MODI, MACRON HOLD TALKS ON BOARD PRESIDENTIAL AIRCRAFT

N-reactors, missiles: India and France deepen ties

Nuclear energy key to energy mix: Joint statement

SHUBHAJIT ROY
New Delhi, February 12

INDIA AND FRANCE on Wednesday agreed to jointly develop modern nuclear reactors, boost defence cooperation with procurement of missiles, submarines, engines for aircraft and helicopters, and jointly work on projects in third countries.

These were the outcome of bilateral discussions between Prime Minister Narendra Modi and French President Emmanuel Macron on board the Presidential aircraft while flying from Paris to Marseille.

Describing the decision to travel together on the Presidential aircraft "an exceptional gesture by Macron, emblematic of deep personal trust between the two leaders, and remarkable confidence they have in each other", foreign secretary Vikram Misri said India-France "ties literally touched new heights".

Misri said AI was a "major area" of the discussion, he said. According to the joint statement, Modi and Macron stressed that nuclear energy is essential for bolstering energy security and transitioning towards a low-carbon economy.

French President Emmanuel Macron accompanies Prime Minister Narendra Modi to the airport as he departs from Marseille, France, for Washington DC, USA, on Wednesday

Both leaders acknowledged the India-France ties and efforts in cooperation on the peaceful uses of nuclear energy, notably in relation with the Jaitapur nuclear power plant project.

"They welcomed the first meeting of the Special Task Force on Civil Nuclear Energy,

and welcomed the 'signing of a letter of intent on Small Modular Reactor (SMR) and Advanced Modular Reactor (AMR)' and the Implementing Agreement between India's GCNEP, DAE and France's INSTN, CEA for cooperation in training and education of nuclear profes-

sionals," it stated.

SMRs are compact nuclear fission reactors that can be manufactured in factories and then installed elsewhere. They have a smaller capacity than conventional nuclear reactors, and are seen as the future of civilian nuclear cooperation.

Going ahead from the AI Action summit in Paris, Modi and Macron also "launched an India-France Roadmap on AI, rooted in the philosophical convergence in their approaches focusing on the development of safe, open, secure and trustworthy artificial intelligence".

Under the theme of "Partnership for Security and Sovereignty", the two leaders recalled the "deep and longstanding defence cooperation", and welcomed the continuation of the cooperation of air and maritime assets in line with the ambitious Defence Industrial Roadmap agreed in 2024.

Both leaders "commended progress in collaboration in construction of Scorpene submarines in India, including indigenisation, and in particular the work carried out with a view to the integration of DRDO-developed Air Independent Propulsion (AIP) into P75-Scorpene submarines and the analyses conducted regarding the possible integration of the Integrated Combat System (ICS) into the future P75-AS submarines."

Modi will meet Trump today

SHUBHAJIT ROY
New Delhi, February 12

AHEAD OF HIS meeting with US President Donald Trump in the White House, Prime Minister Narendra Modi met US vice president JD Vance in Paris and discussed how the US can assist India in diversifying its energy sourcing through investments in US nuclear technology.

The bilateral meeting took place before Modi left for the US to meet Trump. The Prime Minister, who left Marseille for Washington DC, will reach early Thursday India time.

In Paris, Modi and Vance "discussed topics of mutual interest, including how the US can assist India in diversifying its energy sourcing through

investments in clean, reliable US nuclear technology," the White House said in a statement.

Officials say this is the earliest that an Indian Prime Minister has visited the White House. Only a handful of foreign leaders have visited White House since his inauguration on January 20 — Israel PM Benjamin Netanyahu, Japan PM Shigeru Ishiba and Jordan's King Abdullah. Even the British PM, who usually is among the first foreign leaders, hasn't visited yet.

For New Delhi, the strate-

Immigration and tariffs are expected to dominate the conversation — the Donald Trump 2.0 administration has been aggressive on both the issues

gic calculus is that they need to have a face-to-face between the two leaders given that they enjoy some personal rapport from Trump's previous term between 2017 and 2021.

Immigration and tariffs are expected to dominate the

conversation — the Trump 2.0 administration has been aggressive on both the issues. And that was seen in the deportation of 104 illegal Indian immigrants flown to India in a military aircraft, and with handcuffs and shackles. About 800 such Indians — 487 are presumed Indian citizens and another 298 who are in the final stages of verification — will be deported soon.

Delhi has said that it is ready to take back illegal Indian immigrants, and has "registered concerns" on the mistreatment — short of lodging a protest.

India is also hoping that the strategic alignment on China will continue — Trump had described China as a strategic threat and revived the Quad in his first term.

Countries may divert steel shipments to India after US tariffs: Icr

THE DOMESTIC STEEL market may become a victim of diverted shipments putting pressure on local prices, Icr said after the US

administration announced a 25% tariff on all steel and aluminium imports. The latest trade measures cut both ways

for the domestic steel industry. First, deliveries of 4 MTPA to the US from Asian suppliers like Japan and South Korea, which

till now had preferential market access, could be partly bounced-off to high-growth markets like India, Icr said. — PTI

Accelerating Growth Around The Orbit

Pioneering Excellence in Modern Infrastructure

Kamdhenu Limited stands as one of the leader in the steel industry with a diverse portfolio of premium products tailored for modern infrastructure. Our range, spanning durable TMT bars, adaptable structural steel, and vibrant color-coated sheets, reflects a commitment to strength and innovation. By adhering to stringent quality standards and embracing operational excellence, we continuously evolve to meet dynamic market demands. This forward-thinking approach enables us to not only respond to industry shifts with agility but also to set new benchmarks in performance and reliability, reinforcing Kamdhenu's position as a trusted leader in India's steel sector.
