# A boost to Act East policy | Orbit, Sanabil launch startups'

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated totop \$124 billion in 2024 and \$129 billion in 2025.

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

## Leveraging connections

Based on the theme 'Diaspora's Con-

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be

conferred by the President. While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

The Global Indian connection in large corporations has been reaping benefits for India, whether in consumer space or in core industries like

In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets is one of the primary reasons prompting many foreigners to look at fruit-

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way! (The author is president,

# accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia - the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

The Global Indian connection in large corporations has been reaping benefits for India, whether in consumer space or in core industries like

metals and iron and steel. In newer and more challenging segments like semiconductors, EVs, AI, and renewable energy too, it can help India grab the right investments. In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets is one of the primary reasons prompting many foreigners to look at fruitful work stints in India.

### Act East

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way!

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia – the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## A boost to Act East policy

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

metals and iron and steel. In newer and more challenging segments like semiconductors, EVs, AI, and renewable energy too, it can help India grab the right investments. In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets is one of the primary reasons prompting many foreigners to look at fruitful work stints in India.

### **Act East**

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way!

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia - the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## STRATEGIC ALLIANCES WITH GLOBAL BHARATIYAS

## A boost to Act East policy

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

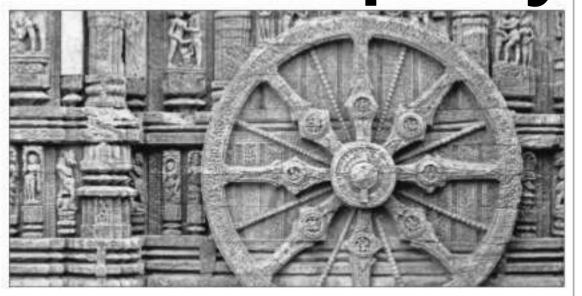

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

The Global Indian connection in large corporations has been reaping benefits for India, whether in consumer space or in core industries like

metals and iron and steel. In newer and more challenging segments like semiconductors, EVs, AI, and renewable energy too, it can help India grab the right investments. In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets is one of the primary reasons prompting many foreigners to look at fruit-

ful work stints in India.

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way! (The author is president,

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia - the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## STRATEGIC ALLIANCES WITH GLOBAL BHARATIYAS

## A boost to Act East policy

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

### **Act East**

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way!

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia – the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## STRATEGIC ALLIANCES WITH GLOBAL BHARATIYAS

## A boost to Act East policy

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

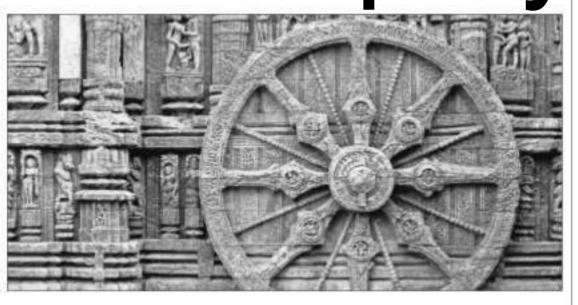

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

## Leveraging connections

Based on the theme 'Diaspora's Con-

Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

The Global Indian connection in large corporations has been reaping benefits for India, whether in consumer space or in core industries like

metals and iron and steel. In newer and more challenging segments like semiconductors, EVs, AI, and renewable energy too, it can help India grab the right investments. In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets is one of the primary reasons prompting many foreigners to look at fruitful work stints in India.

### Act East

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way!

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia – the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## STRATEGIC ALLIANCES WITH GLOBAL BHARATIYAS

## A boost to Act East policy

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

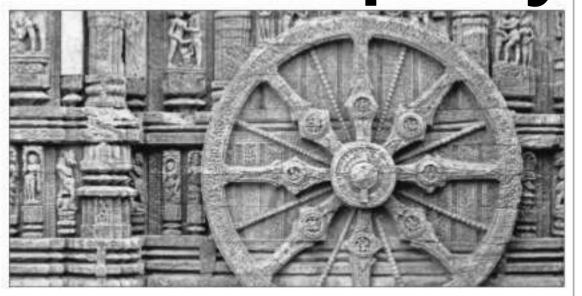

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

Based on the theme 'Diaspora's Con-

Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

The Global Indian connection in large corporations has been reaping benefits for India, whether in consumer space or in core industries like

metals and iron and steel. In newer and more challenging segments like semiconductors, EVs, AI, and renewable energy too, it can help India grab the right investments. In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets is one of the primary reasons prompting many foreigners to look at fruit-

ful work stints in India.

