Subject : Kavveri Telecom Products Ltd Secures Rs 109 Millions Order for Radio Frequency Products and Antennas and Intimation About Price Sensitive Information

Ref : Disclosure under Regulation 30 and 51 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

In continuation with our letter dated 19th June 2024, Kavveri Telecom Products Limited, a leading wireless subsystem manufacturer, which provides world class hardware products and solutions for the telecom, defence and space industry has secured a Purchase Order for **Rs. 109 Millions** for Radio frequency products and Antennas under the Make in India initiative for a mission-critical project in India. Kavveri developed these products at its Research and Development centre in India for the first time under Make in India initiative.

The enormous amount of efforts spent on its R & D over the last several years is now reaping rewards for the company. Kavveri Telecom is currently endeavouring to procure orders from overseas markets with an end aim to be a global manufacturing hub for its products in India under the Make in India initiative.

Commenting on this new development, **Mr. Shivakumar Reddy, Managing Director, Kavveri Telecom Products Limited** said that, "It is incredibly gratifying to design and develop these mission-critical products under the Make in India initiative for the first time. Having accomplished many firsts in the wireless industry in India, we are committed to leveraging our expertise and experience to expand our market reach and contribute significantly to making Bharat Atmanirbhar. The benefits of the Make in India initiative, coupled with the significant expected growth of infrastructure in India, make it a very exciting time for us at Kavveri."

About Kavveri Telecom Products Limited.

Kavveri Telecom is a leading wireless products manufacturer, providing world class hardware products and solutions for the telecom, defence and space industry. Kavveri Telecom combines expertise with experience to deliver state of-art products and solutions spanning the wide spectrum of wireless Industry up to 18 GHz frequency range.
