Subject: Corrigendum to the Annual Report for FY 2022-23

Dear Sir,

With reference to our previous communication dated 21st August 2023, wherein the Company has submitted the Annual Report for the Financial Year 2022-23 along with the notice of the 34th Annual General Meeting (AGM) scheduled to be held on Saturday, 16th September 2023 at 10.30 AM at registered office of the company at Village Kanech, Near Sahnewal, GT Road, Ludhiana-141120.

This is to inform you that certain inadvertent errors were noticed in the Annual Report. Please note the following changes are made in the Annual Report FY 2022-23:

- The inclusions of terms of repayment of term loan at page No 115 against the earlier version.
- Exclusion of Note No 11 (Other Equity) against the earlier version at Page No 108.

In view of the above-mentioned changes, we are enclosing herewith the Annual Report of the Company for the FY 2022- 23, after incorporation of the above changes (other things remaining the same) and it is also available on the website of the Company i.e. www.sportking.co.in.

We further state that said corrections have no impact on the Financial Statements of the Company. You are requested to please take the same on your records.

Late Sh. Raj Kumar Avasthi Ji
Founder / Chairman of Sportking India Limited
18th June 1946- 23rd July 2022

In the month of July 2022, Sh. Raj Kumar Avasthi, founder /chairman of the company fondly called as “Bau Ji” passed away. He was instrumental in establishing Sportking Group of Industries as India’s leading vertically integrated textile conglomerate, which was started by him with his father Sh. Jagdish Chandra Avasthi in 1977. In more than four decades of its existence, Sportking Group has relentlessly continued its journey on the path of fast paced growth under the benevolent vision of late. Sh. Raj Kumar Avasthi.

Sh. Raj Kumar Avasthi was on the Board of the Company since inception and the Company has immensely benefitted from his vision and leadership during his tenure. His passing away will be a great loss to the Company and all the Directors and Employees of the company/group companies convey deep sympathy, sorrow and condolences to his family. We are and will always be extremely grateful for his contribution to the company and society and hold the deepest gratitude for the same.

He has done a lot of important work in Punjab for the growth of textile/ readymade and yarn sector. He always focused on making the youth especially rural women folk self-reliant. For this, he had encouraged the youth in the retail sector and provided training to the youth by giving them better pay and stipend. Along with this, he was also involved in the state and national level textile committees. He also built a Sportking Fashion Institute to connect Ludhiana with lifestyle and fashion.

We endeavour to fulfil the legacy that he has left behind which is eternal in the roots of the company and its employees. His ever-graceful presence will always be missed.

The instructions for shareholders voting electronically are as under:

- a) The voting period begins on 13th September, 2023 at 09.00 A.M. (IST) and ends on 15th September, 2023 at 05:00 P.M. (IST). During this period shareholders’ of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) 09th September, 2023 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- b) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- c) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders’ resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level. Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders. In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- d) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. 3. MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

BUSINESS REVIEW

Economic Outlook

The global economy is experiencing a broad-based and sharper-than-expected slowdown, with inflation at its highest in decades. The COVID-19 pandemic, financial tightening, Russia's invasion of Ukraine, and the cost-of-living crisis are contributing to the economic challenges. In most of the major economies, inflation touched record high due to unprecedented increase in commodity prices and supply disruptions. Due to the stubbornness in inflation, major central banks continued to tighten their monetary policy, but now at a slower pace. Global growth is forecast to slow significantly in the coming years, with advanced economies expected to be impacted the most.

The rapid rise in interest rates, to put inflation on a downward path and anticipated to slow the economic activity, have contributed to stress in parts of the financial system, raising financial stability concerns. The recent failures of banks in the United States and the collapse of confidence in Credit Suisse, a globally significant bank, have roiled financial markets, with bank depositors and investors re-evaluating the safety of their holdings and shifting away from institutions and investments perceived as vulnerable.

Though inflation has receded with central banks raising interest rates, underlying price pressures are proving sticky, with labour markets being tight in several economies. In parallel, debt levels remain high, limiting the ability of fiscal policymakers to respond to new challenges. Commodity prices have moderated, but the elevated geopolitical tensions are the key risks. However, earlier than expected opening of China is easing supply chain disruptions and renewing hopes for moderate economic recovery.

Rates have begun to ease, but core inflation is stickier than anticipated and shows signs of picking up. The pressure on many households remains acute, and the cost of living to stay at crisis levels in numerous countries throughout 2023. The recent banking instability has complicated efforts to deal with runaway prices. The central banks now face a trade-off between managing inflation and maintaining financial sector stability. A similar proportions expect central banks to struggle to reach their inflation target.

Considering these developments, IMF in its "World Economic Outlook" released in April 2023, global growth will bottom out at 2.8 percent this year before rising modestly to 3.0 percent in 2024. Global inflation will decrease, although more slowly than initially anticipated, from 8.7 percent in 2022 to 7.0 percent this year and 4.9 percent in 2024%. India's growth continues to be resilient despite some signs of moderation in growth. World bank in its economic outlook report notes that although significant challenges remain in the global environment, India was one of the fastest growing economies in the world. India is currently 5th largest economy in the globe and aspires to be the 3rd largest economy by 2027-28.

The overall growth remains robust and is estimated to be 6.9 percent for the full year with real GDP growing 7.7 percent year-on-year during the first three quarters of fiscal year 2022-23. There were some signs of moderation in the second half of FY 2022-23. Growth was underpinned by strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners. Inflation remained high, averaging around 6.7 percent in FY 2022-23 but the current-account deficit narrowed in Q3 on the back of strong growth in service exports and easing global commodity prices.

The Indian Rupee has moved in an orderly manner in the calendar year 2022 and continues to be so in 2023 as well. This reflects the strength of domestic macroeconomic fundamentals and the resilience of Indian economy to global spill-overs. The government's thrust on capital expenditure, increased capacity utilization in manufacturing, double digit credit growth and the moderation in commodity prices are expected to bolster manufacturing and investment activity.

The Monetary Policy Committee (MPC) at its meeting in June 2023 decided to keep the policy rates unchanged after a series of hikes in FY23. It may be expected that Interest rates are likely to soften considerably from current levels and bonds will perform well this year generating capital gains over and above the coupon rates. The macro-and micro-prudential measures taken by RBI to prevent build-up of financial vulnerabilities are now more on identifying the root cause rather than dealing with the symptoms alone.

Looking ahead, real GDP growth is projected at 6.5% in FY2024 (RBI), with economic activity backed by improving rural demand, the Government's thrust on infrastructure spending, revival in corporate investment, healthy bank credit, and moderating commodity prices.

