Steady Momentum and a Positive Outlook

At the heart of our strategic vision lies a dual commitment to expand our business parks into thriving micro-markets and to diversify into emerging economy asset classes and attract occupiers from growing sectors. Our enduring relationships with tenants are built around the bespoke real estate solutions that we craft based on their interests. With our extensive operational expertise in India, we are confident about navigating the dynamic office landscape, ensuring sustainable returns for our unitholders and promote a culture of wellness and resilience across our portfolio.

Our growth journey reflects our unwavering dedication to promoting wellness and sustainability – principles that have guided us through various real estate market cycles and solidified our position as a leader in the industry. During the year, reforms in SEZ regulations have facilitated the unlocking

of SEZ space by converting to Non Processing Area thereby allowing more companies to take up space driving demand for SEZ stock which tremendously benefits our parks in Airoli. Additionally, the influx of newer Global Captive Centers (GCC) to India signify a positive outlook for the near term.

Dear Unitholders,

It is with great honor and enthusiasm that I address you in my capacity as the new CEO of Mindspace Business Parks REIT. I take on this role at an exciting time and I am humbled by the trust and confidence shown in me by the Board of Directors to guide this esteemed organization into its next chapter of growth and success.

Inspired by the achievements and the solid foundation laid by my predecessor, Mr. Vinod Rohira, I am committed to building on his esteemed legacy and driving our Organization forward with a clear vision, strategic direction, and unwavering dedication to excellence.

Unitholders play a vital role in our journey, and we strive to create a culture of open communication, transparency, accountability and in the process, create long term value for all stakeholders.

Indian Economy: Good Times Ahead

I view India's current macroeconomic and microeconomic landscape with optimism. The robustness of the macroeconomic environment and thriving microeconomic conditions present significant opportunities for our industry. The prospect of a virtuous cycle of growth is exciting, as it signifies a period of sustained expansion and prosperity.

In the commercial office space, our industry is in a promising position, akin to the Goldilocks period. This phase of stability and growth presents ample opportunities for organizations like ours to capitalize on. However, as India continues its journey of becoming 3rd largest economy of the world, it is evident that significant capacity building within the sector is essential to support this vision.

The robustness of the macroeconomic environment and thriving microeconomic conditions present significant opportunities for our industry.

Our focus must continue to be on fostering entrepreneurship and innovation within the real estate sector while effectively managing risks. From a regulatory perspective, I extend my support to initiatives that aim to streamline regulations, enhance transparency, and promote regulatory trust through collaboration between the industry and regulatory authorities.

An Office for the World

India has emerged as the go-to destination for global office operations, solidifying its status as a key player in the international business landscape. With a growing economy, skilled workforce, affordable rentals, favorable business environment and policies, India offers excellent

opportunities for companies seeking to establish or expand their presence in the region. With advanced infrastructure and technological capabilities, India is an attractive office destination for multinational corporations.

With a growing economy, skilled workforce, affordable rentals, favorable business environment and policies, India offers excellent opportunities for companies seeking to establish or expand their presence in the region.

Transformation of the Office Sector

The India office market had a good CY23. Office absorption increased by 12% compared to CY22. Over the last three years, India saw a total net absorption of more than 105 msf. Net absorption in 2023 was close to 43 msf, marking a four-year peak.

India's office sector is in a transformative phase, marked by the evolving dynamics of the modern workplace. The expansion of Global Capability Centers (GCCs), rising uptake of office space by domestic enterprises, return of Work-from-Office, and the government's SEZ reforms will significantly influence the commercial real estate landscape in India.

Favourable GCC Landscape in India

India's compelling economic growth story led by the vast talent pool, cost arbitrage, and infrastructure upgrades in top cities has resulted in GCCs taking up office spaces in the country. According to JLL's research, GCCs now account for c.36% of all occupied Grade A stock across top seven cities, underscoring the pivotal role of tech offshoring across diverse sectors propelling demand within the country's office market. This sustained trend is anticipated to maintain India's office markets as among the most growth-oriented globally.

It is estimated that 500+ GCCs will enter India by 2026, taking the total count to over 2,300. GCCs currently occupy around 200 msf and the demand is expected to increase to around 270 msf over the next three years. Therefore, with promising factors at play, we are actively utilizing our expertise in GCC leasing to expand our portfolio organically to meet the increasing demand. Currently, 180+ GCCs are present in Hyderabad, an office micro-market where Mindspace REIT has a dominant presence.

The expansion of Global Capability Centers (GCCs), rising uptake of office space by domestic enterprises, return of Work-from-Office, and the government's SEZ reforms will significantly influence the commercial real estate landscape in India

Domestic Companies at the Forefront

Domestic companies are driving the surge in office space demand in India. Such growth could be attributed to rapid governmental capital expenditure, growing consumption, and urbanization supported by favorable demographics. As per Colliers' research, in CY23, domestic companies accounted for half of the total leasing across the top six cities. It is anticipated that an increasing number of domestic firms will seek office premises to accommodate their expanding workforce and encourage collaboration, thus amplifying the momentum in India's commercial real estate sector. The share of domestic companies in our leasing portfolio has risen from c.17% to c.31% in the last three years.

Return to Office Gains Momentum

Return to office has gained significant momentum in India. This transition has been embraced not only by domestic enterprises and entities within the BFSI sector but also by GCCs operating in the country. At present, our parks maintain a physical occupancy rate of around c.70%. Additionally, the post-COVID era has emphasized the necessity of providing sufficient office space with amenities to attract talent and encourage team collaboration, thereby boosting creativity and productivity. Tenants are significantly increasing their investment in workspaces to encourage employees to return to the office. This leads to enhanced loyalty and preference for Grade A space developers like ourselves.

SEZ Reforms Driving Occupancy Growth

We are extremely thankful to the Government of India for introducing amendments to the existing SEZ guidelines. The amendments now permit the demarcation of parts of an SEZ area into a Non-Processing Area after surrendering certain tax benefits availed earlier.

As per the new reforms, the SEZ area can be converted into an SEZ Non-Processing Area (NPA), earning an exemption from SEZ compliances. Such floor-wise demarcation will help leasing activities to meet the growing demand in the NPA space.

We are proactively capitalizing on the new rules under which we have already received the approvals of c.0.4 msf NPA conversion. Furthermore, we have filed for the conversion of approximately 1.5 msf of space to NPA. This strategic initiative is expected to lead to higher occupancy levels across our entire portfolio, particularly benefiting our business parks in Airoli.

Steady Growth and Strong Fundamentals

Our achievements in FY24 are a result of our efficient operations led by our skilled teams. We recorded c.3.6 msf of gross leasing during FY24 and achieved a re-leasing spread of 14.3%. Additionally, we added around 0.25 msf of completed area including an acquisition, bringing the total completed area of our portfolio to 26.3 msf. Our committed occupancy reached approximately 89.0%, and excluding our Pocharam asset (for which we received Board approval to initiate divestment process), our occupancy exceeded 90% as of March 31, 2024. Furthermore, our in-place rent grew to reach ₹ 69 psf per month.

This led to a 13.7% y-o-y increase in revenue from operations to ₹ 24 billion and an increase in NOI by 10.9% y-o-y to ₹ 19 billion. We also announced a distribution of ₹ 11.4 billion or ₹ 19.2 per unit during the year. NAV of the portfolio grew by ₹ 8.6 per unit to reach ₹ 380.5 per unit. We raised ₹ 14.9 billion through NCDs and CPs at the REIT level. Our LTV is at a healthy 21.1%.

We recorded a 13.7% y-o-y increase in revenue to ₹ 24 billion and an increase in NOI by 10.9% y-o-y to ₹ 19 billion.

Engaging with Tenants, Fostering Relationships

Over the years, we fostered our enduring relationships with tenants, as evidenced by the remarkable average duration of 1.1 years of top tenants presence in our parks. This longevity speaks volumes about the trust and satisfaction our tenants have in our services and the community we have built together.

We launched our 'Table Talks' initiative, a platform for open dialogue and collaboration with industry leaders. Our inaugural session brought together a diverse group of experts to brainstorm strategies for reshaping business parks. We explored critical topics like sustainability, well-being, and the transformative power of technology in real estate design and amenities.

I believe that by embracing innovation, fostering a culture of trust and collaboration, and advocating for sensible regulation, we can unlock the full potential of the sector and play a significant role in India's journey towards becoming the third largest economy of the world.

Our Growth Drivers

- We have multiple levers to grow our NOI and occupancy. We have a vacancy of 17.6% in our SEZ space, accounting for 84.7% of our total vacancy levels. With the new SEZ guidelines in place, we are confident about demarcating our vacant SEZ spaces to Non-Processing Areas and leasing them.
- We have 9.3 msf of NOI growth opportunity, which includes our vacant area of 2.4 msf, area under development of 4.4 msf and future development area of 2.5 msf. Further, our sponsors are continuously and strategically pouring concrete across the country, with a current potential of 15 msf. We have a ROFO (Right of First Offer) on certain sponsor assets and our low leverage levels, allow us to acquire sponsor assets as well as any third-party acquisition, which will further fuel our growth.
- We are also in the process of divesting our non core asset 'Mindspace Pocharam' with a total leasable area of c. 0.6 msf in Hyderabad. We have received Board approval for the same.
- Our growth has been and will continue to be sustainable, driven by our commitment to environmental stewardship and fueled by excellence and innovation. With our strategic positioning and proactive approach, we are confident in our ability to contribute positively to the growth and development of the Mindspace Business Parks REIT. Together, we look forward to embracing the opportunities that await us and achieving new milestones.
- In India, REITs are still at a nascent stage as an investment class. Mindspace REIT, along with the Indian REITs Association (IRA), which was formed during FY24, are making strong efforts to create awareness among the investors. Through IRA, we are constantly working with regulators to bring progressive reforms to the instrument. We are hopeful that in the long term, REITs will follow a growth trajectory similar to that of mutual funds in India.

We have 9.3 msf of NOI growth opportunity, which includes our vacant area of 2.4 msf, area under development of 4.4 msf and future development area of 2.5 msf.

Preeti Chheda
Chief Financial Officer

Reflecting on the past year, we have delivered a steady growth performance on our financial indicators led by operational excellence. While the global environment was volatile with high inflation in many economies leading to higher interest regimes, India shone as a bright spot with a measured approach to combating inflation and driving growth.

At Mindspace, we adopted a similarly prudent strategy that lead to investments in organic expansion and upgradation of our parks while maintaining one of the lowest capital costs and debt levels (LTV) in the industry. Our meticulously curated asset portfolio generates value for stakeholders through disciplined cost management, strategic decision-making, and prudent capital

allocation. We are thankful to the government for the reforms in SEZ rules, a game changer for our portfolio which has over 50% space in SEZ. This amendment is expected to boost demand and stimulate occupancy growth for our SEZ parks driving higher operational revenues.

In September, the Indian REITs Association (IRA) was launched with the objective of developing the REITs market in the country, upholding high governance standards, and safeguarding the interests of REITs and unitholders. As founding members of IRA, we collaborate closely with regulators and drive engagement initiatives to raise awareness among investors and provide a fillip to this investment instrument.

We continue to pursue both organic and inorganic opportunities to fortify our portfolio and incorporate sustainable practices into our operations, building long-term resilience. With this approach, we aim to generate growth, creating value for our investors and partners.

Perspective

Achieving Efficiency through Implosion Technology

We employed cutting-edge 'Implosion Technology' for the strategic demolition of two aging buildings (Building 7 and 8) in Madhapur, Hyderabad. A first such instance in Hyderabad, the structures with a legacy of around 18 years were successfully dismantled and efficiently brought down in just 6-8 seconds – a stark contrast from the traditional demolition process that takes 3-4 months.

This move is part of our larger strategy to undertake infrastructure and workspace upgrades while being contemporary, impactful and environmentally responsible. This exciting development paves the way for a cutting-edge, sustainable Grade A asset spanning roughly 1.6 msf. It will meet global standards and provide room for businesses to grow and consolidate within the Business Park. We are dedicated to creating a top-notch asset that aims to achieve LEED Platinum and Wellness Certification standards.

Experience Center at Madhapur

MindSpace REIT introduced Proposed Experience Center, an innovative and inclusive ecosystem meticulously crafted to address a wide spectrum of lifestyle and business requirements. Spanning c.130,000 sq ft of exclusive and premium space, the center aims to augment the MindSpace offering with the addition of a contemporary club facility with top-notch amenities integrating entertainment, sports, lifestyle, recreation, and dining options.

Perspective

Our larger strategy is to undertake infrastructure and workspace upgrades with the intent of staying contemporary, impactful, and environmentally responsible.

Inorganic Growth through ROFO Assets

MindSpace REIT enjoys the benefit of the Right of First Offer (ROFO) agreement that grants us a right to acquire certain projects being developed or proposed to be developed by the KRC Group.

Our current ROFO pipeline includes assets across Mumbai Region, Hyderabad, and Chennai markets.

In FY22, MindSpace REIT received an ROFO notice from Sustain Properties Private Limited ('Sustain') that houses Commerzone Raidurg, a 1.8 msf building. Also, in FY23, we received an offer notice from the Sponsor Group to sell the shares of Sundew Real Estate Private Limited ('Sundew'), which houses c. 0.16 msf building in the BKC Annex. In March 2023, the shareholders of Sustain and Sundew informed

deferring the sale of all outstanding equity shares to MindSpace REIT, in light of the volatility and uncertainty in the markets. The shareholders of both entities have undertaken to re-offer the acquisition of outstanding equity shares to MindSpace REIT after the markets stabilize.

Continuous pipeline of c. 15 msf by sponsor is at various stages of development.

Green Bond Issuance 2023

MindSpace REIT successfully issued first REIT level Green Bond in India in March 2023. The first-of-a-kind issuance was successfully placed with newer and diverse set of investors including Mutual Funds, Insurance companies and other asset classes. The proceeds from this fund-raise were utilized towards refinancing loans availed by one of the Asset SPVs to fund the eligible green projects. Morningstar Sustainalytics provided Second Party Opinion on the MREITs Green Financing Framework. The Green Financing Framework, Second Party Opinion are available on the website of MindSpace REIT. The issuance is rated CRISIL AAA/Stable and [ICRA] AAA (Stable) by CRISIL Ratings and ICRA respectively.

Use of Proceeds

For the maiden Green Bond issue, eligible green project is identified as Gera Commerzone Kharadi, Pune which has a total leasable area of 2.9 msf. All the completed and under construction buildings of this project are rated Indian Green Building Council (IGBC) Gold or Platinum. The proceeds

from the fund raise were utilized to refinance loans availed by KRC Infrastructure and Projects Pvt. Ltd. for developing Gera Commerzone Kharadi, Pune.

Post-issuance review

MindSpace REIT engaged Sustainalytics as an external auditor to conduct a post issuance assessment to review the alignment of the projects funded with proceeds from the Green Bond and provide an assessment as to whether the projects funded with proceeds from Green Bond ('the Nominated Projects') met the Use of Proceeds criteria, Project Evaluation and Selection, Management of Proceeds and Reporting commitments outlined in the Framework. Sustainalytics opined that the proceeds from the issue were utilized for the purpose stated in the framework in accordance with the regulations.

The post issuance assessment by Sustainalytics and an independent CA certificate is available on the below link: <https://www.mindspacereit.com/investor-relations/debtgreen-financing#ir>

Through sustainable resource management in property development, and implementing energy, water, and waste initiatives, Mindspace aims to enhance efficiency and reduce environmental impact. Guided by our commitment to environmental stewardship, we undertake interventions that create long-term value.

Alignment with UN SDGs

Commitment to Renewable Energy

We are rapidly expanding our reliance on clean, renewable energy, aligning with the RE100 initiative's goal to achieve 100% renewable energy usage.

Renewable Energy Generation

From April 2023 to March 2024, we generated an impressive 1,766 MWh of on-site renewable power.

Generating Solar Energy

We have made progress in adopting sustainable energy solutions. We have installed solar rooftop panels with a total capacity of 1.93 MW, which plays a key role in reducing greenhouse gas emissions and mitigating air pollution.

Renewable Energy Use in Shared Spaces

We have utilized 30,076 MWh of green power in the common areas of several of our assets including Mindspace Airoli East, Mindspace Airoli West, The Square Avenue BKC 61, and Gera Commerzone, Kharadi.

Case Study

Solar Light Pipes

As an experimental exercise, we recently implemented Solar Light Pipes (Tubed Natural Light) in the basement of building 12D at Mindspace Madhapur Campus.

The objective was to assess its impact across several aspects such

as enhancing illumination levels, reducing the use of artificial lighting during the day to cut operational expenses, and evaluating the positive psychological impact of natural light, particularly the sense of safety it provides.

Energy Efficiency

We have adopted a range of energy-efficient measures, including advanced chillers, pumps and motors, energy-saving LED lighting and fixtures, heat recovery systems, and the implementation of an Integrated Building Management System and Infrastructure Monitoring & Operations Center.

These endeavours help us reduce our environmental footprint while setting new standards for sustainable practices.

Performance in Energy Usage and Emissions in FY24

Renewable energy sources contribute to 28.9% of our total energy consumption. This marks a substantial rise from just 6.1% in the fiscal year 2023, largely due to the procurement of green power for common areas and HVAC systems, which contributed to 31,842 MWh.

Air Quality

Minimizing Toxic Fumes

We proactively select low Volatile Organic Compounds (VOC) paints, materials, and coatings during the design phase of our buildings to minimize lead-based harmful vapors.

Enhanced Air Purification

Our commitment to superior indoor air quality is reinforced by the deployment of mechanical air filters rated at MERV 8 and MERV 13 across our Air Handling Units.

Tracking Emissions

We maintain records of our CO₂ emissions, maintaining a vigilant watch over our environmental impact.

UV-C Lighting

To enhance safety and reduce the risk of infectious disease transmission, we have integrated UV-C lights into our Air Handling Units (AHUs).

Improved Fresh Air Circulation

In alignment with ASHRAE 62.1 standards, we provide an extra 30% of fresh air. This surplus fresh air elevates indoor air quality, thereby enhancing overall comfort, and ensuring a healthier environment for our tenants.

Case Study

Weather Station

We collaborated with IIT Bombay for a research project centred on Climate Risk Assessment. A pilot project, it currently involves setting up on-site weather stations that are IoT-enabled devices and allow the monitoring and analyzing of relevant climate variables, providing real-time readings and environmental parameters. This data will be instrumental in forecasting physical risks associated with extreme weather events like rising sea levels,

changing humidity levels, wind speed and temperature fluctuations.

The research outcomes facilitate the design of buildings, ensuring they are resilient to extreme climate changes. The data can be used effectively during the under-construction phase as well as the upgrade of existing structures.

Electric Shuttle Service

In our commitment to a sustainable future, we have launched a new Electric Shuttle Service at Mindspace Madhapur. This initiative features a fleet of four, 14-seater electric carts,

offering a convenient and eco-friendly commuting option for our occupants.

By transitioning to electric vehicles, we are actively reducing carbon emissions and fostering a greener future for all.

Social Wellness

Grade A Office Market Overview

Gross leasing in India's top seven markets exceeded the 60 msf milestone for the very first time, reaching an impressive c.62 msf, a significant 26.4% y-o-y increase. The leasing volume in Q1 CY24 was recorded at 15.2 msf, better than the quarterly leasing volumes of Q1 CY23.

Grade A commercial office spaces in India have transitioned to a new paradigm where they are more than just places of work; they have evolved into high-quality experiential ecosystems where individuals can seamlessly blend work, leisure, and lifestyle activities. This transformation is evident in the integration of various amenities into office environments, including sports facilities, restaurants offering culinary delights, premium shopping options, and other conveniences. Occupiers now prioritize green buildings and spaces that incorporate lush landscapes and open areas into their parks, enabling natural lighting and fostering a connection with nature enhancing wellness and productivity.

The resultant uptick in demand for Grade A assets is evident, with institutionally managed office spaces capturing significant percentage of the demand.

Return to office becoming mandatory

Both occupiers and employees have come to recognize and appreciate the advantages of in-person interaction. As a result, there is a significant push from senior leadership to encourage employees to return to the office few days a week with some offices ending remote work completely and making it mandatory to be in office. The aim is to reintroduce employees to an environment that promotes collaboration, enhances innovation, and bolsters productivity. Consequently, there is a heightened emphasis on occupying premium Grade A office ecosystems.

Office demand recovery propelled by:

- Strong demand from Global Captive Centers (GCCs) and domestic enterprises on the back of growing economy and availability of skilled talent
- Companies starting to call back employees to office
- Preference of occupiers to operate from secured office environments with adequate health, safety and wellness protocols
- Shift from strata sold assets to quality, single-owner Grade A properties
- Rise in demand for campus-style developments

Forward-looking Statement

This discussion contains forward-looking statements that describe our projections and expectations based on reasonable assumptions, past performance, and the projected movement of the global and Indian economy. Such statements can be generally identified by words like 'believe', 'plan', 'anticipate', 'continue', 'estimate', 'expect', 'may', 'shall', and other similar words. Such projections are subject to changes in risks and uncertainties related to the fluctuations in general economic and capital market conditions, including continued inflation, increasing interest rates, supply chain disruptions,

labour market disruptions, dislocation and volatility in capital markets, and potential longer-term changes in tenant behavior based on the severity and duration of any downturn in the India or global economy. No forward-looking statement that we make will be updated or changed by us regardless of new information, upcoming events, or other factors.

All the financial numbers in this section have been rounded off to the nearest million unless otherwise stated.

