»———— AVG LOGISTICS LIMITED ————>

Sustainable, Reliable, Integrated logistics for India's top businesses

Our Vision

We aim to be part of India's success story by being the most reliable and sustainable logistics partners to India's top businesses

AVG Logistics is a leading multi-modal transport company with strong growth across profitable segments

Company Overview

Established in 2010, AVG logistics has evolved into a dynamic force, becoming a trusted and leading multi-modal logistics solutions provider in India. The journey of AVG logistics is marked by **rapid growth, fueled by a dedicated team of logistics experts and a technologically advanced fleet to deliver customized full-stack solutions across transportation, warehousing, distribution, supply chain management, and 3PL services.** AVG Logistics aims to deliver **excellence with every mile through a relentless focus on customer centricity, and a dedication to staying at the forefront of industry technology.**

Key Facts

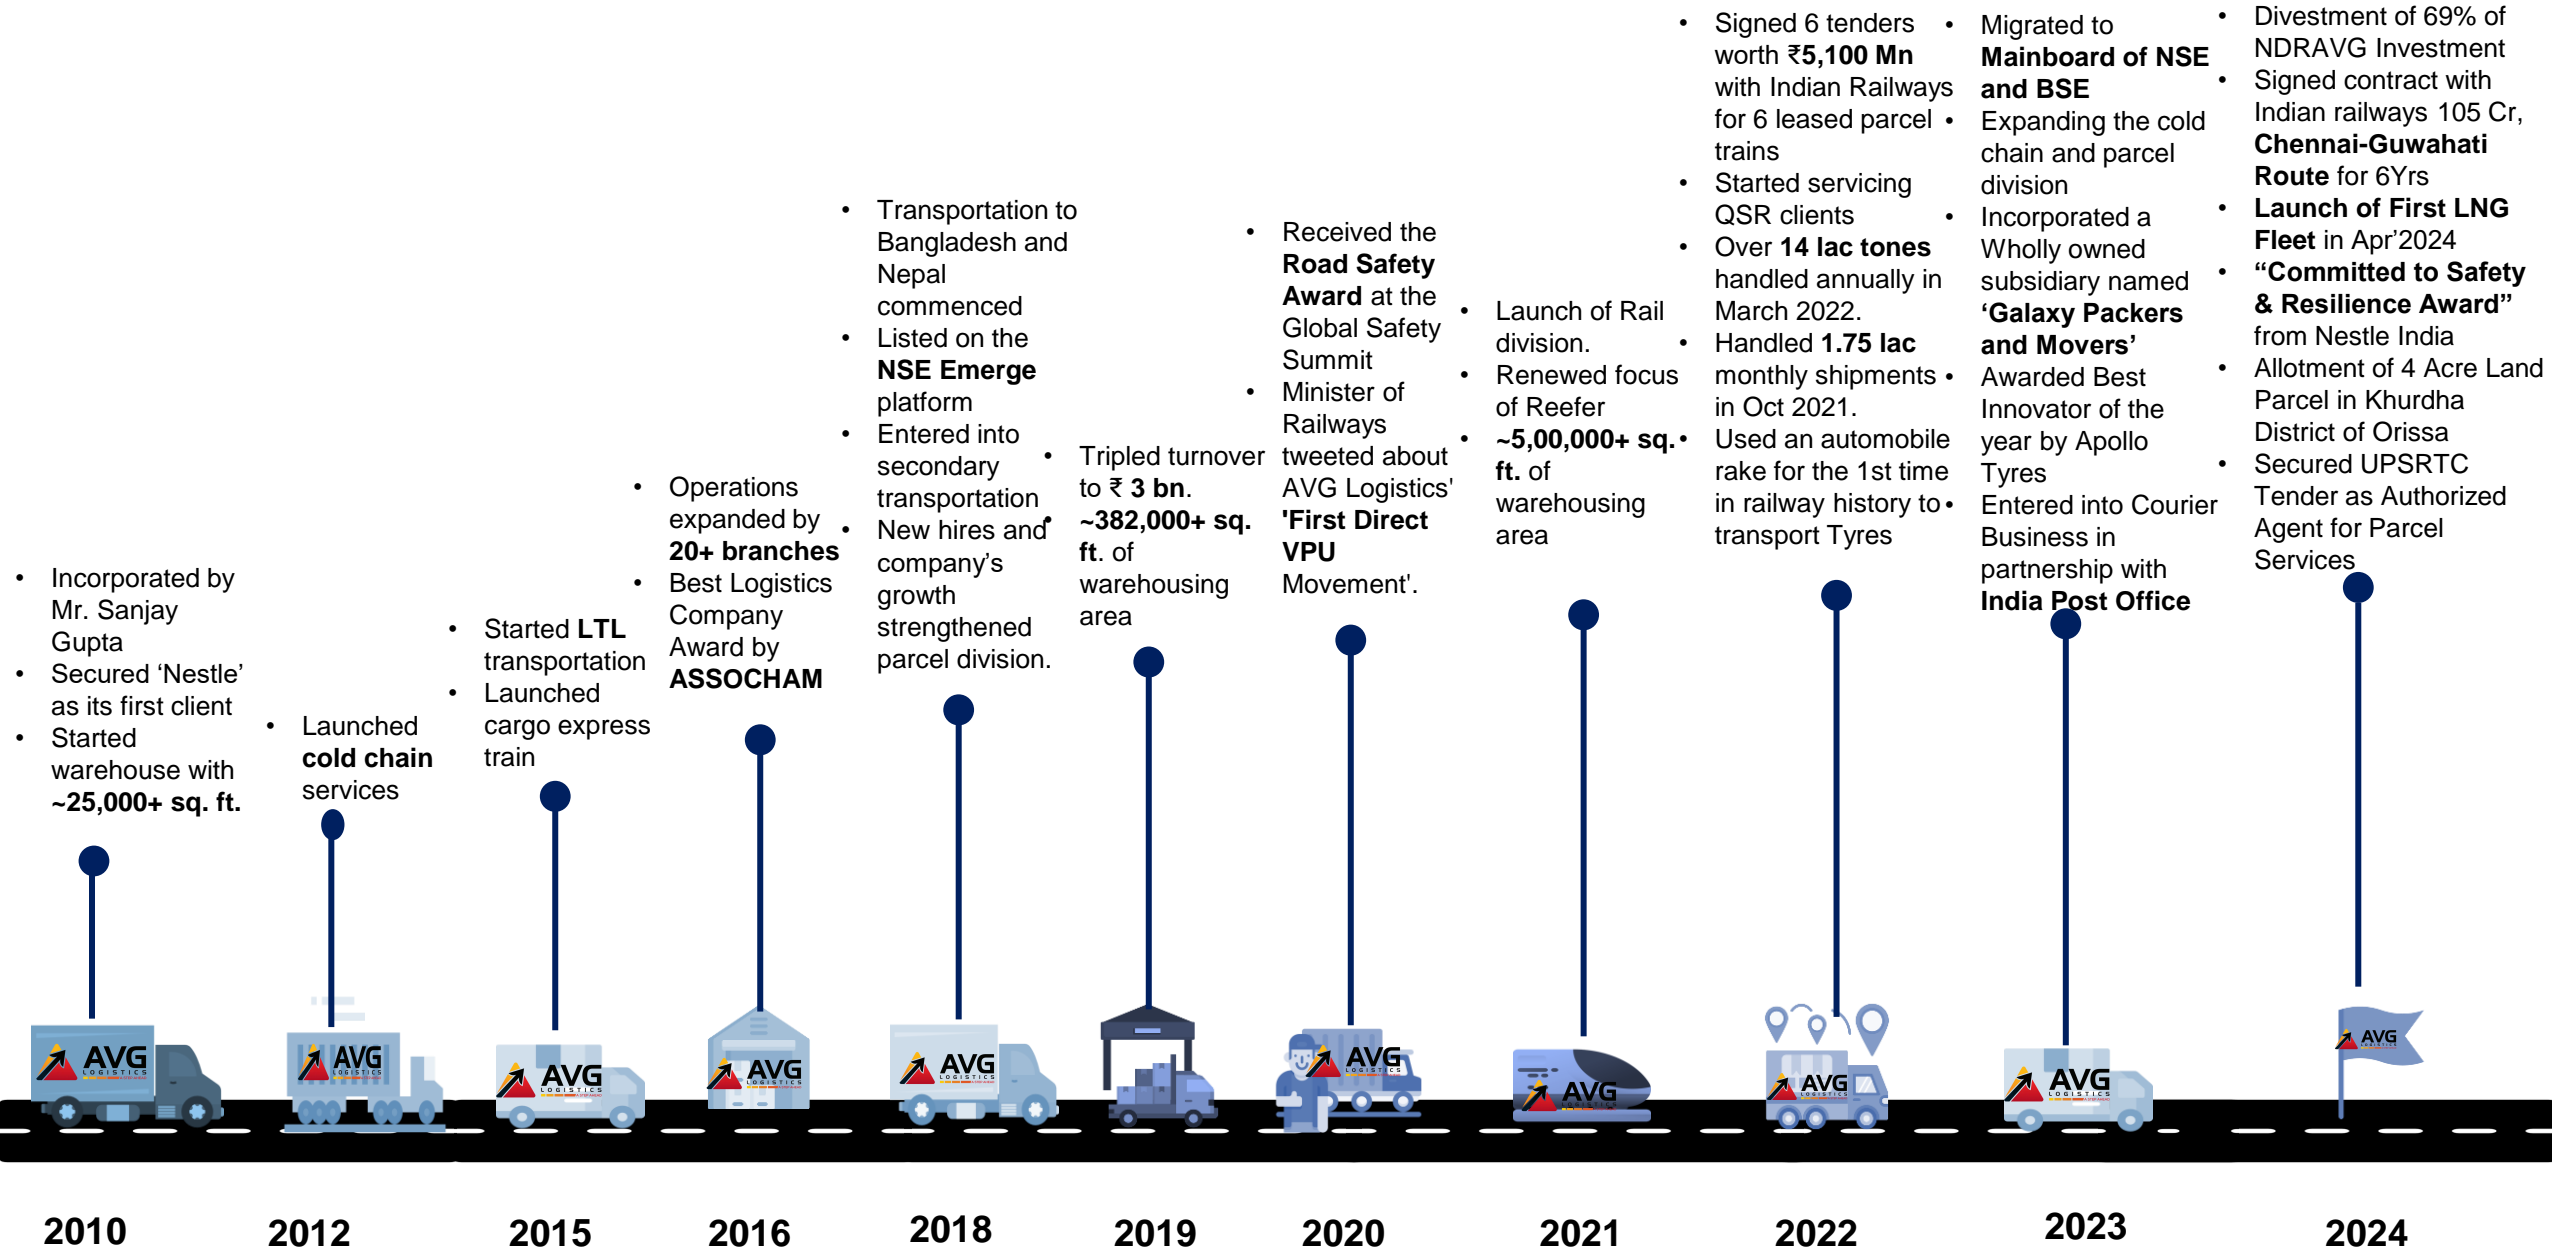

Reach	 International presence*	 19,000+ pin codes covered	 1,000+ Customers	 3000+ partner vehicles
Capabilities	 700+ Owned Vehicles	 60+ Branch Network	 8+ Rail Routes	 Carrying Capacity : 1 to 40 Tons
Financials	 FY24 Revenue ₹ 480 Cr	 FY24 EBITDA ₹ 109 Cr	 FY24 PAT ₹ 32 Cr	

Mission

- To Build strategic partnerships with customers to enable them to achieve their supply chain goals.
- To Offer an integrated Multimodal network of Logistics solutions across varied industries.

Our evolution is a journey of transformation from strength to strength

Revenue Growth at Glance

AVG logistics is led by a strong and capable management, with acclaimed directors from marquee firms

DRM Tweet on Indian Railway Supply chain improvement

DRM Bengaluru@drmsbc-Oct 24, 2021

Replying to @drmbc

Railways able to improve capacity utilization parcel & provide major boost to supply chain across country through this initiative, SWR/Bengaluru Division has leased PCET to M/s AVG logistics Ltd with frequency of 02 round trips per week from Yesvantpur to Okhla and back ¼

Bangalore - Delhi Train Launch

THE HANS INDIA

SWR Bengaluru division flags off first PCET

HANS NEWS SERVICE BENGALURU

The first Parcel Cargo Express Train (PCET) of the Bengaluru division was flagged off from Yesvantpur Railway Station. The inaugural special train will run between Yesvantpur (Bengaluru) to Okhla (New Delhi).