Textile Outlook

The global textile market grew from \$573.22 billion in 2022 to \$610.91 billion in 2023 at a compound annual growth rate (CAGR) of 6.6%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 pandemic, at least in the short term. The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices, and supply chain disruptions, causing inflation across goods and services and affecting many markets across the globe. The textile market is expected to grow to \$755.38 billion in 2027 at a CAGR of 5.5%.

The Indian textile industry is the second largest producer of MMF Fibre after China. India is the 3rd largest exporter of Textiles & Apparel in the world. India's textiles and clothing industry is one of the mainstays of the national economy. Major textile and apparel export destinations for India are USA, EU-27 and UK, accounts for approximately 50% of India's textiles and apparel exports. The sector holds importance from the employment point of view as well. It provides direct and indirect employment and source of livelihood for millions of people including a large number of women and rural population. The sector has perfect alignment with Government's key initiatives of Make in India, Skill India, Women Empowerment and Rural Youth Employment.

India's overall exports touched new heights to reach \$770.18 billion, registering a growth of 13.84 per cent year-on-year. Merchandise exports registered highest ever annual exports of \$447.46 billion, at a growth of 6.03 per cent. The exports were noted at \$422 billion during 2021-22. Exports of readymade garment (RMG) of all textiles increased by 1.10 per cent to \$16,191.47 million in fiscal 2022-23 (April 2022 to March 2023), as per the data released by the department of commerce under India's ministry of commerce and industry. The exports of cotton yarn, fabrics, made-ups, and handloom products declined by 28.45 per cent to \$10,946.20 million in 2022-23 from \$15,298.02 million in the corresponding period of the previous fiscal.

India's textile industry faces tough times as international consumers cut spending on non-essentials and import orders of both textiles and garments contract worldwide. This leaves the sector vulnerable. It can no longer be denied that the \$200 billion textile and apparel industry is facing a crisis as consumers in the United States, Europe and other big markets have cut spending on clothing following a surge in inflation after the war in Ukraine.

Cotton has a prominent share in the textile manufacturing sector. India has the distinction of having the largest area under cotton cultivation which is about 38% of the world area under cotton cultivation and is one of the largest producer of cotton in the world accounting for about 22% of the world cotton production. However cotton yield is still lower against the world average yield. The increasing applications and usage of cotton in various industries are driving the demand for cotton from many countries across the globe.

Despite a slowdown in demand for various sectors, Indian exporters are optimistic about a strong performance in 2023-24. They expect exports to rise by 11-13 per cent, with cotton textile and apparel exporters expecting 8-10 per cent year-on-year growth. The industry is hopeful for a full recovery in business after July, relying on the recovery of advanced markets and an improved order book. As per CRISIL SME Tracker, in FY24, cotton yarn prices are projected to fall almost 15 per cent due to a high base and subdued export demand and this will affect price realization. The textiles sector could see a moderation in revenue growth in 2023-24 (FY24) as export demand, which usually accounts for a fourth of the total market, is expected to be limited due to a slowdown in US and Europe. However, domestic demand is expected to grow at a steady pace.

The new budget for 2023-24 contains a sizeable increase in grants for the textile industry, with a total allocation of Rs. 4,389.34 crore. The total allocation for the sector is an impressive 22.6% higher than the previous year's budget and shows the government's commitment to aiding the growth of the sector. Additionally, there have been allocations of funds towards programs such as National Technical Textiles Mission (NTTM), PM-MITRA and textile development cluster scheme, which are designed to promote capacity building and investments in this area. All in all, this financial support should create a favorable environment for the continued success of India's textile industry.

The government has allocated a 38% increase in the allocation of Technology Up gradation Funds (ATUFs), going from Rs.650 crore in 2022-23 to Rs.900 crore in 2023-24. This will enable quicker payment for pending cases, allowing the textile industry to stay up to date with necessary materials and supplies. The Increased allocation to both RoDTEP and RoSCTL have also been increase as well as a corpus of Rs 9,000 crore revamping credit guarantee schemes which aims provide collateral free guaranteed credit worth RS 2 lakh crore. Additionally, a cluster-based value chain approach with Public Private Partnership (PPP) is being implemented to enhance productivity of extra-long staple (ELS) cotton by connecting farmers, states, and industries together through sources, services, and market linkages

The Company is dealing in the Yarn Segment only and Company is persistently facing such challenges and is taking necessary steps to strengthen its export/ indigenous market operations with more value added/ sustainable yarn products/customer base. Further the Company has adequate liquidity and financial resources to meet its operational requirements, financial commitments/ service of debt obligations and statutory liabilities as per indications available as on date.

Key Financial Ratios

In accordance with the SEBI (Listing Obligations and Disclosure Requirements) (Amendment) Regulations, 2018, the Company is required to give details of significant changes in key financial ratios (change of 25% or more as compared to the immediately previous financial year. DIVIDEND DISTRIBUTION POLICY

INTRODUCTION

The Equity Shares of the Sportking India Limited (SIL or the Company) are listed on BSE Ltd. The Securities and Exchange Board of India vide SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended which requires top one thousand listed entities based on market capitalization (calculated as on 31st March of every financial year) to formulate a dividend distribution policy, which shall be disclosed in their annual reports and on their websites.

The Company being amongst top 1000 BSE listed entities for the year ended March 31, 2022, is required to formulate policy on dividend distribution to comply with these requirements.

The dividend distribution shall be in accordance with the applicable provisions of the Companies Act, 2013, Rules framed thereunder, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and other legislations governing dividends and the Articles of Association of the Company, as in force and as amended from time to time.

The Company has one kind/class of equity share capital and issued another kind/class of preference share capital. Dividend when declared shall be first paid to the preference shareholders of the Company as per the terms and conditions of their issue. However this policy is applicable only to Equity Shares. In case of issue of new class of shares in the future, the policy will be reviewed accordingly.

The Board of Directors of the Company ("the Board") has approved the Dividend Distribution Policy of the Company ("the Policy") which endeavors to enhance stakeholder value for its investors and at the same time tries to ensure the right balance between the quantum of dividend paid and the amount retained for various business purposes.

PURPOSE:

The profits earned by the Company can either be retained in business or used for acquisitions, expansion or diversification, or it can be distributed to the shareholders. The Company may choose to retain a part of its profits and distribute the balance among its shareholders as dividend. The Company would ensure to strike the right balance between the quantum of dividend paid and amount of profits retained in the business/ the Board will refer to the Policy while declaring/ recommending dividends on behalf of the Company.

