Business Responsibility & Sustainability Report (Contd.)

26. Overview of the entity's material responsible business conduct issues

During the year, the Company had rolled out a materiality assessment survey to its various stakeholders to identify the material topics concerning Environmental, Social and Governance (the “ESG”) issues and to rate their importance on scale of high to low. Taking into account the response of the survey and various other parameters such as existing business scenarios, regulatory environment, external factors, peer review as well as global standards and frameworks, a list of material topics as given below was finalised.

Sr. No.	Material issues identified	Indicate whether risk or opportunity	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Risk Management	Risk	Considering the nature of services catered by the Company under its various businesses, the Company is exposed to many risks such as reputation risk, regulatory risk, competition risk, business continuity risk, climate risk, etc. Accordingly, to ensure the long-term financial stability of the Company, it is crucial to effectively implement risk management practices. This includes addressing the aforesaid risks including the climate-related risks for both clients and the wider community. By understanding their needs, exploring new opportunities, and delivering tailored solutions, we can meet their expectations.	The Risk Management and Environmental Social and Governance Committee (the “RM and ESG Committee”) of the Company is responsible to implement and monitor the ESG policy and procedures. The RM and ESG Committee has also developed a thorough risk management framework to identify, evaluate, assess, manage and mitigate potential risks. The Board consistently assesses the efficiency of the risk management framework.	Negative

Governance, Leadership and Oversight

7. Statement by Director responsible for the business responsibility report, highlighting ESG related challenges, targets, and achievements

As a responsible financial institution, we steadfastly uphold the idea that Environmental, Social, and Governance (“ESG”) factors hold significant influence on our sustainability and success in the long run. As we look back on the financial year 2023-24, it brings us great satisfaction to report noteworthy advancements in the integration of ESG considerations in our strategy, policies and practices.

During the financial year, the Company undertook a dynamic discourse with various stakeholders to delineate the key ESG materials topics. These have been recognized as corporate governance, risk management, human capital development, data privacy and information security, human rights, operational eco-efficiency, as some of the topics. Adding to this, we instituted a Code of Conduct for Vendors which succinctly outlines our Company's expectations relating to fair business conduct, respect for human rights and environmental stewardship from our supply chain partners. This furthers our pledge to embed ESG principles across all our operational and business dimensions.

The Company has established a three-pillar ESG strategy focused on Stakeholders Empowerment, Operational Eco Efficiency, and Responsible Business Transformation. We have acknowledged that, to ensure enduring success, the Company must address the non-financial expectations of all pertinent stakeholders alongside delivering satisfactory

Business Responsibility & Sustainability Report (Contd.)

financial outcomes. In light of this, we have the RM and ESG Committee to advance corporate governance by implementing more stringent controls and procedures to foster an organized and responsible transition towards a sustainable business model.

We recognise that our investment decisions have a significant impact on society and the environment, and we are committed to integrating ESG considerations into our investment processes. Towards the same, the Company has instituted a Responsible Investment Policy for all the Fund(s) managed by it in the capacity of an investment manager. The said policy outlines the Company's commitment to integrate ESG factors into the investment decisions and ensures alignment with risk mitigation and sustainable practices across the investment life cycle. The Responsible Investment Policy has been aligned with the United Nations Principles for Responsible Investment (UNPRI). This ensures that the Company enhances its ability to identify and capitalize on emerging opportunities with ESG objectives. Through ESG screening and monitoring, the Company looks to deliver returns while contributing positively to environmental and societal challenges.

Moreover, we aim to generate a positive social impact through our social responsibility interventions and responsible business practices. Our CSR initiatives center around rural healthcare, community development and education. We also prioritise the well-being and safety of our employees and promote diversity and inclusion across all levels of our organisation.

As a leading player in India's financial services industry, we have been at the forefront in supporting environment and social positive companies. Our Investment Banking business has been involved in several IPOs, Private Equity and Merger & Acquisition transactions with such companies. In the last financial year, we have signed mandates with several companies across the sectors that have strong products for the last mile and cover rural, marginalised and economically poor sections of the society. In addition, we have led mandates for 13 companies that have environment-positive products and services including renewables, electrification of transport and other industrial enterprises that are moving towards building an environmentally positive business.