The South Western Railway, Bengaluru Division has leased out PCET to M/s AVG Logistics Ltd with a frequency of 2 round trips per week from Bengaluru (Yesvantpur) to Delhi (Okhla) and back. The total value of the contract for 6 years is Rs. 241 crore. The PCET is a novel initiative by the Indian Railways to lease out an entire train on a roundtrip basis for loading parcels for a period of 6 years. An average PCET consists of 15 parcel vans and 1 break van. They can transport 353 tonnes of materials in a single trip. After a span of 6 months, the composition is increased to hold 20 parcel vans and 1 break van with a total extended capacity of 491 tonnes. In a month, at least two trips must be operated.

Being time-tabled trains with lesser transit time, customers will be able to transport parcels in bulk quantity, in the first 3 years, no escalation in freight will be allowed but 10 per cent of escalation will be permitted from the 4th year. The service is expected to attract transport from road traffic to railways.

24/10/2021, BENGALURU Pg.02

The first electric vehicle, capable of carrying a payload of 35 tonnes, has been deployed at one of our state-of-the-art factories in Sanand. This electric vehicle will operate between Sanand and Bhiwandi, representing another stride toward environmentally friendly transportation. Our roadmap aims to fully green this route, with plans to integrate it with existing LNG vehicles. We prioritize genuine partnerships, exemplified by our service provider aligning with Nestle's vision of accelerating greener transportation.

Future Growth Drivers: Unlocking Potential for Success

AVG Logistics aims to capitalize on strong macro tailwinds to define a multi-tiered strategy based on pillars of competence

Key Logistics Mega Trends

Increasing shift to multi-modal logistics on the back of strong investments into railways, shipping, and air freight

Changing customer preferences and rapid growth of e-commerce driving need for 3PL and cold chain services

