## Safe Harbour Statement

This presentation and the accompanying slides (the "Presentation"), which have been prepared by Mitsu Chem Plast Limited (Mitsu Chem Plast, The Company) solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company's market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantee of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict.

These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company's ability to successfully implement its strategy, the Company's future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cash flows, the Company's market preferences and its exposure to market risks, as well as other risks.

The Company's actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third-party statements and projections.

# Company Overview

# Introduction to Mitsu Chem Plast Limited: A Leading Player in Plastic Manufacturing

## Empowering Sustainable Future Through Innovation

- Mitsu Chem Plast Limited (Mitsu Chem Plast, The Company) is a prominent player in the plastic manufacturing industry, specializing in Blow Molded and Injection Molded products.
- Since our establishment in 1990, we have consistently grown and evolved, becoming a trusted name in the market.
- With our state-of-the-art manufacturing units and advanced technologies, we have the capacity to meet diverse customer demands, including customized molding solutions.
- We are strongly committed to sustainability, with a dedicated R&D team developing unique and eco-friendly products while actively supporting the Make in India initiative and implementing various ESG (Green) initiatives.
- Mitsu Chem Plast got listed on the SME platform of BSE Ltd. in September 2016 and migrated to the Main Board of BSE Ltd. in May 2020.

### MISSION

“Our mission is to continually challenge ourselves to innovate and exceed the expectations of those associated with us, ultimately becoming one of the world's finest companies”

# All Plants Are Well Equipped With All Types Of Testing Equipments

# Global Engagement and Impact: Mitsu at Medica Düsseldorf

**Mitsu Chem Plast Limited at Medica Event in Germany , Hosted by Messe.**

We're thrilled to celebrate the success of this fantastic event! A heartfelt thank you to everyone who visited our booth and made it truly memorable. Your support fuels our innovation. Here's to many more amazing events that will shape the future of healthcare! Our presence generated numerous inquiries from various countries, highlighting the significant impact. The company's active participation made a lasting impression across different sectors of healthcare.

# Global Engagement and Impact: Mitsu at Arab Health 2024

**Mitsu Chem Plast Limited at Arab Health Event in Dubai, Hosted by Informa Market**

Arab Health Exhibition was a successful four-day event for Mitsu! We are grateful for the valuable connections we made with leaders in the hospital industry. This experience was not only enjoyable but also beneficial for our business. Our active participation allowed us to showcase our innovations and engage with key players in healthcare. The feedback we received and the inquiries generated highlight the significant impact we made at the exhibition.

# Global Engagement and Impact: Mitsu at Hospitalar, Brazil

Mitsu Chem Plast Limited at the Hospitalar Event in Brazil, hosted by Informa Markets.

Mitsu played a key role in delving into the forefront of healthcare innovations and cultivating global connections. The company's engagement centered around collaborative ideation, aiming to generate solutions with universal applicability and solidify its standing in the industry. The participation in the event led to numerous inquiries from diverse countries, highlighting the significant impact of Mitsu's presence. The active involvement at the meeting left a lasting impression across various facets of the healthcare industry.

## Domestic Engagement and Impact:

### Mitsu at Chemprotech, Mumbai

The participation in the event generated numerous inquiries, showcasing the significant impact of Mitsu's presence. The company's active involvement at the meeting made a lasting impression across various sectors of the packaging industry.

### Mitsu at India Health, Delhi

Mitsu had fantastic exhibition in Delhi, where we proudly showcased our healthcare products. The event provided an excellent opportunity to connect with new potential customers from North India. Engaging with attendees allowed us to share our innovations and gather valuable feedback on our offerings.

# Domestic Engagement and Impact:

## Mitsu at Medicall, Chennai

The event sparked a multitude of inquiries, underscoring the profound impact of Mitsu's presence. The company's active participation resonated across various sectors of the packaging industry, making a memorable impression on attendees.

## Mitsu at Medicall, Delhi

Following our impactful participation at the Chennai event, Mitsu had a fantastic exhibition in Delhi, where we proudly showcased our healthcare products. This event offered a wonderful chance to engage with prospective customers from North India. Interacting with attendees enabled us to further showcase our innovations and collect insightful feedback on our products.