Our Private Equity business has invested in portfolio companies like (i) API Holdings and Aarman Solutions, a catalyst for accessible healthcare and inclusive wellbeing (ii) BigHaat Agro Private Limited, an Agri tech company dedicated to enhance the efficiency of agri inputs and output supply chain (iii) Energy Beverages Private Limited (CLEAR Premium Water) which has created a niche for itself through initiating sustainable practices such as launching a range of packaged water with biodegradable bottles and having energy efficient manufacturing processes, etc. Moving forward, our commitment remains steadfast in engaging with companies exhibiting outstanding ESG practices within their respective sectors.

The Portfolio Management Services business prefer to invest in companies with strong corporate Governance and off lately, the business has invested in companies which are into renewable energy & agricultural solutions for farmers, which add value to renewable energy and helps to improve rural economy and higher yield to farmers.

The Company recognizes the importance of identifying stakeholders, as they play a crucial role in achieving the Company's goals. The initial phase of the Company's stakeholder relations involves mapping and prioritizing stakeholders based on their influence over the Company or their exposure to its decisions. Once identified and prioritized, engagement channels are established and circulated within internal teams to engage stakeholders, understand their needs and concerns, and develop strategies to manage and mitigate potential risks or negative impacts. By comprehending stakeholder needs and concerns, the Company proactively addresses expectations and fosters enduring relationships.

The identified internal stakeholders consist of employees, senior executives, and the Board of Directors. On the other hand, the external stakeholders encompass customers, investors/shareholders, regulatory/industry bodies, value chain partners, industry analysts, equity analysts, other suppliers, partners and collaborators, and society at large.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the responsibility for managing any human rights issues that surface within the Company or attributed to its operations fall under the purview of the Human Resources department. This also includes addressing any grievances put forth by its employees.

The Company also has a robust whistle blower mechanism, wherein the whistle blower can send the complaint in form of Protected disclosure directly to the Chairman of the audit committee of the Company.

Additionally, for sexual harassment related complaints, 4 (four) Internal Committees (IC) have been constituted region wise to consider and redress complaints of harassment. The composition of IC comprises majority of women employees and an external member.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

Internal Mechanism for employees

The Company is committed to ensure a secure and supportive work environment for all its employees. The Company has implemented a formal grievance mechanism for employees to report any concerns they may have, confidentially and anonymously, without fear of any retaliation. This mechanism is accessible to all affected employees in a fair and transparent manner.

Should such a situation arise, employees may report their concerns either in writing or orally. They can communicate their concerns to their reporting manager, compliance or firm management, or the human resources department.

Whistle Blower Mechanism

The whistle blower can send the protected disclosure in a sealed envelope to the Chairman of the audit committee or can write directly to him on his email id viz., pkanakia3@gmail.com.

The Chairman of the audit committee is mandated to relay all cases to the audit committee. Upon receiving a protected disclosure, the committee has the discretion to either personally investigate the matter or to assign the investigation to a senior official, a committee of managerial personnel, or an external party (collectively referred to as 'Investigators'). This is applicable unless the protected disclosure is judged to be frivolous or ties to a grievance that is part of the exclusions listed in the policy. The audit committee also has the authority to outline an elaborate protocol for an investigation, which must be adhered to by the appointed senior executive or managerial committee during the investigation of the protected disclosure.

The Company shall endeavor to resolve the complaint within 45 days. The time frame may be exceeded depending on the nature and seriousness of the complaint. If an investigation leads the audit committee to conclude that an improper or unethical act has been committed, the audit committee shall take such disciplinary or corrective action as it deems fit.

Under POSH

A specific email id icc@jmfl.com is created for the purpose of receiving written complaints. The Group Head of Human Resources and the Presiding Officer have access to this email id.

For complaints made to the IC, there is Informal Redressal Process that consists of directly speaking with the respondent and involving the Human Resources facilitator to arrive at a mediated resolution. In cases where an informal redressal process and the possible actions are not satisfactory, a formal redressal process shall be followed. Some steps include proceeding with an inquiry within 7 working days of receiving the complaint. Additionally, the complainant and the respondent shall be informed of the outcome of the investigation. The inquiry shall be completed within 90 days and corrective actions recommended by IC to Firm Management and Firm Management will act upon the recommendations within 60 days of

Business Responsibility & Sustainability Report (Contd.)

receipt of recommendations from the IC. Where any misconduct is determined after due enquiry by the IC, appropriate disciplinary action shall be taken against the person found guilty. Such action shall be in addition to any legal recourse sought by the complainant.