Dividend represents the profit of the Company, which is distributed to shareholders in proportion to the amount paid-up on shares they hold. Dividend includes Interim Dividend.

The purpose of this Policy is to facilitate the process of dividend recommendation or declaration to be approved by the shareholders in their meeting and its pay-out by the Company as per the provisions of the Companies Act 2013 which would ensure a regular dividend income for the shareholders and long term capital appreciation for all stakeholders of the Company.

FORMS OF DIVIDENDS

Interim Dividend

The interim dividend may be declared by the Board one or more times in the financial year as may be deemed fit.

Final Dividend

The final dividend is paid once for the financial year after the annual accounts are prepared. The Board of Directors of the Company has the power to recommend the payment of final dividend to the shareholders for their approval at the Annual General Meeting of the Company. The declaration of final dividend shall be included in the ordinary business items that are required to be transacted at the Annual General Meeting.

Special Dividend

The Board may declare/recommend special dividend as and when it deems fit.

INTERNAL/FINANCIAL AND EXTERNAL FACTORS THAT WOULD BE CONSIDERED FOR DECLARATION OF DIVIDEND:

- The Company's growth oriented decision to conserve cash in the Company for future expansion plan impacts shareholders expectation for the long run which shall have to be considered by the Board before taking a dividend decision and to decide on the quantum of dividend.

- The Board will analyze the requirement of necessary funds considering the long term or short term projects proposed to be undertaken by the Company. The viability of the options in terms of cost of raising necessary funds from outsiders such as bankers, lending institutions or by issuance of debt securities or by ploughing back its own funds, will impact the dividend decision.
- In case of inadequate operating cash flow, the Company may need to rely on outside funding to meet its financial obligations. Thus, the Board will consider the operating cash flows before its decision whether to declare dividend or retain its profit.
- The efficiency with which the Company uses its capital will impact the decision of dividend declaration.
- The decision of dividend pay-out shall also be affected by the restrictions and covenants contained in the agreements as may be entered by the company with the lenders of the Company from time to time. The covenant of debt shall be considered by the board, while declaring the dividend. Before declaring any dividend, the board will ensure that the debt covenants are complied by the Company.
- Considering the state of economy in the country the policy decisions that may be formulated by the Government and other conditions prevailing in the international market which may have a bearing on or affect the business of the Company, the Management may consider retaining an appropriate amount of profits to meet unforeseen circumstances. The first & foremost consideration of the business will be to maintain solvency even in times of adversity and to protect the Company from all threats that emanate from changes in the social and political order.
- Dividend distribution tax or any tax deduction at source as per the applicable tax regulations in India will be duly complied with by the company at the time of declaration of dividend. Any restrictions on payment of dividends by virtue of any regulation as may be applicable to the Company at the time of declaration of dividend,
- In case the board decides to buy back the shares or allots the bonus shares, the quantum of dividend may be impacted on account of distribution of profits/accumulated profit for the buyback/ allotment of bonus equity shares of the Company, in compliance of the provisions of the Companies Act, 2013 & SEBI.
- In case the board issue of bonus shares, the quantum of dividend may be impact on account of distribution of profits/accumulated profit for issuance of bonus equity shares of the Company, in compliance of the provisions of the Companies Act, 2013 & SEBI.
- The Company shall observe the relevant statutory requirements including those with respect to mandatory transfer of a certain portion of profits to any specific reserve such as Debenture Redemption Reserve, Capital Redemption Reserve etc. as provided in the Companies Act, 2013, which may be applicable to the Company at the time of taking decision with regard to dividend declaration or retention of profit.
- Regulations, Any Corporate Actions resulting in a significant allocation of capital for the Company may also impact the dividend decision and quantum of dividend.

UTILISATION OF RETAINED EARNINGS

The Company aims in ensuring sustainable wealth creation for its shareholders and with this objective, would utilize the retained earnings of the Company in a manner in which it is beneficial to Company as well as its stakeholders. The Company would aim at achieving the right balance between the distribution of retained earnings among the shareholders and utilization of the same for meeting other requirements, including expansions. The Board will endeavor to maintain a reasonable dividend pay-out of the Company's profit after tax on standalone financials (other than extraordinary income).

PERIODIC REVIEW

- This Policy would be subject to revision/amendment in accordance with the guidelines as may be issued by Ministry of Corporate Affairs, Securities Exchange Board of India or other regulatory authority, from time to time, on the subject matter.
- The Board reserves the right to review this policy on periodical basis, considering various external and internal factors.

EFFECTIVE DATE

The Policy shall become effective from the date of its adoption by the Board i.e. 30.04.2022.

INDEPENDENT AUDITORS' REPORT

**To the Members of
Sportking India Limited
Report on the Audit of the Financial Statements**

Opinion

We have audited the accompanying financial statements of Sportking India Limited ('the Company'), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash flows for the year ended and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No.	Key audit matter	Auditor's Response
1.	<p>Valuation of Inventory</p> <p>Inventories are valued at lower of cost or net realizable value. There is a risk that inventories may be stated at values that are more than their net realizable value ('NRV').</p> <p>We identified the valuation of inventories as a key audit matter because the Company held significant inventories at the reporting date and significant degree of management judgement and estimation was involved in valuing the inventories.</p>	<p>Principal audit procedures</p> <ul style="list-style-type: none"> • Evaluating the accounting policy followed for valuation of inventory and appropriateness thereof with respect to relevant accounting standards in this respect. • Obtained an understanding of and performed the test of design, implementation and operating effectiveness of the Company's key internal controls over the process for valuation of inventories. • Compared the cost of raw materials with supplier invoices for selected samples. For work-in-progress and finished goods, we understood the determination of the net realizable value and assessing, testing and evaluating the reasonableness keeping in view the significant judgements applied by the management concerning overhead allocation by assessing the cost of the items included in overhead absorption for selected samples. • In connection with NRV testing, we have compared carrying value to the selling price prevailing around and subsequent to the year end for the selected samples.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises Directors' Report including annexures, if any, thereon, but does not include the financial statements and our auditor's report thereon. The Directors' Report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the Director's report including annexures, if any, thereon, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Indian Accounting Standards (Ind AS) and other accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to

modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of sub section (11) of section 143 of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, based on our audit, we report, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance sheet, the statement of profit and loss including other comprehensive income, statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - (e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial control over financial reporting of the company.
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The company has disclosed the impact of pending litigations on its financial position in its financial statements. Refer Note 38 to the financial statements.
 - ii. The company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - iv. (i) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding,

whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (ii) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (iii) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material misstatement.
- v. No dividend has been declared and paid during the year by the Company.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of information and explanations provided to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- (xv) According to information and explanations given to us, and based on our examination of the records of the company, the company has not entered into non-cash transactions with directors or person connected with them. Therefore reporting under clause 3(xv) of the Order is not applicable.
- xvi (a) Based on the information and explanations given to us, in our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934 and therefore reporting under clause 3(xvi)(a) of the order is not applicable.
- (b) Based on information and explanation given to us, the company has not conducted any Non-Banking Financial or Housing Finance activities without a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934; and therefore reporting under clause 3(xvi)(b) of the Order is not applicable.
- (c) Based on information and explanation given to us, the company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India, and therefore reporting under clause 3(xvi)(c) of the Order is not applicable.
- (d) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and therefore reporting under clause 3(xvi)(d) of the Order is not applicable.
- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) On the basis of examination of records of the company, there are no unspent amounts towards Corporate Social Responsibility (CSR) requiring a transfer to a Fund specified in Schedule VII to the Companies Act in compliance with second proviso to sub-section (5) of Section 135 of the said Act.
- (b) The Company has not undertaken any ongoing project for the Corporate Social Responsibility activities during the year. Therefore, requirement of transferring of amount remaining unspent in compliance with the provisions of sub-section (6) of section 135 of Companies Act is not applicable to the company.

ANNEXURE – “B” TO THE INDEPENDENT AUDITORS REPORT

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of Sportking India Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial control over financial reporting of Sportking India Limited (“the Company”) as of March 31, 2023 in conjunction with our audit of financial statements of company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting of the company.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also,

projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2023.**NOTE-1 Corporate Information**

Sportking India Limited (the Company) is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956 on 15th February 1989 and has its registered office at Village Kanech, Near Sahnewal G.T. Road, Ludhiana, Punjab -141120. The company is engaged in manufacturing of Cotton Yarn, Synthetic Yarn and Blended Yarn. The Company has manufacturing units at Ludhiana and Bathinda. The company's equity shares are listed at BSE Limited (Bombay Stock Exchange) and NSE (National Stock Exchange).

The financial statements were approved and authorized for issue by the Company's Board of Directors on 29th April 2023.

NOTE-2 Significant Accounting Policies, Significant Accounting Estimates, Judgements and Assumptions and Applicability of New and Revised Ind AS**NOTE- 2.1 Statement of Compliance**

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

NOTE- 2.2 Basis of Preparation and Measurement

- (i) The financial statements have been prepared on historical cost convention on accrual basis except for certain financial instruments (including derivative instruments) which are measured at fair value at the end of each reporting period as required under Ind AS.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in the financial statements is determined on such a basis, except for measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
 - Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
 - Level 3 inputs are unobservable inputs for the asset or liability.
- (ii) Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.
- (iii) The functional and presentation currency of the Company is Indian rupees (₹) and all values are rounded to the nearest lakhs and two decimals thereof, except otherwise stated.

NOTE- 2.3 Significant Accounting Policies:**2.3.1 Revenue Recognition****2.3.1 (a) Sale of products**

The company derives revenue primarily from sale of Yarn

Revenue from the sale of goods is recognized at the point in time when control is transferred to the customer which is usually on dispatch/ delivery.

Revenue is measured based on the transaction price (net of variable consideration) which is consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives, and returns, if any, as specified in the contracts with the customers. Revenue excludes taxes collected from customers on behalf of the government. Due to short nature of credit period given to customers, there is no financing component in the contract.

2.3.1 (b) Sale of services

Revenue from services related activities is recognised as and when services are rendered and on the basis of contractual terms with parties.

2.3.1 (c) Interest Income

- a) Interest Income from customers is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.
- b) Interest Income from financial asset is recognized when it is probable that economic benefits will flow to the company and amount of income can be measured reliably. Interest income is accrued on time basis, by reference to principal outstanding and at effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of financial asset to that asset's net carrying amount on initial recognition.

2.3.1 (d) Insurance and other claims

Insurance and other claims are recognized when no significant uncertainty exists with regard to the amount to be realized and the ultimate collection thereof.

2.3.1 (e) Other Income

Other income is recognized when no significant uncertainty exists with regard to the amount to be realized and the ultimate collection thereof.

2.3.2 Employee Benefits**2.3.2 (a) Short term Employee Benefits:**

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. The amount of short term employee benefits are recognized as an expense on an undiscounted basis in the statement of profit and loss of the year in which the related service is rendered.

2.3.2 (b) Post-Employment benefit plans**(a) Defined Contribution Plan:**

Provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service.

(b) Defined Benefit Plan:**Gratuity**

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees of the Company. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each balance sheet date using the projected unit credit method.

The company fully contributes all ascertained liabilities to the "Sportking India Limited Employee Group Gratuity Trust" managed by the trustees. The trustees administrate contributions made to the Trust and contributions are invested in the schemes as permitted by the laws of India.

The Company recognizes the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Re-measurements

comprising of actuarial gains and losses, and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are recognised in Other Comprehensive Income which are not reclassified to profit or loss in subsequent periods. All other expenses related to defined benefit plans are recognised in employee benefits expense in the Statement of profit and loss.

2.3.2 (c) Other long term employee benefits- Compensated absences

Compensated absences, which are not expected to occur within twelve months after the end of the period in which the employee renders the related service, are recognised at the present value of the obligation based on actuarial valuation as on the reporting date, performed by an independent actuary using projected unit credit method.

The expense related to other long term employee benefits including re- measurements as a result of past experience adjustments and changes in actuarial assumptions are recognised in statement of profit and loss.

2.3.3 Property, plant and equipment:

Recognition and measurement

The cost of an item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

Freehold land is carried at cost. All other items of Property, plant and equipment are stated at cost or deemed cost applied on transition to Ind AS, less accumulated depreciation and impairment loss, if any. The cost directly attributable to acquisition are capitalised until the property plant and equipment are ready for use as intended by the management.

The cost of an item of Property, plant and equipment comprises of:

- (i) Purchase price including import duties and non-refundable purchase taxes after deducting trade discounts and rebates.
- (ii) Any expenditure directly attributable for bringing an asset to the location and the working condition for its intended use and
- (iii) The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the statement of profit and loss when incurred.

Property, Plant and Equipment which are significant to the total cost of that item of Property, Plant and Equipment and having different useful life are accounted separately.

Property, plant and equipment which are not ready for intended use at each balance sheet date are disclosed as "Capital work-in-progress" and advances paid towards the acquisition of Property, plant and equipment outstanding at each balance sheet date are classified as Capital advances under "Other non-current assets".