# Together for Sustainable Future

## A Commitment to Sustainability and Environmental Responsibility

- Our collaborative efforts will determine the well-being of our planet and subsequent generations.
- Sustainability is not just a buzzword ; it is a business imperative.
- We can build a more resilient and sustainable world by promoting teamwork, adopting sustainable practices, and assisting environmental preservation.
- Consumers today are looking for items that are both innovative and environmentally responsible.
- With this knowledge, our research and development focuses on producing goods using the most creative, sustainable materials, techniques, and models.
- Our main pillars are innovation, design, and quality, and sustainability is an essential part of all three of those pillars.
- Let's all pledge to protect the environment and guarantee a better future.

# Environmental, Social, and Governance (ESG) Initiatives for a Responsible Future

## Green Initiatives

The Company recognizes the need to transform and adapt to changes around it for a better and sustainable tomorrow. With increased focus to go green, we at Mitsu Chem Plast are striving to choose sustainable means, offering environment-friendly products to their consumers as much as they can.

 **Reduce**

 **Reuse**

 **Recycle**

### CO2 Emission

Reduce Carbon Footprint (CO2 Emission) by initiative to reduction in energy consumption, diesel consumption, etc.

### Waste Reduction & Recycling

During Molding process, tons of pinch-off / inhouse rejection generates which gets reuse in a process by grinding it.

### Water Conservation and Management

Rainwater collection system is being used to collect rainwater and feed into cooling tower tank during rainy season. Septic tank for sewage wastewater is use for watering the plants and gardening as a Zero Liquid Discharge system.

### Natural Resources

We use transparent Polycarbonate sheets for roofing in working place for letting natural light and increase day lights in plant. Also diesel additives are used to save diesel consumption of our tempos.

# Mitsu Chem Plast: Nurturing Health, Sustainability, and Safety Culture

## Mitsu Chem Plast Ltd and Rotary Club of Navi Mumbai Join Hands for a Blood Donation

Mitsu's employees, as well as members of the surrounding community came to contribute for this noble cause. The turnout was impressive, with 284 donors stepping forward to donate blood.

## Green Commitment: HMEI Team's Plant Visit at Mitsu

Mitsu hosted a memorable customer visit with the HMEI team at Khalapur Plant. Joined by Mitsu Directors, Mr. Jagdish Dedhia & Manish Dedhia, emphasizing sustainability with a special Tree Plantation activity, aligning with shared vision for progress.

## Creating Safe Spaces: POSH Training at Mitsu

Mitsu prioritizes a safe workplace with recent POSH training, reinforcing commitment to inclusivity, respect, and empowerment. Ongoing education aims to cultivate a culture of dignity and mutual respect, ensuring a harassment-free workplace.

## Together for Sustainability

Mitsu Chem Plast Limited has once again been honored with a bronze medal certification for noteworthy contributions and proactive initiatives within the Together For Sustainability (TFS) framework (Sustainability) 2023.

## Post Consume Resin (PCR) Facility

PCR (Post-Consumer Resin) is recycled plastic that has undergone the recycling process and is available to use again. PCR material / product testing and validation inhouse lab facility is available .

## Power Optimization

We use LED lights, servo motors, controllers, sensors, automatic ventilator systems, variable frequency drives, transparent poly carbonate roof tops.

## Tree plantation: Save tree save environment

Mitsu Chem Plast demonstrated its dedication to sustainability by initiating tree plantations across their factory premises, surrounding areas, and other locations. Our commitment to environmental stewardship sets a positive example, fostering a greener and more sustainable future.

## Envirocare Green Award

Mitsu Chem Plast Limited has been conferred with the Special Citation in the Public Sector/ Large Corporates category at the Envirocare Green Awards 2024 for their exemplary efforts in energy conservation, carbon emission reduction, sustainable practices, waste management, and green initiatives.

# Commitment To Sustainable Impact And Community Engagement (CSR)

During the year 2023–24, Mitsu Chem Plast made a notable contribution towards a Corporate Social Responsibility.

## Promotion of Healthcare – Women's Health Boost

Mitsu with KVO Group at Hira Mongi Navneet Hospital, launched a Health Check-up Lounge, prioritizing women's health through a Cervical Cancer Screening Programme. 92 females were screened, fostering a healthier and empowered community.

## Promotion of Sports

Mitsu enthusiastically joined the 2nd KK Rai Memorial Table Tennis Tournament in Maharashtra, graced by MLA Shri Mihir Kotecha. Mitsu's participation underscores our dedication to health, sportsmanship, and table tennis excellence.