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way! (The author is president,

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia - the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## STRATEGIC ALLIANCES WITH GLOBAL BHARATIYAS

## A boost to Act East policy

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

The Global Indian connection in large corporations has been reaping benefits for India, whether in consumer space or in core industries like

metals and iron and steel. In newer and more challenging segments like semiconductors, EVs, AI, and renewable energy too, it can help India grab the right investments. In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets is one of the primary reasons prompting many foreigners to look at fruitful work stints in India.

### **Act East**

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way!

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia – the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## STRATEGIC ALLIANCES WITH GLOBAL BHARATIYAS

## A boost to Act East policy

**SUBRATTRIPATHY** 

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. ful work stints in India.

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way!

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia - the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## A boost to Act East policy

**SUBRATTRIPATHY** 

**THE 18TH PRAVASI** Bharatiya Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. metals and iron and steel. In newer and more challenging segments like semiconductors, EVs, AI, and renewable energy too, it can help India grab the right investments. In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets is one of the primary reasons prompting many foreigners to look at fruitful work stints in India.

### **Act East**

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way!

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia – the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

## STRATEGIC ALLIANCES WITH GLOBAL BHARATIYAS

## A boost to Act East policy

**THE 18TH PRAVASI** Bharativa Divas (PBD) convention, to be held in Bhubaneswar from January 8-10, perhaps gives us an opportune moment to look at the Indian diaspora and evaluate its true potential in giving shape to the Prime Minister's dream of a Viksit Bharat.

Estimated to be the world's largest, the Indian diaspora with 35.42 million people residing outside India as of November 2024 includes 15.85 million NRIs and 19.57 million PIOs. It has a significant impact on India's economy, contributing around 3.5% of the country's GDP through remittances. In 2023, India retained the top spot with remittances of \$120 billion, nearly two times ahead of Mexico (\$66 bn) and China (\$50 bn).

Remittances are critical for any country since they help cushion the adverse impact of any fall in FDI and higher trade deficit. For India too, the steady flow of remittances has been hugely beneficial and it is estimated to top \$124 billion in 2024 and \$129 billion in 2025.

Apart from the sheer numbers, what also works in India's favour is the diverse composition of these remittance inflows, which is predicted to provide steadiness in case of economic downturns. The US, the UK, and Singapore, which collectively account for 36% of total remittance flows, are the primary destinations for highly skilled Indian migrants in the IT and services industries. The UAE accounted for 18% of remittance flows, while Saudi Arabia, Kuwait, Oman, and Qatar, collectively accounted for 11% of India's total remittances. The diversification of India's migrant pool, between a large chunk of highly skilled migrants working in high-income OECD markets and less skilled migrants in the GCC markets, could impart stability to remittance inflows in the event of external shocks.

## Leveraging connections

Based on the theme 'Diaspora's Con-

Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future

tribution to a Viksit Bharat', the PBD convention is expected to witness 7,500 participants, including NRIs from over 50 countries. The Pravasi Bharatiya Samman Awards will be conferred by the President.

While it is important to drum up noise on the inflow of funds, we would do well to look beyond finance. The first step would be to identify the qualities and traits that we need to harness and imbibe from these successful people. Once we engage with them to enlist the skills that set them apart and contribute to their success, we can request them for guidance and mentorship in developing a training programme and impart the required expertise to aspiring youth and talented entrepreneurs. Transferring new knowledge and skill, leadership training, sharing of experiences, creating new businesses, and spurring entrepreneurship would be some of the notable benefits from these exchanges.

Such conventions also offer networking opportunities to the Indian community across the world. We need to ensure how India gains from these interactions, leverage their goodwill and professional network to work out deals in India's favour. Diaspora can help act as valuable bridges between their adopted countries and homelands, facilitating strategic connections.

The Global Indian connection in large corporations has been reaping benefits for India, whether in consumer space or in core industries like

metals and iron and steel. In newer and more challenging segments like semiconductors, EVs, AI, and renewable energy too, it can help India grab the right investments. In this, global Indians have an important role to play. The perception about India has changed, more so in the last few years. The China-plus-one strategy that promises to transform India into a manufacturer for the global markets

is one of the primary reasons prompt-

ing many foreigners to look at fruit-

### **Act East**

ful work stints in India.

Finally, the PBD convention aligns with India's 'Act East Policy' aimed at fostering economic and cultural ties with Southeast Asia. In many ways, Bhubaneswar provides the perfect backdrop for the grand event. Rich in natural resources, Odisha's strategic coastal location and its growing prominence as a metal & mining hotspot, tourism hub, its port-based infrastructure has generated a lot of enthusiasm.

With its natural deepwater ports, including Paradip, Dhamra, and Gopalpur, Odisha is poised to emerge as a major maritime hub, driving economic growth, generating employment, and boosting trade. By leveraging its port infra, Odisha can unlock its vast potential in industries such as manufacturing, logistics, and tourism, propelling the state towards a prosperous and sustainable future.