De-recognition of Property, Plant and Equipment

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The cost and the related accumulated depreciation are eliminated from the financial statements upon disposal or retirement of the asset and any gain or loss arising thereon is determined as the difference between sale proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

2.3.4 Intangible Assets

Intangible assets are recognized when it is probable that the expected future economic benefits that are attributable to the asset will flow and the cost of the asset can be measured reliably.

Intangible assets are stated at cost or deemed cost applied on transition to Ind AS, less accumulated amortization and impairment, if any. The cost of intangible asset comprises of its purchase price, net of recoverable taxes and any directly attributable cost of preparing the asset for its intended use.

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in statement of profit and loss as and when incurred.

De-recognition of intangible assets

An intangible asset is derecognised upon disposal or retirement of the asset. The cost and the related accumulated amortization are eliminated from the financial statements upon disposal or retirement of the asset and resultant gains or losses are recognized in the statement of Profit and Loss when the asset is derecognized.

2.3.5 Depreciation and amortization

Depreciation is provided on Property, plant and equipment on straight line method on the basis of useful lives of such assets specified in Schedule II to the Act.

Depreciation method, useful lives and residual values are reviewed periodically, including at each financial year end with the effect of any changes in estimate accounted for on a prospective basis.

Amortization

Intangible assets are amortized on straight line method over the estimated useful life. The amortization method, useful life and residual value are reviewed at each financial year end. The estimated useful life is based on number of factors including effect of obsolescence and other economic factors and is as under:

Assets description	Useful Life
Computer Software	5 Years
Electric Line Expenses	5 Years

2.3.6 Inventories

Inventories are valued at cost or net realizable value, whichever is lower except production waste which is valued at net realizable value. The raw materials and other supplies held for use in the production are valued at net realisable value only if the finished products in which they are to be incorporated are expected to be sold below cost. The cost in respect of the various items of inventory is computed as under:

- (i) In case of raw materials at first-in first-out (FIFO) basis. The cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- (ii) In case of stores and spares at weighted average cost plus direct expenses. The cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.
- (iii) In case of work in progress at raw material cost plus conversion costs depending upon the stage of completion.
- (iv) In case of finished goods at raw material cost plus conversion costs, and other overheads incurred to bring the goods to their present location and condition.

Net Realisable Value is the estimated selling price in ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sales.

2.3.7 Borrowing Costs

Borrowing costs directly attributable to the acquisition or construction of qualifying assets i.e. the assets that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

2.3.8 Earnings per Share

Basic earnings per share is computed by dividing the profit for the period attributable to the equity shareholders of the company by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the profit for the period attributable to the equity shareholders and

the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares, if any.

2.3.9 Income Taxes

Income tax expense comprises current tax and deferred tax. Income tax expense is recognised in statement of Profit and Loss except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, as the case may be.

Current tax is the tax payable/receivable on the taxable profit/loss for the year using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and any adjustment to taxes in respect of previous years. Interest expenses and penalties, if any, related to income tax are included in finance cost and other expenses respectively. Interest Income, if any, related to income tax is included in other income.

Deferred tax is recognised in respect of temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at the reporting date using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date.

A deferred tax asset is recognized to the extent, it is probable that future taxable profit will be available against where the deductible temporary differences and tax losses can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

2.3.10 Government Grants

The government grants are recognized only when there is reasonable assurance that the conditions attached to them shall be complied with, and the grants will be received.

Government grants related to Property, plant and equipment upto financial year 2018-19 were recognised in statement of profit or loss as income on a systematic basis. As per the amendment in Ind-AS 20 "Government Grants vide notification dated 20th September, 2018, the Company has opted to present the grant received / receivable related to assets as deduction from the carrying value of such assets w.e.f. 1st April, 2019.

When the grants relates to an expense item, it is recognised in the Statement of profit and loss by way of reduction from the related cost, which the grants are intended to compensate, except where the related expense is not directly identifiable. In such cases, the grant is presented in the 'Other Income'.

Government grants that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving financial support to the Company with no related costs is recognised in the Statement of profit or loss of the period in which it becomes receivable under 'Other operating income'/'Other income' based on the nature of grant.

2.3.11 Foreign Currency translations

Transactions in foreign currency are initially recorded in the functional currency i.e. Indian Rupees using the exchange rate prevailing at the date of transactions.

Monetary items denominated in foreign currency are reported using the exchange rate prevailing at the end of reporting period.

The exchange difference arising on the settlement or reporting of monetary items at rates different from rates at which these were initially recorded / reported in previous financial statements, are recognised in the statement of profit and loss in the period in which they arise.

Non-monetary items denominated in foreign currency and measured at historical cost are recorded at the exchange rate prevalent at the date of transaction, Non-monetary items that are measured in term of historical cost in foreign currency are not retranslated.

2.3.12 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's Board of Directors.

2.3.13 Leases

(i) Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and leases for which underlying asset is of low value. For these short-term and leases for which underlying asset is of low value, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses and are adjusted for any re-measurement of the lease liability.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets is evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the lessee's incremental borrowing rate. Lease liabilities are re measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and Right of Use assets have been separately presented in the financial statements and Lease Payments has been classified as financing cash flows.

(ii) Company as a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

For operating leases, rental income is recognized in the statement of profit and loss on a systematic basis over the term of the relevant lease. The respective leased assets are presented in the balance sheet based on their nature.

2.3.14 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

2.3.14 (a) Initial Recognition and measurement

The company recognises the financial assets and financial liabilities when it becomes party to the contractual provision of the instruments. All financial assets and liabilities are recognised at fair value on initial recognition except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition of financial assets and or issue of financial liabilities that are not recognized at fair value through profit or loss, are added to or reduced from the fair value of the financial assets or financial liabilities, as appropriate. Transaction cost directly attributable to the acquisition of financial assets and financial liabilities recognized at fair value through Profit or Loss are recognised immediately in the Statement of Profit and Loss.

2.3.14 (b) Subsequent measurement

For the purposes of subsequent measurement, financial instruments are classified as follows:

(a) Non-derivative financial instruments*** Financial assets carried at amortised cost**

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income for such instruments is recognised in profit or loss using the effective interest rate (EIR) method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's gross carrying amount.

The carrying amounts of financial assets that are subsequently measured at amortised cost are determined based on the effective interest method less any impairment losses.

**** Financial assets at fair value through other comprehensive income**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income for such instruments is recognised in profit or loss using the effective interest rate (EIR) method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's gross carrying amount.

Fair value movements are recognised in the other comprehensive income (OCI) until the financial asset is derecognised. On de-recognition, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the profit and loss.

