 'Inventories', or value in use in Ind AS 36, 'Impairment of assets. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques and have been disclosed in note 2.2(o)xi.

f) Current Versus Non-Current

The Company as required by Ind AS -1 presents assets and liabilities in the balance sheet based on current/non-current classification.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The real estate development projects undertaken by the Company generally run over a period ranging up to 5 years. Operating assets and liabilities relating to such projects are classified as current based on an operating cycle of up to 5 years.

Assets and liabilities, other than those discussed above, are classified as current to the extent they are expected to be realised/are contractually repayable within 12 months from the balance sheet date and as non-current, in other cases.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Note 2.2 Significant accounting policies

- (a) Revenue from Contracts with Customers**
I. Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other credits, if any, as specified in the contract with the customer. The Company presents revenue from contracts with customers net of indirect taxes in its statement of profit and loss.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Company considers the effects of variable consideration, the existence of significant financing components, non-cash consideration, and consideration payable to the customer (if any).

The Company has applied five step model as per Ind AS 115 'Revenue from contracts with customers' to recognise revenue in the standalone financial statements. The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

- a) The Customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or
- b) The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- c) The Company's performance does not create an asset with an alternative use to the Company and the entity has an enforceable right to payment for performance completed to date.

For performance obligations where any of the above conditions are not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

Revenue is recognised either at point of time or over a period of time based on various conditions as included in the contracts with customers.

The billing schedules agreed with customers include periodic performance-based billing and/or milestone-based progress billings. Revenues in excess of billing are classified as unbilled revenue, while billing in excess of revenues is classified as contract liabilities (which we refer to as deferred revenues).

i) Recognition of revenue from sale of real estate property

Revenue from real estate development of residential unit is recognised at the point in time, when the control of the asset is transferred to the customer, which generally coincides with transfer of physical possession of the residential unit to the customer ie., handover/deemed handover of the residential units. Deemed handover of the residential units is considered upon intimation to the customers about receipt of occupancy certificate and receipt of substantial sale consideration.

Revenue consists of sale of undivided share of land and constructed area to the customer, which have been identified by the Company as a single performance obligation, as they are highly interrelated/interdependent.

ii) Recognition of revenue from contractual projects

Revenue from contractual project is recognised over time, using an input method with reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs.

The Company recognises revenue only when it can reasonably measure its progress in satisfying the performance obligation. Until such time, the Company recognises revenue to the extent of cost incurred, provided the Company expects to recover the costs incurred towards satisfying the performance obligation.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately when such probability is determined.

For contracts involving sale of real estate unit, the Company receives the consideration in accordance with the terms of the contract in proportion of the percentage of completion of such real estate project and represents payments made by customers to secure performance obligation of the Company under the contract enforceable by customers.

Such consideration is received and utilised for specific real estate projects in accordance with the requirements of the Real Estate (Regulation and Development) Act, 2016. Consequently, the Company has concluded that such contracts with customers do not involve any financing element since the same arises for reasons explained above, which is other than for provision of finance to/from the customer.

II. Rental income from operating leases

Rental income receivable under operating leases (excluding variable rental income) is recognized in the statement of profit and loss on a straight-line basis over the term of the lease including lease income on fair value of refundable security deposits. Rental income under operating leases having variable rental income is recognized as per the terms of the contract.

III. Dividend income

Revenue is recognised when the shareholders' or unit holders' right to receive payment is established, which is generally when shareholder approve the dividend.

IV. Interest income

Interest income, including income arising from other financial instruments, is recognised using the effective interest rate method.

V. Insurance

Claims are accounted for based on claims admitted/expected to be admitted and to the extent that there is no uncertainty in receiving the Claims

(b) Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized/inventorised as part of the cost of the respective asset. All other borrowing costs are charged to statement of profit and loss

The Company treats as part of general borrowings any borrowing originally made to develop a qualifying asset when substantially all of the activities necessary to prepare that asset for its intended use or sale are complete.

