SAFE HARBOR STATEMENT

This Release / Communication, except for the historical information, may contain statements, including the words or phrases such as 'expects, anticipates, intends, will, would, undertakes, aims, estimates, contemplates, seeks to, objective, goal, projects, should' and similar expressions or variations of these expressions or negatives of these terms indicating future performance or results, financial or otherwise, which are forward looking statements

These forward looking statements are based on certain expectations, assumptions, anticipated developments and other factors which are not limited to, risk and uncertainties regarding fluctuations in earnings, market growth, intense competition and the pricing environment in the market, consumption level, ability to maintain and manage key customer relationship and supply chain sources and those factors which may affect our ability to implement business strategies successfully, namely changes in regulatory environments, political instability, change in international oil prices and input costs and new or changed priorities of the trade

Universal Autofoundry Ltd ("The Company"), therefore, cannot guarantee that the forward-looking statements made herein shall be realized. The Company, based on changes as stated above, may alter, amend, modify or make necessary corrective changes in any manner to any such forward looking statement contained herein or make written or oral forward-looking statements as may be required from time to time on the basis of subsequent developments and events. The Company does not undertake any obligation to update forward looking statements that may be made from time to time by or on behalf of the Company to reflect the events or circumstances after the date hereof

FINANCIAL PERFORMANCE

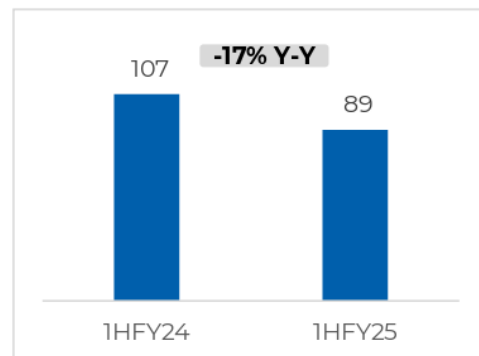

Q2FY25 – FINANCIAL HIGHLIGHTS

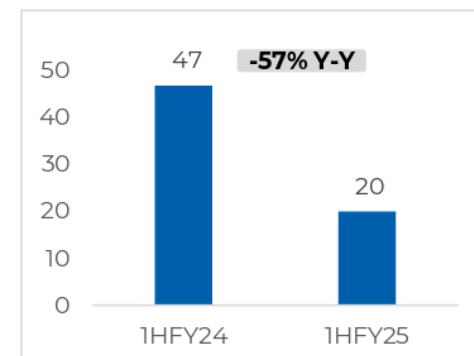

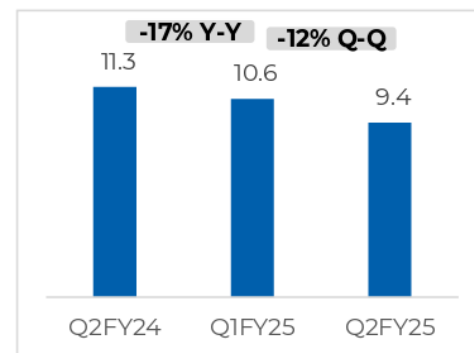

REVENUE (₹ Mn)

EBITDA (₹ Mn)

PAT (₹ Mn)

Financial Highlights

- **The New Ferrous Line (HPML Line) is operational now** and the parts with existing / new customers are under development
- **Revenue uptick should start reflecting gradually from Q4FY25 onwards**
- **Commissioning of Solar Plant (5MW) in Bikaner proceeding as per plan.** Expected to be commissioned in FY25, benefits from FY26.

Q2FY25 Financial Snapshot

Q2FY25 – OPERATIONAL HIGHLIGHTS

EXPORTS (₹ Mn)

REVENUE BREAKUP BY INDUSTRY

REVENUES (₹ Mn)

REVENUE BREAKUP BY INDUSTRY

Operational Highlights

- Volumes from recently added export customer has started increasing gradually
- Many parts added from 2 Export OEM's, which are under development. Post their approval cycle, company shall start seeing the supplies from Q1 ~ Q2 FY26 onwards

COMPANY OVERVIEW

HISTORY

Incepted in year **1972** as a partnership firm

1995: Changed from Coke fired Cupola Furnace to Electric Induction Furnace

1999: Started producing SG (Ductile) Iron Casting Components

2003: Direct Exports started to European Countries

2022: Migrated to BSE Main Board

2019: Installed 2nd High Pressure Molding Line, Disa Flex 70 HS, reaching to a total production capacity of 28000 MT / Annum

2015: Converted into a Public Limited Company with the name Universal Autofoundry Limited. Listed on Bombay Stock Exchange, SME Board

2009: Installed 1st High Pressure Molding Line by SINTO Japan, reaching to a capacity of 10000 MT / Annum. Further, Universal Autofoundry was converted into Private Limited company from a partnership firm with the name Universal Autofoundry Private Limited

2023: Did major expansion in Machine Shop, total 48 machine tools in-house including HMC's, VMC's, VTL's & CNC Turning Centres

2023: Exports to more than 15 countries including USA, Italy, Spain, France, Brazil, UAE, various South East Asian Countries, etc.