***** Financial assets at fair value through profit or loss**

A financial asset is subsequently measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income. Such financial assets are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

Dividend and interest income from such instruments is recognized in the statement of profit and loss, when the right to receive the payment is established.

Fair value changes on such assets are recognised in the statement of profit and loss.

****** Financial liabilities**

Financial liabilities are classified as at fair value through profit or loss when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

All other financial liabilities are subsequently measured at amortized cost using the effective interest method unless at initial recognition, they are classified as measured at fair value through profit and loss.

Financial liabilities carried at fair value through profit or loss, are measured at fair value with all changes in fair value recognised in the statement of profit and loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

****Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received. Incremental costs directly attributable to the issuance of equity instruments and buy back of equity instruments are recognized as a deduction from equity, net of any tax effects.

(b) Derivative financial instruments

The Company holds derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is generally a bank.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in the statement of profit and loss when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting exchange gains or losses are charged to Statement of Profit and Loss.

(c) Compound financial instruments

The non-convertible non-cumulative preference shares issued by the company that provides for mandatory redemption by the company for a fixed or determinable amount at a fixed or determinable future date has been treated as compound financial instruments as per criteria mentioned in Ind AS 32.

On issuance of the convertible preference shares, the fair value of the liability component is determined using a market interest rate for an equivalent non-convertible instrument. This amount is classified as a financial liability measured at amortised cost (net of transaction costs). The remainder of the proceeds is recognised and included in other equity.

2.3.14 (c) De-recognition of financial instrument

- a) A financial asset (or, a part of a financial asset) is primarily derecognized when the contractual right to the cash flows from the financial asset expires, or the company transfers its right to receive cash flow from the financial assets and substantially all the risks and rewards of ownership of the asset to another party.

On de-recognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received/receivable is recognised in the profit or loss.

- b) A financial liability (or a part of financial liability) is derecognized when obligation specified in the contract is discharged or cancelled or expires.

On de-recognition of a financial liability, the difference between the carrying amount of the financial liability de-recognised and the consideration paid/payable is recognised in profit or loss.

2.3.14 (d) Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

2.3.14 (e) Impairment of Financial Assets

Financial assets that are carried at amortised cost and fair value through other comprehensive income (FVOCI) are assessed for possible impairments basis expected credit losses taking into account the past history of recovery, risk of default of the counterparty, existing market conditions etc. The impairment methodology applied depends on whether there has been a significant increase in credit risk since initial recognition.

Expected Credit Losses are measured through a loss allowance at an amount equal to:

- . The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date); or
- . Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of financial instruments).

For trade receivables or any contractual right to receive cash or another financial asset that result from transaction that are within the scope of Ind AS 115 and Ind AS 116, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the company has used a practical expedient as permitted under Ind AS 109. The company follows simplified approach does not require the company to track changes in credit risk. Rather it recognizes impairment loss allowance based on lifetime ECL's at each reporting date, right from its initial recognition.

For other assets, the company uses 12 months ECL to provide for impairment loss where no significant increase in credit risk is. If there is significant increase in credit risk full lifetime ECL is used.

2.3.14 (f) Write off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering the financial asset in its entirety or a portion thereof.

2.3.15 Impairment of Non-financial assets

Property, plant and equipment, other intangible assets and other non-financial assets are tested for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

The assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period. When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however that the increased carrying amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognised for the asset in prior years. The reversal of an impairment loss is recognised in the statement of profit and loss.

Impairment is reviewed periodically including at the end of each financial year.

2.3.16 Cash and cash equivalents

The Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with the original maturity period of three months or less, which are subject to an insignificant risk of changes in value and all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

2.3.17 Statement of Cash flows

The statement of cash flows is prepared in accordance with the Indian Accounting Standard (Ind AS) - 7 "Statement of Cash flows" using the indirect method for operating activities whereby profit for the period is adjusted for the effects of transaction of a non-cash nature, and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

2.3.18 Provisions, Contingent Liabilities and Contingent Assets

- (i) Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

if the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the Company settles the obligation. The reimbursement is treated as a separate asset. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

- (ii) A contingent liability is not recognised in the financial statements, however, is disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote. If it becomes probable that an outflow of future economic benefits will be required for an item dealt with as a contingent liability, a provision is recognised in the financial statements of the period (except in the extremely rare circumstances where no reliable estimate can be made).
- (iii) A contingent asset is not recognised in the financial statements, however, is disclosed, where an inflow of economic benefits is probable. When the realisation of income is virtually certain, then the asset is no longer a contingent asset, and is recognised as an asset.
- (iv) Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

2.3.19 Segment Reporting

Segments are identified based on the manner in which the Company's Chief Operating Decision Maker ('CODM') decides about resource allocation and reviews performance.

- (1) Segment Revenue includes sales and other income directly identifiable with/ allocable to the segment including inter-segment revenue.
- (2) Expenses that are directly identifiable with/ allocable to the segments are considered for determining the segment result. Expenses not allocable to segments are included under un allocable expenditure.
- (3) Income not allocable to the segments is included in un allocable income.
- (4) Segment results includes margin on inter segment and sales which are reduced in arriving at the profit before tax of the company.
- (5) Segment assets and Liabilities include those directly identifiable with the respective segments. Assets and liabilities not allocable to any segment are classified under unallocable category.

NOTE- 2.4: Current – Non-Current Classification

All assets and liabilities have been classified as current and non-current on the basis of the following criteria:

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realised within twelve months after the reporting date; or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or use to settle a liability for at least twelve months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the company's normal operating cycle;

- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within twelve months after the reporting date; or
- d) there is no unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterpart, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities

All other liabilities are classified as non-current

Operating cycle

Operating cycle is the time between the acquisition of assets for processing/servicing and their realisation in cash or cash equivalents. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current or non-current classification of assets and liabilities.

NOTE- 2.5: Significant Accounting Estimates, Judgements and Assumptions

The preparation of financial statements in conformity with Indian Accounting Standards (Ind AS) require management to make judgements, estimates and assumptions in the application of accounting policies that affect the reported amount of income, expenses, assets and liabilities and disclosure of contingent liabilities.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis and the effect of revision to accounting estimates is recognized prospectively from the period in which the estimate is revised.