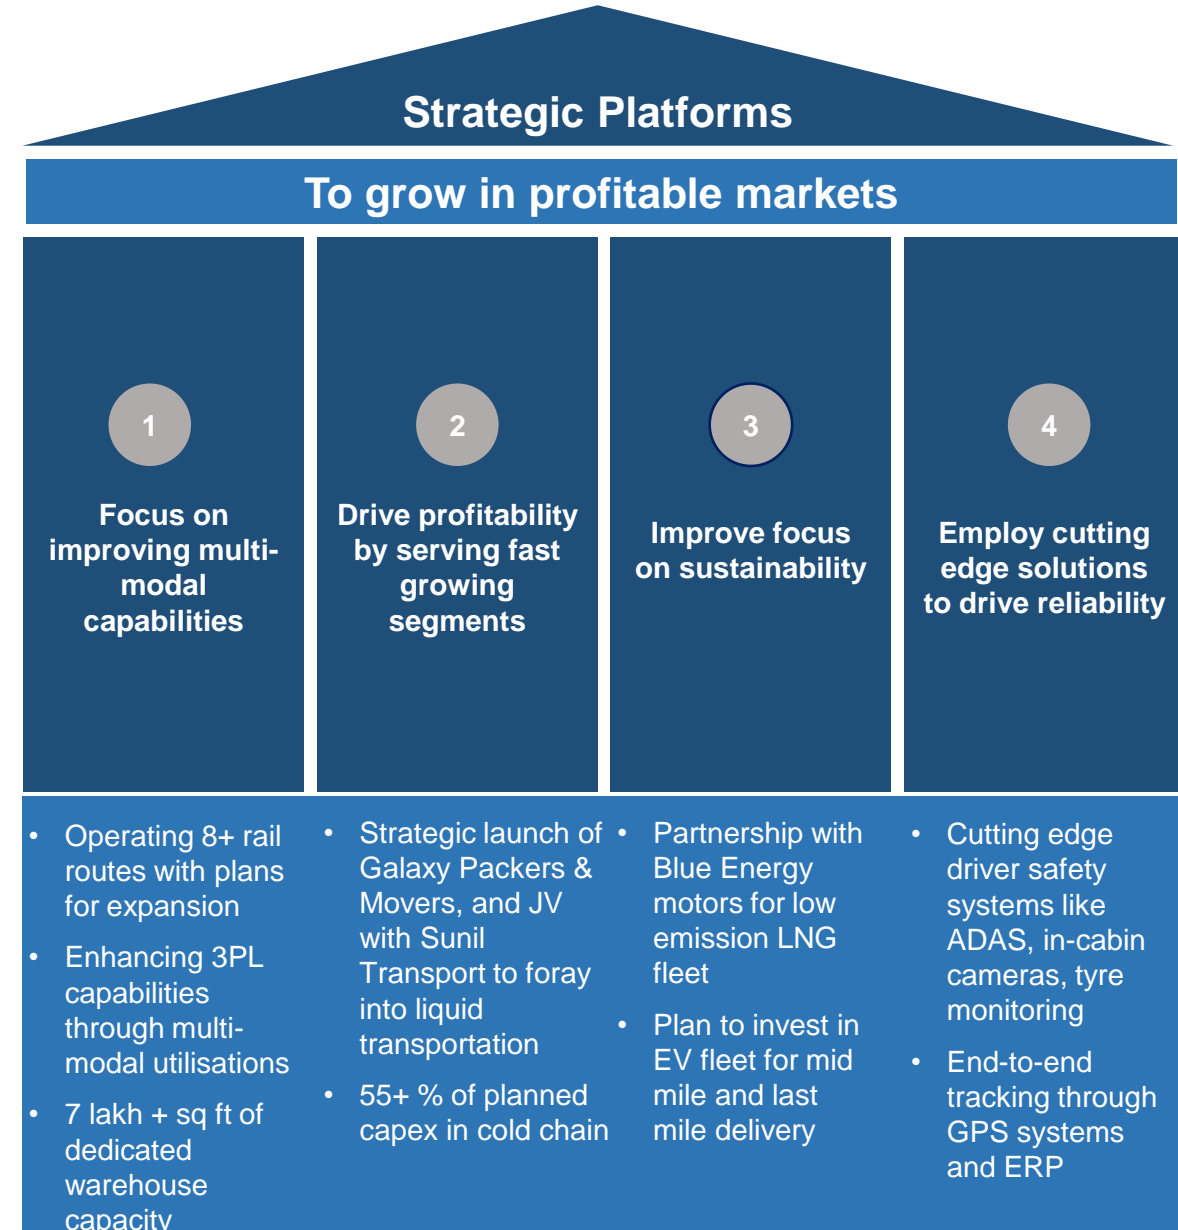

Increasing focus on sustainability as an avenue for greater safety as well as reduced costs

Emerging technology such as ADAS, and GPS tracking to improve reliability and safety of logistics operations

Regulatory focus and government policies such as NLP, ULIP (Unified Logistics Interface Platform) and ONDC (Open Network for Digital Commerce) to promote efficiencies and drive investments at scale

Empowering Supply Chain with Strategic Tech Initiatives

<p>Operations and Warehousing</p> <ul style="list-style-type: none"> ○ Tyre Management system : Michelin complete tyre solutions ○ Workman Management system ○ Record management system ○ Geo-fencing, e-invoicing 	<p>Digital Transformation</p> <ul style="list-style-type: none"> ○ Business process automation ○ Business Intelligence tools ○ Data Analytics ○ Green driving indicator ○ Online market vehicle data 	<p>IOT Devices</p> <ul style="list-style-type: none"> ○ GPS and GIS ○ Temperature Sensors for reefer trucks ○ RFID's ○ Barcode scanners ○ CCTV enabled warehouses

- AVG Logistics revolutionizes the supply chain industry by empowering it with strategic tech initiatives. With a strong focus on operations and warehousing, digital transformation, IoT devices, and central monitoring systems.
- Our dedicated tech team ensures seamless implementation of innovative solutions, enabling a streamlined and sustainable supply chain. Experience the power of strategic tech initiatives and unlock the true potential of your supply chain with AVG Logistics.

AVG Logistics aims to elevate performance while making logistics sustainable and safe for all its stakeholders

Delivering customer centric operations by adding value at every step

- **Our aim is to truly be a moving force in Indian logistics:** We have entered segments that move the economy across cold chain, FTL, LTL, packers and movers, LNG, and forayed into exports to Nepal and Bangladesh.
- **We cater to our customers** through several innovations such as curtain multi-door trucks that are fully automated loading, with enhanced safety and reliability, zero residual food grade tankers for FMCG clients, and 45 ft reefer trucks
- We cater to all of our **customers' needs** by now **delivering to 19000+ pincodes in India** through a partnership with Indian Postal Service.