Mindspace REIT Overview

Mindspace REIT specializes in the development and management of dynamic Grade A integrated business campuses, standalone office buildings, and state-of-the-art data centers. With a strategic presence across key office submarkets in the Mumbai Region, Hyderabad, Pune, and Chennai, Mindspace REIT offers a diversified portfolio encompassing five integrated business parks and five high-quality standalone offices. It holds one of the largest Grade A office portfolios in India with a total leasable area of 33.2 msf (26.3 msf completed; 4.4 msf under construction and 2.5 msf future development).

Mindspace REIT embraces the philosophy of 'Wellness at Work', cultivating a growth-oriented environment by offering curated amenities and green spaces that promote physical fitness, mental well-being, and work-life balance. Our parks stand out for their energy-efficient buildings and eco-friendly designs that encourage tenant engagement initiatives, thus making us the preferred partner for diversified tenants.

Tenant Profile

Our diversified portfolio of marquee tenants spans across industries, ensuring stability and resilience. This helps mitigate risk and enhances the overall strength of our portfolio.

With over 220 tenants, each contributing to the vitality of our parks, Mindspace REIT maintains a diversified tenant base. From industry giants like L&T, Barclays, BA Continuum, IDFC and Hitachi Energy to new-age firms such as Smartworks, our tenant roster reflects the trust and confidence placed in us by leading organizations.

As of March 31, 2024, our largest sectors by contribution to Gross Contracted Rentals were Technology, Financial Services, Engineering and Manufacturing, constituting 43%, 19.6%, and 9.6% respectively. A significant portion of our Gross Contracted Rentals comes from leading multinational corporations 69.2%, and Fortune 500 companies 33.0%, highlighting our marquee tenant base. More importantly, no single tenant holds sway over more than c.4.5% of our gross contracted rentals. During the fiscal year, we added 18 new tenants to our portfolio, further enhancing diversity and strengthening our market position.

Mindspace REIT continues to prioritize tenant partnerships through initiatives such as 'Table Talks'. Alongside this, our dedicated in-house facility management division ensures seamless operations, while our regular tenant engagement activities facilitate meaningful interactions and encourage feedback. Moreover, our commitment to creating green spaces and offering diverse amenities indicates our dedication to tenant well-being and enhancing their overall experience within our properties.

Charting Occupancy Growth Outlook

During FY24, Mindspace REIT demonstrated agility through its leasing prowess, securing leases for 3.6 msf of space. Across all our assets in Pune, BKC, and Malad, occupancy is nearly at full capacity, with almost 100% committed occupancy. Further more, our portfolio has rebounded impressively, achieving pre-COVID occupancy levels of c.96% in Madhapur, and c.99% in Airoli (non-SEZ). 6 out of 9 parks (excluding Mindspace Pocharam) have achieved committed occupancy of more than 96% as of 31 March 2024.

Capitalizing on the robust demand across our markets, we are proactively converting units in SEZ spaces to Non-Processing Areas (NPA). We have received the approval for converting c.0.4 msf to NPA. To address the escalating demand for Airoli Non-SEZ space, we have additionally filed for c.1.5 msf conversion to NPA. The transition to NPA entails certain costs, yet we view it as a strategic necessity to bolster occupancy rates and transform vacant spaces into revenue-generating areas.

Driving Portfolio Growth through Organic Development

With a positive outlook in the GCC office space demand, domestic companies' growth and the return to office, which is anticipated to bolster near to medium-term demand, we are strategically introducing supply in our micro-markets. We are developing projects of c.4.4 msf of total leasable area. Notable projects in the pipeline include redevelopment buildings at Mindspace Madhapur (c.3 msf), Building No. 4 at Commerzone Kharadi (1 msf), and a data center building at Mindspace Airoli West (0.3 msf), among others. Further, a mixed-use development (office and hotel) of c.0.8 msf is planned for development at Mindspace Airoli East Park. The hotel portion of the mixed use development is pre-leased to Chalet Hotels.

Enhancing our Offerings with 'Amenitized' Workplace

Our asset-enrichment endeavors include several initiatives aimed at enhancing the overall experience within our properties. These include the implementation of revitalized lobbies, expanded open spaces, and the addition of amenities within both buildings and parks. To enrich the dining and recreational offerings, we are incorporating well-distributed food and beverage spaces, revamping facades, utilizing energy-efficient lighting, installing signage, and integrating

wall art. Our ongoing efforts include the development of an Experience Center, spanning c.130,000 sq ft, to cater to various lifestyle and business needs, and a modern club facility with top-notch amenities. Furthermore, the mixed-use development at Mindspace Airoli East, featuring over 250 keys and approximately 0.5 msf of office space, promises convenience and comfort for both occupants and visitors, thus elevating the park's appeal.

FY24 – Business and Performance

MindSpace REIT continued to remain resilient and record stable growth despite global headwinds. We achieved organic growth through a comprehensive approach of leasing, redevelopment initiatives and park upgrades, as well as strengthening the balance sheet with prudent capital management for future growth.

Our key achievements for the year ended March 31, 2024 include:

Evolving Business Dynamics

India's office sector is in a transformative phase, marked by the evolving dynamics of the modern workplace. The rising uptake of office space by domestic enterprises, the expansion of Global Capability Centers (GCCs), and the government's SEZ reforms will significantly influence the commercial real estate landscape in India. This multi-factor arena signifies heralding a new era of growth and opportunity.

Rising Leasing Trend – Domestic Occupiers

Domestic companies surfaced as a new catalyst for the surge in office space demand in India recently. Such growth may be attributed to rapid governmental capital expenditure, growing consumption and urbanization supported by favourable demographics. Colliers' research suggested that during CY23, domestic companies accounted for half of the total leasing across the top six cities. It is anticipated that domestic firms will increasingly seek expanded office premises to accommodate their expanding workforce and encourage collaboration, thereby amplifying the momentum within India's commercial real estate sector.

In our leasing portfolio, the share of domestic companies has increased from c. 17% to c. 31% in the last three years.

Favorable GCC Landscape in India

Compelled by India's growth story, the availability of an expansive talent pool, cost arbitrage and infrastructure upgrades in top cities, GCCs resumed their office leasing activities. Colliers' research illustrated that in the second half of 2023, GCC leasing reached its highest point since 2020, with a total 12.4 msf across the top six cities in India.

Notably, other than dominant technology and BFSI GCCs, there is growing interest in engineering, manufacturing and healthcare which further diversify the landscape. In Hyderabad – an office micro-market in which MindSpace REIT holds a significant position in office leasing – there are over 180 GCCs. Colliers India GCC Report noted that c. 24% of pan India GCC leasing between 2020-23 was executed in Hyderabad, second to Bengaluru's share of c.37%. Hence, with all favourable factors at play, we are actively leveraging our GCC leasing experience, and expanding our portfolio organically to meet the growing demand.

SEZ Reforms to Drive Occupancy Growth

The Indian Government's Department of Commerce notified amendments in SEZ rules at the end of Q3 FY24. The amendments permitted the demarcation of part of an SEZ area into Non-Processing Areas after repayment of certain tax benefits. Before the amendments, organizations with SEZ space were limited to de-notifying only the land parcel from SEZ to non-SEZ status. This process necessitated the complete vacating of the entire built-up area over the specified land parcel before initiating de-notification. Consequently, SEZ spaces experienced a gradual tenant exit, resulting in a decline in occupancy levels.

Due to the SEZ reform, developers can now convert SEZ processing areas into SEZ Non-Processing Area (NPA), earning an exemption from SEZ compliance. Such floor-wise demarcation will help leasing activities to meet the growing demand for NPA spaces.

We proactively capitalized on the new regulations, having already obtained approvals for approximately 0.4 msf of NPA conversion. Moreover, we have filed for an additional c.1.5 msf of space for NPA conversion.

The Resurgence of Return to Office

In contrast to the trends abroad, return to office has gained significant momentum in India. This transition has been embraced not only by domestic enterprises and entities within the BFSI sector but also by GCCs in the country. Several large Indian IT firms have shifted to a five-day working week within office premises. Currently, physical occupancy rates within our parks stand at approximately 70%. The post-COVID era has underscored the importance of having ample office space with the right amenities to attract talent and foster team collaboration, thus enhancing creativity and productivity. This strategic approach also helps mitigate potential risks such as data privacy and security, legal and compliance risks, lack of cultural alignment and in-person training and mentorship opportunities.

Other operating income

Other operating income primarily includes (i) interest income from finance lease, which comprises interest income from fit-out rentals where such leases are classified as finance leases. Leases are classified as finance leases when substantially all the risks and rewards of ownership is transferred to the lessee; (ii) income from sale of surplus construction material and scrap; and (iii) service connection charges for power supply and other charges and (iv) any compensation received from customer.

Earnings before finance costs, depreciation and amortization, regulatory income/expense, exceptional items and tax (EBIDTA)

We have elected to present earnings before finance costs, depreciation and amortization regulatory income/expense, exceptional items and tax as a separate line item on the face of the statement of profit and loss.

EBITDA is generally defined as net profit before interest expense, taxes, exceptional items, depreciation and amortization. However, Ind AS 114 (Regulatory Deferral Accounts) requires the movement in all regulatory deferral account balances to be

distinguished from other income and expenses. Hence, for the purpose of Consolidated Financial Statements, included in this Annual Report, net movement in regulatory deferral account balances has been disclosed separately in the Statement of Profit and loss after 'Profit before rate regulated activities and tax' and thus does not form part of EBITDA.

Depreciation and amortization expenses

Depreciation and amortization expenses comprise the depreciation of property, plant and equipment; depreciation of investment property; amortization of intangible assets and amortization of right of use of assets.

Finance costs

Finance costs primarily comprise: (1) interest expenses on borrowings from banks and financial institutions, debentures, bonds, (2) unwinding of interest expenses on security deposits, and (3) other finance charges. We capitalize borrowing costs in relation to under construction properties. Once construction is completed, the interest cost is charged to statement of profit and loss, causing an increase in finance costs.

Regulatory income/expense

As a deemed power distribution licensee in the SEZ area, some of our Asset SPVs charge tenants tariff on power consumption that is pre-approved by the state regulatory authority, Maharashtra Electricity Regulatory Commission (MERC). Accordingly, as per the Multi-Year Tariff (MYT)

regulations, we file a tariff petition for the control period based on projected expenses and revenue during the period. MERC reviews the tariff petition and approves expenses and revenue in compliance with the tariff regulations. Subsequently, we submit our audited accounts to MERC to undertake a truing up process, wherein MERC compares the actual expenses and revenue with the approved expenses and revenue for the past year, and allows total revenue gap/(surplus) to be recovered in the succeeding years tariff. As a result, there is an increase/(decrease) in succeeding years tariff based on past years revenue gap/(surplus), and this change is referred to as impact on account of true-up. Such revenue gap/(surplus) for the past years is recorded as regulatory income/(expense) in the financials.

Tax expense

Tax expense comprises: (1) current tax and (2) deferred tax charge (net)

The Indian Income Tax Act provides companies an option to discharge their income tax liability at a concessional rate of 25.17% (including cess and surcharge) subject to fulfilment of certain conditions which includes opting out of other applicable tax holiday claims/incentives/tax exemption and utilizing MAT credit ('New Tax Regime'). With respect to the Consolidated Financial Statements as of and for the year ending March 31, 2024, and for the year ending March 31, 2023, we have not opted for the New Tax Regime and continue to discharge our income tax liability as per the existing tax regime.

- **Mindspace Malad:** Higher primarily due to escalations in FY24
- **Mindspace Pocharam:** Lower on account of exits of 0.2 msf in FY24
- **Commerzone Yerwada:** Higher primarily on account of increase in gross rent pursuant to escalations over 1.2 msf over FY23 and FY24
- **The Square BKC:** Lower on account of one time compensation of ₹ 186 Mn received in Q3 FY23

Occupancy Growth

Our Non-SEZ portfolio has achieved pre-covid occupancy levels with six out of our nine parks having committed occupancy levels exceeding 95%. As we navigate the evolving landscape of workplace dynamics, the resurgence of in-office operations, coupled with the continued growth of the GCC sector, serves as a robust driver for leasing expansion across our portfolio. Furthermore, recent reforms in SEZ regulations are expected to further mitigate any remaining vacancies.

Growing the Portfolio

Within our portfolio, we are strategically positioned to leverage embedded opportunities that promise substantial growth organically. With an area under development totaling 4.4 msf, including future developments amounting to 2.5 msf, we are poised for expansion. At Mindspace Airoli East Park, a composite structure spanning 0.8 msf announced, presenting a mixed-use development encompassing both office and hotel spaces. Additionally, significant redevelopment initiatives are underway at Mindspace Madhapur, encompassing c.3.0 msf. These organic portfolio growth initiatives resulted in total leasable area of 33.2 msf up from 32.0 msf at the end of FY23.

Our portfolio demonstrates growth potential, underpinned by both organic development and opportunity to acquire the sponsor assets through the Right of First Offer arrangement. The sponsor boasts of a continuous prospective development pipeline of c.15 msf. Moreover, alongside our sponsor assets, we are actively exploring third-party inorganic opportunities to further augment our growth trajectory. These initiatives underscore our strategic foresight and determination to capitalize on emerging market trends while delivering sustained value to our stakeholders.

Industry Structure and Developments

Industry Structure and Developments affecting our operations are captured on pages 70 to 77 of annual report

Outlook

India's resilient leasing momentum is propelled by its tech ecosystem, characterized by significant offshoring and R&D activities spanning various sectors. The convergence of a skilled talent pool, cost efficiency, and quality real estate is fostering a sustained growth trajectory. Despite global headwinds, the country's office markets have been minimally affected, underscoring the resilience of India's commercial landscape.

GCCs now account for c.36% of all occupied Grade A stock across top seven cities, underscoring the pivotal role of tech offshoring across diverse sectors propelling demand within the country's office market. This sustained trend is anticipated to maintain India's office markets as among the most growth-oriented globally. Moreover, recent SEZ reforms, enabling floor-wise conversion to non-processing area (NPA), are poised to enhance occupancy levels, further bolstering market dynamics. With robust occupancies and a surge in enquiries, there is a positive outlook for rental growth in the near future.

Coupled with rental growth, leasing surge and rising domestic and GCC occupiers, our gross leasing recorded 3.6 msf helping our committed occupancy rising to 90.6% (excluding pocharam non-core asset). Our in-place rent have grown by 5.8% annually from ₹ 65.2 psf pm to ₹ 69 psf pm.

REITs have continued to receive support of Government and Regulator. Recent policy reforms under the existing SEZ Act to convert floor-wise SEZ processing areas to Non-Processing Areas helping to ramp up our occupancies further by leasing the vacant SEZ spaces in our parks.

REITs are a stable asset class drawing interest from a broader spectrum of investors in both equity and debt markets. Our unitholder base has surpassed 60,000, marking a remarkable 7.7x growth since our listing in August 2020, with expectations for continued expansion in the years ahead. To bolster this momentum, we conducted retail roadshows aimed at educating retail investors about REITs as an attractive investment option, further enhancing our outreach and engagement efforts.

With prudent financial and debt management, our low LTV would help us to explore the inorganic growth opportunities.

With our seasoned management team's expertise and pragmatic approach, we navigate the growth-oriented office market, creating long-term value for our unitholders.

Risk Factors

as on March 31, 2024

RF No.	Risk Factors as on March 31, 2024
1	Distributions to Unitholders will be based on the net distributable cash flows available for distribution . Our ability to make distributions to the Unitholders may be affected by several factors including : <ul style="list-style-type: none"> • business and financial position of Asset SPVs, debt servicing requirements of Asset SPVs, • construction and leasing of under construction area, applicable laws and regulations , which may restrict the payment of dividends by the Asset SPVs or other distributions .
2	The REIT Regulations impose certain restrictions on our operations , including maintaining a specific threshold of investment in rent generating properties and conditions on availing debt financing . These conditions may restrict our ability to raise additional funds as well as limit our ability to make investments .
3	Real estate markets are cyclical in nature , and a recession , slowdown or downturn in the real estate market as well as in specific sectors , such as technology , where our tenants are concentrated , including markets such as USA and Europe and a slower return to office potentially leading to slowdown in office leasing activity , increase in property taxes , changes in development regulations and zoning laws , availability of financing , rising interest rates , increasing competition , adverse changes in the financial condition of our tenants , increased operating costs , disruptions in amenities and public infrastructure and outbreaks of infectious disease such as COVID - 19 , among others , may lead to a decline in demand for our Portfolio , which may adversely affect our business , results of operations and financial condition .
4	A significant portion of our revenues are derived from a limited number of tenants . Any conditions that impact these tenants could adversely affect our business , results of operations and financial condition . We are required by the terms of the lease deeds , grant documents or sale deeds with certain statutory authorities to lease a proportion of our Portfolio to tenants from the IT and ITeS sectors . Some of the assets are large and contribute significantly to our revenue from operations resulting in asset concentration . Assets are primarily located in four key office markets and select micro markets within these office markets resulting in market and micro market concentration .
5	Our title to the land where the Portfolio is located may be subject to legal uncertainties and defects , which may interfere with our ownership of the assets and result in us incurring costs to remedy and cure such defects . Any failure or inability to cure such defects may adversely affect the Portfolio including the rentals , which may also impact returns for the Unitholders .
6	Existing lease/license agreements are subject to risks including (i) non-renewal upon expiration , (ii) delay or failure in making rental payments by the lessees/licensees , (iii) delay in receipt of / inability to obtain necessary approvals from regulatory bodies for letting out and commencing operations by the lessee/licensee , some of which may expire in the ordinary course of business and are subject to periodic renewals , (iv) premature termination , (v) failure to re-lease or re-license the vacant space and our dependence on rental income may adversely affect our profitability , our ability to meet financial obligations , to make distributions to our Unitholders .
7	We may be unable to renew leases or license arrangements , lease or license vacant area or re-lease or re-license area on favourable terms or at all , which could adversely affect our business , results of operations and cash flows .
8	Due to a variety of factors , including competitive pricing pressure in our markets , changing market dynamics including demand supply , a general economic downturn and the desirability of our properties compared to other properties in our markets , we may be unable to realize our estimated market rents across the properties in our Portfolio at the time of future leasing .
9	Valuation is an estimate and not a guarantee , and it is dependent upon the accuracy of the assumptions as to income , expense and market conditions . Further , the valuation methodologies used to value our Portfolio involve subjective judgments and projections , which may not be accurate . Valuation methodologies will also involve assumptions and opinions about future events , which may turn out to be incorrect . Further , valuations do not necessarily represent the price at which a real estate asset would sell , since market prices of assets can only be determined by negotiation between a willing buyer and seller . As such , the value of an asset forming part of our Portfolio may not reflect the price at which such asset could be sold in the market , and the difference between value and the ultimate sale price could be material .
10	The resurgence of COVID - 19 or any other future pandemic may cause a material decline in general business activity and demand for real estate transactions , and if that persists , it would adversely affect our ability to execute our growth strategies , including identifying and completing acquisitions and expanding into new markets . Factors related to the COVID - 19 pandemic , or a future pandemic , that could have an adverse impact on our financial condition , results of operations and cash flows , primarily include : <ul style="list-style-type: none"> • a complete or partial closure of , or other operational issues at , one or more of our properties ; • tenants' inability to pay rent on their leases , in part or full or our inability to re-lease space that is or becomes vacant ; • slowdown in getting lease commitments for new spaces ; • any impairment in value of our properties ; • an increase in operational costs ; and • the extent of construction delays on our under-construction properties due to work-stoppage orders , disruptions in the supply of materials , shortage of labour , delays in inspections , or other factors

RF No.	Risk Factors as on March 31, 2024
11	We have certain contingent liabilities , which if they materialize , may adversely affect our results of operations , financial condition and cash flows . For details , see <i>Note 40 to Notes to accounts of Consolidated Financial Statements for the year ended March 31 , 2024</i>
12	There are outstanding litigations , title irregularities and regulatory actions involving the Asset SPVs and the Manager , which may adversely affect our business , results of operations and cash flows . For details , see <i>"Brief details of material litigations and regulatory actions as at the year ended March 31 , 2024"</i> in this report .
13	Our business and results of operations are subject to compliances with various laws , and any non-compliances may adversely affect our business and results of operations . Our business is governed by various laws and regulations , including SEBI (Real Estate Investment Trusts) Regulations , 2014 , Transfer of Property Act , 1882 , Special Economic Zones Act , 2005 and Special Economic Zone Rules , 2006 , Maharashtra Industrial Development Act , 1961 , Mumbai Metropolitan Region Development Authority Act , 1974 , Maharashtra Information Technology and Information Technology Enabled Services Policy , 2015 , rent control legislations of various states , municipal laws of various states and environment related regulations . Our business could be adversely affected by any change in laws , municipal plans or stricter interpretation of existing laws , or promulgation of new laws , rules and regulations applicable to us . The regulatory and policy environment in which we operate is constantly evolving and subject to change and such changes in the rules and regulations applicable to us and/or our Asset SPVs , may adversely affect our business , future results of operations , prospects and functioning , to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy . For instance , the Ministry of Corporate Affairs (MCA) has amended the Companies (Corporate Social Responsibility Policy) Rules , 2014 and has introduced the Companies (Corporate Social Responsibility Policy) Amendment Rules , 2021 (" CSR Rules "). The CSR Rules provides , among others , specific treatment of unspent CSR amount based on whether it pertains to an ongoing project . Any failure on the part of our Asset SPVs to make the necessary transfer towards CSR requirements and ensure compliance under the CSR Rules may result in penal actions being initiated against the relevant Asset SPV by the concerned regulatory authority .
14	The Ministry of Environment and Forests (" MOEF ") vide Office Memorandum dated May 1 , 2018 (" CER OM ") had issued guidelines for recommending expenses towards 'Corporate Environment Responsibility' (" CER ") with a view to bring transparency and uniformity in imposition of expenses towards CER . Accordingly , conditions relating to CER were being imposed in the environment clearances relating to projects . Thereafter , CER OM was superseded by OM dated September 30 , 2020 (" CER OM 2 ") which directed that Expert Appraisal Committee (" EAC ") or State Level Expert Appraisal Committee (" SEAC ") shall deliberate on the commitments made by project proponent and prescribe specific condition(s) in physical terms while recommending the proposal , for grant of prior environment clearance instead of allocation of funds under CER . The CER OM 2 further directed that all the activities proposed by the project proponent or prescribed by the EAC/SEAC , as the case may be , shall be part of the Environment Management Plan (" EMP "). Consequently , CER OM is not valid and only (1) the commitments which are deliberated by EAC/SLEAC , and (2) specific conditions prescribed in physical terms while recommending the proposal need to be complied with . In view of the aforesaid , the respective Asset SPVs have made or will make (if required) the aforesaid representations to MOEF authorities including during the MOEF hearings for grant of amended EC's (if required) in respect of the respective REIT Assets , or table the same in the periodic reports being filed with the authorities . If any alternate view is taken by the MOEF authorities and despite the CER OM 2 , the MOEF authorities mandate compliance of CER in accordance with CER OM , then Asset SPVs will have to incur additional expenses towards compliance of CER in accordance with CER OM and any delay or failure on the part of the respective Asset SPVs to make the necessary spending towards CER may result in penal actions being initiated against the relevant Asset SPV by the concerned regulatory authority .
15	Any non-compliance with and/or changes in , environmental , health and safety laws and regulations could adversely affect the development of our properties and our financial condition . We are subject to environmental , health and safety regulations in the ordinary course of our business . If we face any environmental issue during the development of a property or if the government introduces more stringent regulations , we may incur delays in our estimated timelines and may need to incur additional costs .
16	Any delay , failure or inability on part of Asset SPVs to obtain , maintain or renew all regulatory approvals that are required for their respective business , may adversely impact our development and business .
17	For our assets located on land leased from MIDC and MMRDA , the relevant Asset SPVs are required to comply with the terms and conditions provided in the respective lease agreements with such government bodies . Any non-compliance by the Asset SPVs of the respective lease agreements with such government bodies or by the tenants of the terms of the lease deed executed with them , may result in the action by the regulatory authorities , including revocation/termination of lease , demolition of the construction , payment of fines , or inability to produce lease agreements as evidence of the fact in any court of law . In the event that our leases are revoked , not renewed or terminated prematurely , it could have an adverse impact on the Asset SPVs and in turn adversely affect our business , financial condition and results of operations .
18	Inability to access infrastructure , certain logistical challenges in new markets and our relative inexperience with newer markets , may prevent us from expanding our presence in new markets in India which may adversely affect our business , results of operations and cash flows .