6. Number of Complaints on the following made by employees and workers:

	FY 2023-24			FY 2022-23		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks

Complaints on POSH as a % of female employees / workers		NA
Complaints on POSH upheld		NA

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

The Company is dedicated in providing robust support to safeguard and advance the human rights of its employees, fostering fair and ethical business and employment practices.

The Company has laid down a comprehensive whistleblower procedure, which includes systems to protect the complainant from any negative repercussions. The whistle blower can send the protected disclosure in a sealed envelope to the chairman of the audit committee or can write directly to his email id viz., panakia3@gmail.com.

The Internal Complaints (IC) committee, when addressing complaints of sexual harassment, ensures that neither the complainant nor the witness faces victimization or discrimination from the respondent. Similar protective measures are also implemented to prevent any form of victimization against whistleblowers by the audit committee or the investigator, as applicable.

Moreover, the Company conducts regular awareness sessions for employees on issues related to discrimination and harassment, along with detailing the available redressal mechanisms.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Yes. The Company has integrated ESG-related aspects including human rights, into its business agreements and have implemented Code of Conduct for Vendors, as well.

10. Assessments for the year:

No substantial human rights grievances or complaints have emerged, necessitating the modification or introduction of business processes.

2. Details of the scope and coverage of any Human rights due diligence conducted.

Not applicable.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Yes, the office is accessible to individuals with disabilities. The Company is committed to enhance its infrastructure to ensure accessibility for all. The Company's offices are equipped with ramps and lifts. In addition, the washroom is equipped with handrail and other features to accommodate visitors with disabilities.

4. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Child labour	
Forced/involuntary labour	
Sexual harassment	
Discrimination at workplace	
Wages	
Others	The Company has implemented a Code of Conduct for Vendors. This Code requires vendors to adhere to relevant rules, laws, regulations, codes and ethical standards both in letter and spirit, including but not limited to those pertaining to human rights and ESG related principles and practices. The Company collects affirmations from vendors confirming their adherence with the said Code. As of March 31, 2024, the Company received affirmations from most of its vendors representing the majority of transaction value with the Company.

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

No corrective actions were taken as value chain partners were not assessed.

Water Intensity in terms of physical output	-	-
Water Intensity (optional) – the relevant metric may be selected by the entity	-	-

Note: Water consumption calculations are conducted based on 45 Liters per head per day for office use, as specified by the National Building Code of India (NBC) 2016.

The PPP rate is considered as 22.882 as per the Organisation for Economic Co-operation and Development (OECD) 2022 update.

Note: Indicate if any independent assessment / evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

4. Provide the following details related to water discharged:

Currently, the Company does not measure water discharge.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Zero Liquid discharge is not applicable. Water usage is limited solely to human consumption. There are different methods employed to promote water conservation, such as implementing water-saving aerators in office restrooms. RO water machines were replaced with UV Machines in order to save water. In Mumbai, the sewage from the Energy office is treated onsite by the building authorities in a common sewage treatment plant. After treatment, it is then discharged into the main lines.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Given that the Company is in the financial services sector, this indicator is not applicable.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

Not applicable.

7. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity, in the following format²:

Business Responsibility & Sustainability Report (Contd.)

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

To address electricity consumption, the Company has installed motion sensors in office cabins and other areas to avoid unnecessary energy consumption when these spaces are unoccupied. Furthermore, traditional lighting has been swapped out for more energy-efficient LED lights and smart UPS have been implemented, which also contributes to a reduction in energy consumption. The use of video conferencing technologies by the Company has allowed it to cut down on employees' air travel, thereby contributing to a reduction in related emissions.

The Company plans to conduct energy audits at all corporate offices in a phased approach to evaluate the potential, installing energy-efficient equipment, appliances and smart sensors for managing lights and other devices. Based on this baseline, the Company will establish goals for reducing total greenhouse gas emissions (Scope 1 and 2) in the subsequent years. At present, the Company utilizes renewable energy for the common space (lobby, balcony, lift, and parking,) at Energy office, Mumbai. As part of digitalization, the Company continuously pursues automation. The Company is currently in the process of migrating a few entities to the cloud using shared infrastructure services like Google/AWS, which will contribute to reducing greenhouse gas emissions.

Note: *Non-hazardous waste consists of paper waste that is shredded by the Company. The PPP rate is considered as 22.882 as per the Organisation for Economic Co-operation and Development (OECD) 2022 update.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your product and processes and the practices adopted to manage such wastes.