2024: Installed 3rd High Pressure Molding Line, RHINO, reaching to a total production capacity of 40,000 MT / Year

- World class manufacturer and Exporter of Grey Cast Iron, and Ductile Iron Machined castings
- State of the art plants
- Can make any grade in Cast iron & SG Iron Can make items starting from 5 Kg to 150 Kgs
- Machining capabilities – delivering ready-to-use product to customer
- We supply intricate, cored and Fully Machined cast components in the weight range of 5 to 150 Kgs
- We are supplying approx. 100,000 quantities of casting and machined components per Month to OEMs, MNCs and Export Market
- Facilities are in Jaipur and nearby industrial hubs
- Universal Group has installed a casting capacity of 40,000 MT / Year
- Universal Autofoundry has three units with a combined built-up manufacturing area of around 20,000 Sq. Meter
- We have fully integrated casting and machining operations in environmentally friendly foundry and machine shops

FACILITIES

**Unit 1
JAIPUR**

**Unit 2
REENGUS**

**Unit 3
REENGUS**

- All three facilities are in Jaipur and nearby industrial hubs
- Universal Group has installed casting capacity of 40,000 MT/Year
- Three units with combined built-up manufacturing area of around 20,000 Sq. Meter
- Fully integrated casting and machining operation in an environmentally friendly foundry

- Capacity Utilisation to improve going forward
- Major enhancement in Machining capacity planned by end of FY25
- Two "A" class Approved foundry from RDSO of Indian Railways
- Installed 3rd High Pressure Molding Line, RHINO, reaching to a total production capacity of 40,000 MT / Year

Aluminium Casting Machine

- Machines for Aluminium Castings have been installed successfully and the Tooling Development for 1st part is going on
- Expect to start operations on this from Q4FY25 onwards

MANAGEMENT TEAM & BOARD OF DIRECTORS

VIMAL CHAND JAIN

Chairman and Managing Director

- With over five decades of experience in the casting and foundry industry, Mr. Jain has developed extensive expertise in various aspects of manufacturing castings.
- He contributes significantly to the formulation of company policies & developmental activities.
- His responsibilities encompass the creation of business plans and fulfill the Company's vision.
- He assumes the responsibility of safeguarding company's compliance with health and legislative regulations. He maintains strong connections with trade and professional associations.
- Bachelor's degree in Engineering (Electrical) from Osmania University, Hyderabad.

VINIT JAIN

Whole Time Director and Chief Financial Officer

- With a professional journey spanning over 25 years, Mr. Jain possesses extensive industry knowledge and experience in finance. His contributions have been invaluable to the success of Autofoundry.
- He looks after business expansion and fund-raising function of the Company.
- He is heavily involved in budget maintenance, meticulously controlling expenditures to ensure they remain within the established limits.
- He manages overall finances of the Company with a primary focus on improving profit margins.
- Bachelor of Commerce (B.Com) degree and an MBA from Shivaji University Kolhapur (1997).

VIKRAM JAIN

Whole Time Director - Marketing

- Marketing specialist with a remarkable career spanning over 24 years.
- With his extensive knowledge and experience with Domestic & Overseas OEM's, he plays a pivotal role in shaping the company's strategic direction and achieving its business objectives.
- He actively engages in identifying opportunities, developing business strategies, & overseeing their implementation
- His work is driven by ensuring the delivery of high-quality services to its valued clients
- Bachelor of Engineering (BE) in Manufacturing Engineering from BMS College of Engineering in 1999.

GAJENDRA KUMAR TYAGI

Whole Time Director - Operations And NPD

- Seasoned professional specializing in operations and new product development
- With an impressive work experience of over 50 years, he brings a wealth of expertise to his role.
- Bachelor of Science (BSc) degree from Jamia Millia Islamia University in 1973.

STRONG GLOBAL PRESENCE

INDUSTRY OVERVIEW

INDUSTRY OVERVIEW

- India is the **second largest producer** of castings, globally
- The Indian foundry industry produces various types of metal castings and cast components with applications in varied industries in the **power, automotive, defense, railways, machine tools, agro machinery, tractor, earth-moving and mining machinery, electrical machinery, and oil and natural gas** industries
- The **automobile sector** consumes around **40% of castings** produced in India
- Currently, there are around **5000 foundry units in the small, medium and large-scale sector**
- industry employs **500,000 people** directly and another **15,00,000** indirectly
- Avg. Productivity Per unit: **2341 TPA**
- Exports: \$5.2 Bn. Potential to Grow to USD 12-15 Bn in next 7-10 years
- Outlook: Needs to Grow 3 folds producing 30 Mn Tons/PA in next 10 years to support “MAKE IN INDIA”
- Investments Needed: USD 6-8 Bn in 10 years