Critical accounting estimates, Judgements, and assumptions

i. Income taxes

Significant judgement is required in determination of provision for current tax and deferred tax e.g. determination of taxability of certain incomes and deductibility of certain expenses etc. The carrying amount of income tax assets/liabilities is reviewed at each reporting date. The factors used in estimates may differ from actual outcome which could lead to signification adjustment to the amounts reported in financial statements

ii. Defined Benefit Plans and other post-employment benefits

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future, salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, the obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

iii. Inventories

Management has estimated the net realizable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realization of these inventories may be affected by market driven changes.

iv. Fair value measurement

Some of the company's assets and liabilities are measured at fair value for financial reporting process. In estimating the fair value of an asset or liability, the company uses market-observable data to the extent is available.

v. Provisions / Contingencies

Significant judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claims/litigations against the Company which involves judgements around estimating the ultimate outcome of such past events and measurement of the obligation amount etc. The Company assesses such claims and monitors the legal environment on an ongoing basis, with the assistance of external legal counsel, wherever necessary.

vi. Useful lives of property plant and equipment and Intangible assets

The estimated useful lives of property plant and equipment and intangible assets are based on a number of factors including the effects of obsolescence, internal assessment of user experience and other economic factors (such as the known technological advancements, commercial obsolescence of the asset etc.). The useful life of property plant and equipment and intangible assets is reviewed on an ongoing basis.

vii. Recoverable amount of property, plant and equipment

The recoverable amount of property plant and equipment is based on estimates and assumptions regarding the expected market outlook and expected future cash flows. Any changes in these assumptions may have a material impact on the measurement of the recoverable amount and could result in impairment.

NOTE- 2.6 Ind AS notified but not yet effective.

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, as below:

- i. Ind AS 12 - Income Taxes** - This amendment has narrowed the scope of the initial recognition exemption so that it does not apply to transactions that give rise to equal and offsetting temporary differences. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023. The Company has evaluated the amendment and there is no impact on its financial statements. The Company does not expect this amendment to have any significant impact on its financial statements.
- ii. Ind AS 1 - Presentation of Financial Statements** - This amendment requires the entities to disclose their material accounting policies rather than their significant accounting policies. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023.
- iii. Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors** - This amendment has introduced a definition of ‘accounting estimates’ and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2023.

(i) Nature and Purpose of Reserve
1) Equity Component of Compound Financial Instruments

The fair value of the liability component of non- convertible preference shares issued by the company has been determined using a effective interest rate for an equivalent non-convertible instrument and the said amount is classified as a financial liability. The remainder of the proceeds is recognised as 'Equity Component of Compound Financial Instruments' in other equity as per provisions of Ind AS 32.

2) Capital Redemption Reserve

Capital redemption reserve is created out of profits for redemptions of capital.

3) Securities Premium

This represents amount of premium recognised on issue of shares to shareholders at a price more than its face value. The reserve can be utilised in accordance with the provisions of the Companies Act 2013.

4) General Reserve

This represents retained earnings which are kept aside out of company's profits. It is a free reserve which can be utilized to meet any future contingencies and to pay dividend to shareholders.

5) Retained Earnings

Retained earnings represents to net earnings not paid out as dividend but retained by the company to be reinvested in its core business. The amount is available for distribution of dividend to its equity shareholders. It also includes balance of remeasurment of net defined benefit obligation (net of taxes)

6) Reserve for other items through Other comprehensive income

The reserve represents cumulative gains and losses on remeasurement of defined benefit plan (net of taxes). The balance in Other Comprehensive income can be transferred to Other Components of equity i.e. retained earnings as and when the company decides to do so. The company has decided to transfer the said amount to retained earning during the year.

NOTE-41: Disclosures on 'Employee Benefits'
(A) Defined Contribution Plan

The Company makes Contribution to Provident Fund for eligible employees under the scheme and recognise the same as expense which is included in the Note 31 "Employee Benefit Expense" to the financial statements under the head "Contribution to provident and other funds". The details of same are as under:

Particulars	Year ended 31st March, 2023	Year ended 31st March, 2022
Provident Fund administered through Regional Provident Fund Commissioner	681.05	586.87

Defined Benefit Plan
Gratuity:

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. This defined benefit plan of gratuity is administered by a separate trust that is a legally separate entity. The Company makes annual contributions to the trust and trust is responsible for investments with regard to the assets of the trust. The contributions are generally invested by the trust in a scheme with Life Insurance Corporation of India or other insurer as permitted by Law. The Company accounts for the liability for gratuity benefits payable in the future based on actuarial valuation using projected unit credit method. Each year, the Company review the level of funding. Such a review includes the asset-liability matching strategy and assessment of the investment risk.

These plans typically expose the Company to actuarial risks such as investment risk, salary risk, interest rate risk and longevity risk.

(i) Investment risk

If the actual return on plan assets is below the expected return, it will create plan deficit

(ii) Salary risk

The present value of defined benefit plan is calculated with the assumption of salary increase, rate of plan, participants in future. Deviation in rate of increase in salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

(iii) Interest risk

The plan exposes the company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in value of the liability.

(iv) Longevity risk

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after employment. An increase in the life expectancy of the plan participants will increase the plans liability.

The Following table set out the funded status of the gratuity plan and amounts recognised in the balance sheet and other disclosures as required under Ind AS 19 'Employee benefits':

(b) Fair Value Measurement
(i) Fair Value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are measured, subsequent to initial recognition, at fair value. The below is the fair value measurement hierarchy used by the Company to determine the fair value of financial instruments, grouped into Level 1 to Level 3 :-

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

(Amount ₹ in Lakhs unless otherwise stated)

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

NOTE 49: Capital Management

For the purposes of the Company's capital management, capital includes equity share capital, securities premium and all other reserves attributable to the equity shareholders. The primary objective of the Company's Capital Management is to maximize the return to shareholders and also maintain an optimal capital structure to reduce cost of capital.

The Company's policy is to maintain a strong capital base so as to maintain investors, creditors and market confidence and to sustain future development of the business.

The Company monitors capital using a ratio of 'Net debt' to 'Total Equity'. For this purpose, net debt is defined as total interest-bearing loans and borrowings less cash and cash equivalents. The Company's Net debt to equity ratio is as follows.

Particulars	As at 31st March, 2023	As at 31st March, 2022
<u>Borrowings</u>		
Long Term Borrowings	34266.56	14107.33

Total Equity (B)	89971.32	76746.60
Gearing Ratio (Net Debt/Total Equity) (A/B)	0.51	0.70

Further, there have been no breaches in the financial covenants of any interest-bearing loans and borrowing during the reporting period.

There were no changes in the objectives, policies or processes for managing capital from prior years.

The company is not subject to any externally imposed capital requirement

(Amount ₹ in Lakhs unless otherwise stated)

(b) Loan Covenants

In order to achieve overall objective of capital management, amongst other things, the management aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings. The management carefully negotiates the terms and conditions of the loans and ensures adherence to all the financial covenants. Breaches in meeting the financial covenants would permit the bank to call loans and borrowings or charge some penal interest. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing during the year ended 31st March, 2023 and 31st March, 2022.