Reducing emissions with every shipment

- We aim to lead the **sustainability revolution** with **multiple modes of sustainable transport** such as **7+ rail routes and potential EV investments**
- **Reduced emissions per km** via partnership with Blue Energy Motors (Essar) to procure LNG powered trucks
- **Young fleets with latest BS VI technology** for reduced emissions

Revolutionizing logistics through technology

- **We are at the cutting edge of innovation** with tech initiatives across payment such as completely cashless collections, ERP systems for logistics management, and white-labelled tracking dashboards
- **Reliability at every step** driven by a central monitoring system with a vehicle tracking system, logistics control tower, fleet management system, and security operations centre, **Tyre Management Systems, etc.**
- **Automating internal processes with intelligent business processes**, data analytics, **green driving indicator**, and online market vehicle data
- **Reduced pilferage** through GPS and GIS, **RFID locks, barcode scanners**, and CCTV enabled warehouses
- **State of the art CRM enabled** by customer portal, app, supplier relationship management and driver app

Growth centred around driver safety

- **Enhanced driver safety through in-cabin cameras, ADAS systems** to enhance safety, optimize fuel consumption and reduce maintenance costs
- **Industry leading driver safety with sedex certification**, and regular training and health check up camps with authorized partners
- **Caring at every step for drivers** with free eye tests, medical checkups, **tie-up with IOCL for Swagat facilities**, along with regular training camps.