This needs to be transformed into action on the ground. No wonder, chief minister Mohan Charan Majhi called it a pivotal moment in the state's journey to become a hub for global investment and cultural exchange. Let Odisha show the way!

## Orbit, Sanabil launch startups' accelerator

**ORBIT STARTUPS (ORBIT)** and Sanabil Investments have launched an accelerator programme to cultivate early-stage startups from the Saudi Arabia and the Middle East and North Africa (MENA) region as well as global startups seeking to expand into the region.

The bi-annual programme called Sanabil Accelerator by Orbit will focus on key sectors, including fintech, healthcare, e-commerce, mobility and logistics. Each batch will consist of 10-15 startups either from the MENA region, or those looking to expand in the region, including those from India.

"Partnering with Orbit, we are committed to empowering early-stage startups across diverse sectors including technology, healthcare, web3 and mobility," said a spokesperson at Sanabil Investments, a financial investment company wholly owned by the sovereign wealth fund of Saudi Arabia - the Public Investment Fund (PIF).

Startups selected for the accelerator will receive an initial investment of \$100,000 and will have access to follow-on funding in addition to a fourmonth programme focused on sales, marketing, and product development. Startups will participate in an in-person market orientation in Riyadh and receive hands-on support from Orbit's network of partners, mentors and investors. —FE BUREAU

SCHEDULED TO BE HELD ON JANUARY 19, 2025 THROUGH VIDEO CONFERENCE/OTHER **AUDIO-VISUAL MEANS AT 01:00 PM** 

CORRIGENDUM TO THE NOTICE OF THE EXTRA-ORDINARY GENERAL MEETING

We draw attention of all the shareholders of Avro India Limited ('the Company') towards the Notice dated December 27, 2024 ('Notice of EGM') issued for convening the Extraordinary General Meeting of the shareholders of the Company on Sunday, 19th day of January, 2025 at 01:00 PM through Video Conference (VC)/Other Audio-Visual means (OAVM). The Notice of the EGM has been dispatched to the shareholders of the Company in due compliance with the provisions of the Companies Act, 2013 read with the relevant rules made thereunder and relevant circulars issued by Ministry of Corporate Affairs and Securities Exchange Board of India.

This corrigendum is being issued to make amendments/provide additional details as mentioned herein, pursuant to the provisions of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018.

With respect to explanatory statement of Item No.1 and 2 of the Notice of EGM which pertains for seeking an approval of the shareholders for issuance of equity shares to Non-promoters on a preferential basis and issuance of warrants to Promoter Group on a preferential basis, in this we wish to communicate that

1) In the explanatory statement, Point K on page 18 of the Notice of EGM, shall be read as under: k. Number of persons to whom allotment has already been made during the year, in terms of Number of Securities

On October 19, 2024, the company had allotted 6,48,330 equity shares of Rs. 10/- each issued at a premium of Rs.117.25/to two Promoters and thirteen Non-Promoters on a preferential basis. On the same day, the company also allotted 5,30,451 Warrants on preferential basis to thirteen Non-promoters in accordance with the provisions of SEBI (Issue of Capital and Disclosures Requirements) Regulations, 2018, as amended at an price of

Rs.127.25/- per warrants (including a premium of Rs. 117.25 per warrant), each Warrant convertible into 1 Equity Share of face value of Rs. 10/- each fully paid up. For more details, please refer outcome of the Board meeting made to both the Stock Exchanges dated October 19, 2024.

## वीडियो कॉन्फ्रेंस/अन्य दृश्य-श्रव्य माध्यमों से 19 जनवरी, 2025 को 01:00 बजे अप. से आयोजित होने वाली असाधारण आम बैठक सूचना का शुद्धिपत्र

एवरो इंडिया लिमिटेड ("**कंपनी**") के सभी शेयरधारकों का ध्यान 27 दिसंबर, 2024 ("**ईजीएम की सुचना**") की सुचना की ओर आकर्षित किया जाता है, जो रविवार, 19 जनवरी, 2025 को 01:00 बजे अप. से वीडियो कॉन्फ्रेंस/अन्य दृश्य-श्रव्य माध्यमों से कंपनी के शेयरधारकों की असाधारण आम बैठक बुलाने के लिए जारी किया गया है। ईजीएम की सूचना कंपनी के शेयरधारकों को कंपनी अधिनियम, 2013 के प्रावधानों के साथ उसके तहत बनाए गए प्रासंगिक नियमों और कॉपोर्रेट मामलों के मंत्रालय और भारतीय प्रतिभूति विनिमय बोर्ड द्वारा जारी प्रासंगिक परिपत्रों के अनुपालन में

सेबी (पूंजी जारी करने और प्रकटीकरण आवश्यकताएं) विनियम, 2018 के प्रावधानों के अनुसार यहां उल्लिखित संशोधन करने/अतिरिक्त विवरण प्रदान करने के लिए यह शुद्धिपत्र जारी किया जा रहा है।