(c) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is determined based on a weighted average basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

I. Related to real estate

Direct expenditure relating to real estate activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is directly attributable cost of bringing the asset to its working condition for its intended use. Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the statement of profit and loss. Direct and other expenditure is determined based on specific identification to the real estate activity. Cost incurred/items purchased specifically for projects are taken as consumed as and when incurred/received.

- i. Work-in-progress (Real Estate): Represents cost incurred in respect of projects where the revenue is yet to be recognised and includes cost of land (including development rights, internal development costs, external development charges, construction costs, overheads, borrowing cost etc
- ii. Stock of Units/plots in completed real estate project: Valued at lower of cost and net realizable value: Represents cost incurred in respect of completed real estate projects net of revenue
- iii. Building materials: Cost comprises of purchase price and other costs incurred in bringing the inventories to their present location and conditions.
- iv. Land stock: Represents land other than area transferred to work-in-progress at the time of commencement of construction. It is Valued at lower of cost and net realizable value. Net realizable value is the estimated selling price in the

ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Foreign currency transactions and balances

i) Initial recognition

Foreign currency transactions are recorded in the functional currency, by applying the exchange rate between the functional currency and the foreign currency at the date of the transaction.

ii) Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

iii) Exchange differences

The Company accounts for exchange differences arising on translation/settlement of foreign currency monetary items as income or as expense in the period in which they arise.

(e) Property, plant and equipment

i) Recognition and initial measurement

Property, plant and equipment at their initial recognition are stated at their cost of acquisition. Cost of an item of property, plant and equipment comprises its purchase price, borrowing costs (if capitalization criteria are met), import duties, non-refundable taxes and directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. The Company identifies and determines cost of each component/part of the asset separately, if the component/part have a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour, borrowing costs (if capitalization criteria are met) and any other costs directly attributable to bringing the asset to working condition for its intended use. Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets.

ii) Subsequent measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and any accumulated impairment losses, if any. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a

major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied.

iii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

iv) Derecognition

An item of Property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the Property, plant and equipment is de-recognized.

(f) Investment property

i) Recognition and initial measurement

Investment property is property held either to earn rental income or for capital appreciation or for both. Upon initial recognition, an investment property is measured at cost, including related transaction costs. The cost comprises purchase price, cost of replacing parts, borrowing cost, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price.

The cost of a self-constructed item of Investment property comprises the cost of materials, direct labour, borrowing costs (if capitalization criteria are met) and any other costs directly attributable to bringing the asset to working condition for its intended use.

ii) Subsequent measurement

Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any. When significant parts of the investment property are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

iii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

iv) Derecognition

Investment property is derecognised either when control of the same is transferred to the buyer or when it is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gain or loss on disposal of investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

v) Reclassification from / to investment property

Transfers to (or from) investment property are made only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

vi) Fair value disclosure

Though the Company measures investment property using cost-based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent Valuer.

(g) Depreciation and amortisation

Depreciation commences when the assets are ready for their intended use. Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using straight-line method as per the useful lives and residual value prescribed in Schedule II to the Act as under.

Class of Property, plant and equipment	Useful life Estimated by management (in Years)
Building Other than factory Building	60
Buildings - temporary structure	3
Plant and Machinery:	
Plant and machinery - Civil construction	12
Plant and machinery - Electrical installations	10
Plant and machinery – Others	3-5
Furniture and fixtures	10
Motor vehicles - Two wheelers	10
Motor vehicles - Four wheelers	8
Computer equipment	3
Servers and network equipment	6
Investment Property:	
Building other than factory building	60

The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of building and plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. Leasehold land is amortized on a straight-line basis over the balance period of lease. Free hold land is not depreciated and is stated at cost less impairment loss, if any. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used. The estimated useful lives, residual value and depreciation/amortisation method are reviewed annually and, if

expectations differ from previous estimates, the change is accounted for as a change in accounting estimate on a prospective basis.

