Sub:- JSW STEEL RECEIVES ResponsibleSteel™ CERTIFICATION SIMULTANEOUSLY FOR FOUR MANUFACTURING SITES

Dear Sirs/Ma'ams,

Enclosed herewith is a press release dated March 05, 2025 on the above subject, which is self-explanatory.

This is for your information and in compliance with applicable Regulation of the Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Thanking you,

Yours faithfully,
For **JSW Steel Limited**

Manoj Prasad Singh
Company Secretary
(in the interim capacity)

Press Release

JSW STEEL RECEIVES ResponsibleSteel™ CERTIFICATION SIMULTANEOUSLY FOR FOUR MANUFACTURING SITES

**COMPANY'S MANUFACTURING PLANTS AT VIJAYNAGAR, DOLVI, TARAPUR & SALEM
RECEIVE THE GLOBAL CERTIFICATION**

Mumbai, India – March 05, 2025: In a coveted global recognition of its commitment to lead sustainable business practices, JSW Steel – India's largest steel producer – has received the prestigious ResponsibleSteel™ Certification simultaneously for four of its manufacturing sites.

In keeping with the Company's philosophy of 'Better Every Day', the significant accolade has been achieved by the manufacturing plants of JSW Steel situated at Vijaynagar (Karnataka), Dolvi and Tarapur (both in Maharashtra) and Salem (Tamil Nadu).

With this momentous milestone, JSW Steel (Indian Operations) now has over 80% of its primary steel production from ResponsibleSteel™ certified sites, with Tarapur being the first downstream rolling mill in India to achieve this milestone.

ResponsibleSteel™ is the steel industry's first global multi-stakeholder standard and certification initiative that works with steel producers, consumers, and intermediaries towards building a sustainable steel industry by addressing key challenges including responsible sourcing, climate change, diversity, human rights and environment stewardship, among a host of other initiatives.

Jayant Acharya, Joint Managing Director and CEO of JSW Steel, said, "The ResponsibleSteel Certification for our four sites in 'one-go' is a testament to our unwavering resolve to future-proof our businesses by addressing the emerging global challenges while we transition to sustainable world. *We have built a strong foundation for responsible growth and take pride in our consistent commitment to sustainable business practices.* I thank the team from the ResponsibleSteel, the assurance panel and the certification body (BV) for their support and congratulate the entire family of JSW Steel for achieving this milestone. Being the largest steel producer from India, we are committed for a holistic growth of the sector by taking care of the need of the society, environment and people to support the country's aspiration of being a developed nation or "Vikshit Bharat" by 2047."

Annie Heaton, CEO of ResponsibleSteel commented "Congratulations to JSW for achieving these four ResponsibleSteel certifications. By choosing to adopt an international standard which addresses not only emissions but a wide breadth of environmental and social issues, JSW is demonstrating ambition, foresight and leadership as a global industry player. This means being open to external monitoring, being ready to engage on opportunities for improvement with local stakeholders and laying the foundations for a responsible transition

to near zero. As the second largest steel producing country globally, India has a real opportunity to emerge at the helm of the industry's shift to sustainable practices. JSW's certifications mean that today we're proud to have some 29% of India's steel capacity certified against the ResponsibleSteel International Production Standard. We look forward to their next steps in deepening this journey"

*"We are honored to have played a key role in this remarkable accomplishment by JSW Steel" said **Surachet TANWONGSVAL, Executive Vice President Asia Pacific- Bureau Veritas.** "As a global leader in testing, inspection, and certification services, Bureau Veritas remains committed to supporting the steel industry's transition towards more responsible and sustainable practices. We are proud to have contributed to this milestone and look forward to continued collaboration to further promote steel production in a manner that prioritizes sustainability and social impact."*

About JSW Steel

JSW Steel is the flagship business of the US\$ 24 billion diversified JSW Group, one of India's fastest-growing conglomerates with leading businesses spanning across multiple sectors, including energy, infrastructure, cement, paints, realty, B2B e-commerce, automobiles, defense, sports, and venture capital. Over the past three decades, JSW Steel has grown from a single manufacturing unit to India's leading integrated steel producer with a total capacity of 35.7 MTPA in India and the USA, including 5 MTPA currently under commissioning in India. The company's capacity is set to grow further to 43.5 MTPA by September 2027. Its Vijayanagar facility in Karnataka, with a current capacity of 17.5 MTPA (including 5 MTPA under commissioning), is the largest single-location steel-producing plant in India.

With innovation and technology at its core, JSW Steel is globally recognized for its business excellence and sustainability practices. It has been a Steel Sustainability Champion by the World Steel Association (2019–2024), secured Leadership Ratings (A-) in CDP Climate Change and an A in CDP Water Disclosures (2023), and won the prestigious Deming Prize for TQM at its Vijayanagar (2018) and Salem (2019) facilities. Apart of the Dow Jones Sustainability Indices (World and Emerging Markets), the Company has featured in S&P Global's Sustainability Yearbook (2020–2023). Recently, its SEED project was awarded Energy Transition Changemakers at COP28.

Ranked 8th in the World-Class Steelmaker Rankings by World Steel Dynamics, JSW Steel is committed to reducing CO₂ emissions by 42% by 2030 and achieving net-zero carbon emissions by 2050. The company also aims to power its operations entirely with renewable energy by 2030 and achieve no net loss in biodiversity, along with improving air quality and water conservation across its sites. JSW Steel is equally recognized for its workplace excellence, earning certification from Great Place to Work (2021–2023) and accolades as one of India's Best Employers among Nation Builders (2023–2024) and Best Workplaces in Health & Wellness (2023).
