#### Copper Tubes & Pipes

## Commenting on the Results, Shri Mahendrakumar Kabra, MD said, -

*"I am pleased to report that the company has delivered an outstanding performance in Q3 FY25, achieving 27% topline growth and 57% PAT growth year-on-year. This success has been driven by strong domestic demand in our core enameled wires and strips segment, as well as exceptional growth in the copper tubes and pipes segment, where sales volume surged 70% year-on-year and EBITDA per tonne grew by 63% to ₹ 63,487. We are on track to commission our 24,000 MTPA copper tube facility in FY25, which will expand our overall copper tube capacity fivefold, reflecting our strategic focus on scaling high-margin business segments. Notably, copper tubes contributed 17% to this quarter's revenue mix, up from 11% in Q3 FY24, underscoring the effectiveness of our diversification and growth strategy.*

*The production capacity expansions at Bhiwadi, supported by a ₹ 700 crore investment over the next three years, along with the expansion at our existing Silvassa facility, are progressing as planned. These efforts will enable us to meet the growing demand across key segments. Additionally, with the growing air-conditioning market in India, we see significant potential and remain optimistic about the future growth of BLDC motors segment. Thank you all for your continued support."*