Industry Overview

India's Logistics Vision for a Sustainable Future

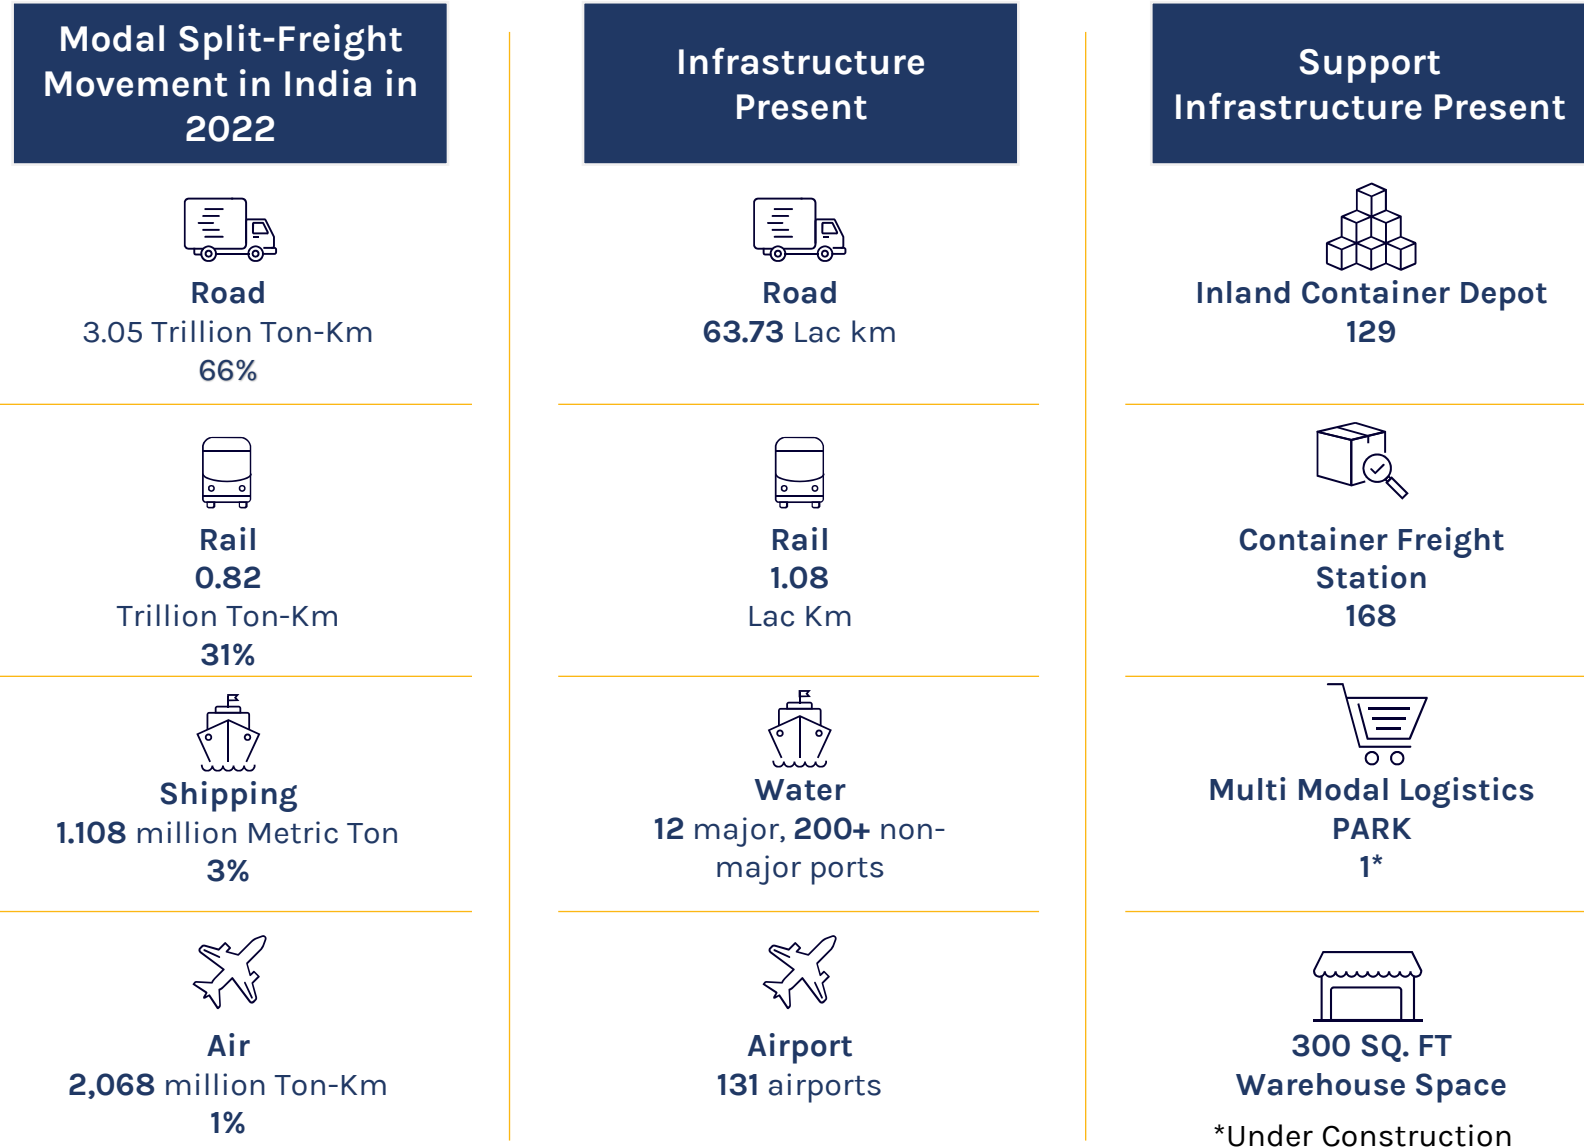

As of FY22, India's exports grew by 44.6% to US\$422b and imports grew by 55.4% to US\$613b. This growth has propelled the Indian transportation and logistics sector, which has grown between ~US\$160 and US\$200b (INR13- 16 Lakh cr.) in 2022.

This uneven distribution of modes of transportation has led to low operational efficiency; prompting the GOI to undertake multiple logistics specific initiatives, such as GatiShakti, National Logistics Policy and others. These programs aim to streamline India's logistics sector by making it more green, agile, transparent and integrated.

India aims to reduce logistics cost from 13% to 14% of GDP, to 8% to 10% of GDP, by 2030. It is estimated that a 10% reduction in indirect logistics cost will result in 5% to 8% rise in exports.

VISION @ 2047

Regulatory framework

- Transform logistics ecosystem to meet global regulatory standards
- Improve logistics services and ease of doing business

Rails of Progress: Navigating Challenges and Accelerating India's Cargo Growth

In 2022, cargo moved by Indian railways increased by ~7.5% YoY to 1,497 million tons.

Currently, the share of Indian railways in total cargo moved is ~31% and GOI aims to increase this to 44% by 2051. To achieve this growth, challenges such as low level of containerization, higher cost for movement of lighter cargo and insufficient first and last mile connectivity need to be addressed.

Average goods train speed in India increased by 83.5% to 43.2 kmph from FY20 to FY21. However, this pales in comparison to the high-speed freight train (350kmph) running in China.

Rail share in traffic having lead distance of 300 km reduced from 51.5% in FY2008 to 32.4% in FY2019.