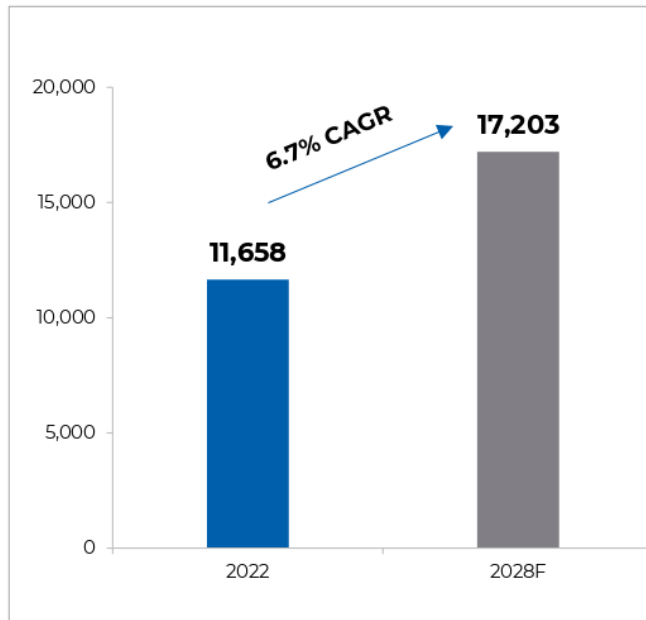

KEY GROWTH DRIVERS

- **Vehicle Scrap Policy** Implementation to boost the foundry industry significantly
- Increase in **Load Capacity per Axle**: Govt has enhanced goods vehicles' carrying capacity by 20-25%, driving demand for heavy vehicles
- **New Manufacturing Policy** Objectives target GDP manufacturing share to rise to 25% (from the current 15%). The role of the foundry industry thus becomes critical
- Foundry Sector has been **upgrading facilities and technologies** for enhanced productivity and capacity. Major expansions and technological initiatives are underway, with investments exceeding INR 6-8 Bn
- Government Focus **on Infrastructure Projects** further augments the demand for foundry products

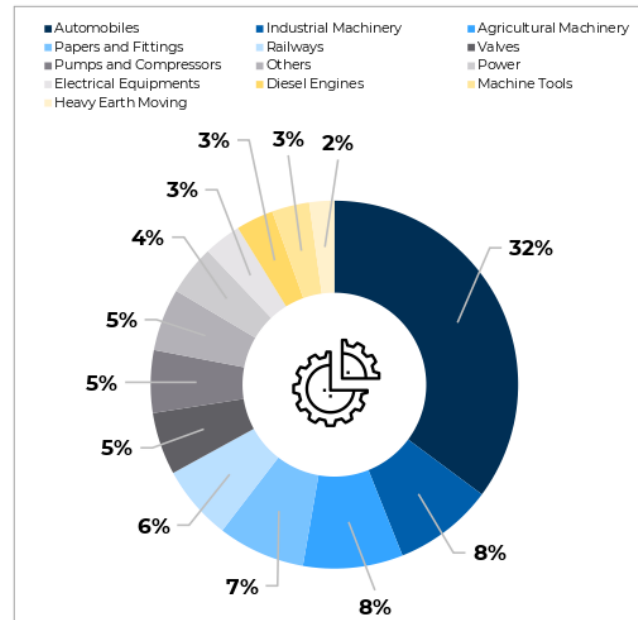

PRODUCTS & END USER INDUSTRIES

Indian foundry Industry size (USD mn)

- **Earth Moving & CV** Industry on a long term upswing
- Government Increasing **Load Capacity Per Axle** which will aid increase need for castings
- Major Focus on **Modernisation of Railways**, significant demand coming over the next decade
- Increasing Focus on **Infrastructure Industry**, wide use across industries

Sector wise consumers (%)

- Business geared towards **large sectors** in the country
- **Expansion plans** will increase diversification
- **Railways and Passenger Vehicles** are adjacencies with large opportunity
- Process underway to explore products where UAF can supply

Industry Product Mix

- **Grey Iron Castings** – Widely used due to high compressive strength, low cost, durability and ability to withstand thermal cycling
- **Ductile Iron Castings** - Can be bent, twisted and deformed without fracturing

Aluminium Castings Tonnes (mn)

- **Aluminium castings** are fast emerging as one of the most preferred materials in the automobile and railways industry due to its **high strength-to-weight ratio, cost effectiveness, and recyclability**
- **Increasing acceptance and govt. incentives on the EVs** may also propel aluminium demand as this category has **higher intensity of aluminium usage than ICE vehicles**
- India will be the "**stand-out growth market**" for **aluminium consumption** in the future as it pursues construction projects to resolve an infrastructure deficit

Usage of Aluminium by Transport Sector

- Foray in to non-ferrous (Aluminium) casting to be **margin accretive** (Cater to current set of customers)
- **Strong proxy to CV, Heavy earth movers, Tractor's & Railway** as Infrastructure development in country gaining traction
- Capitalise on approval from **railway's; Increasing focus and higher capital outlay** by Government of India
- Ability to serve machined and semi – machined grey iron casting product have made them a preferred partner for OEMs
- **Locational advantage:** Concentration of Tractors, Heavy Earth Movers & CV manufacturers in North
- **Capacity expansion of 12,000 MT** with newer product offering will drive volume growth with existing OEMs (Financial closure achieved, Commercialisation by FY25)