## Promotion Of Sports

Mitsu is proud to support Jash Modi in his pursuit of representing India in table tennis and winning a gold medal in the Olympics.

## Promotion of Health

Mitsu supports Access Life Foundation by setting up temporary accommodations for families with children fighting cancer. They offer practical aid, educational resources, and activities to ease their journey. Mitsu's dedication ensures these families feel supported during difficult times.

## Promotion of Health Gynaecological Surgical Camp 2024

The initiative addressed healthcare disparities and empowered women's well-being in rural areas. Local and Mumbai-based doctors provided gynaecological consultations, examinations, and surgeries, filling the gap in specialized healthcare. Educational sessions and follow-up clinics were planned to ensure sustained access to care, with a focus on community involvement.

## Promotion of Education

Mitsu Foundation and K P Sanghvi Charitable Trust have partnered to champion education. Together, they've supported schools, scholarships, and educational programs, empowering communities and shaping futures.

## CSR initiative for Rural Area Development Project

Mitsu has undertaken a significant CSR initiative to promote water conservation in Kutch village, Gujarat. This project focuses on constructing rainwater harvesting systems, restoring traditional water bodies, and implementing sustainable irrigation practices. By involving the local community and leveraging advanced technologies, Mitsu aims to ensure a reliable water supply, improve agricultural productivity, and enhance the overall quality of life in rural area. This initiative is a testament to Mitsu's commitment to environmental sustainability and social welfare.

# Green Achievements 2022–23 And Targets Ahead

## Targets and Goals in future

### Energy and Carbon

- 20% reduction in carbon intensity and overall emissions.
- 20% reduction in energy intensity.

### Water

- 15% reduction in freshwater consumption and intensity.

### Safety and Occupational Health

- Maintain zero fatality.
- 7% reduction in LTIFR.
- 100% compliance with medical exams.
- Near miss reporting as a leading indicator as one per person per year.

[Click here to view BRSR Report](#)

## Targets achieved till now

Carbon intensity (scope 1 and 2 emissions) increased by 14.91% in 2023–24. Carbon intensity (scope 1 and 2 emissions) increased by 14.91% in 2023–24. This rise was driven by the introduction of new production lines that consumed carbon without generating saleable products, contributing to the overall increase in carbon intensity.

- Energy intensity increased by 9.82% in 2023–24. Energy intensity increased by 9.82% in 2023–24. During the year, a few new production lines were commissioned. These lines consumed energy but did not result in saleable production, leading to an increase in energy intensity.
- Rainwater harvesting structures installed for the collection & usage of rainwater as an alternative source replacing freshwater withdrawn from surface & ground sources.
- Water intensity reduced by 2.16%% in 2023–24.
- Zero fatalities in 2023–24.
- Our LTIFR for employees is zero, however our LTIFR for workers has increased by 14.27%
- 100% compliance with initial medical examination and periodic medical examinations.
- Near miss reporting trainings initiated and targets set at all levels.

# Industry Overview

# Insights into the Plastic Molding Industry

The demand for molded plastics is projected to increase significantly due to the extensive expansion and development in the **Construction, Automotive, And Packaging Sectors.**

The Indian plastic processing industry comprises approximately 30,000 units that use injection molding, blow molding, extrusion, and calendaring to create a wide range of products.

The plastics industry is currently home to about 50,000 industries, most of which are micro, small, and medium-sized enterprises (MSMEs).

These enterprises contribute Rs. 3.5 lakh crore (US\$ 42.89 billion) to India's economy and employ more than 50,000 people.

The country recycles plastic at a rate of 60%, which is higher than that of developed nations.

The "Make in India," "Skill India," "Swachh Bharat," and "Digital India" initiatives of the government are increasing plastic production, and by 2027, it is expected that the plastics industry will generate Rs. 10 lakh billion (US\$ 122.54 billion) annual revenue, with two lakh tonnes of exports.