(h) **Capital work-in-progress and intangible assets under development**

Capital work-in-progress and intangible assets under development represents expenditure incurred in respect of capital projects/intangible assets under development which are not yet ready for their intended use and are carried at cost less accumulated impairment loss, if any. Depreciation/amortisation is not provided on capital work-in-progress and intangible assets under development until construction/installation are complete and the asset is ready for its intended use

(i) **Intangible Assets**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Intangible assets, comprising of software and intellectual property rights are amortized on a straight-line basis over a period of 3 years, which is estimated to be the useful life of the asset and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit or Loss when the asset is derecognised.

(j) **Lease**

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in note 2.2(p)(ii) on impairment of non-financial assets.

ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase

option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of assets that are considered to be low value. Lease payments on short term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

iv) Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of the asset are classified as operating leases. Assets subject to operating leases are included under Investment property.

Lease income from operating lease is recognized on a straight-line basis over the term of the relevant lease including lease income on fair value of refundable security deposits, unless the lease agreement explicitly states that increase is on account of inflation. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income.

(k) Employees Benefit

Retirement benefits in the form of state-governed Employee Provident Fund, Employee State Insurance, Employee Pension Fund Schemes and Gratuity are defined contribution schemes (collectively the 'Schemes') are not applicable to the company since there no employees eligible for retirement and other employees' benefits.

Various workman law not applicable to the company

- i. Retirement and other employee benefits
- ii. Employee Provident Fund and Employee State Insurance
- iii. Compensated absences

Other short-term benefits

Short-term employee benefits comprising employee costs including performance bonus is recognized in the statement of profit and loss on the

basis of the amount paid or payable for the period during which services are rendered by the employee.

(l) Provisions, Contingent Assets and Contingent Liabilities

i) Provisions

Provisions are recognized only when there is a present obligation (legal or constructive), as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of obligation can be made at the reporting date. Provisions are discounted to their present values, where the time value of money is material, using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

ii) Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses it in the financial statements, unless the possibility of an outflow of resources embodying economic benefits is remote.

iii) Contingent assets

Contingent assets are neither recognised nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

(m) Taxation

Income tax expense comprises current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred tax are recognized in the statement of profit and loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

i) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for that period. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date

ii) Deferred income tax

Deferred income tax liability is recognized on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized. The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

(o) Financial Instrument

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i) Initial recognition and measurement of financial assets and liabilities

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, however, trade receivables and trade payables that do not contain a significant financing component are measured at transaction value and investments in subsidiaries are measured at cost in accordance with Ind AS 27 - Separate financial statements. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

ii) Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii) Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by

both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iv) Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in statement of profit and loss.

v) Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade and other receivables.

vi) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments. Gains or losses on liabilities held for trading are recognized in the profit or loss.

vii) Financial liabilities at amortized cost

Financial liabilities are subsequently carried at amortized cost using the effective interest ('EIR') method. Interest-bearing loans and borrowings are subsequently measured at amortized cost using EIR method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

viii) De-recognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized when the obligation specified in the contract is discharged or cancelled or expires.

ix) Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial instruments.

x) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

xi) Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses following hierarchy and assumptions that are based on market conditions and risks existing at each reporting date.

Fair value hierarchy:

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the standalone financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(p) Impairment

i) Financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets (except financial assets valued through fair value through profit or loss) is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance.

The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

ii) Non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an assets or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In

determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognized in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

iii) Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the statement of profit and loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Segment reporting

i) Identification of segments

In accordance with Ind AS 108 – Operating Segment, the operating segments used to present segment information are identified on the basis of information reviewed by the Company's management to allocate resources to the segments and assess their performance. An operating segment is a component of the Company that engages in business activities from which it earns revenues and incurs expenses, including revenues and expenses that relate to transactions with any of the Company's other components. Results of the operating segments are reviewed regularly by the Managing Director who has been identified as the chief operating decision maker (CODM), to make decisions about resources to be allocated to the segment and assess its performance.