Risk Factors (Contd.)

as on March 31, 2024

RF No.	Risk Factors as on March 31, 2024
19	We have entered and may enter into several related party transactions, which could involve conflicts of interest. The Manager may face conflicts of interests in choosing our service providers, and certain service providers may provide services to the Manager, the Sponsor Group on more favourable terms than those applicable to us.
20	Some of our assets are located on land notified as SEZs and the Asset SPVs are required to comply with the SEZ Act and the rules made thereunder. While no income tax benefits are available to SEZ developers which have commenced development after March 31, 2017, income tax benefits are available for their tenants/units on the income earned by them on account of the exports from the SEZs, if they have commenced operations on or before March 31, 2021. Further, some of our Asset SPVs have made applications for de-notifying certain land parcels notified as SEZs and hence they will be eligible to avail lower fiscal incentives than what were previously available to them, which may adversely affect our business, results of operations and financial condition.
21	Due to various regulatory and other restrictions, we may not be able to successfully meet financing requirements for completion of construction of Under Construction Area, construction of Future Development Area and for refurbishments, renovation and improvements beyond our current estimates Our inability to raise adequate finances may adversely affect our business, results of operations and cash flows.
22	Liquidity in the credit market has been constrained due to market disruptions, including due to conflicts among other countries, along with higher nominal interest rates due to inflationary pressures may make it costly to obtain new lines of credit or refinance existing debt. As a result of the ongoing credit market turmoil, we may not be able to refinance our existing indebtedness or to obtain additional financing on attractive terms. Further, adverse economic conditions could negatively affect commercial real estate fundamentals and result in lower occupancy, lower rental rates and declining values in our Portfolio and in the collateral securing any loan investments we may make.
23	Any adverse tax changes or withdrawal of tax benefits may adversely affect our financial condition and results of operation. Any maintenance or refurbishment may result in disruption of operations and it may not be possible to collect the full or any rental income on area affected by such renovations and refurbishment of our assets.
24	The restrictive covenants under the financing agreements, entered or to be entered into with various lenders or investors, from time to time, include or could include, among others, (a) obtaining prior consent of the lenders (i) for change in the capital structure, (ii) for amendment of constitutional documents, (iii) for declaration of dividends/ distribution of profits in case of defaults, (iv) for incurring further indebtedness against the security provided, (v) for making any acquisition/disposal of assets and (vi) for providing surety or guarantee to any third party, and (b) certain reporting requirements with timelines which, if not complied with, may lead to defaults consequences. These or other limitations may adversely affect our flexibility and our ability to make distributions to our Unitholders.
25	We are not fully insured against some business risks and the occurrence of accidents that cause losses in excess of limits specified under our policies, or losses arising from events not covered by our insurance policies, such as damage caused to our property and equipment due to war, which could adversely affect our business and results of operations. While we believe that we have industry standard insurance for our Portfolio, if a fire or natural disaster substantially damages or destroys some or all of our assets in the Portfolio, the proceeds of any insurance claim may be insufficient to cover any expenses faced by us, including rebuilding costs.
26	Under the REIT Regulations, a REIT is required to hold assets acquired by it for a period of three years from the date of purchase and in case of under-construction properties or under-construction portions of existing properties acquired by it, three years from the date of their completion. Additionally, any sale of property or shares of Asset SPVs exceeding 10% of the value of the REIT assets will require prior approval of the Unitholders. These factors could have an adverse effect on our business, financial condition and results of operations.
27	Any disagreements with our collaborators or joint venture partners or any delay or failure to satisfy the terms and conditions set-out in the binding agreements with such collaborators or the joint-venture partners, may adversely impact our business and operations.
28	We do not own the trademarks or logos for "Mindspace", "Mindspace Business Parks", "K Raheja Corp", "Commerzone" "CAMPLUS" and "The Square" that are associated with our Portfolio. Further, we do not own the trademark or logo for "Mindspace Business Parks REIT" and "Mindspace REIT". These trademarks and logos are licensed to our Asset SPVs, the Manager and us, as applicable, by the Sponsors or Sponsor Group entities who are either the registered owners of these trademarks and logos or have made applications for registered ownership some of which are pending. We may not be able to prevent infringement of the trademark, and a passing off action may not provide sufficient protection. Accordingly, we may be required to litigate to protect our trademark and logo, which could be time consuming and expensive and may adversely affect our business and results of operations.
29	Our Asset SPVs may, in the future be exposed to a variety of risks associated with development of an Integrated IT Township, which may adversely affect our business, results of operations and financial condition.
30	Land is subject to compulsory acquisition by the government and compensation in lieu of such acquisition may be inadequate. Additionally, we may be subject to conditions of use or transfer of land wherever such land is subject to orders under the Urban Land (Ceiling and Regulation) Act, 1976.

RF No.	Risk Factors as on March 31, 2024
31	The on-going Russia-Ukraine conflict, Israel-Iran conflict and the Israel-Hamas conflict, supply chain disruptions, inflation / increase in commodity prices could result in a wide range of economic consequences, financial instability and could potentially impact projects under development and our business, results of operations and financial condition.
32	Fluctuations in the exchange rates between the Indian Rupee and other currencies will affect the foreign currency equivalent of the Indian Rupee price of the Units. Such fluctuations will also affect the amount that holders of the Units will receive in foreign currency upon conversion of cash distributions or other distributions paid in Indian Rupees by us on the Units, and any proceeds paid in Indian Rupees from any sale of the Units in the secondary trading market. This may have an adverse effect on the price of our Units, independent of our operating results. For instance, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future.
33	Our portfolio is subject to risks inherent in ownership interests in properties as some of the properties in which we have an interest are part of a larger development which comprises certain areas which are held by or are adjacent to or incorporate common or other areas which are shared with owners of neighbouring properties. Any development or asset enhancement works that we propose for such properties may require the consent and cooperation of these owners, which may not be forthcoming in a timely manner or at all, or on terms acceptable to us. Our inability to obtain the requisite consent may affect our ability to deal with our interests in some of our properties in a manner which achieves our objectives and in turn could have a material adverse impact on our business, financial condition, results of operations, cash flows and prospects.
34	We are exposed to a variety of risks associated with safety, security and crisis management. Serious incidents or a combination of events, including but not limited to, exceptional events such as extreme weather, civil or political unrest, violence and terrorism, serious and organized crime, fraud, employee dishonesty, cybercrime, pandemics, fire and day-to-day accidents, incidents, health crises of guests and petty crime which impact the tenant, consumers, hotel guest or employee experience, could cause loss of life, sickness or injury and result in compensation claims, fines from regulatory bodies, litigation and impact our reputation and such events which are not in our control could result in a crisis which, if managed poorly, could further expose us and our Asset SPVs to significant reputational damage. Any accidents or any criminal activity at our properties may result in personal injury or loss of life, substantial damage to or destruction of property and equipment resulting in the suspension of operations. While we maintain insurance on property and equipment in amounts believed to be adequate and consistent with industry practice, we may not be able to cover all losses we may incur in our business operations.
35	We may not be able to successfully complete future acquisitions or efficiently manage the assets we may acquire in the future. Further, any of our acquisitions in the future may be subject to acquisition related risks.
36	Some or all of our under construction area and future development area may not be completed by their expected completion dates or at all. Such delays could affect its estimated construction cost and timelines resulting in cost overruns, which in turn could adversely affect our reputation, business, results of operations and financial conditions.
37	We depend on the Manager and its personnel for our success, along with for managing our business, assets and results of operations. We may not find a suitable replacement for the Manager if the Investment Management Agreement is terminated or if any key personnel of the Manager ceases to be employed by the Manager or otherwise become unavailable to us.
38	We rely on third party operators to successfully operate and manage certain assets. Any deficiency or interruption in their services may adversely affect our business.

E. KRIT

(i) Title litigation and irregularities

1. Softsol India Limited ("**Softsol**") and others ("**Petitioners**") have filed writ petition on February 8, 2013 in the Hyderabad High Court ("**Court**") against KRIT (wrongly named as M/s. K Raheja Corporation) and others ("**Respondents**") *inter alia* seeking declaration (a) that the allotment of land admeasuring approximately 4500 square yards (3763 sq m) ("**Suit Land**") of land adjacent to Softsol's plot is illegal and (b) for handover of the same to the Industrial Area Local Authority ("**IALA**"), being one of the Respondents, for developing the Suit Land as a common facility centre / area / park for general use by software companies. The Suit Land is part of the land admeasuring approximately 110 acres allotted by the Government of Andhra Pradesh to KRIT for the Mindspace Madhapur project.

By an ex-parte interim stay order dated February 11, 2013 ("**Stay Order**"), it was *inter alia* directed by the Court that, no construction activity shall be undertaken or continued over the triangular piece of 2 acres 40 cents of land earlier identified at the time of allotment as 'Common Facility Centre' in the software layout. IALA and APIIC have filed affidavits opposing the writ petition, confirming the allotment and rights of KRIT in the Suit Land, and for vacating the Stay Order. The matter is pending before the Court.

Greater Hyderabad Municipal Corporation ("**GHMC**") had filed an application in the Court for clarification that the Stay Order does not preclude GHMC from acquiring a portion of 0.14 acres (approximately 567 square meters) for road widening. Subsequently, GHMC has acquired the portion of land and constructed the road.

The matter was heard by the Court and the writ petition was dismissed and the Stay Order was vacated. By way of abundant caution, KRIT filed a caveat before the Court.

(ii) Criminal matters

1. Sharmin Habib ("**Complainant**") lodged a first information report ("**FIR**") on October 10, 2017 with the Madhapur Police Station alleging that certain staff members of the Raheja Group ("**Accused**") prevented the Complainant and a staff from entering the premises for conducting the business of a day care centre in the name of Kidz Paradise in Building No. 2.B, Mindspace Madhapur (KRIT), and harassed them. The concerned investigating officer has filed final report dated November 16, 2017 of the matter before the Metropolitan Magistrate, Kukatpally at Miyapur, Cyberabad ("**Court**"), stating *inter alia*

that while there was a rental dispute between the Complainant and the Accused which was pending in the Court, the particular incident was in relation to a regular security aspect of access in the IT Park being allowed on showing identity card, whereas Complainant tried to enter without showing identity card. The investigating officer also reported that the Complainant did not comply with the notices under Section 91 of the Criminal Procedure Code, and that no such incident had occurred as alleged by the Complainant. The investigating officer further recorded that the complaint was filed on completely flimsy grounds and filed the final report before the Court recommending closure of the case on basis of lack of evidence. The matter is currently pending.

(iii) Regulatory actions

1. The Comptroller and Auditor General of India ("**CAG**") had issued a report on public sector undertakings for the year ended March 2016 ("**CAG Report**") where certain audit observations were made with respect to certain public sector undertakings including: (a) a low rate of return on investments made by APIIC (now, TSIC) in KRIT; (b) allocation of the development and construction of complexes for IT and ITES companies to K. Raheja Corporation Private Limited by the erstwhile Government of Andhra Pradesh ("**GoAP**") without adopting a due tender process; (c) transfer of certain portion of land to non-IT/ITES sister companies of the KRC group, namely, Trion Properties Limited - Inorbit Malls and Chalet Hotels- Westin Hotel at a discounted price, in violation of GoAP directions dated August 11, 2003 and without prior consultation with APIIC, pursuant to the demerger of KRIT. KRIT responded to the observations under the CAG report by its letter dated September 21, 2017 submitting its issue-wise detailed explanations and explaining various factual inaccuracies in respect of the said observations under the CAG Report, denying the irregularities and deficiencies. No further correspondence has been received.

2. KRIT had proposed a rights issue of shares in which Andhra Pradesh Industrial Infrastructure Corporation ("**APIIC**") (now, TSIC) abstained from subscribing to the rights shares. Consequently, upon closure of the rights issue subscription by the other shareholders of KRC group, the stake of APIIC in KRIT reduced from 11%. Thereafter, upon demerger of certain undertakings of KRIT into Intime and Sundew, the APIIC's stake reduced in each of these entities instead of what it was initially at 11%. Such rights issue of shares was undertaken in compliance with applicable law and agreement between the parties, and after KRIT had waited over one year for APIIC to decide.

as on March 31, 2024

Subsequently, APIIC / GoAP disputed such dilution of their stake in KRIT, Intime and Sundew, which led to an inquiry by Vigilance and Enforcement Department of GoAP against the Government Officials and correspondingly, KRIT. APIIC issued a letter dated July 10, 2012 to KRIT, referring to a report of vigilance and enforcement department (“VED Report”) in relation to the Mindspace Madhapur project. Subsequently, the equity stake of APIIC was restored to 11% in KRIT, Intime and Sundew together with compensating APIIC for any loss of corporate benefits in the intervening period. The VED Report alleged certain irregularities, which include alleging a financial loss to APIIC and GoAP pursuant to sale of the land to its sister concerns and sale of constructed area, at a nominal price, dilution of 11% equity stake of APIIC and loss of immovable asset base to APIIC due to the dilution of equity.

KRIT denied such irregularities, violations or financial loss caused to APIIC /GoAP. While denying the loss alleged by APIIC, KRIT, Intime and Sundew provided a joint undertaking dated February 14, 2014 to APIIC *inter alia* undertaking (i) to pay the amounts to APIIC in respect of APIIC’s claim of losses, due to any differences in values pertaining to the sale transactions in Mindspace Madhapur project; (ii) that payments shall be made by KRIT within 30 days of receipt of such written demand from APIIC; and (iii) that KRIT shall be bound by the decision of APIIC and comply with the same within the stipulated timelines.

KRIT has further provided an undertaking dated October 24, 2016 to APIIC, *inter alia* undertaking to pay losses incurred by Government of Telangana /APIIC as per the VED Report and to maintain the agreed shareholding of the Government of Telangana or APIIC in KRIT, Intime and Sundew post conversion of KRIT to public limited company and the Government of Telangana/ APIIC will not be required to infuse additional funds to maintain its equity stake in KRIT, Intime and Sundew.

While KRIT has attempted to make payments to the extent of the loss incurred by APIIC along with interest, by letter dated April 23, 2019, APIIC has confirmed to KRIT that it will be informed about the quantum of the amount to be paid, once the quantum of loss is determined by an independent third party appointed for such purpose. KRCPL, by way of its letter dated December 9, 2019, has undertaken that it shall assume any financial liability that KRIT, Intime or Sundew may incur in this behalf.

area as per lease deeds) in Commerzone Yerwada, one of our Portfolio, are situated. MBT, as the owner of 79.32 acres land (**"MBT Land"**), had executed a registered development agreement in 2004 with KRCPL with respect to the Commerzone Land. Commerzone Yerwada land, which includes the rights in demarcated portions of the Commerzone Land, was transferred from KRCPL to MBPPL pursuant to the scheme of arrangement sanctioned on September 7, 2017). Neither KRCPL nor MBPPL is joined as a defendant to the suit.

The Plaintiff is seeking, *inter alia* declarations and injunctions in his favour in relation to ownership and possession of the Suit Land and to set aside compromise decrees passed in (i) 1953 in Suit No. 152/1951; (ii) 1990 in Suit No. 1622/1988; and (iii) 2003 in Civil Appeal No. 787/2001; all in proceedings between MBT and the State of Maharashtra.

The Plaintiff also filed an application for temporary injunction which is pending. No interim or ad-interim relief has been granted to the Plaintiff. MBT applied to the Civil Court for rejection of the plaint filed by the Plaintiff on the grounds of limitation, which was rejected by order dated April 29, 2014. MBT filed revision petition against the said rejection order, in the Bombay High Court, which was dismissed on April 26, 2016. MBT filed SLP No.18977 of 2016 against the said dismissal order, which is pending before the Supreme Court of India.

The Plaintiff filed an application on March 9, 2015 in the Civil Court for amendment to the prayers in the suit, *inter alia* to limit the Plaintiff's claim for possession only with regard to vacant land in possession of the Defendants and lands alienated subsequent to the filing of the suit, and to seek compensation from MBT with regard to constructed units and alienated part of the Suit Land instead of seeking possession of the developed portion for which registered deed with regard to alienation were executed prior to the filing of the suit in 2009. The application for amendment of the plaint was rejected by the Civil Court by its order dated November 14, 2016. Aggrieved, the Plaintiff filed Writ Petition No. 4268/2017 in the Bombay High Court challenging the said order dated November 14, 2016, which is currently pending before the Bombay High Court.

Two applications made by third parties, being M/s. Mahanagar Developers and M/s. Mahanagar Constructions for being joined as party defendants in the suit, were granted on November 14, 2016 by Civil Court. The Plaintiff challenged this order by filing Writ

Petition No. 4415/2017 in the Bombay High Court. By a common order dated February 15, 2018 passed in the aforesaid two writ petitions (Nos. 4268/2017 and 4415/2017), the Bombay High Court requested the trial judge not to proceed in considering any interim application, till the adjourned date of hearing of these petitions. These matters, including the suit, are currently pending.

The Plaintiff registered a notice of lis-pendens dated July 7, 2011 in respect of the Suit No.133/ 2009 and applied for mutation in the revenue records. Purshottam M. Lohia, a trustee of MBT and Panchashil Tech Park Private Limited (an entity claiming certain rights in survey No.191A Yerwada village) ("**Panchashil**") opposed the mutation, which opposition was rejected. Panchashil filed appeal before the District Superintendent of Land Records and relied on the government notification dated September 21, 2017 directing revenue authorities to remove or cancel all mutations entries in respect of notice of lis-pendens ("**Notification**").

- Ravindra Laxman Barhate filed complaint and revenue proceedings against Shri Mukund Bhavan Trust ("**MBT**") and others in relation to the allotment and exemption order under the Urban Land Ceiling Act, 1976 in respect of the MBT Land (as mentioned in para 1 above).

A complaint was filed on November 27, 2015 by Ravindra Laxman Barhate with the Divisional Collector Pune and other authorities, against MBT and others (together, "**Respondents**") alleging tampering, cheating as also breach of terms and conditions by the Respondents *inter alia* with respect to order dated November 24, 2003 passed under Section 20(1) of the Urban Land Ceiling Act, 1976 in respect of the MBT Land at Yerwada, Pune ("**ULC Order**") and seeking action against the Respondents and cancellation of the ULC Order.

MBT filed a writ petition before the Bombay High Court, for quashing any enquiry / investigation on the basis of the said complaint filed by Ravindra Laxman Barhate. By order dated March 5, 2018, the Bombay High Court has restrained the Additional Collector from passing any order on this complaint until the next hearing date. Through its order dated January 6, 2020, the Bombay High Court *inter alia* restrained the State of Maharashtra and certain other respondents from passing any order pursuant to the complaint filed on November 27, 2015 until disposal of the writ petition. The matter is currently pending.

Ravindra Laxman Barhate also filed a Revenue Appeal No.1826/2015 before the Revenue Minister, State

of Maharashtra ("**Revenue Minister**") against the Commissioner & Collector, Pune and MBT, challenging a report dated June 20, 2011 of the Divisional Commissioner, Pune ("**Report**") wherein MBT was stated to be the owner of the MBT Land (which include the demarcated portions of the land pertaining to Commerzone Yerwada); *inter alia* to set aside the Report, pass an order directing the relevant authorities to submit a new inquiry report and restrain the purchase-sale, construction on the disputed land. By way of order dated September 23, 2015, the Revenue Minister ordered that status quo be maintained as regards the record of the suit property.

MBT had filed a writ petition challenging the order dated September 23, 2015 passed by the Revenue Minister. Since the State Government of Maharashtra withdrew the said order dated September 23, 2015, stating that the pending proceedings will be heard by the Principal Secretary, Revenue Department, the said writ petition was disposed of by order dated October 28, 2015 as not surviving while keeping open all contentions of both the parties on merits. MBT challenged the said Order dated October 28, 2015 in the Supreme Court of India ("**Court**") *inter alia* on the ground of maintainability of such proceedings before the Principal Secretary, Revenue Department. By order dated January 21, 2016, the Supreme Court of India has stayed the proceedings pending before the Principal Secretary, Revenue Department. By order dated August 6, 2021, the Court allowed the appeal by setting aside the impugned order dated October 28, 2015 of Bombay High Court and restored the aforesaid writ petition to the file of the Bombay High Court to facilitate the Bombay High Court revisiting the petition afresh. The Court clarified that the setting aside of the impugned order dated October 28, 2015 will not have any consequence in regard to the statements which have been recorded of the State of Maharashtra to withdraw the order dated September 23, 2015.

- The Office of the Land Reforms Tribunal & Revenue Divisional Officer, Hyderabad ("**Tribunal**") had by its letter dated August 11, 2009, sought certain information from Serene Properties Private Limited (now MBPPL) under Section 8(2) of the Andhra Pradesh Land Reforms (Ceiling on Agriculture Holdings) Act, 1973 ("**APLRAC**") in respect of the land at Mindspace Pocharam.

Serene has filed a reply on September 30, 2009. The authorized officer has filed a counter and Serene has filed a rejoinder dated August 29, 2012. Serene has stated that the land transferred in favour of MBPPL was notified

for industrial use and has been declared as an SEZ and is not "land" covered under the APLRAC. The proceedings are pending before the Special Grade Deputy Collector and Revenue Divisional Officer, Ranga Reddy District. In September 2012, MBPPL also submitted to the Tribunal a copy of the order dated August 9, 2012, which was passed by the Hon'ble High Court of Andhra Pradesh ("**High Court**") in a similar matter (being Writ Petition No. 19300/2012 filed by Neogen Properties Pvt. By letter dated January 5, 2022, to the architect firm and another, PMC stated that it has informed them earlier to make the payment of the objectionable and recoverable amount along with the interest in the treasury of PMC as per the scrutiny carried out by the Chief Auditor, PMC ("**CA**") of the sanctioned building plans in respect of land at Commerzone Yerwada. In pursuance of the same, the revised/rectified challans were being issued by PMC upon the verification of the written clarification provided by the Architect and another. However, if any objection is raised or received in respect of the revised/rectified challans from the CA shall be bound to take action or act as per the instructions given by the CA. In reply to the PMC letter dated January 5, 2022, MBPPL on January 25, 2022 submitted a reply/letter to PMC and its officers stating that without prejudice to its contentions, rights and remedies and without admitting any liability to pay any amount under the four revised challans dated January 4, 2022 ("**Challans**") an aggregate amount of ₹ 26.64 million i.e. (₹ being development charges, ₹ 6.53 million being balcony charges and ₹ 20.11 million being staircase charges) towards the payments in full and final settlement of the Challans in order to show bonafide of MBPPL and full and final settlement of all accounts and demands raised by PMC and requested PMC to accept the payment accordingly without any further demands on MBPPL on any account and to treat the matter as closed.  4. MPCB, pursuant to the meeting of its Consent Appraisal Committee ("**CAC**") held on December 12, 2017, issued a show cause notice dated June 5, 2018 to Trion Properties Pvt. Ltd. (prior to demerger of mall and IT undertakings from Trion Properties Pvt. Ltd. to MBPPL) in relation to certain non-compliances with environmental clearance for one commercial building (approximately 0.56 msf of leasable area as per lease deeds) forming part of The Square, Nagar Road project, and directed MBPPL to stop work on the project until a valid consent is obtained from it.

Earlier, Trion Properties Pvt. Ltd. had obtained environment clearance on May 8, 2007 and consent to operate dated September 30, 2011 which was renewed from time to time. In the renewal of consent to operate application dated August 27, 2013, MPCB had specified the requirement for applying separately for environment clearance and consent to operate for additional construction area. By application dated March 17, 2017 Trion Properties applied for renewal of consent to establish for IT building and for correction of built-up area of the mall building.

By letter dated March 20, 2018, MBPPL (as the successor of Trion) referred to the observations requested the MPCB to grant the consent to establish and replied to the alleged non-compliances observed by the MPCB. Further, on August 18, 2018, the CAC requested for certain details for considering MBPPL's consent to establish application. MBPPL provided the requested details to the CAC on September 4, 2018. On January 19, 2019, CAC requested MBPPL to contact the concerned person for taking prior appointment of the chairman for the presentation.

MBPPL has made an application dated December 11, 2019 to MPCB to obtain consent to operate, for the IT building at The Square, Nagar Road. By reply dated August 24, 2020, MBPPL provided the required clarifications and details, and requested for processing the application and issuing the necessary consent to operate. The CAC, in its meeting held on December 4, 2020, has approved to grant the consent to operate subject to MBPPL submitting the amended environmental clearance in the name of MBPPL and after payment of additional consent fees. By letter dated October 14, 2021 to Member Secretary, CAC, MBPPL stated that MBPPL had issued a bank guarantee for ₹ 1 million ("**BG**"). However, MBPPL observed that the CTO had a condition that the BG was being forfeited since the IT park was operative since 2016 without obtaining consent to operate by MBPPL. MBPPL further stated that since the date of application i.e. December 30, 2015, no objection was received and it was deemed approved and accordingly, the proposed forfeiture of the aforesaid BG should not be effected and thereby requested for withdrawal of the proposal of forfeiture of BG.

Business Responsibility & Sustainability Report (BRSR) FY24 (Contd.)

26. Overview of the entity’s material responsible business conduct issues

Sr. No.	Material Issue Identified	Indicate whether risk or opportunity	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Portfolio Growth	Opportunity	Portfolio expansion will lead to increased use of resources, energy consumption, emissions, and waste generation. Therefore, there will be an increase in the environmental and social impacts arising from various construction and operational activities.	-	Positive
2	Active Asset Management	Opportunity	Investment decisions are linked with the composition of the portfolio. The assets/ investments and their ESG metrics will directly and indirectly impact Mindspace REIT's portfolio-level ESG performance. Therefore, active asset management will be crucial to reduce the company's environmental and social impacts.	-	Positive
3	Human Capital Development	Risk	Mindspace REIT's operations are people-centric, and the business model is customer-centric. Customer satisfaction drives the company's business growth. Therefore, employees need to be well versed with the latest industry, economic, and other trends and have the requisite skills relevant to our business in order to continue generating value for customers.	Providing growth opportunities and avenues for employee skill enhancement will enhance employee satisfaction. This, in turn, will reduce attrition and improve the efficiency of operations. Training the employees and equipping them with the latest information ensures that they are interested in their work and enhances the quality of work in the long run.	Negative
4	Labor Management	Risk	Labor-related issues are critical for Mindspace REIT operations as we employ a significant share of our workforce on a contract basis through third-party vendors for services like security, housekeeping, canteen staff, etc. The inability to maintain good relations with labor or workers leads to strikes, disruptions to operations, and reduced work efficiency, impacting the overall business.	Adopting positive labor management practices offers an opportunity to reduce potential business disruptions, loss of productive time, and possible damage to the property. In the long run, positive labor practices have been shown to keep employees interested in their jobs and motivated.	Negative
5	Health and Safety	Risk	Ensuring the safety of the premises for employees, tenants, visitors, guests and contract employees is key to our business continuity and growth. Any safety violations in the locations can lead to harmful accidents for the stakeholders, resulting in loss of productivity and productive time. If any external visitors are harmed due to unsafe premises, it will lead to prosecutions, insurance claims, investigations, etc., which are time-consuming and costly apart from impacting the brand.	Healthy and safe premises reduce potential business disruptions, loss of productive time, and possible damage to the property. In the long run, good Health & Safety initiatives have deepened stakeholder trust and improved business value.	Negative

Sr. No.	Material Issue Identified	Indicate whether risk or opportunity	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6	Human Rights	Risk	Human rights violations can have significant adverse impacts on business parks and the companies operating within them, as they can lead to a wide range of social, economic, and legal repercussions. Such violations can also lead to short-term or long-term operational disruptions. Mindspace REIT has issued a 'Suppliers Code of Conduct' policy, guiding all the employees and vendors working with the company to avoid Human Rights violations.	Protection of human rights is crucial to reduce potential business disruptions and loss of money and time due to potential fines/prosecutions.	Negative
7	Data Privacy and Security	Risk	As a portfolio manager with several business parks, Mindspace REIT captures a variety of information from tenants, visitors and other stakeholder groups. This information could be considered personally identifiable information (PII), which means any information that can be used to identify an individual with/ without their explicit consent. Therefore, it is critical for the company to ensure all the data privacy and security measures are implemented to avoid any violations or data leaks. Incidents like data leaks or violations have legal repercussions, can attract fines and penalties, and adversely impact the company's reputation.	Strong data privacy and security policies and procedures offer clients confidence in the organization.	Negative
8	Green Building Certifications - Development and Existing Portfolio	Opportunity	Green Building certifications offer an opportunity to demonstrate that the organization is responsible and committed to managing environmental impact at every stage of a building. For the buildings in the construction phase - such certifications represent the company's approach and commitment to utilizing resources responsibly while generating minimal waste and incorporating sustainable building materials. For buildings in the operational phase - resource requirement for day-to-day operations is optimized, which reduces operational costs and carbon footprint.	-	Positive
9	Energy and Emissions Management (Energy Performance Index)	Opportunity	When a company focuses on measures to optimize energy efficiency, it leads to resource conservation and reduction in operational costs. Such initiatives also facilitate a reduction in the company's overall environmental footprint. Energy and emissions volumes are also linked with the building's energy performance index (EPI). EPI is a key metric for benchmarking energy usage in any commercial building or occupied office spaces wherein the energy used per unit area is measured annually in kWh/m ² /year.	-	Positive

Sr. No.	Material Issue Identified	Indicate whether risk or opportunity	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
10	Waste Management	Risk	Improper waste disposal may contaminate surface water, groundwater, and seawater, negatively impacting the surrounding plant and animal species and human health. Impacts can be minimized by adopting effective waste management measures, such as recovery and disposal through third-party waste processing facilities, etc., adhering to local laws and regulations.	MindSpace REIT has adopted a Zero Waste to Landfill policy as a responsible organization.	Negative
11	Water & Wastewater Management	Risk	Water availability is critical for our operations as we develop and lease office spaces that house large workforces of our tenants. Therefore, the seamless availability of water is crucial to running the day-to-day operations of our business parks and tenant operations. The responsible management of wastewater generated within the premises, including its recycling and reuse, is critical to minimize possible adverse environmental and social impacts.	Conservation measures ensure the continuous availability of water throughout the operations while reducing dependency on freshwater use.	Negative
12	Land use & Biodiversity	Risk	Development of business parks requires huge land parcels either within the urban boundaries or in close vicinity. Construction on any land that was earlier, either part of forest areas or agricultural activities, will directly impact the surrounding environment. Further, local communities residing near or around the development site can be impacted due to noise pollution, fugitive emissions, etc.	Environmental Due diligence, such as the Biodiversity Impact Assessment, will ensure the organization makes an informed decision.	Negative
13	Resource Consumption Efficiency	Risk	Resource consumption efficiency refers to maximizing the use of resources while minimizing waste generation and reducing the environmental impact.	Optimizing the use of resources leads to the overall reduction in the organization's operating cost of a company while driving the sustainability agenda.	Negative
14	Climate Risks and Opportunities	Risk	Considering the increasing frequency of events associated with climate change, such as flooding, extreme heat, drought, cyclones, land sinking, earthquakes, etc., the expected impact on the built environment will be significant. Currently, there are limited studies that provide insights into the impact of rising temperatures on existing buildings. Therefore, it is essential to understand our company's potential business risks and opportunities and incorporate aspects of climate resilience within the portfolio. Such factors can be a part of the company's Business continuity plan, which is prepared to counter the unexpected disruptions caused by climate-related extreme events.	Reducing climate-related impact on the environment and organization by taking targets, which are in alignment with SBTi. Includes adopting technologies that support decarbonization and eventually help achieve Net Zero emissions.	Negative

15	Embodied Carbon and Lifecycle Management	Opportunity	Embodied carbon refers to the amount of carbon dioxide (CO2) and other greenhouse gases (GHGs) emitted during the manufacture, transport, and construction of building materials, together with end-of-life emissions, i.e., emissions during the operational phase of the building. In comparison, lifecycle management would include emissions management through the lifecycle of the building across the design, construction and operational phases, and demolition.	-	Positive
16	Sustainable design	Opportunity	Sustainable design is a requirement/recommendation from rating agencies such as GRESB and external frameworks. Sustainable design focuses on creating structures that have minimal impact on the environment by following environmentally responsible and resource-efficient principles throughout a building's lifecycle, from planning to design, construction, operation, maintenance, renovation, and demolition.	-	Positive
17	Regulatory Compliance	Risk	Regulatory compliance entails fulfilling all the statutory requirements and avoiding any kind of non-compliance, as it could lead to operational disruptions. In some cases, non-compliance also has monetary repercussions, such as fines and penalties. Therefore, compliance with all the regulations is essential for smooth functioning and is directly linked to social and governance aspects. In addition, non-compliance to environment-related regulations can adversely impact the surrounding environment and communities.	Compliance with all applicable regulations is mandatory.	Negative
18	Supply Chain Management	Risk	Supply chain management entails having good relations with the company's suppliers/vendors. These are critical for the uninterrupted operations of the company, as the quality of raw materials can impact a building's lifespan and the cost incurred during maintenance activities. A timely supply of materials will enable the completion of construction activities on time.	Supply chain optimization and planning.	Negative

Corporate governance essentially involves balancing the interests of the company's stakeholders, such as investors/shareholders, senior management, customers, suppliers, financiers, the government, and the community. Corporate governance covers aspects like awareness about various developments within the sector and geographic locations, business ethics, growth strategy, compensation, and risk management. Good corporate governance will include minimal adverse impacts on the environment and society.	-	Positive
20	Tenant Relationships and Customer Satisfaction	Opportunity	Relationships with tenants will have an impact on the operations of the leased spaces, affecting the environmental and social parameters, which in turn will affect the overall organizational goals. Further, considering our business model, the majority of the stakeholder category comprises tenants. Therefore, there is a significant impact on the social aspects.	-	Positive
21	Community Relations	Opportunity	Good community relations are crucial for the long-term sustainability of any business. Communities are one of the key stakeholder groups impacted by a company's operations on the social and environmental front. This can help attract potential customers and valuable employees and increase loyalty among existing employees.	-	Positive

We have audited the accompanying standalone financial statements of Mindspace Business Parks REIT (the "REIT"), which comprise the Standalone Balance Sheet as at March 31, 2024, the Standalone Statement of Profit and Loss including Other Comprehensive Income, the Standalone Statement of Cash Flows and the Standalone Statement of Changes in Unitholders' Equity for the year then ended, Standalone Statement of Net Assets at fair value as at March 31, 2024 and Standalone Statement of Total Returns at fair value for the year then ended, Statement of Net Distributable Cash Flow for the year then ended, and a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Securities and Exchange Board of India (Real Estate Investment Trusts) Regulations, 2014 as amended from time to time including any guidelines and circulars issued thereunder read with SEBI Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2023/116 dated July 6, 2023 (the "REIT regulations") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India to the extent not inconsistent with the REIT Regulations, of the state of affairs of the REIT as at March 31, 2024, and its profit including other comprehensive income, its cash flows, its changes in unitholders' equity for the year ended March 31, 2024, its net assets at fair value as at March

31, 2024, total returns at fair value and the net distributable cash flows of the REIT for the year ended on that date and other financial information of the REIT.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"), issued by Institute of Chartered Accountants of India (the "ICAI"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibility for the Audit of the Standalone Financial Statements' section of our report. We are independent of the REIT in accordance with the Code of Ethics issued by the ICAI and we have fulfilled our other ethical responsibilities in accordance with the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of matter

We draw attention to Note 2 which describes the Basis of preparation of standalone financial statements and Note 13(a) (i) which describes the presentation of "Unit Capital" as "Equity" instead of compound financial instrument to comply with the REIT Regulations. Our opinion is not modified in respect of this matter.

Key Audit Matter

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the standalone financial statements of the current period. This matter was addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter:

Fair Value of investments in special purpose vehicles (SPVs) :

In accordance with REIT Regulations, the REIT discloses Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value which requires fair valuation of assets and liabilities. As at March 31, 2024, the carrying value of total assets was ₹ 201,911 million, out of which carrying value of investments in SPVs was ₹ 154,103 million representing 76% of carrying value of total asset.

The fair value of investments in SPVs is primarily determined basis the fair value of the underlying investment properties as at March 31, 2024.

The fair value of investment properties is determined by an independent valuer using discounted cash flow method and mix of market approach and discounted cash flow method, as applicable.

While there are several assumptions that are required to determine the fair value of investment properties; assumptions with the highest degree of estimate, subjectivity and impact on fair values are forecasted market rent, terminal capitalization rate and discount rate. Auditing these assumptions required a high degree of auditor judgement as the estimates made by the independent valuer contains significant measurement uncertainty.

Refer Statement of Net assets at fair value and Statement of total returns at fair value and Note 4 – Investments in the standalone financial statements.

Auditor's Response:

Principal Audit Procedures Performed :

Our audit procedures related to the forecasted market rent, terminal capitalization rates and discount rate used to determine the fair value of investment properties included the following, among others :

- Read the requirements of SEBI REIT regulations for disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.
- We obtained the independent valuer's valuation reports to obtain an understanding of the source of information used by the independent valuer in determining these assumptions.
- We tested the reasonableness of inputs shared by management with the independent valuer by comparing it to source information used in preparing the inputs.
- We evaluated the reasonableness of management's forecasted market rent by comparing it with sample of lease agreements for market rentals, contractual lease escalations and other market information, as applicable.
- With the assistance of our fair valuation specialist, we evaluated the reasonableness of forecasted market rent, terminal capitalization rates and discount rate by comparing it with market information such as recent market transactions for comparable properties, market surveys by property consultants and broker quotes, as applicable.

Information Other than the Financial Statements and Auditor's Report Thereon

- K. Raheja Corp Investment Managers Private Limited (formerly known as K. Raheja Corp Investment Managers LLP (the 'Investment Manager') acting in its capacity as an Investment Manager of REIT is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements, consolidated financial statements and our auditor's report thereon.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Board of Directors of the Investment Manager (the "Management") is responsible for the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows, changes in unitholders' equity, net assets at fair value, total returns at fair value and the net distributable cash flows of the REIT in accordance with the requirements of the REIT Regulations, the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with REIT Regulations. This responsibility also includes maintenance of adequate accounting records for safeguarding the assets of the REIT and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors of Investment Manager is responsible for assessing the REIT's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the REIT or to cease operations, or has no realistic alternative but to do so.

The Management is also responsible for overseeing the financial reporting process of REIT.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with the SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the REIT's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may

cast significant doubt on the REIT's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the REIT to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the Standalone financial statements of the REIT to express an opinion on the standalone financial statements.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit and as required by REIT regulations, we report that:

- We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- The Standalone Balance Sheet, the Standalone Statement of Profit and Loss including Other Comprehensive Income, the Standalone Statement of Cash Flows, the Standalone Statement of Changes in Unitholders' Equity, and Statement of Net Distributable Cashflows dealt with by this Report are in agreement with the relevant books of account of the REIT.

- In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) read with Emphasis of matter paragraph above and other accounting principles generally accepted in India, to the extent not inconsistent with REIT Regulations.

E	NAV (C/D)	₹	280	373	280	364

Notes

1) Measurement of fair values:

The fair values of Investments in SPV are computed basis the fair value of Investment property, Property, plant and equipment, Investment property under construction and Capital work-in-progress which are solely based on an independent valuation performed by an external property valuer (independent valuer), having appropriately recognized professional qualification and recent experience in the location and category of the properties being valued.

Other assets include cash and cash equivalents and other working capital balances which are not factored in the discounted cashflow method used in determining the fair value of investment property, investment property under development, property, plant and equipment, capital work-in-progress and intangibles.

Valuation Technique

The fair value measurement for all of the Investment property, Property, plant and equipment, Investment property under construction and Capital work-in-progress (excluding Pocharam) has been categorized as a Level 3 fair value based on the inputs to the valuation technique used. The valuer has followed a Discounted Cash Flow method, except for valuation of land for future development where the valuer has adopted Market Approach or Government Benchmark Price / Guideline Value as may be applicable. The Discounted Cash Flow valuation model considers the present value of net cash flows to be generated from the respective properties, taking into account the expected rental growth rate, vacancy period, occupancy rate, and lease incentive costs. The expected net cash flows are discounted using the risk adjusted discount rates. Among other factors, the discount rate estimation considers the quality of a building and its location (prime vs secondary), tenant credit quality, lease terms and investor return expectations from such properties. The existing buildings in Pocharam are unoccupied. Considering the absence of leasing demand in the near term, and therefore no expected income stream and also since the asset is held for sale, the Valuer has opted for the Cost Approach. Under this method, the land component is assessed using the Comparable Sales/Quoted Instances Method under the Market Approach while building and plant & machinery components have been valued using the Depreciated Replacement Cost Method.

2) Break up of Net asset value as at March 31, 2024

Particulars	As at March 31, 2024	As at March 31, 2023
Fair Value of Investments in SPVs	209,012	203,208
Add: Other assets*	47,808	35,421
Less: Liabilities	(35,643)	(22,483)
Net Assets	221,177	216,146

*Other assets includes cash and cash equivalents, loans to SPVs and other working capital balances which are not factored in the discounted cashflow method used in determining the fair value of investment property, investment property under development, property, plant and equipment, capital work-in-progress and intangibles.

3) The Trust holds investment in SPVs which in turn hold the properties. Hence, the breakup of property wise fair values has been disclosed in the Consolidated financial statements.

B) Statement of Total Returns at fair value

S. No	Particulars	For the year ended March 31, 2024	For the year ended March 31, 2023
A	Total comprehensive income	11,612	11,491

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most material effect on the amounts recognized in the Standalone Financial Statements is included in the following notes:

- Presentation of "Unit Capital" as "Equity" in accordance with the SEBI REIT Regulations instead of compound instrument (Note no 13)
- Impairment and Fair valuation of Investments in SPVs and impairment of loans to SPVs.
- recognition and measurement of provisions for contingencies and disclosure of contingent liabilities (Note 30 (a))

d) Current versus non-current classification

Mindspace REIT presents assets and liabilities in the Balance Sheet based on current/ non-current classification:

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting date; or

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting date; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Mindspace REIT classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. Mindspace REIT has identified twelve months as its operating cycle.

e) Measurement of fair values

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability and how market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Mindspace REIT accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Mindspace REIT has an established control framework with respect to the measurement of fair values.

Mindspace REIT regularly reviews significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values then the finance team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

Notes to the Standalone Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

When measuring the fair value of an asset or a liability, Mindspace REIT uses observable market data as far as possible. Fair Values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that entity can access on measurement date.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

3.1 Impairment of assets

Mindspace REIT assesses at each reporting date, whether there is any indication that an asset may be impaired. If any such indication exists, the trust estimates the recoverable amount of the asset. The recoverable amount of the assets (or where applicable that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. Value in use is the present value of estimated future cash flows (discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset) expected to arise from the continuing use of the assets and from its disposal at the end of its useful life. In determining fair value less costs of disposal, recent market transactions are taken into account. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU. An impairment loss is recognized whenever the carrying amount of an asset or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment loss is recognized in the Standalone Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable

amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the Standalone Statement of Profit and Loss.

3.2 Asset Acquisition

If the acquisition of an asset or a group of assets does not constitute a business, Mindspace REIT identifies and recognizes the individual identifiable assets acquired (including those assets that meet the definition of, and recognition criteria for, intangible assets in Ind AS 38, Intangible Assets) and liabilities assumed. The cost of the group is allocated to the individual identifiable assets and liabilities on the basis of their relative fair values at the date of purchase and no goodwill is recognized.

3.3 Foreign currency transactions

Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions. Exchange differences arising on foreign exchange transactions settled during the period/ year are recognized in the Statement of Profit and Loss of the period/ year.

Monetary assets and liabilities denominated in foreign currency, which are outstanding as at the end of the period and not covered by forward contracts, are translated at the end of the period at the closing exchange rate and the resultant exchange differences are recognized in the Standalone Statement of Profit and Loss. Non-monetary foreign currency items are carried at cost.

3.4 Compound financial instruments

The component parts of compound financial instruments issued by Mindspace REIT are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Trust's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortized cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

Notes to the Standalone Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognized and included in equity, net of income tax effects, and is not subsequently remeasured.

Transaction costs that relate to the issue of the convertible instruments are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognized directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortized over the lives of the convertible instrument using the effective interest method.

3.5 Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Embedded derivatives closely related to the host contracts are not separated. Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss.

3.6 Tax expense

Income tax expense comprises current tax and deferred tax charge or credit. It is recognized in the Standalone Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income in which case, the current and deferred tax are also recognized in equity and other comprehensive income respectively.

a) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income for the period and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by end of reporting period.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognized

amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously."

b) Deferred tax

Deferred tax asset/ liability is recognized on temporary differences between the carrying amounts of assets and liabilities in the Standalone Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax assets and liabilities are measured that are expected to apply to the period when the asset is realized or the liability is settled, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which Mindspace REIT expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax assets and liabilities, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

3.7 Provisions, contingent liabilities and contingent assets

Provisions are recognized when Mindspace REIT has a present legal or constructive obligation as a result of a past event, it is probable that the Trust will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration

Notes to the Standalone Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

net of recoveries if any, required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Contingent liabilities are disclosed when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognized when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation. If the effect of the time value of money is material, provisions are discounted.

A contingent asset is disclosed when there would be a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of Mindspace REIT.

Provisions, Contingent Liabilities and Contingent Assets are reviewed at each reporting date and adjusted to reflect the current best estimates.

3.8 Investment in SPVs

The Company has elected to recognize its investments in SPVs at cost in accordance with the option available in Ind AS 27, 'Separate Financial Statements'. The details of such investments are given in Note 4.

Assets representing investments in SPVs are reviewed for impairment, whenever events or changes in circumstances indicate that carrying amount may not be recoverable. Such circumstances include, though are not limited to, significant or sustained decline in revenues or earnings and material adverse changes in the economic environment.

3.9 Financial instruments

1 Initial recognition and measurement

Financial assets and/or financial liabilities are recognized when Mindspace REIT becomes party to a contract embodying the related financial instruments. All financial assets, financial liabilities are initially measured at fair value. Transaction costs that are attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from as the case may be, the fair value of such assets or liabilities, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in the Standalone Statement of Profit and Loss.

2 Financial assets:

a) Classification of financial assets:

- (i) Mindspace REIT classifies its financial assets in the following measurement categories:
 - those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
 - those measured at amortized cost.
- (ii) The classification is done depending upon Mindspace REIT business model for managing the financial assets and the contractual terms of the cash flows.
- (iii) For investments in debt instruments, this will depend on the business model in which the investment is held.
- (iv) Mindspace REIT reclassifies debt investments when and only when its business model for managing those assets changes.

b) Subsequent Measurement

(i) Investment in Debt instruments:

Subsequent measurement of debt instruments depends on Mindspace REIT business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Trust classifies its debt instruments:

Notes to the Standalone Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are subsequently measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

Financial assets at fair value through the Statement of Profit and Loss (FVTPL)

Financial assets are subsequently measured at fair value through the Statement of Profit and Loss unless it is measured at amortized cost or fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the Statement of Profit and Loss.

c) Impairment of financial assets:

The Mindspace REIT applies the expected credit loss model for recognising impairment loss on financial assets measured at amortized cost, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset. For trade receivables, the Mindspace Group measures the loss allowance at an amount equal to lifetime expected credit losses. Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Mindspace Group has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

d) Derecognition of financial assets:

A financial asset is primarily derecognized when:

- (i) the right to receive cash flows from the asset has expired, or
- (ii) Mindspace REIT has transferred its rights to receive cash flows from the asset; and

Mindspace REIT has transferred substantially all the risks and rewards of the asset, or

Mindspace REIT has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety (other than investments in equity instruments at FVOCI), the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognized in Statement of Profit and Loss. Any interest in transferred financial assets that is created or retained by Mindspace REIT is recognized as a separate asset or liability.

3.10 Financial liabilities and equity instruments

(a) Classification as debt or equity

Financial liabilities and equity instruments issued by Mindspace REIT are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Financial Liabilities

Recognition, measurement and classification

Financial liabilities are classified as either held at a) fair value through the Statement of Profit and Loss, or b) at amortized cost. Management determines the classification of its financial liabilities at the time of initial recognition or, where applicable, at the time of reclassification.

Mindspace REIT financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments. Subsequent measurement of financial liabilities depends on their classification as fair value through the Statement of Profit and Loss or at amortized cost. All changes in fair value of financial liabilities classified as FVTPL are recognized in the

Notes to the Standalone Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

Statement of Profit and Loss. Amortized cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortized cost using the Effective Interest Rate method.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Gains and losses are recognized in the Statement of Profit and Loss when the liabilities are derecognized.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and presented on net basis in the Balance Sheet when there is a currently enforceable legal right to offset the recognized amounts and there is an intention either to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

3.11 Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contract are measured initially at the fair value and in accordance with Ind AS 109 unless on a case to case basis Mindspace REIT elects to account for financial guarantee as Insurance Contracts as specified under Ind AS 104.

3.12 Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. This inter alia involves discounting of the consideration due to the present value if payment extends beyond normal credit terms.

Revenue is recognized when recovery of the consideration is probable and the amount of revenue can be measured reliably.

Recognition of dividend income, interest income

Dividend income is recognized in profit or loss on the date on which Mindspace REIT's right to receive payment is established.

Interest income is recognized using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset.

In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired). However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

3.13 Borrowing costs

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

Interest expense is recognized using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments through the expected life of the financial instrument to the amortized cost of the financial liability. In calculating interest expense, the effective interest rate is applied to the amortized cost of the liability.

3.14 Cash and cash equivalents

Cash and cash equivalents comprises of cash at bank and on hand, demand deposits, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.15 Cash distribution to unit holders

Mindspace REIT recognizes a liability to make cash distributions to Unitholders when the distribution is authorized and a legal obligation has been created. As per the REIT Regulations, a distribution is authorized when it is approved by the Board of Directors of the Manager. A corresponding amount is recognized directly in equity.

3.16 Standalone Statement of Cash flows

Cash flow is reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments.

Notes to the Standalone Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

The cash flows from operating, investing and financing activities of Mindspace REIT are segregated.

For the purpose of the Statement of Cash Flow, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Mindspace REIT's cash management.

3.17 Subsequent events

The Standalone Financial Statements are adjusted to reflect events that occur after the reporting date but before the Financial Statements are issued. The Financial Statements have their own date of authorization. Therefore, when preparing the Financial Statements, management considers events up to the date of authorization of these financial statements.

3.18 Earnings per unit

The basic earnings per unit is computed by dividing the net profit/ (loss) attributable to the unit holders of the REIT by the weighted average number of units outstanding during the reporting period. The number of units used in computing diluted earnings/ (loss) per unit comprises the weighted average units considered for deriving basic earnings/ (loss) per unit and also the weighted average number of units which could have been issued on the conversion of all dilutive potential units.

Dilutive potential units are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per unit, only potential equity units that are dilutive and which either reduces earnings per share or increase loss per units are included.

3.19 Earnings before finance costs and tax

Mindspace REIT has elected to present earnings before finance cost and tax as a separate line item on the face of the Standalone Statement of Profit and Loss. Mindspace REIT measures earnings before finance cost and tax on the basis of profit/ (loss) from continuing operations. In its measurement, Mindspace REIT does not include finance costs and tax expense.

3.20 Errors and estimates

Mindspace REIT revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the Financial Statement. Changes in accounting policies are applied retrospectively.

A change in an accounting estimate that results in changes in the carrying amounts of recognized assets or liabilities or to profit or loss is applied prospectively in the period(s) of change.

Discovery of errors results in revisions retrospectively by restating the comparative amounts of assets, liabilities and equity of the earliest prior period in which the error is discovered. The opening balances of the earliest period presented are also restated.

3.21 Distributions

The Net Distributable Cash Flows of Mindspace REIT are based on the cash flows generated from Mindspace REIT's assets and investments.

In terms of the Distribution Policy and the REIT Regulations, not less than 90% of the NDCF of each of the Asset SPVs is required to be distributed to Mindspace REIT, in proportion of their shareholding in the Asset SPV, subject to applicable provisions of the Companies Act. Presently, NDCF to be received by Mindspace REIT from the Asset SPVs may be in the form of dividends, interest income, principal loan repayment, proceeds of any capital reduction or buyback from the Asset SPVs, sale proceeds out of disposal of investments if any or assets directly held by Mindspace REIT or as specifically permitted under the Trust Deed or in such other form as may be permissible under the applicable law.

The Manager is required to and shall declare and distribute at least 90% of the NDCF of Mindspace REIT as distributions ("REIT Distributions") to the Unitholders. Such REIT Distributions shall be declared and made for every quarter of a Financial Year.

3.22 Amended standards

- (a) The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2023 dated March 31, 2023 to amend the following Ind AS which are effective from April 01, 2023:

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. This amendment does not have any significant impact in the financial statements.

Notes to the Standalone Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. This amendment does not have any significant impact in the financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The

definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. This amendment does not have any significant impact in the financial statements.

There were certain amendments to standards and interpretations which are applicable for the first time for the year ended March 31, 2024, but either the same are not relevant or do not have an impact on the standalone financial statements.

(b) Measurement of fair values

The section explains the judgement and estimates made in determining the fair values of the financial instruments that are:

- recognized and measured at fair value
- measured at amortized cost and for which fair values are disclosed in the Standalone financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, Mindspace REIT has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is mentioned below:

Fair Value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

(c) Transfers between Level 1, Level 2 and Level 3

There were no transfers between Level 1, Level 2 or Level 3 during the year ended March 31, 2024 and March 31, 2023.

(d) Determination of fair values

Fair Values of financial assets and liabilities have been determined for measurement and/or disclosure purposes based on the following methods. When

applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

- The fair value of mutual funds are based on price quotations at reporting date.
- The fair values of other current financial assets and financial liabilities are considered to be equivalent to their carrying values.
- The fair values of borrowings at fixed rates are considered to be equivalent to present value of the future contracted cashflows discounted at the current market rate.

(f) Financial risk management

Mindspace REIT has exposure to following risks arising from financial instruments:

- Credit risk (refer note (i) below)
- Liquidity risk (refer note (ii) below)
- Market risk (refer note (iii) below)

(i) Credit risk

Credit risk is the risk of financial loss to Mindspace REIT if a counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Mindspace REIT receivables and other financial assets. The carrying amounts of financial assets represent the maximum credit exposure.

Mindspace REIT establishes an allowance account for impairment that represents its estimate of losses in respect of its financial assets. The main component of this allowance is estimated losses that relate to specific tenants or counterparties. The allowance account is used to provide for impairment losses. Subsequently when Mindspace REIT is satisfied that no recovery of such losses is possible, the financial asset is considered

Notes to the Standalone Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

irrecoverable and the amount charged to the allowance account is then written off against the carrying amount of the impaired financial asset.

Mindspace REIT holds cash and cash equivalents with credit worthy banks of ₹ 3,038 millions as at March 31, 2024 (March 31, 2023: ₹ 2,984 millions). The credit worthiness of such banks is evaluated by the management on an ongoing basis and is considered to be good.

As at the reporting date, there is no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying value of each financial asset on the Balance Sheet.

(ii) Liquidity risk

Liquidity risk is the risk that Mindspace REIT will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Mindspace REIT approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Mindspace REIT reputation.

Opinion

We have audited the accompanying consolidated financial statements of Mindspace Business Parks REIT (the "REIT") and its subsidiaries (the "Special Purpose Vehicles") (together referred to as the "Mindspace Group"), which comprise the Consolidated Balance Sheet as at March 31, 2024, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows, the Consolidated Statement of Changes in Unitholders' Equity for the year then ended, Consolidated Statement of Net Assets at fair value as at March 31, 2024 Consolidated Statement of Total Returns at fair value for the year then ended, Statement of Net Distributable Cash Flows of the REIT and each of its special purpose vehicles for the year then ended, and a summary of material accounting policies and other explanatory information (hereinafter referred to as "consolidated financial statements").

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SA) issued by Institute of Chartered Accountants of India (ICAI). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Mindspace Group in accordance with the Code of Ethics issued by the ICAI and we have fulfilled our other ethical responsibilities in accordance with and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Emphasis of Matters

- (i) We draw attention to Note 40(5)(a) of the consolidated financial statements regarding freehold land and building thereon (Paradigm, Malad) held by special purpose vehicle, Avacado Properties and Trading (India) Private Limited which is presently under litigation. Pending the outcome of the proceedings and a final closure of the matter, no adjustments have been made in the consolidated financial statements. Our opinion is not modified in respect of this matter.
- (ii) We draw attention to Note 2 which describes the Basis of preparation of consolidated financial statements and Note 19(a) which describes the presentation of "Unit Capital" as "Equity" instead of compound financial instrument to comply with the REIT Regulations. Our opinion is not modified in respect of this matter.

Key Audit Matter

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter:

Fair Value of investment properties :

In accordance with REIT Regulations, the REIT discloses Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value which requires fair valuation of assets and liabilities. As at March 31, 2024, fair value of total assets was ₹ 323,575 million, out of which fair value of investment properties was ₹ 283,554 million representing 88% of the fair value of total asset.

The fair value of investment properties is determined by an independent valuer using discounted cash flow method and mix of market approach and discounted cash flow method, as applicable.

While there are several assumptions that are required to determine the fair value of investment properties; assumptions with the highest degree of estimate, subjectivity and impact on fair values are forecasted market rent, terminal capitalization rate and discount rate. Auditing these assumptions required a high degree of auditor judgement as the estimates made by the independent valuer contains significant measurement uncertainty.

Refer Statement of Net assets at fair value and Statement of total returns at fair value and Note 5 – Investment Properties in the consolidated financial statements.

Auditor's Response:

Principal Audit Procedures Performed :

Our audit procedures related to the forecasted market rent, terminal capitalization rates and discount rate used to determine the fair value of investment properties included the following, among others:

- Read the requirements of SEBI REIT regulations for disclosures relating to Statement of Net Assets at Fair Value and Statement of Total Returns at Fair Value.
- We obtained the independent valuer's valuation reports to obtain an understanding of the source of information used by the independent valuer in determining these assumptions.
- We tested the reasonableness of inputs shared by management with the independent valuer by comparing it to source information used in preparing the inputs.
- We evaluated the reasonableness of management's forecasted market rent by comparing it with sample of lease agreements for market rentals, contractual lease escalations and other market information, as applicable.
- With the assistance of our fair valuation specialist, we evaluated the reasonableness of forecasted market rent, terminal capitalization rates and discount rate by comparing it with market information such as recent market transactions for comparable properties, market surveys by property consultants and broker quotes, as applicable.

In relation to two of the Special Purpose Vehicle (SPV) we have reported the following as a key audit matter in our auditor's report on the standalone financial statements of the SPV.

Sundew Properties Limited

Key Audit Matter:

Disclosure of fair value of Investment Property (including Investment Property under construction)

Investment Property (including Investment Property under construction) comprises of Land, Buildings and other assets forming part of Buildings recorded at cost and are used for commercial leasing. As at March 31, 2024, the carrying cost of Investment Property (including Investment Property under construction) is ₹ 12,362 millions (March 31, 2023 – ₹ 12,299 millions).

Fair Value of Investment Property (including Investment Property under construction) is ₹ 63,634 Millions (March 31, 2022 – ₹ 62,189 Millions) which is disclosed in Note 5 and 6 to Financial Statements of Sundew Properties Limited as per Ind AS 40.

The fair value of investment properties for disclosure is determined by an independent valuer using discounted cash flow method.

While there are several assumptions that are required to determine the fair value of investment properties; assumptions with the highest degree of estimate, subjectivity and impact on fair values are market rent, market rent growth rate, terminal capitalization rate and discount rate. Auditing these assumptions required a high degree of auditor judgement as the estimates made by the independent valuer contains significant measurement uncertainty and hence considered to be a key audit matter.

Auditor's Response:

Principal audit procedures :

Our audit approach consisted testing of the design/ implementation and operating effectiveness of the internal controls and substantive testing on sample basis as follows:

- We obtained the independent valuer's valuation reports to get an understanding of the source of information used by the independent valuer in determining these assumptions.
- Evaluated the design and implementation and tested the operating effectiveness of the internal controls established by the Company relating to determination of fair value disclosed for investment property (including investment property under construction).
- We tested the reasonableness of key inputs shared by management with the independent valuer by comparing it to source information used in preparing the inputs.
- With the assistance of our fair valuation specialist, we evaluated the reasonableness of valuation methodology, market rent, market rent growth rate, terminal capitalization rates and discount rate by comparing it with market information such as recent market transactions for comparable properties, market surveys by property consultants and broker quotes, as applicable.
- Assessed independence and competency of the external valuer appointed by the Company.
- Performed sensitivity analysis of certain key assumptions and retrospective testing of estimated cash-flows considered by the Company.

Assessed and tested that the disclosures made by the Company is as per the requirements of the Ind AS.

Information Other than the Financial Statements and Auditor's Report Thereon

- K. Raheja Corp Investment Manager Private Limited (formerly known as K. Raheja Corp Investment Manager LLP) (the "Investment Manager") in its capacity as an Investment Manager of REIT is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements, consolidated financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Board of Directors of the Investment Manager (the "Management") is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows, consolidated changes in unitholders' equity of the Mindspace Group, net assets at fair value, total returns at fair value and the net distributable cash flows of the REIT and each of its special purpose vehicles in accordance with the requirements of the REIT regulations, the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with REIT regulations. The Board of Directors of the Investment Manager to the REIT and the respective Board of Directors of the companies included in the Mindspace Group are responsible for maintenance of adequate accounting records for safeguarding the assets of the Mindspace Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting

records, relevant to the preparation and presentation of the consolidated financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the consolidated financial statements by the Investment Manager of the REIT, as aforesaid.