Given that the Company operates in the financial services sector, it does not generate any hazardous waste, making this indicator not applicable. However, the Company's waste management programmes are based on the 3R principles - Reduce, Recycle, Reuse. The waste is segregated based on its origin and method of disposal. The Company's waste management practices are detailed below:

- E-waste and emissions reduction:** The Company identified scrap material based on factors like being outdated/ obsolete or non-repairable hazardous waste. The scrap is then handed over to a selected vendor, and the Company received E-Green certificates for the scrapped material.

Additionally, the Company replaced conventional lights with LED lights, which minimizes the harmful effects of mercury and reduces health and environmental concerns. Projectors were also replaced with LEDs, contributing significantly to power consumption reduction, and reducing waste.
- Reducing paper and printing consumption:** The Company recycles shredded paper. Cartridge reclaiming is conducted through a vendor. New LEED approved products may be used to reduce the consumption of tissue papers. Additionally, employees are encouraged to-
 - Use their own ceramic mugs, eliminating the need for paper cups
 - Refrain from using tissue papers in washrooms and opt for installed hand-dryers
 - Reading documents electronically and printing only when absolutely required
- Curbing generation of plastic waste:** Keeping in line with the Central & State Government (India) Directives in 2018, the Company has eliminated 'single-use plastics' in all its offices in India. The Company has also stopped using plastic bottles and shifted to glass bottles, which is also implemented in all meeting rooms.
- Conscientious use of water:** The Company advocates for mindful water usage and urges its employees to be aware and responsible in their consumption.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

The Company does not have any offices in ecologically sensitive areas, hence this indicator is not applicable.

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Not applicable.

13. Is the entity compliant with the applicable environmental law/ regulations/ guidelines in India; such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, Environment protection act and rules thereunder (Y/N). If not, provide details of all such non-compliances, in the following format:

Yes, the Company has complied with applicable environmental law/regulations/guidelines applicable in India. No fine/ penalty/action was initiated against the entity under any of the applicable environmental laws/regulation/guidelines.

²During the financial year 2023-24, pursuant to the Scheme of the Arrangement, the Private Wealth and Portfolio Management Services divisions were demerged from JM Financial Services Limited, a wholly owned subsidiary of the Company and became part of the Company, resulting into increase in the number of the Company's offices. Hence, the increase in factors pertaining to energy consumption, water withdrawal, greenhouse gas emissions, etc.

LEADERSHIP INDICATORS

1. Water withdrawal, consumption, and discharge in areas of water stress (in kilolitres):

Not applicable

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

NA

2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

-

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

NA

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

No operations in ecologically sensitive areas and therefore no impacts to report or remediation required.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

Sr. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along with summary)	Outcome of the initiative
1	Renewable Energy Usage	Utilization of renewable energy for the common space (lobby, balcony, lift and parking,) at Cnergy office, Mumbai	Renewable energy utilization - 96.09 GJ

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in responsible manner

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

The Company has robust mechanisms to track and respond to customer complaints and feedback in the delivery of our services. The mechanism is as follows:

Investment Banking Division: With regards to all equity capital market transactions, the Company's investment banking division has appointed a dedicated officer, Ms. Prachee Dhuri, who regularly monitors and responds to investor complaints. The Company has also created a dedicated email id viz., grievance.ibd@jmfl.com wherein the investors can file/send their complaints/grievances. The complaints are generally received either through SEBI SCORES portal or directly from investors through letters or electronic mails. For complaints received via SCORES, Action Taken Report (ATR) is filed along with the relevant back-ups related to the resolution of complaints, if any.

The designated officer is briefed by the execution team within the division on key aspects of the offer document and offer structure to enable the designated officer to respond to general queries. Complaints that are technical in nature (e.g., relating to disclosure in the offer document) or require specific inputs are discussed with the relevant member from the execution team and are responded to by the designated officer with guidance from the execution team.

Post offer complaints are generally forwarded to the concerned Registrar to the Issue to take-up with the intermediary responsible for resolution. Some complaints, as relevant, may also be forwarded to the Issuer Company/relevant intermediary (e.g., Sponsor Bank, NPCI etc.). Continuous follow-ups are done to ensure that all investor complaints are expeditiously responded to.

The investment banking division maintains an electronic register of complaints received by it in respect of issues managed by it. The details of complaints and its related documents are maintained transaction-wise. The electronic register of complaints is regularly reviewed by the officer in charge of the respective assignment and Compliance

Private Equity: Investment Manager is required to redress all investor complaints in timely manner. The channels for receiving complaints are outlined below:
