Kranti Industries expands collaboration with Kalyani Techno Forge, commencing large-scale differential housing production worth ₹3.50 crore annually.

3rd March 2025, Pune: Kranti Industries Limited, a trusted leader in precision component manufacturing, is pleased to announce that it has received clearance from Kalyani Techno Forge Limited (KTFL) to commence series production of Differential Housing. This milestone further strengthens Kranti Industries' position in the industry and reinforces its commitment to delivering high-quality, innovative components.

The project has undergone a rigorous development process, successfully completing all required testing and validation. Kranti Industries had initially received a sample order in July 2024, and with this clearance, it has now secured approval for commercial production. The estimated annual job-work revenue from this project is approximately ₹3.50 crore.

Key Order Details:

Customer: Kalyani Techno Forge Limited (KTFL)

Nature of Order: Job Work

• Order Value: ₹3.50 crore (Annual, Approx.)

Validation Process: Successfully completed all required testing

Commenting on this achievement, Mr. Sachin Subhash Vora, Chairman & Managing Director of Kranti Industries Limited, said "We are delighted to commence this significant order with Kalyani Techno Forge Limited, further strengthening our expertise in precision manufacturing. This collaboration aligns with Kranti Industries' strategic vision for diversification and growth in key sectors, reinforcing our market presence.

The successful execution of this project highlights our ability to manage high-value contracts while driving continuous innovation, operational efficiency, and long-term value for our stakeholders. We remain committed to delivering superior engineering solutions and expanding our capabilities in the precision component sector."

About Kranti Industries Limited (BSE: 542459):

Kranti Industries Limited (KIL), a BSE-listed entity with IATF 16949:2016 and ISO 9001:2015 certifications, established in 1981, boasts over four decades of expertise in the auto ancillary sector. Renowned for its precision component manufacturing, the company holds a global standing for delivering top-notch solutions. Specializing in crafting innovative components for leading OEMs in the Tractor, Construction Equipment, automotive, and Electric Vehicles domains, KIL offers end-to-end services.

With three state-of-the-art units across Pune, KIL operates with 80 production machines and comprehensive inspection setups. Their facilities are equipped with world-class machining centres, including multi-axis machining centres, CNC turning, vertical turret lathes, horizontal machining centres, and vertical machining centres.