In preparing the consolidated financial statements, the Board of Directors Board of the Investment Manager and the respective Board of Directors of the companies included in the Mindspace Group are responsible for assessing the ability of the REIT and respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Investment Manager along with respective Board of Directors either intends to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The Board of Directors and the respective Board of Directors of the companies included in the Mindspace Group are also responsible for overseeing the financial reporting process of the Mindspace Group.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the REIT's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Mindspace Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Mindspace Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities within the Mindspace Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the REIT and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical

requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit and as required by REIT regulations, we report that:

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Cash Flows, Consolidated Statement of Changes in Unitholders' Equity, and Statement of Net Distributable Cashflows of the REIT and each of its special purpose vehicles dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of consolidated financial statements.
- c) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) read with Emphasis of matter paragraph above and other accounting principles generally accepted in India, to the extent not inconsistent with REIT Regulations.

Measurement of fair values:

The fair values of Investment property, Property, plant and equipment, Investment property under construction and Capital work-in-progress are solely based on an independent valuation performed by an external property valuer ("independent valuer"), having appropriately recognized professional qualification and recent experience in the location and category of the properties being valued.

Other assets include cash and cash equivalents, other bank balances and other working capital balances which are not factored in the discounted cashflow method used in determining the fair value of investment property, investment property under development, property, plant and equipment, capital work-in-progress and intangibles.

Valuation technique

The fair value measurement for all of the Investment property, Property, plant and equipment, Investment property under construction and Capital work-in-progress (excluding Pocharam) has been categorized as a Level 3 fair value based on the inputs to the valuation technique used. The valuer has followed a Discounted Cash Flow method, except for valuation of land for future development where the valuer has adopted Market Approach or Government Benchmark Price / Guideline Value as may be applicable. The Discounted Cash Flow valuation model considers the present value of net cash flows to be generated from the respective properties, taking into account the expected rental growth rate, vacancy period, occupancy rate, and lease incentive costs. The expected net cash flows are discounted using the risk adjusted discount rates. Among other factors, the discount rate estimation considers the quality of a building and its location (prime vs secondary), tenant credit quality, lease terms and investor return expectations from such properties. The existing buildings in Pocharam are unoccupied. Considering the absence of leasing demand in the near term, and therefore no expected income stream and also since the asset is held for sale, the Valuer has opted for the Cost Approach. Under this method, the land component is assessed using the Comparable Sales/Quoted Instances Method under the Market Approach while building and plant & machinery components have been valued using the Depreciated Replacement Cost Method.

3 Material accounting policies

(a) Functional and presentation currency

The Consolidated Financial Statements are presented in Indian rupees, which is Mindspace Business Parks Group's functional currency and the currency of the primary economic environment in which Mindspace Business Parks Group operates. All financial information presented in Indian rupees has been rounded off to nearest million except otherwise stated.

(b) Basis of measurement

The Consolidated Financial Statements are on the historical cost basis, except for the following:

- Certain financial assets and liabilities (refer accounting policy regarding financial instrument): measured at fair values;
- Net defined benefit (asset)/ liability less present value of defined obligations: Fair Value of plan assets less present value of defined benefit plan.

(c) Use of judgements and estimates

The preparation of the Consolidated Financial Statements in conformity with generally accepted accounting principles in India (Ind AS) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most material effect on the amounts recognized in the Consolidated Financial Statements is included in the following notes:

- Presentation of "Unit Capital" as "Equity" in accordance with the REIT Regulations instead of compound instrument (Note 20)
- Estimation of lease term for revenue recognition
- Estimation of useful life of property, plant and equipment and investment property
- Estimation of recognition of deferred tax assets, availability of future taxable profit against which tax losses carried forward can be used and income taxes.

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

d) Current versus non-current classification

Mindspace Business Parks Group presents assets and liabilities in the Consolidated Balance Sheet based on current/ non-current classification:

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Mindspace Business Parks Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. Mindspace Business Parks Group has identified twelve months as its operating cycle.

(e) Measurement of fair values

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, Mindspace REIT takes into account the characteristics of the asset or liability and how market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

Mindspace Business Parks Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Mindspace Business Parks Group has an established control framework with respect to the measurement of fair values.

Mindspace Group regularly review significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values then the Management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, Mindspace Business Parks Group uses observable market data as far as possible. Fair Values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that entity can access on measurement date.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

3.1 Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

3.4 Investment property

(a) Recognition and measurement

Properties including land, building and other assets, which are held either for long-term rental yield or for capital appreciation or for both, and which are not occupied substantially by Mindspace Business Parks Group are classified as investment property.

Depreciation is charged when the investment property is ready for its intended use. Cost comprises of direct expenses like land cost, site labour cost, material used for project construction, project management consultancy, costs for moving the plant and machinery to the site and general expenses incurred specifically for the respective project like insurance, design and technical assistance, and construction overheads are allocated on a reasonable basis to the cost of the project.

the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

- (3) The estimated useful lives, residual values and depreciation method are reviewed at the end of the reporting period with the effect of any changes in the estimation accounted for on a prospective basis.

(d) Fair Value

Fair Value of investment property is based on a valuation by an independent valuer who holds a recognized and relevant professional qualification and has recent experience in the location and category of the investment property being valued. The fair value of investment property is disclosed in the Statement of Net assets at Fair Value.

(e) De-recognition

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de-recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Condensed Consolidated Statement of Profit and Loss in the period in which the property is de-recognized.

In determining the amount of consideration from the derecognition of Investment properties, the Group considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any).

(f) Investment properties under construction

Property that is being constructed for future use as investment property is accounted for as investment property under construction until assets are ready for their intended use.

Direct expenses like land cost, site labour cost, material used for project construction, project management consultancy, costs for moving the plant and machinery to the site and general expenses incurred specifically for the respective project like insurance, design and technical assistance, and construction overheads are taken as the cost of the project.

Investment properties under construction represent the cost incurred in respect of areas under construction of the real estate development projects less impairment losses, if any.

Advance paid for acquisition of investment property which are not ready for their intended use at each balance sheet date are disclosed under other non current assets as capital advance.

3.5 Impairment of assets

MindSpace Business Parks Group assesses at each balance sheet date, whether there is any indication that an asset may be impaired. If any such indication exists, MindSpace Business Parks Group estimates the recoverable amount of the asset. The recoverable amount of the assets (or where applicable that of the cash generating unit (CGU) to which the asset belongs) is estimated as the higher of its fair value less cost of disposal

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

and its value in use. Value in use is the present value of estimated future cash flows (discounted using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset) expected to arise from the continuing use of the assets and from its disposal at the end of its useful life. In determining fair value less costs of disposal, recent market transactions are taken into account. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGU. An impairment loss is recognized whenever the carrying amount of an asset or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment loss is recognized in the Consolidated Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in the Consolidated Statement of Profit and Loss.

3.6 Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are treated as direct cost and are considered as part of cost of such assets. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale.

Capitalization rate used to determine the amount of borrowing costs to be capitalized is the weighted average interest rate applicable to the general borrowings.

Interest expense is recognized using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments through the expected life of the financial instrument to the amortized cost of the financial liability. In calculating interest expense, the effective interest rate is applied to the amortized cost of the liability.

Capitalization of borrowing costs is suspended during the extended period in which active development is interrupted. Capitalization of borrowing costs is ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.

All other borrowing costs are recognized as an expense in the period in which they are incurred.

Borrowing cost incurred by the SPVs on inter-company loans is continued to be capitalized only to the extent MindSpace Group has incurred external borrowing cost.

3.7 Inventories

(a) Measurement of inventory

Inventories comprise of building material and components. Contractual work in progress, in respect of third party customers, is classified as work in progress. MindSpace Business Parks Group measures its inventories at the lower of cost and net realizable value.

(b) Cost of inventories

The cost of inventories of building material and components and work in progress comprise all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on moving weighted average basis.

(c) Net realizable value

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

3.8 Revenue recognition

(a) Facility rentals

Revenue from property leased out under an operating lease is recognized over the lease term on a straight line basis, except where there is an uncertainty of ultimate collection.

Lease incentives granted are recognized as an integral part of the total rental income. The lease term is the non-cancellable period together with any further term for which the tenant has the option to continue the lease, where, at the inception of the lease, the MindSpace Business Parks Group is reasonably certain that the tenant will exercise that option. Contingent rents are recognized as revenue in the period in which they are earned on a receipt basis.

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

(b) Revenue from works contractual services

Revenue from contracts with customers is recognized when a performance obligation is satisfied by transfer of promised goods or services to a customer in accordance with the agreement with the customer. For works contract arrangement, the performance obligation gets satisfied over time, and therefore, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation from time to time as per the agreement with the customer. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation. The revenue is recognized to the extent of transaction price allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party.

(c) Maintenance services

Maintenance income is recognized over a period of time for services rendered to the customers.

(d) Revenue from power supply

Revenue from power supply is accounted for on the basis of billings to consumers and includes unbilled revenues accrued up to the end of the accounting year. Mindspace Business Parks Group determines surplus/deficit i.e. excess/shortfall of aggregate gain over return on equity entitlement for the period in respect of its operations based on the principles laid down under the respective Tariff Regulations as notified by Maharashtra Electricity Regulatory Commission (MERC), on the basis of the tariff order issued by it. In respect of such surplus/deficit, appropriate adjustments as stipulated under the regulations are made during the period. Further, any adjustments that may arise on annual performance review by the MERC under the tariff regulations is made after the completion of such review.

(e) Revenue from sale of goods

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts offered by the Company as part of the contract. Revenue from the sale of goods is recognized when the Company performs its obligations to its customers and the amount of revenue can be

measured reliably and recovery of the consideration is probable. The timing of such recognition in case of sale of goods is when the control over the same is transferred to the customer.

(f) Finance Lease:

For assets let out under finance lease, Mindspace Business Parks Group recognizes a receivable at an amount equal to the net investment in the lease. Rentals received are accounted for as repayment of principal and finance income. Minimum lease payments receivable on finance leases are apportioned between the finance income and the reduction of the outstanding receivable. The finance income allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining net investment in the finance lease.

Contingent rents are recorded as income in the periods in which they are earned.

(g) Sale of surplus construction material and scrap

Revenue from sale of surplus construction material and scrap is recognized when control of the goods are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods net of the expected removal cost.

3.9 Recognition of dividend income, interest income:

- (i) Dividend income is recognized in profit or loss on the date on which Mindspace REIT group has right to receive payment is established.
- (ii) Interest income is recognized on time proportion basis, by reference to the principal outstanding and the effective interest rate applicable.
- (iii) Delayed payment charges and interest on delayed payments are recognized, on time proportion basis, except when there is uncertainty of ultimate collection.

3.10 Tax expense

Income tax expense comprises current tax and deferred tax charge or credit. It is recognized in the Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income in which case, the current and deferred tax are also recognized in equity and other comprehensive income respectively.

(a) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by end of reporting period.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

(b) Deferred tax

Deferred tax asset/liability is recognized on temporary differences between the carrying amounts of assets and liabilities in the Consolidated Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax assets and liabilities are measured that are expected to apply to the period when the asset is realized or the liability is settled, using the tax rates and tax laws that have been enacted or substantively enacted by the end of reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which Mindspace Business Parks Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is not recognized for:

- Temporary differences arising on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction; and
- Temporary differences related to investments in subsidiaries, associates, and joint arrangements to the extent that Mindspace Business Park Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future;

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax

assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Mindspace Business Parks Group recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized.

The carrying amount of deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

For operations carried out under tax holiday period (80IA benefits of Income Tax Act, 1961), deferred tax assets or liabilities, if any, have been established for the tax consequences of those temporary differences between the carrying values of assets and liabilities and their respective tax bases that reverse after the tax holiday ends.

In the situations where one or more units of the Group are entitled to a tax holiday under the tax law, no deferred tax (asset or liability) is recognized in respect of temporary differences which reverse during the tax holiday period, to the extent the concerned unit's gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of temporary differences which reverse after the tax holiday period is recognized in the year in which the temporary differences originate. However, the Group restricts recognition of deferred tax assets to the extent it is probable that sufficient future taxable income will be available against which such deferred tax assets can be realized. For recognition of deferred taxes, the temporary differences which originate first are considered to reverse first.

(c) Minimum Alternate Tax (MAT)

MAT credit entitlement is recognized as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which MAT credit becomes eligible to be recognized as an asset, the said asset is created by way of a credit to the Consolidated Statement of Profit and Loss and shown as MAT credit entitlement under deferred tax assets. This is reviewed at each balance sheet date and the carrying amount of MAT credit entitlement is written down to the extent it is not reasonably certain that normal income tax will be paid during the specified period.

3.11 Earnings per unit (EPU):

The basic earnings per unit is computed by dividing the net profit/ (loss) attributable to the unit holders of Mindspace REIT by the weighted average number of units outstanding during the reporting period. The number of units used in computing diluted earnings/ (loss) per unit comprises the weighted average units considered for deriving basic earnings/ (loss) per unit and also the weighted average number of units which could have been issued on the conversion of all dilutive potential units.

Dilutive potential units are deemed converted as of the beginning of the reporting date, unless they have been issued at a later date. In computing diluted earnings per unit, only potential equity units that are dilutive and which either reduces earnings per unit or increase loss per units are included.

3.12 Provisions, contingent liabilities and contingent assets

Provisions are recognized when Mindspace Business Parks Group has a present legal or constructive obligation as a result of a past event, it is probable that Mindspace Business Parks Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration net of recoveries if any, required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions are determined by discounting the expected future cash flows at a

(all amounts in ₹ million unless otherwise stated)

pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

Contingent liabilities are disclosed when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. When there is a possible obligation of a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognized when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event, based on a reliable estimate of such obligation. If the effect of the time value of money is material, provisions are discounted.

A contingent asset is disclosed when there would be a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of Mindspace Business Parks Group.

Provisions, Contingent Liabilities and Contingent Assets are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

3.13 Foreign currency transactions and translations

Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the Consolidated Statement of Profit and Loss of the period.

Monetary assets and liabilities denominated in foreign currency, which are outstanding as at the period-end and not covered by forward contracts, are translated at the period-end at the closing exchange rate and the resultant exchange differences are recognized in the Consolidated Statement of Profit and Loss. Non-monetary foreign currency items are carried at cost.

3.14 Leases

As a Lessor

Mindspace Business Parks Group enters into lease agreements as a lessor with respect to some of its investment properties.

Leases for which Mindspace Business Parks Group is a lessor is classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When Mindspace Business Parks Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease and presented as unbilled revenue in other financial assets.

The lease term is the non-cancellable period together with any further term for which the tenant has the option to continue the lease, where, at the inception of the lease, the Mindspace Group is reasonably certain that the tenant will exercise that option.

Initial direct costs such as brokerage expenses incurred specifically to earn revenues from an operating lease are capitalized to the carrying amount of leased asset and recognized over the lease term on the same basis as rental income.

Amounts due from lessees under finance leases are recognized as receivables at the amount of Mindspace Business Parks Group's net investment in the leases. Finance lease income is allocated to reporting periods so as to reflect a constant periodic rate of return on Mindspace Business Parks Group's net investment outstanding in respect of the leases.

As a Lessee

Mindspace Business Parks Group assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Mindspace Business Parks Group recognizes a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets.

(all amounts in ₹ million unless otherwise stated)

For these leases, Mindspace Business Parks Group recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, Mindspace Business Parks Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented separately as part of Financial Liabilities in the Consolidated balance sheet. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Mindspace Business Parks Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is measured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever Mindspace Business Parks Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognized and measured under Ind AS 37 'Provisions, Contingent Liabilities and Contingent Assets'. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset.

Mindspace Business Parks Group applies Ind AS 36 Impairment of Assets to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in Note 3.5.

Variable rents that do not depend on an index or rate are not included in the measurement the lease liability and the right-of-use asset. The related payments are recognized as an expense in the period in which the event or condition that triggers those payments occurs and are included in the line "other expenses" in the Consolidated Statement of Profit and Loss.

3.15 Financial instruments

1 Initial recognition and measurement

Financial assets and/or financial liabilities are recognized when Mindspace Business Parks Group becomes party to a contract embodying the related financial instruments. All financial assets/ financial liabilities are initially measured at fair value, plus in case of financial assets/ financial liabilities not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition or issue of financial assets/ financial liabilities are added to or deducted, as the case may be, from the fair value of such assets or liabilities. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in the Consolidated statement of Profit and Loss. Trade receivables that do not contain a significant financing component are measured at transaction price.

2 Financial assets:

(a) Classification of financial assets:

(i) Mindspace Business Parks Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through the Consolidated Statement of Profit and Loss), and
- those measured at amortized cost.

(ii) The classification is done depending upon Mindspace Business Parks Group's business model for managing the financial assets and the contractual terms of the cash flows.

(iii) For investments in debt instruments, this will depend on the business model in which the investment is held.

(iv) Mindspace Business Parks Group reclassifies debt investments when and only when its business model for managing those assets changes.

(b) Subsequent Measurement

(i) Debt instruments:

Subsequent measurement of debt instruments depends on Mindspace Business Parks Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which Mindspace Business Parks Group classifies its debt instruments:

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets are subsequently measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

on the principal amount outstanding and by selling financial assets.

Financial assets at fair value through the Consolidated Statement of Profit and Loss (FVTPL)

Financial assets are subsequently measured at fair value through the Consolidated Statement of Profit and Loss unless it is measured at amortized cost or fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the Consolidated Statement of Profit and Loss.

(ii) Equity instruments:

Mindspace Business Parks Group subsequently measures all equity investments at fair value. There are two measurement categories into which Mindspace Business Parks Group classifies its equity instruments:

Investments in equity instruments at FVTPL:

Investments in equity instruments are classified as at FVTPL, unless Mindspace Business Parks Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for equity instruments which are not held for trading.

Investments in equity instruments at FVTOCI:

On initial recognition, Mindspace Business Parks Group can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the reserve for 'equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to Consolidated Statement of Profit and Loss on disposal of the investments, but is transferred to retained earnings.

(c) Impairment of financial assets:

Mindspace Business Parks Group applies the expected credit loss model for recognising impairment loss on financial assets measured at amortized cost, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset. For trade receivables, Mindspace Business Parks Group measures the loss allowance at an amount equal to lifetime expected credit losses. Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, Mindspace Business Parks Group has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

(d) Derecognition of financial assets:

A financial asset is primarily derecognized when:

- the right to receive cash flows from the asset has expired, or
- Mindspace Business Parks Group has transferred its rights to receive cash flows from the asset; and

Mindspace Business Parks Group has transferred substantially all the risks and rewards of the asset, or

Mindspace Business Parks Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety (other than investments in equity instruments at FVOCI), the differences between the carrying amounts measured at the date of derecognition and the consideration received is recognized in Consolidated Statement of Profit and Loss. Any interest in transferred financial assets that is created or retained by the SPV is recognized as a separate asset or liability.

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

3 Financial liabilities and equity instruments

(a) Classification as debt or equity

Financial liabilities and equity instruments issued by Mindspace Business Parks Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

(b) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of Mindspace Business Parks Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Repurchase of Mindspace Business Parks Group's own equity instrument is recognized and deducted directly in equity. No gain or loss is recognized in the Consolidated Statement of Profit and Loss on the purchase, sale, issue or cancellation of Mindspace Business Parks Group's own equity instruments.

(c) Compound financial instruments

The component parts of compound financial instruments issued by Mindspace Business Parks Group are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of Mindspace Business Parks Group's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortized cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognized and included in equity, net of income tax effects, and is not subsequently remeasured.

(all amounts in ₹ million unless otherwise stated)

Transaction costs that relate to the issue of the convertible instruments are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognized directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortized over the lives of the convertible instrument using the effective interest method.

(d) Financial Liabilities

Recognition, measurement and classification

Financial liabilities are classified as either held at a) fair value through the Consolidated Statement of Profit and Loss, or b) at amortized cost. Management determines the classification of its financial liabilities at the time of initial recognition or, where applicable, at the time of reclassification.

Mindspace Business Parks Group's financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments. Subsequent measurement of financial liabilities depends on their classification as fair value through the Consolidated Statement of Profit and Loss or at amortized cost. All changes in fair value of financial liabilities classified as FVTPL are recognized in the Consolidated Statement of Profit and Loss. Amortized cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortized cost using the Effective Interest Rate method.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Gains and losses are recognized in the Consolidated Statement of Profit and Loss when the liabilities are derecognized.

4 Offsetting of financial instruments

Financial assets and financial liabilities are offset and presented on net basis in the Consolidated Balance Sheet when there is a currently enforceable legal right to offset the recognized amounts and there is an intention either to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

5 Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Embedded derivatives closely related to the host contracts are not separated. Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss.

3.16 Cash and cash equivalents

Cash and cash equivalents comprises of cash at banks and on hand, demand deposits, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.17 Statement of Cash flow

Cash flow is reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of Mindspace Business Parks Group are segregated.

For the purpose of the Consolidated Statement of Cash Flow, Initial direct costs such as brokerage expenses incurred specifically to earn revenues from an operating lease which are capitalized to the carrying amount of leased assets are considered as cashflows used in investing activity.

As per para 8 of Ind AS 7 "where bank overdrafts which are repayable on demand form an integral part of an entity's cash management, bank overdrafts are included as a component of cash and cash equivalents. Bank overdraft, in the Consolidated Balance Sheet, is included as 'borrowings' under Financial Liabilities.

