L&T Minerals & Metals Vertical Wins (Significant*) Order in the Middle East

Mumbai, January 30, 2025: L&T's Minerals & Metals (M&M) vertical has secured a significant order for setting up freight handling facilities in the Gulf Cooperation Council (GCC) region. This is a repeat order from a leading railway company in the GCC, which has ambitious plans for capacity expansion in multiple phases.

The scope of work involves engineering, procurement, construction & commissioning (EPCC) of freight handling facilities with advanced automation and control at two locations, including an add-on package.

L&T has successfully executed several freight handling facilities across the railway corridors in India and the Middle East, and these projects are a testament to L&T's capability and reputation as a major player in EPC and Design-Build projects.

“With this prestigious project, M&M further solidifies its reputation as a leader in freight handling facility projects. The repeat order from GCC's largest railway company highlights M&M's proven capabilities in delivering EPC projects matching international standards in quality, safety, and on-time completion,” said **Mr D K Sen, Executive Committee Member and Advisor to the CMD, L&T.**

L&T's M&M vertical offers world-class end-to-end solutions in EPC domain across sectors such as mining, minerals processing, industrial products and material handling. Its product business provides cost-effective end-to-end solutions for industries such as mining, cement, steel, fertilisers and ports.

Background:

Larsen & Toubro is a USD 27 billion Indian multinational enterprise engaged in EPC Projects, Hi-Tech Manufacturing, and Services, operating across multiple geographies. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

* Project Classification

Classification	Significant	Large	Major	Mega	Ultra-Mega
Value in ₹ Cr	1,000 to 2,500	2,500 to 5,000	5,000 to 10,000	10,000 to 15,000	> 15,000