Development of new infrastructure and launch of super freight trains like 3.5 km long Super Vasuki is a welcome step for improving rail freight efficiency.

Rail-Cargo Moved & Projection (Bn Ton-Km)

Exploring India's Potential in Cold Chain Logistics

- Cold Chain Logistics Market in India has a large potential in India on account of high volume of demand, rapid growth and a low penetration.
- Currently, India produces 400 Mn MT of perishables, with a wastage level of 0.9% to 15.9% and the annual value of losses in agricultural produce stands at over Rs. 92,500 crores.

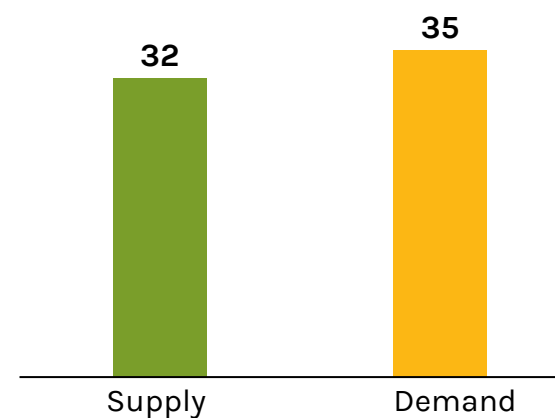

India is at an advantage owing to multiple factors, which could provide a large headroom for growth. These include:

- Fastest growing economy and 2nd largest consumer market globally
- Proactive Government Policies & significant investment in world-class ports, logistics & supply chain infrastructure
- Largest producer of several Agri commodities
- Highly skilled manpower pool

End-user Industries and their Cold Chain Requirements

Segment	Cold Chain Requirement
Fruits & Vegetables	Chilled
Food Processing	Chilled / Ambient
Dairy	Chilled
QSR	Frozen / Chilled / Ambient
Chocolates	Ambient
Ice Creams	Frozen
Retail	Frozen / Chilled

Deficit of 3 Mn MT of Cold Storage in India

Reefer supply caters to only 15% of the demand

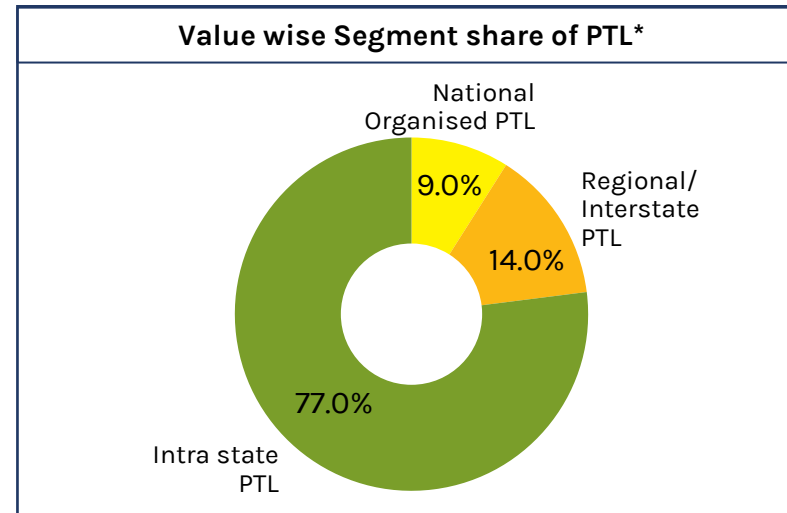

Part Truck Load: A Flexible Solution in Modern Logistics

- Estimated domestic market size: Approximately \$11 billion, surpassing B2B express logistics.
- PTL has a wider reach and is more cost-effective than express logistics.
- Post-GST, PTL's share increased due to fewer state-specific constraints.
- Industry is evolving due to changing consumer behavior, modern trade, and digitization.
- PTL serves various sectors like Textile, Automobiles, Electronics, e-commerce, FMCG, and more.
- Growth in Multi Modal Logistics Parks (MMLP) offers opportunities for PTL.
- Expect consolidation of small, unorganized players in the PTL industry through collaboration or mergers and acquisitions.

The PTL segment has grown at a CAGR of 8-10% in the last 5 years. Historical data indicate that the PTL industry grows at one and half times of the nominal GDP growth rate. As per our estimate, the PTL segment may grow at a CAGR of 5.5%-6.6% in the short term and this growth may increase to 8%-9% in the longer term