3.18 Employee benefits plan

Disclosure pursuant to Ind AS - 19 'Employee benefits'

(1) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits such as salaries, wages, etc. and are recognized in the period in which the employee rendered the related services. The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period.

(2) Long term employee benefits

Defined contribution plans

Contributions to defined contribution schemes such as provident fund are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. Mindspace Business Parks Group's provident fund contribution, in respect of certain employees, is made to a government administered fund and charged as an expense. The above benefits are classified as defined contribution schemes as Mindspace Business Parks Group has no further defined obligations beyond the monthly contributions.

Defined benefit plan

Mindspace Business Parks Group's gratuity benefit scheme is a defined benefit plan. Mindspace Business Parks Group has determined the gratuity liability based on internal calculation based on the number of years completed and last drawn basic salary as mentioned in the Payment of Gratuity Act, 1972. The liability or asset recognized in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, if any. The defined benefit obligation is calculated annually by actuaries / SPVs using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

government bonds that have terms approximating to the terms of the related obligation. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Consolidated Statement of Profit and Loss.

Other long term employee benefits - Compensated absences

Benefits under compensated absences are accounted as other long-term employee benefits. Mindspace Business Parks Group has determined the liability for compensated absences based on internal calculation which is determined on the basis of leave credited to employee's account and the last drawn salary. Mindspace Business Parks Group's net obligation in respect of compensated absences is the amount of benefit to be settled in future, that employees have earned in return for their service in the current and previous years. The benefit is discounted to determine its present value. The obligation is measured on the basis of an actuarial valuation / by SPVs using the projected unit credit method. Remeasurement is recognized in the Consolidated Statement of Profit and Loss in the period in which they arise. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as a liability.

3.19 Earnings before finance costs, depreciation and amortization, regulatory income / expense, exceptional items and tax

Mindspace Business Parks Group has elected to present earnings before interest, depreciation and amortization, regulatory income / expense, exceptional items and tax as a separate line item on the face of the Consolidated Statement of Profit and Loss. Mindspace Business Parks Group measures earnings before interest, depreciation and amortization, regulatory income / expense, exceptional items and tax on the basis of profit/ (loss) from continuing operations.

3.20 Subsequent events

The Consolidated Financial Statements are adjusted to reflect events that occur after the reporting date

but before the Consolidated Financial Statements are issued. The Consolidated Financial Statements have their own date of authorization, which differs from that of the financial statements of the entities which are part of Mindspace REIT group. Therefore, when preparing the Consolidated Financial Statements, management considers events up to the date of authorization of these financial statements.

3.21 Errors and estimates

Mindspace Business Parks Group revises its accounting policies if the change is required due to a change in Ind AS or if the change will provide more relevant and reliable information to the users of the Consolidated financial statement. Changes in accounting policies are applied retrospectively.

A change in an accounting estimate that results in changes in the carrying amounts of recognized assets or liabilities or to profit or loss is applied prospectively in the period(s) of change.

Discovery of errors results in revisions retrospectively by restating the comparative amounts of assets, liabilities and equity of the earliest prior period in which the error is discovered. The opening balances of the earliest period presented are also restated.

3.22 Segment Information

Primary segment information

The primary reportable segment is business segments.

Business segment

The Board of Directors of the manager has been identified as the chief operating decision maker (CODM). CODM evaluates the Mindspace Group's performance, allocates resources based on analysis of various performance indicators of the Group as disclosed below.

Real estate segment

Real estate comprises development and management of projects under Special Economic Zone (SEZ), Information Technology Parks and other commercial

assets. The Group has its project/properties in Mumbai Region, Hyderabad, Pune and Chennai for development and management of commercial SEZ, IT parks and commercial resorts.

Power distribution

The state power regulator has taken on record the SEZ developer MBPPL, Gigaplex, Sundew and KRC Infra as Deemed Distribution Licensee for Power. The approved SPVs being Deemed Distributor, supplies power to customers within the notified SEZ.

Secondary segment information

Mindspace Business Parks Group's operations are based in India and therefore Mindspace Business Parks Group has only one geographical segment - India.

3.23 Non-controlling interests

Non-controlling interests represent the share of reserves and capital attributable to the shareholders of the SPVs who have not agreed to exchange their shares in the SPVs for units of Mindspace REIT and will not become the unitholders of Mindspace REIT. Below is the list of shareholders of the SPVs for whom non-controlling interest has been recognized. Non-controlling interests in the results and equity of subsidiaries are shown separately in the Consolidated Statement of Profit and Loss, Consolidated Statement of Changes in Equity and Consolidated Balance Sheet respectively.

SPV	Shareholder	% Holding in SPV (As on reporting date)
KRIT	Telangana State Industrial Infrastructure Corporation Limited	11.0%
Intime	Telangana State Industrial Infrastructure Corporation Limited	11.0%
Sundew	Telangana State Industrial Infrastructure Corporation Limited	11.0%

Ind AS 110 requires entities to attribute the profit or loss and each component of other comprehensive income to the owners of Mindspace REIT and to the non-controlling interests. This requirement needs to be followed even if this results in the non-controlling interests having a deficit balance.

3.24 Cash distribution to unit holders

The Group recognizes a liability to make cash distributions to Unitholders when the distribution is

authorized and a legal obligation has been created. As per the REIT Regulations, a distribution is authorized when it is approved by the Board of Directors of the Manager. A corresponding amount is recognized directly in other equity.

3.25 Distribution Policy

The Net Distributable Cash Flows of Mindspace REIT are based on the cash flows generated from Mindspace REIT's assets and investments.

In terms of the Distribution Policy and the REIT Regulations, not less than 90% of the NDCF of each of the Asset SPVs is required to be distributed to Mindspace REIT, in proportion of their shareholding in the Asset SPV, subject to applicable provisions of the Companies Act or the LLP Act. Presently, NDCF to be received by Mindspace REIT from the Asset SPVs may be in the form of dividends, interest income, principal loan repayment, proceeds of any capital reduction or buyback from the Asset SPVs, sale proceeds out of disposal of investments if any or assets directly held by Mindspace REIT or as specifically permitted under the Trust Deed or in such other form as may be permissible under the applicable law.

The Manager is required to and shall declare and distribute at least 90% of the NDCF of Mindspace REIT as distributions ("REIT Distributions") to the Unitholders. Such REIT Distributions shall be declared and made for every quarter of a Financial Year.

3.26 Non-current assets held for sale and Discontinued Operations:

Discontinued operation is a component of the Company that has been disposed of or classified as held for sale and represents a major line of business or geographies. Non-current assets are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition.

Management must be committed to the sale which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

3.27 Recent Pronouncements

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standard) Amendment Rules 2023 dated March 31, 2023 to amend the following Ind AS which are effective from April 1, 2023:

Notes to the Consolidated Financial Statements

RN:IN/REIT/19-20/003

(all amounts in ₹ million unless otherwise stated)

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. This amendment does not have any significant impact in the financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. This amendment does not have any significant impact in the financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. This amendment does not have any significant impact in the financial statements.

There were certain amendments to standards and interpretations which are applicable for the first time for the year ended March 31, 2024, but either the same are not relevant or do not have an impact on the consolidated financial statements of the Group.

Notes:

- Gigaplex- An appeal has been filed for A.Y. 2010-11 before CIT(A) against the penalty order raising demand of ₹ 3 million and the appeal is pending. Gigaplex has paid 20% (₹ 1 million) with a request to keep the demand in abeyance. As per Income tax website, there is no demand outstanding. Subsequent to period end, Order of CIT(A) has been received and this penalty has now been deleted.
 - KRIT - Contingent liability of ₹ 933 million relate to AY 2012-13 to AY 2018-19 for which it has filed appeals before CIT(A) against orders under section 143(3) / 143(3) read with section 153A of the Act contesting the disallowance of deduction under section 80IA of the Income Tax Act 1961. KRIT is hopeful of a favourable outcome for these Assessment Years. In case of unfavourable decisions in appeal for AY 2012-13 to AY 2018-19, the tax would be payable under normal tax and hence, MAT credit currently available with KRIT will no longer be available. As a result, in addition to above contingent liability, KRIT would require to pay additional tax of ₹ 326 million w.r.t. AY 2019-20 and AY 2020-21 (These years are not under litigation) because during these years KRIT has utilized the MAT credit availed during AY 2012-13 to AY 2018-19. The disallowance of deduction under section 80IA for AYs 2012-13 to 2018-19 by the Income Tax department was based on the order for earlier AY 2011-12 wherein similar disallowance was made. KRIT had challenged the said order of AY 2011-12 before the ITAT. The Hon'ble ITAT vide its order dated 06.05.2021 allowed the appeal in favour of KRIT by quashing the disallowance made by the income-tax

authority. The Income Tax department has further filed an appeal before the High Court against the said order for AY 2011-12 of the Hon'ble ITAT

- Avacado- Contingent liability of ₹ 30.55 million relates to AY 2015-16 and AY 2016-17. For AY 2015-16 and AY 2016-17, the Company had filed appeals against order under section 143(3) read with 153A of the Income Tax Act, 1961 on account of disallowances u/s 14A and u/s 80IA which were disposed-off in favour of the Company in earlier year. The department has filed an appeal before the Hon'ble High Court against the same.

reply submitted which states that if any principal outstanding is due/recoverable, MBPPL agrees to make the said payment and sought detailed clarification on the interest amount. By letter dated 20.07.2019 to MBPPL, PMC provided the copy of the audit report to MBPPL and requested MBPPL to provide its clarifications in respect of objectionable issues and furnish the challans in lieu of payment of the recoverable amount. By letter dated 17.08.2021 to the architect firm and another, PMC stated that it has not received any clarifications and provided the challans of amounts by assessing interest thereon and required submission of challan/receipt towards payment of an amount of ₹ 183.60 million recoverable against all objectionable issues. By letter dated 11.10.2021 to PMC, MBPPL replied stating that the impugned challans, demands and notice are illegal, null and void and ultra vires; and likewise the act of issuing the letter dated 17.08.2021 is ultra vires and without the authority of law and called upon PMC to withdraw the impugned challans and letter forthwith. By the said letter MBPPL further stated that if the challans and letter is not withdrawn and any further action is initiated in that event the letter dated 11.10.2021 may be treated as a notice under section 487 of The Maharashtra Municipal Corporations Act, 1949 and under section 159 of The Maharashtra Regional and Town Planning Act, 1966. Further, without prejudice to the contentions raised in the reply and without admitting any liability to pay the amount as per the impugned challans, MBPPL has submitted that, in order to resolve the controversy, MBPPL is willing to offer to pay in full and final settlement on all accounts of all demands raised in the said challans, a lumpsum one-time amount of ₹ 26.64 million without any liability for interest thereon or for any other payments relating to the subject and to provide an opportunity of hearing and furnishing clarifications, if required by PMC. 8 Intime, Sundew and KRIT

Intime and Sundew had acquired the land at Madhapur, Hyderabad as part of the demerger scheme from KRIT. The said land is in lieu of the employment opportunities to be generated by KRIT and others.

The liability, if any, arising due to the obligation to create the job opportunities for the entire larger land of which the above property is a part, continues to be retained by KRIT as at March 31, 2024.

- During the year ended March 31, 2016, Telangana State Industrial Infrastructure Corporation Limited ('TSIIC') has returned the original Bank Guarantees to KRIT and also confirmed to the bank that TSIIC will not claim any amount from the bank under the Bank Guarantees and the bank is relieved of its obligation. Hence, no liability is recognized towards the price of the plot of land.
- b) An unconditional obligation to pay amounts due to Andhra Pradesh Industrial Infrastructure Corporation Limited ('APIIC') in respect of APIIC's claims of losses due to any difference in values pertaining to sale transactions of the project undertaken by KRIT. Losses incurred by the Government/TSIIC in its JV Company, if any, will be paid in full by K Raheja Corp Pvt Ltd and it has furnished to the JV Company in writing agreeing and admitting liability to make such payment to Government/TSIIC.
- The shareholding pattern of the Government/TSIIC in the JV Company and the Company will not change as a result of conversion from Private to Public, the Government / TSIIC equity of 11% will remain the same in the Company and all the demerged companies and further in future, Government / TSIIC will not be asked to infuse further cash to maintain its 11% stake.
- 9 **Gigaplex**
- a) Regular Civil Suit had been filed before the Hon. Civil Judge (J.D) Vashi at Central Business District by an Education Society ("the Plaintiff") who is claiming rights in existing school structure, claiming its area as 500 square meters and its existence since more than 30 years, seeking an injunction not to dispossess him. Gigaplex has filed its reply opposing the Plaintiff's prayers. After hearing the parties, the Hon'ble Judge at the Vashi Court had rejected the Plaintiff's Injunction Application by Order dated 20.08.18 (Order). Thereafter the Plaintiff has filed an appeal in Thane District Court. The Plaintiff's Appeal filed in Thane District Court has been transferred to Belapur Court is still pending for Arguments in Appellant's Applications for injunction and status quo before relevant court in Belapur. Both Suit and Appeal are pending for hearing. In management view, the estimate of liability arising out of the same is remote, no provision has been taken.
- b) Gigaplex, one of the SPV's of Mindspace REIT, has received notice dated December 11, 2023 ("Demand Notice") issued by MIDC demanding differential premium of ₹ 528 million on account of change in shareholding pattern i.e. participation of the Gigaplex into the Mindspace REIT. In the meantime, in view of the permission for subleasing required by the Gigaplex from MIDC in respect of proposed transactions by the Gigaplex, and pending the determination as to whether the said demand is payable at all to MIDC and whether payable by the Gigaplex, the Gigaplex has obtained a bank guarantee in favour of MIDC for the said demand in order that the said permission for subleasing is obtained by the Gigaplex from MIDC. Group is of the view that the said demand is not payable by the Gigaplex. The Gigaplex had sent intimation to MIDC of the participation by the Gigaplex into Mindspace REIT ("Transaction") on July 15, 2020 (i.e. pre-Transaction) and also on October 5, 2020 (i.e. post-Transaction) and also explained in detail the rationale why the Transaction ought to be treated as a 'Formal Transfer' under the circulars issued by MIDC and only a standard transfer fee is payable which will be a nominal amount only and not such a large amount as per the Demand Notice. The Gigaplex has sent its response to the Demand Notice on January 2, 2024 and once again reiterated its aforesaid position and thus the demand for differential premium is erroneous and unwarranted and has requested MIDC, inter alia, to withdraw/ revoke the Demand Notice. In this regard, the Gigaplex has been legally advised that under the MIDC Circulars issued with respect to the change in shareholding of any lessee company of MIDC, which Circulars are also referred to in the REIT Circular issued by MIDC, as long as the natural persons belonging to the same family holding directly or indirectly in the lessee company by reckoning the shareholding within the shareholding entity does not fall below 51% post transfer of shares of the lessee company as compared to the position prior to the transfer of shares, the transfer premium payable will be a nominal sum being treated as a Formal Transfer under the MIDC Circulars. In pursuance of REIT acquiring entire shareholding of a Gigaplex, the position with respect to satisfying the said 51% holding is fully satisfied and the Gigaplex has furnished substantial evidence and documents

Notes to the Consolidated Financial Statements

- (all amounts in ₹ million unless otherwise stated)
- in support of the same to MIDC. Therefore, in Group's view there is no such premium payable as demanded by MIDC except a nominal transfer premium as a Formal Transfer for which the Gigaplex has made provision of ₹ 6 million in the books of account. Considering pendency in the disposal of this matter, in management's view, no further provision is presently required to be made. The said Transaction is in pursuance of swap of shares of the Gigaplex by inter alias by the Sponsor Group i.e. K. Raheja Corp Pvt. Ltd. and Ivory Property Trust (Erstwhile Shareholders) in exchange for the units of the Mindspace Business Park REIT. The Erstwhile shareholders have agreed to provide an indemnity and also make good the differential premium or any other amount which is finally decided by MIDC in this respect and in the process of execution of a counter guarantee in favour of the Gigaplex for such demand liability, if any, and any expenditure as may be incurred by the Gigaplex for obtaining the bank guarantee or any security in respect of the bank guarantee and any other cost, whether direct or indirect, as may be incurred by the Gigaplex in relation thereto.
- 10 **KRIT**
- A Writ petition has been filed against the Company in the High Court of Judicature of Andhra Pradesh at Hyderabad with respect to specific use of the land admeasuring 4,500 square yards, earmarked as plot 18. Pursuant to it, the Court has passed an Order for no construction activity on the said plot of land until further orders of the Court. KRIT has filed its reply and also sought expeditious hearing. After hearing, the matter was listed on 18.12.23 for pronouncement of judgement. The Court inter alia held that Petitioners in the writ petition are not entitled to any reliefs and the writ petition is dismissed. Stay got vacated. Subsequently, KRIT filed a caveat in writ appeal vide Caveat no. 8135 of 2023 on the file of the Hon'ble High Court for the State of Telangana. Based on the facts of the case, the management does not expect any liability and is of the opinion that no provision needs to be made.
- 11 **Horizonview**
- RPIL has executed a Deed of Conveyance dated August 19, 2023, in favour of Horizonview for transfer of 78% undivided interest in the Land, which has been submitted for registration with the concerned SRO, Kundrathur, Chennai. Further, RPIL has also executed a Deed of Conveyance dated September 2, 2023 in favour of
- Horizonview for transfer of its units in the building along with the corresponding 22% UDI in the Land. Both documents have been submitted for registration with the Sub-Registrar of Assurances Kundrathur ("Registrar"). The Registrar has issued demand notices for deficit of stamp duty and registration fees aggregating to ₹ 221.28 million in respect of the conveyance deeds and most of the demand is with respect to the Registrar's view that there is transfer of the building besides transfer of Land under the first Conveyance. Horizonview has responded to the demand notices, objecting to the same as Horizonview has constructed the building together with plant and machinery in the building for itself, on its own account and therefore there is no transfer from RPIL. As the transaction, which is subject matter of deed of conveyance, is only for transfer of the 78% undivided right, title and interest in the land and not the building/ machinery, in view of Management, the demand is not tenable. Further, regarding the 22% conveyance, the demand has been made for stamp duty and registration fees on the TDS amount deducted which demand is not tenable since the stamp duty and registration charges have been paid on the entire consideration which includes the TDS amount under the conveyance deed. The Company has the right to appeal to a higher authority.
- 12 **Sundew**
- The Office of the Land Reforms Tribunal Cum Deputy Collector & Special Grade Revenue Divisional Officer, Attapur ("Tribunal") had, by letter dated August 27, 2009, sought information from Sundew under Section 8(2) of the Andhra Pradesh Land Reforms (Ceiling on Agriculture Holdings) Act, 1973 ("APLRAC") in respect of the entire land parcel at Mindspace Madhapur. The Revenue Department of the Government of Andhra Pradesh forwarded a Memo dated September 5, 2009 for furnishing of certain information to the Government of Andhra Pradesh, including information requested by the letter dated August 27, 2009. Sundew had filed a detailed response on September 30, 2009 stating that (a) the land was originally granted by the Government of Andhra Pradesh to K Raheja IT Park Hyderabad Limited (KRIT) which was a joint venture company with Andhra Pradesh Industrial Infrastructure Corporation Limited, (b) the land was vested in Sundew by way of demerger order of the Andhra Pradesh High Court, (c) the land has been declared as an SEZ and is therefore exempt from the local laws; (d) the land was shown as a non-agricultural land in the master plan of Hyderabad and is therefore not "land" covered under the APLRAC. The Tribunal issued

(all amounts in ₹ million unless otherwise stated)

a final notice to Sundew in January 2012 requesting to submit a declaration for full and correct particulars of the lands held. In September 2009, Sundew also submitted a copy of the order dated August 9, 2012, which was passed by the Hon'ble High Court of Andhra Pradesh ("High Court") in a similar matter (being Writ Petition No. 19300/2012 filed by Neogen Properties Pvt. Ltd.) wherein a stay was granted by the High Court until further orders. The matter is currently pending before the Tribunal. Future cash flows in respect of above matters are determinable only on receipt of judgements/decisions pending at various forums/authorities.

The section explains the judgement and estimates made in determining the fair values of the financial instruments that are:

- recognized and measured at fair value
- measured at amortized cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level is mentioned below:

Fair Value hierarchy

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The following table presents the fair value measurement hierarchy of assets and liabilities measured at fair value on recurring basis as at March 31, 2024.

Valuation techniques and significant unobservable inputs

The following table shows the valuation techniques used in measuring Level 3 fair values for financial instruments measured at fair value in the statement of financial position as well as the significant unobservable inputs used.

Financial instruments measured at fair value	Valuation technique	Inter-relationship between significant unobservable inputs and fair value measurement
Financial Assets		
Investment in equity shares	Discounted cash flow approach	Increase/decrease of 5% or so in the discount rate would result in decrease/increase in the fair value *

* holding all other variables constant

Transfers between Level 1, Level 2 and Level 3

There were no transfers between Level 1, Level 2 or Level 3 during the year ended March 31, 2024 and March 31, 2023.

Determination of fair values

Fair Values of financial assets and liabilities have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

- The fair value of mutual funds are based on price quotations at reporting date.
- The fair values of other current financial assets and financial liabilities are considered to be equivalent to their carrying values.
- The fair values of borrowings at fixed rates are considered to be equivalent to present value of the future contracted cashflows discounted at the current market rate.
- Security deposits accepted are measured at fair value based on the discounted cash flow method considering the discount rate determined as the average borrowing rate.