ईजीएम की सुचना मद संख्या 1 और 2 के व्याख्यात्मक वक्तव्य के संबंध में, जो गैर-प्रवर्तकों को तरजीही आधार पर इक्विटी शेयर जारी करने और प्रमोटर समृह को तरजीही आधार पर वारंट जारी करने के लिए शेयरधारकों की मंजूरी लेने से संबंधित है, इसमें हम यह सूचित करना चाहते हैं किः 1) व्याख्यात्मक वक्तव्य में, ईजीएम की सूचना के पृष्ठ 18 पर बिंदु के को इस प्रकार पढ़ा जाएगाः

के. वर्ष के दौरान जिन व्यक्तियों को पहले ही आवंटन किया जा चुका है, उनकी संख्या, प्रतिभृतियों की संख्या के साथ-साथ मुल्य के संदर्भ में''

19 अक्टूबर, 2024 को, कंपनी ने तरजीही आधार पर दो प्रमोटरों और तेरह गैर-प्रमोटरों को रु.117.25 के प्रीमियम पर जारी किए गए 10 रुपये प्रति शेयर के 6,48,330 इक्विटी शेयर आवंटित किए थे। उसी दिन, कंपनी ने संशोधित सेबी (पूंजी निर्गम और प्रकटीकरण आवश्यकताएं) विनियम, 2018 के प्रावधानों के अनुसार तेरह गैर-प्रवर्तकों को अधिमान्य आधार पर 5,30,451 वारंट आवंटित किए, जिनकी कीमत 127.25 रुपये प्रति वारंट (प्रति वारंट 117.25 रुपये के प्रीमियम सिहत) है, प्रत्येक वारंट 10 रुपये अंकित मूल्य के 1 इक्विटी शेयर में परिवर्तनीय है, प्रत्येक पूरी तरह से भुगतान किया गया है। अधिक जानकारी के लिए, कृपया 19 अक्टूबर, 2024 को दोनों स्टॉक एक्सचेंजों को दी गई बोर्ड मीटिंग के परिणाम देखें।

एनएसई: https://nsearchives.nseindia.com/corporate/AVROIND 19102024141048 BMOutcome.pdf

2) स्पष्टीकरण कथन में, नोटिस के पृष्ठ 18 पर बिंदु ओ और पी को निम्नानुसार पढ़ा जाएगाः

ओ. मूल्य की पुनः गणना करने की अंडरटेकिंग

चंकि कंपनी के इक्विटी शेयरों का अक्सर कारोबार होता है और प्रासंगिक तिथि से 90 से अधिक कारोबारी दिनों के लिए मान्यता प्राप्त स्टॉक एक्सचेंज में सुचीबद्ध किया गया है, इसलिए कंपनी को जारी किए जाने वाले इक्विटी शेयरों की कीमत की पुनः गणना करने की कोई आवश्यकता नहीं है और इसलिए, कंपनी को सेबी आईसीडीआर विनियमों के प्रासंगिक प्रावधानों के तहत निर्दिष्ट वचन प्रस्तुत करने की आवश्यकता नहीं है। इसके मद्देनजर, नोटिस का बिंदु पी भी लागू नहीं होता है।

3) स्पष्टीकरण कथन में, नोटिस के पृष्ठ 19 पर ''**बिंदु ए**'' को निम्नानुसार पढ़ा जाएगाः

कपया नीचे दिए गए आवंटी(यों) के पर्व और बाद के अधिमान्य निर्गम पंजी का प्रतिशत निम्नानसार पढें:

ईजीएम की सूचना के लिए शुद्धिपत्र ईजीएम की सूचना का एक अभिन्न अंग होगा, जिसे 28 दिसंबर, 2024 को कंपनी के शेयरधारकों को पहले ही प्रसारित किया जा चुका है और इस तिथि से ईजीएम की सूचना को हमेशा इस शुद्धिपत्र के साथ पढ़ा जाएगा। ईजीएम की सूचना और उसके व्याख्यात्मक कथन की अन्य सभी सामग्री, इस शुद्धिपत्र द्वारा संशोधित या पूरक के अलावा, अपरिवर्तित रहेगी। तदनुसार, आप सभी से अनुरोध है कि गुरुवार, 16 जनवरी, 2025 को प्रातः 09:00 बजे से शुरू होकर शनिवार, 18 जनवरी, 2025 को सायं 05:00 बजे तक ई-वोटिंग अवधि के दौरान इलेक्ट्रॉनिक रूप से या ईजीएम के दौरान ई-वोटिंग के माध्यम से यानि 19 जनवरी, 2025 को, जैसा भी मामला हो, अपना वोट डालें।