NOTE-50: Financial Risk Management

The principal financial assets of the Company include trade and other receivables, loans and advances and cash and bank balances that derive directly from its operations. The principal financial liabilities of the company include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the company.

The Company is exposed to market risk (including foreign currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Company's senior management oversees the management of these risks. There are appropriate policies and procedures in place through which such financial risks are identified, measured and managed by the Company. The Audit Committee and the Board are regularly apprised of these risks and measures used to mitigation these risks.

I. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: foreign currency risk, interest rate risk and investment risk.

a) Foreign Currency Risk

The company operates internationally and business is transacted in several currencies. The export sales of company comprise around 46% of the total sales of the company, Further the company also imports certain assets and raw material/ stores etc. from outside India. The exchange rate between the Indian rupee and foreign currencies has changed substantially in recent years and may fluctuate substantially in the future. Consequently, the company is exposed to foreign currency risk and the results of the company may be affected as the rupee appreciates/ depreciates against foreign currencies. Foreign exchange risk arises from the future probable transactions and recognized assets and liabilities denominated in a currency other than company's functional currency.

The company measures the risk through a forecast of highly probable foreign currency cash flows and manages its foreign currency risk by appropriately hedging the transactions. The Company uses derivative financial instruments such as foreign exchange forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures.

The following table summarizes the company's exposure foreign currency risk from financial instruments at the end of each reporting period:

Particulars	Currency	As at 31st March, 2023			As at 31st March, 2022		
		Total Exposure	Hedged Through Forwards	Net Exposure	Total Exposure	Hedged Through Forwards	Net Exposure

(Amount ₹ in Lakhs unless otherwise stated)

Foreign Currency sensitivity

The impact on the Company's profit before tax and total equity due to change in the fair value of monetary assets and liabilities including foreign currency derivatives on account of reasonably possible change in USD, CHF and Euro exchange rates (with all other variables held constant) will be as under:

Particulars	As at 31st March, 2023	As at 31st March, 2022
5% Strengthening /weakening of USD against INR	(776.27)	(664.50)
5% Strengthening /weakening of Euro against INR	131.20	-
5% Strengthening /weakening of CHF against INR	-	6.68

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

As the Company has no significant interest -bearing assets, the income and operating cash flows are substantially independent of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

At the reporting date the interest rate profile of the Company's interest bearing financial instruments is as below:

Particulars	As at 31st March, 2023	As at 31st March, 2022

Particulars	As at 31st March, 2023	As at 31st March, 2022
Increase/(decrease) in 100 basis point	465.29	363.04

c) Investment Risk:

Company has not made any investments hence it is not exposed to investment risk.

II. Liquidity Risk

Liquidity risk arises from the Company's inability to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring that it will always have sufficient liquidity to meet its liabilities when due.

The financial liabilities of the company, other than derivatives, include loans and borrowings, trade and other payables.

The company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations.

The Company's treasury department is responsible for liquidity and funding arrangements. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position on the basis of expected cash flows in near future.

III. Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The Maximum exposure to the credit risk at the reporting date is primarily from trade receivables which are typically unsecured. Credit risk on cash and bank balances is limited as the company generally invests in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies. The Company's credit risk in case of all other financial instruments is negligible.

The company assesses the credit risk based on external credit ratings assigned by credit rating agencies. The company also assesses the creditworthiness of the customers internally to whom goods are sold on credit terms in the normal course of business. The credit limit of each customer is defined in accordance with this assessment. Outstanding customer receivables are regularly monitored and shipments to overseas customers are generally covered by letter's of credit of foreign bank.

The Company's maximum exposure to credit risk as at 31st March, 2023 and 31st March, 2022 is the carrying value of the financial assets.

NOTE – 53: Key Financial Ratios

Particulars	Numerator	Denominator	As at and year ended 31st March, 2023	As at and year ended 31st March, 2022	Variance	Reasons for Variation
Current ratio (in times)	Current assets	Current liabilities	2.63	1.70	54.70%	As current borrowings were reduced substantially, on the other hand Inventories and Trade Receivables were also reduced but decrease in current assets was comparatively lower than decrease in current liabilities. So consequently current ratio improved.
Debt – Equity ratio (in times)	Total Debt	Total Equity	0.53	0.70	-24.28%	Due to reduction in current borrowings as well as increase in Capital base of the company because of profits.
Debt Service Coverage ratio (in times)	Earnings available for debt service ⁽¹⁾	Debt Service ⁽²⁾	2.91	4.35	-33.10%	Decrease is mainly due to reduction in net profits after tax as compared to FY 2021-22.
Return on Equity ratio (ROE) (in %)	Profit for the year	Average Total Equity	15.83%	72.80%	-78.25%	Decrease is mainly due to reduction in net profits after tax as compared to FY 2021-22 as well as increase in capital base of the company.
Inventory turnover ratio (in times)	Cost of Goods sold	Average inventory	3.59	3.06	17.32%	Increase in closing working capital of FY 2021-22 & FY 2022-23 leads to increase of average working capital of FY 2022-23. Though sales of products and service increased by approximately 2.50% during FY 2022-23 but due to increased level of average working capital there is variance in this ratio.
Trade receivables turnover ratio (in times)	Sales of goods and services	Average Trade Receivable	6.69	6.75	-0.89%	
Trade payables turnover ratio (in times)	Credit Purchases	Average Trade Payables	13.83	15.02	-7.92%	
Net capital turnover ratio (in times)	Sales of goods and services	Average Working Capital	4.67	7.27	-35.76%	
Net profit ratio (in %)	Profit for the year	Revenue from operations	5.99%	19.00%	-68.47%	Profit/EBIDTA margins are comparatively less in FY 2022-23 as compared to FY 2021-22 mainly due to increase cost of Raw Material consumed.
Return on capital employed (ROCE) (in %)	Earnings before interest and tax	Average Capital Employed ⁽³⁾	17.85%	52.59%	-66.05%	
Return on investment (in %)	Profit for the year	Average Total Equity	NA	NA	NA	

(1) Net Profit after taxes + Non-cash operating expenses like depreciation and other amortisations + Interest + other adjustments like profit/ loss on sale of property plant and equipment

(2) Interest & Lease payments during the year + Principal repayments of term loans in during the year

(3) Tangible Net Worth + Total Debt + Deferred Tax Liabilities

(Amount ₹ in Lakhs unless otherwise stated)