**“According to India Plastics Pact's (IPP) Roadmap to 2030, the target is to eliminate all unnecessary plastic waste and items, and make 100% of plastic packaging reusable, recyclable or compostable by the year 2030. The starting point is to establish a list of plastic packaging products that are unneeded or troublesome and take action to solve them through redesign and innovation. New technology and higher-quality plastic will also help India progress towards this goal.”**

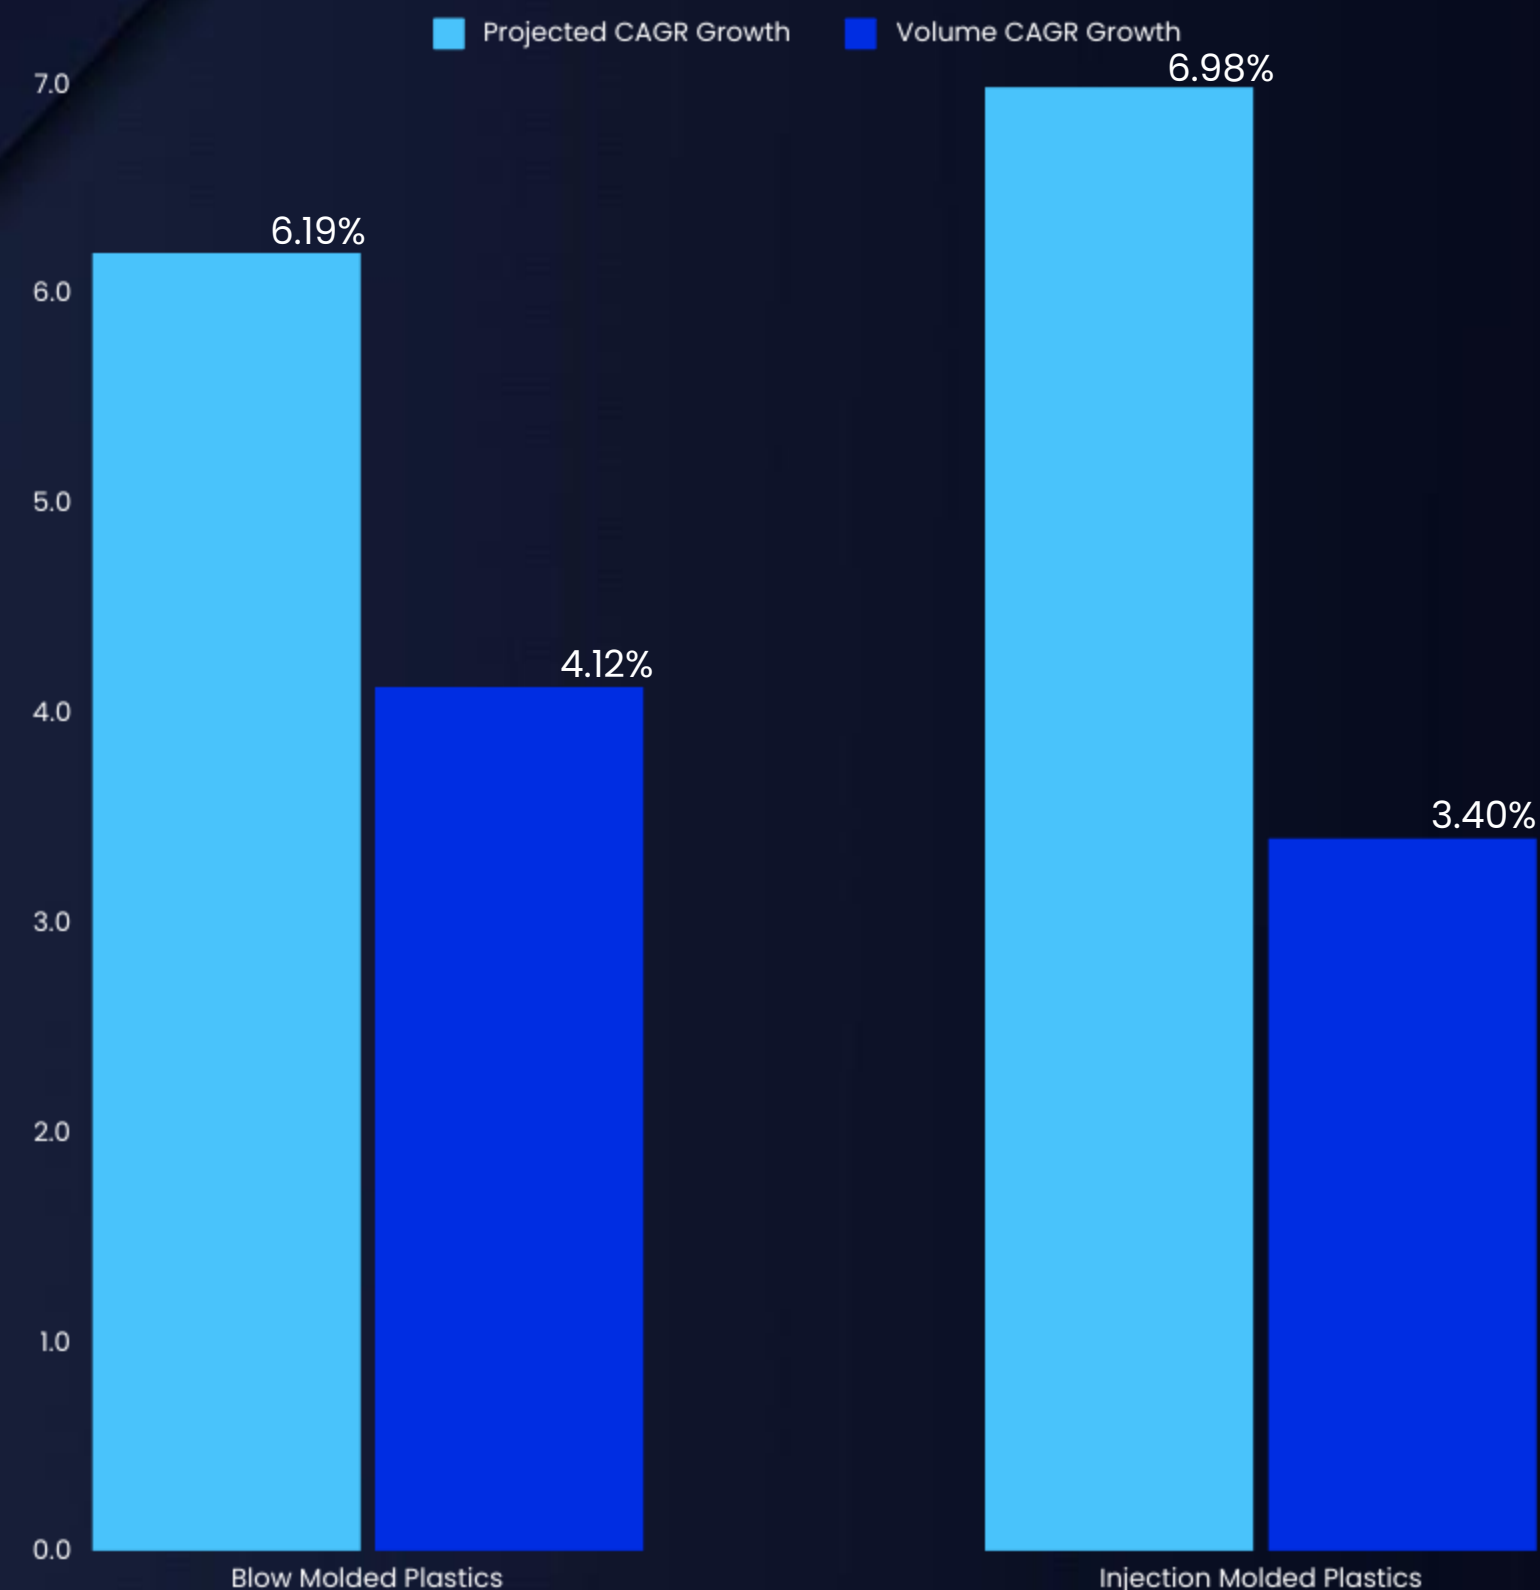

# Insights Into The Plastic Molding Industry

## Blow Molded Plastics

- The Indian blow molded plastics market is expected to experience a significant growth rate.
- It is projected to grow at a CAGR of 6.19%, reaching ₹49,96,01,840.82 Lakhs.
- In terms of volume, it is anticipated to grow at a CAGR of 4.12%, reaching 5,929.682 Kilo Tons in 2030.

## Injection Molded Plastics

- The India injection molded plastics market is expected to witness robust growth.
- By value, it is projected to grow at a CAGR of 6.98%, reaching ₹3,28,44,099.59 Lakhs in 2030.
- In terms of volume, it is anticipated to grow at a CAGR of 3.40%, reaching 14,148.509 Kilo Tons in 2030.