(q) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares unless impact is anti-dilutive

(r) Cash and Cash Equivalents

Cash and cash equivalent in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(s) Restatement

The Company restates its financial statements and presents a third balance sheet as at the beginning of the preceding period if it applies an accounting policy retrospectively, makes a retrospective restatement of items in its financial statements or reclassifies items in its financial statements that has a material effect on the information in the balance sheet at the beginning of the preceding period.

The Company corrects material prior period errors retrospectively in the first set of financial statements approved for issue after their discovery by (a) restating the

comparative amounts for the prior periods presented in which the error occurred; or (b) if the error occurred before the earliest prior period presented, restating the opening balances of assets, liabilities and equity for the earliest prior period presented.

(t) **Statement of Cash Flow**

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

Note 3 Critical Accounting Judgements and Estimates

The preparation of the financial statements requires that the Management make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. The recognition, measurement, classification or disclosure of an item or information in the financial statements is made relying on these estimates.

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Actual results could differ from those estimates. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Application of accounting policies that require critical accounting estimates and the use of assumption in the financial statements are as follows:

2.3 -Significant accounting judgements, estimates and assumptions

Significant accounting judgements, estimates and assumptions used by management are as below”

Determination of performance obligations and timing of revenue recognition on revenue from real estate development [Refer note 2.2(a)(1)(i)]

Computation of percentage completion for projects in progress, project cost, revenue and saleable area estimates [Refer note 2.2(a)(1)(ii)]

Estimation of net realizable value for inventory [Refer note 2.2(c)

Classification of property as investment property or inventory [Refer note 2.2(f)]

Useful life and residual value of property, plant and equipment, investment property and intangible assets [Refer note 2.2(g)]

Provision for litigations and contingencies [Refer note 2.2(l)]

Provision for tax [Refer note.2.2(m)]

Evaluation of indicators and impairment of financial and non-financial assets [Refer note 2.2(o)]

Fair value measurement disclosures [Refer note 2.2(o)]

xiii. Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Original classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortized cost and fair value is recognised in Statement of Profit and Loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.

Original classification	Revised classification	Accounting treatment
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognized in OCI is reclassified to Statement of Profit and Loss at the reclassification date.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Note 30: Related to Going Concern

The Company has reported a net loss of Rs 13.77 lakhs for the year ended 31st March, 2024 (Previous Year Rs 10.48 Lakhs) and, as of date has reported accumulated losses of Rs. 603.74 lakhs (Previous Year Rs. 589.96 Lakhs) which has resulted in substantial erosion of net worth of the Company. In spite of these events or conditions which may cast a doubt on the ability of the company to continue as a going concern, the management is of the opinion that going concern basis of accounting is appropriate in view of the fact that its current assets are more than its total outside/external liabilities and management is evaluating various options including starting a new line of business. Therefore, the financial statements of the Company have been prepared on a going concern basis

Note 31: Contingent Liability not provided for in respect of

- 1.Claim against the Company not acknowledged as debt Rs Nil (Previous Year Rs Nil)
- 2.Estimated amount of contract remaining to executed on capital account not provided for –Rs Nil (Previous Year Rs –Nil)

Note 32 :Some Balances of the sundry debtors & creditors, unsecured loans taken & advances given are subject to the confirmation and reconciliation.

Note 33: In the opinion of the board the current assets & loans & advances shown in the balance sheet are not less than the value stated, if realized in the ordinary course of the business. Further all known liabilities with reasonable certainty have been provided in the Financial Statement

Note 34: Disclosure of payable to vendors as defined under the “Micro, Small and Medium Enterprise Development Act, 2006” is based on the information available with the Company regarding the status of registration of such vendors under the said Act, as per the intimation received from them on requests made by the Company. There are no overdue principal amounts / interest payable amounts for delayed payments to such vendors at the Balance Sheet date. There are no delays in payment made to such suppliers during the year or for any earlier years and accordingly there is no interest paid or outstanding interest in this regard in respect of payment made during the year or on balance brought forward from previous year.