B Financial risk management

The Mindspace Group has exposure to the following risks arising from financial instruments:

The movement in the loss allowance in respect of trade receivables is as follow

Particulars	As at March 31, 2024	As at March 31, 2023
Balance at beginning of the year	82	40
Add : Provision made during the year	10	50
Less : Utilize/reversed during the year	(49)	(8)
Balance at the end of the year	43	82

- Credit risk;
- Liquidity risk; and
- Market risk

i. Credit risk

Credit risk is the risk of financial loss to the Mindspace Group if a counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Mindspace Group's receivables and other financial assets. The carrying amounts of financial assets represent the maximum credit exposure.

Trade receivables

The Mindspace Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Mindspace Group grants credit terms in the normal course of business.

Refer note 14, for trade receivables ageing analysis.

Cash and cash equivalents

Other financial assets

Other financial assets which includes finance lease receivable are measured at amortized cost. Credit risk related to these financial assets is managed by monitoring the recoveries of such amounts on regular basis.

ii. Liquidity risk

Liquidity risk is the risk that the Mindspace Group will not be able to meet its financial obligations as they become due. The Mindspace Group manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Mindspace Group's reputation.

Based on the funding requirements, cost of borrowing and efficiency of cashflow management, the Group uses various sources of funds including long term borrowings, over drafts, etc. Further the Group also has unutilized borrowing capacity which the Group shall utilize depending on the cashflow needs.

53 During the previous year, KRIT had proposed to redevelop Buildings 7 and 8 at Mindspace, Madhapur, Hyderabad (forming part of Group's "Real Estate"

segment) as these were expected to be vacated by the tenant by March 2023. Vacation of these buildings provides the Company an opportunity to evaluate the possibility of redevelopment which would potentially increase the area of the building, help incorporating new upgraded facilities, enhance the marketability of the buildings and also offer future consolidation opportunities to existing tenants in the Park with continuity and growth. Basis the assessment by the SPV of the opportunity and concurrence from the Telangana State Industrial Infrastructure Corporation Ltd. (TSIIC) vide its letter dated March 13, 2023, the SPV proposed to redevelop the said buildings subject to the receipt of statutory approvals & clearances as may be required for the proposed redevelopment. Accordingly, the Group has charged the written down value of the said buildings, infrastructure plant and machinery as at March 31, 2023 amounting to ₹ 1,297 million to the Consolidated Statement of Profit and Loss and considered the same as an Exceptional Item for the year ended March 31, 2023.

54 During the previous year, An impairment loss of ₹ 72 million related to GIS substation asset at Gigaplex Airoli forming part of Group's "Real Estate" segment. The impairment charge arose due to technological obsolescence of asset and therefore, impairment loss has been considered for the carrying value of the asset and considered the same as an Exceptional Item for the year ended March 31, 2023.

55 Considering the weak micro market dynamics and no immediate demand visibility and also this being a non-core asset, the Board of Directors of the Manager, at its meeting held on January 29, 2024 approved initiation of the process of sale of Mindspace Pocharam, comprising all piece and parcel of land admeasuring approximately 26 acres along with the structures thereon located at Mindspace Pocharam, Telangana. This investment property is part of "Real Estate" segment of the Group. An active program for sale will be in place. On conclusion of the process, a detailed proposal shall be placed before the Board for its consideration and approval. The asset, which is expected to be sold within 12 months, has been classified as a held for sale and presented separately in the balance sheet. The Group has estimated the fair value less costs of disposal of this asset based on the external fair valuation, which is less than the carrying value as on March 31, 2024. Accordingly, the asset has been recognized at the lower of carrying value and fair value less cost of disposal resulting into impairment loss of ₹ 364 million, which has been recognized in the statement of profit and loss and considered the same as an Exceptional Item for the year ended March 31, 2024

56 Intime has received show cause notice during the previous year from the Jurisdictional GST Authority for the periods beginning July 2017 to March 2020 for not considering charging of GST, on the recovery of utilities being electricity, water and DG back-up power provided to tenants, amounting to ₹ 100 million. The Management, after due consultation with the Consultant, is of the view that the charges towards electricity and DG back-up power are incurred in the capacity of a 'pure agent' as covered under Rule 33 of CGST Rules, 2017 and also such supplies are exempt as per the Exemption Notification and hence to be excluded from the value of taxable supply. The Management had filed its detailed response to the show cause notice. Based on the facts of the case and the provisions of the GST law, no provision has been made w.r.t. recovery of electricity and DG back-up power.

2 VALUATION APPROACH AND METHODOLOGY

2.1 VALUATION STANDARDS ADOPTED

This Report is prepared in accordance and compliance with:

1. Securities and Exchange Board of India (Real Estate Investment Trusts) Regulations, 2014 as amended from time to time (“**SEBI Regulations 2014**”), including Regulation 21 Sub-Regulation (3) and mandatory minimum disclosures as specified in Schedule V of these SEBI Regulation 2014,
2. Companies (Registered Valuers and Valuation) Rules, 2017 as amended from time to time (“**Valuer Rules 2017**”), including reporting requirements as specified in Rule 18 to these rules,
3. International Valuation Standards 2022 (“**IVS 2022**”) as set out by International Valuation Standards Committee (“**IVSC**”) and adopted by Royal Institution of Chartered Surveyors (“**RICS**”) presented in the RICS Valuation Standards and Guidelines 2022 (“**RICS Red Book 2022**”), subject to variation to meet local established law, custom, practice, and market conditions.

2.2 BASIS OF VALUATION

Basis of valuation of the Project is **Market Value** as defined by IVSC and adopted by Royal Institution of Chartered Surveyors (RICS) to be: “*The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion*”.

2.3 APPROACH AND METHODOLOGY

The purpose of this valuation exercise is to estimate the Market Value of the Project, which is a real estate asset. Market Value of the real estate asset can be estimated using different approaches and methodologies.

Income Approach: Under this valuation approach, the income generating potential of the real estate asset is estimated while opining on its market value. This approach is typically adopted for assets that are income-generating (completed and operational with multiple tenancies, multiple strata units that can be sold with phased/milestone-based revenue collections, among others). For income-generating assets with single/multiple tenancies, the discounted cash flow entailing term and reversion method is most commonly adopted.

Market Approach: Under this valuation approach, the price that an asset could fetch in an open market is estimated. This approach is typically adopted for homogeneous assets in their micro-market and are typically traded on a unit basis. The most commonly adopted valuation method under this valuation approach is the Listed Transaction / Listed Quoted Instances Method, also commonly known as the Direct Comparison or the Comparable Sales/Quoted Instances Method.

Cost Approach: Under this valuation approach, the cost required to create an asset of similar or equal utility is estimated. This valuation approach is typically adopted for real estate assets that can be clearly broken down into constituent elements, namely land and built structures. The most commonly adopted valuation method under this valuation approach is the Physical Method, also commonly known as Land and Building Method, which typically entails estimation of the underlying land value (while normally adopting the Market Approach) and the built structures (while adopting the Depreciated Replacement Cost Method) separately.

Table 2.1: Different Valuation Methodologies and Description

Sl.	Valuation Methodology	Description
1.	Comparable Sales / Quoted Instances Method	This method is based on comparing the subject property directly with other comparable property transaction (actually been sold in the vicinity or are offered for sale). Efforts would be made to collect transacted instances. In case of non-availability of transacted instances in the micro-market, the opinion will be offered based on the available asking/quoted instances in the market with appropriate adjustments for margin for negotiation. Given the homogeneous nature of real estate properties, appropriate adjustments are usually required to allow for any qualitative and quantitative differences that may affect the price likely to be achieved by the property under consideration. These adjustments are typically made in the form of premium and/or discount factors for various property attributes, which affect the value. This method demonstrates what buyers have historically been willing to pay (and sellers willing to accept) for similar properties in an open and competitive market and is particularly useful in estimating the value of the land and properties that are typically traded on a unit basis. This method is a fair estimate of the prevailing prices.
2.	Depreciated Replacement Cost Method	Replacement cost method is based on the construction cost of assets. The cost to be estimated is the cost of construction as per the construction status at the valuation date. This is based on the inspection of the facility and inputs provided by the Client; however, no structural survey will be conducted. Appropriate depreciation rates will be applied based on schedules given under the Indian Companies Act. This is generally used for estimating the Market Value of buildings and plant and machinery.
3.	Discounted Cash Flow Method	This method is based on the present value of the future receivable net income from the current operational leases / revenues. The current revenues and the future achievable revenues derived from the operational project components of the Project Site would be adjusted for the outgoing expenses to derive 10-year cash flows. The same is then discounted at an appropriate discounting rate linked with risk adjusted discounting factor to estimate the market value for the operational project components. This method is sometimes referred to as 'Rent Roll method as well.

Approach and Methodology Adopted for Estimating Market Value of the Projects

Based on a detailed review of the leases for the Projects, with the exception of Project at Pocharam, the Valuer has noted that a large number of leases of the Projects were executed at rent prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, demand-supply dynamics, quality of spaces, overall health of the economy, existing rent, future growth plans, etc.) at a particular point in time, negotiated rent may tend to move away from the prevalent market rent over a period of time. It has also been witnessed that the market rent for some properties or submarkets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to estimate the intrinsic value of the property under review.

Considering the objective of this exercise and the nature of assets involved, completed & operational / under construction or future development office space, (other than certain land portions of future development portion which has been valued using Comparable Sales / Quoted Instances Method under 'Market Approach', power distribution services which has been valued using Discount Cash Flow Method under 'Income Approach', facility management services which has been valued using Discount Cash Flow Method under 'Income Approach', and Pocharam that has been valued considering the Cost Approach, as highlighted later in this section), the value is estimated using the 'Discounted Cash Flow Method' (basis term and rent reversion) under 'Income Approach'.

Specifically for the Project at Pocharam, the Valuer has noted that the existing buildings are vacant, and the earlier leases have expired. No demand has also been observed for this vacant space for quite some time, and in particular over the last six months since the previous valuation of this Project. Further, based on market research, Project micro market was observed to have no demand for office spaces. The Project micro-market also appears to be beginning to emerge as a residential destination with significant upcoming supply of residential strata units. In this scenario, given the guidance provided in various sections of International Valuation Standards 2022, the Valuer has adopted the Cost Approach to valuation of this Project at Pocharam. Under the Cost Approach, the land component has been valued considering the Comparable Sales/Quoted Instances Method under the Market Approach and building and plant & machinery components have been valued considering the Depreciated Replacement Cost Method. Details of this change in valuation approach since the previous valuation are provided in the main report for the Project at Pocharam and at a subsequent section in this report.

2.4 ADOPTED PROCEDURE

The market practice in most commercial/ office developments involves contracting tenants / occupiers in the form of pre-commitments at sub-market rent to increase attractiveness of the property to prospective tenants - typically extended to anchor tenants. Additionally, there are instances of tenants paying above-market rent for certain properties as well (primarily owing to market conditions at the time of contracting the lease). In order to arrive at a unit value for these tenancies, the Valuer has considered the impact of such sub/above market rents on the valuation of the Project.

For the purpose of this valuation exercise, the Valuer has analyzed the tenancy details provided by the Client, to identify variances vis-à-vis prevailing market/marginal rent. Each lease is assessed separately for below aspects, for the rent over a 10-year time horizon:

- The rent rolls (and the corresponding lease deeds on a sample basis) were reviewed to identify tenancy characteristics for the asset. As part of the rent roll review, major tenancy agreements belonging to top tenants were reviewed on a sample basis.
- Title certificates, architect certificates and other related documents as mentioned in relevant sections of the report were reviewed for validation of area details, ownership interests of the Project.
- Physical site inspections were undertaken to assess the status of the Project.

Cash Flow Projections

The cash flows for the Project has been projected separately for each lease, to arrive at their respective value estimates.

Net Operating Income (NOI) has primarily been used to arrive at the value of the Project. The projected future cash flows from the Project are based on existing lease terms for the operational leases till the expiry of the leases or re-negotiation, whichever is earlier, following which, the lease terms have been aligned with market rents achievable by the Project.

For vacant area and under-construction/future development area, the achievable market rent-led cash flows are projected factoring appropriate lease-up timeframe for vacant/under-construction/future development area. These cash flows have been projected for 10-year duration from the date of valuation and for 11th year (for estimate of terminal value based on NOI). These future cash flows are then discounted to present-day value (valuation date) at an appropriate discount rate. Each lease is assessed separately for below aspects, for the rent over a 10-year time horizon.

- Projecting the rental income for identified tenancies up to the period of lease expiry, lock-in expiry, escalation milestones, etc. whichever is applicable. In the event of unleased spaces, market-led rent is adopted with suitable lease-up time.

- Generating a market led rental income stream for identified tenancies for the time period similar to the cash flows drawn in the aforementioned step.
- Computing the monthly income based on rent projected above and translating the same to quarterly income (for the next 10 years and 11th year is considered for calculation of terminal value).

Further, to arrive at the total value of the leased spaces (from base rentals), appropriate revenues and operational expenses are projected on quarterly basis. Some of such adjustments on revenue and operational expenses are presented in the table below:

Table 2.2: Adjustments on Revenues and Operational Expenses

Parameters	Description / Basis
Parking Income	Based on income inputs provided by Client for the leased spaces and market assumption taken for vacant spaces
Miscellaneous Income	Based on income inputs provided by Client for the Project
Insurance	Based on insurance outflow (if any) provided by Client
Annual Lease Rental / Property Taxes	Based on annual lease rental / property tax assessed for the Project as provided by Client
Asset Management Fee	Considered as a recurring expense (in case of an external management team) as a percentage of the lease rental income as per the agreement between respective assets and its asset manager.
Margin on CAM	Based on the operational revenues and expenses of the respective assets to understand the recurring, non-recurring, recoverable and non-recoverable expenses and accordingly modelled the common area maintenance income and operational expenses for the asset.
Revenue Escalation	Based on market-led annual escalation on the market rent
Rent Free Period	Based on the trend prevalent in the submarket, appropriate rent free periods from lease commencement date (for future / new leases) are considered
Brokerage	Based on prevalent market dynamics, brokerage for future / new leases are considered
Fit-Out Income	Based on fit-out rent (if any) provided by Client till lease expiry of applicable leases (same is not capitalized)
Transaction Cost on Exit	Considered as a percentage of the terminal value after aforesaid adjustments

Valuation of land for future development – 1.79 acres

Project has 1.79 acres of land for future development located at the entrance gate. Further it is forming part of the larger IT park and designated for IT/ITES development. We note the update on the litigation on the said plot.

However, as there are no concrete development plans on the said plot at present, and the update on writ petition is only recent, we continue to estimate the value of the land using government benchmarked price. We may potentially re-look at approach during the subsequent valuation exercise depending on the progress.

4.2.5 MARKET VALUE

We are of opinion that the Market Value of the Project Mindspace Madhapur (KRIT) located in Madhapur, Hyderabad Telangana, India 500081 as on 31 March 2024 is estimated to be:

- For Completed Project - INR 20,982.98 million** (INR Twenty Billion Nine Hundred Eighty-Two Million Nine Hundred Eighty Thousand Only)

Freehold / Leasehold	The underlying land of the Project Site is held as leasehold from MIDC, which lease is valid for a term of 99 years from 1st August, 1964. Further, the company has right to renew the lease for a period of 99 years upon the terms and conditions therein. Given that the purpose and obligations associated with lease of the underlying land has essentially been achieved, the likelihood of lease getting cancelled or not renewed at the end of the tenure is negligible. 4.4.5 POWER DISTRIBUTION SERVICES

In accordance with Section 14 (b) of the Electricity Act, 2003 read with Section 4(1) of the SEZ Act, 2005, entities that own and operate SEZ Parks are considered Deemed Distribution Licensee for supplying electricity to consumers within the SEZ area. Pursuant to the above regulations, MBPPL also has the license to distribute power within the Subject Property.

The SPV has invested in the infrastructure to facilitate the distribution of the power to the customers (occupiers and operators within the subject properties). It procures power from Power generators supplying to the grid and then distribute it to the end consumers within the Project Site. The SPV is not allowed to expand the power distribution outside the limits of the SEZ, i.e., the Project Site in this case

4.4.6 ADOPTED METHODOLOGY FOR POWER DISTRIBUTION SERVICES

Referring to the commission's latest order for the operational facility, the cash flows from the power distribution services are projected in the following manner:

- Amount of approved Gross Fixed Assets ("GFA") is considered
- Further, Net Fixed Asset (NFA) which is GFA reduced by accumulated depreciation allowed as on date is computed.
- To compute the Net Cashflows, mainly return on equity, interest on notational debt, recovery of depreciation, interest on working capital have been added.
- Licensee is allowed to charge 14% return on equity which is 30% of GFA. In case of no actual loan, the commission allows a return on normative loan equal to 70% of GFA based on MYT regulations 2019. SLM (Straight Line Method) is considered for depreciation, as per the average rate approved by the commission. Depreciation is considered to the extent of 90% of the GFA.
- Approved power procurement, operational and maintenance expenses are allowed completely pass through.

4.9.5 POWER DISTRIBUTION SERVICES

In accordance with Section 14 (b) of the Electricity Act, 2003 read with Section 4(1) of the SEZ Act, 2005, entities that own and operate SEZ Parks are considered Deemed Distribution Licensee for supplying electricity to consumers within the SEZ area. Pursuant to the above regulations, KRC Infrastructure and Projects Private Limited also has the license to distribute power within the Project Site.

The SPV has invested in the infrastructure to facilitate the distribution of the power to the customers (occupiers and operators within the subject properties). It procures power from Power generators supplying to the grid and then distribute it to the end consumers within the Project Site. The SPV is not allowed to expand the power distribution outside the limits of the SEZ, i.e., the Project Site in this case

4.9.6 ADOPTED METHODOLOGY FOR POWER DISTRIBUTION SERVICES

Referring to the commission's latest order for the operational facility, the cash flows from the power distribution services are projected in the following manner:

Amount of approved Gross Fixed Assets ("GFA") is considered

Further, Net Fixed Asset (NFA) which is GFA reduced by accumulated depreciation allowed as on date is computed.

To compute the Net Cashflows, mainly return on equity, interest on notational debt, recovery of depreciation, interest on working capital have been added.

- Licensee is allowed to charge 14% return on equity which is 30% of GFA. In case of no actual loan, the commission allows a return on normative loan equal to 70% of GFA based

on MYT regulations 2019. SLM (Straight Line Method) is considered for depreciation, as per the average rate approved by the commission. Depreciation is considered to the extent of 90% of the GFA.

- Approved power procurement, operational and maintenance expenses are allowed completely pass through.

4.9.8 FACILITIES MANAGEMENT SERVICES

KRC Infrastructure and Projects Private Limited has commenced facility management business effective October 1, 2020 to provide such services to the Subject Properties within the portfolio as well as properties with ownership interests of/owned by third parties within the same parks as the Subject Properties of the Portfolio (as mentioned in the following table). Facility management services include housekeeping services, management of MEP equipment, façade cleaning, security expenses, repair and maintenance, maintenance of common areas etc. Service charges are levied on a cost-plus mark-up basis to the SPVs owned by REIT, which has ownership interest in the Subject Properties.

The facilities management services business shall operate under the brand name CAMPLUS and shall manage the existing operational buildings / area in the Portfolio. In addition, area under-construction/ future development shall also be managed by KRC Infrastructure and Projects Private Limited on completion.

4.9.9 KEY ASSUMPTIONS

Existing Operational Building which will be under facility management (including sold units and landowner areas)	Existing Operational Building which will be under facility management	Total area of ~27.8 million sq ft. as at (March 31, 2024) Mix of SEZ and non SEZ building.	The revenue of facility management is linked to the expense for such facility plus mark up, the growth in the revenues from existing tenants are in line with the inflation expectation of 5%.
Expansion in Existing business and Buildings under construction (including landowner areas)	Expansion in Existing business and Buildings under construction	Total area of ~5.2 million sq ft.	For future development/proposed buildings, revenue and margins of existing properties is considered as a base to compute the projected cash flows of new buildings. Growth in revenue is linked to the improvement in

			occupancy plus 5% revenue growth from existing tenants. Initially those buildings are likely to have lower margins due to lesser occupancy.
--	--	--	---

For the purpose of arriving at terminal year income multiple, Indian and International comparable companies listed on various stock exchanges were studied. It was observed that International companies with primary business of facility/property management trade at 10 - 13 times EV/EBITDA multiple. However, there are very limited comparable facility management listed companies. There is only listed comparable company, which offers facility management services in India including security services, cash logistic etc. Given the fact that facility/property management business is limited to Subject Properties within the portfolio as well as properties with ownership interests of/owned by third parties within the same parks as the Subject Properties of the portfolio, we have considered the EV/EBITDA multiple of 13x to compute the exit value post 10 years of cashflows. For the purpose of discounting the future cash flows, a Weighted Average Cost of Capital (WACC) of 11.75% has been used.

	Based on the site inspection, the Project has two buildings and ~ 19 acre of land for future development.	
	Subject Property has undergone significant changes over the last six months with the existing tenant(s) having moved out of the property. Both leasable buildings in the Subject Property are currently vacant and considerable challenges have been observed over these last six months in leasing this Subject Property. Further, recent market feedback indicates that Subject Property micro-market is no longer being considered as an active destination for IT/ITeS spaces. The IT/ITeS activity in the city has been largely concentrated in the western quadrant and there is no immediate visibility of demand in the eastern quadrant. Given these constraints, the approach to valuation of Subject Property has been changed, in line with guidance provided under International Valuation Standards 2022, to Cost Approach from Income Approach considered previously, as there is currently no direct evidence of rent and no other identifiable income streams and does not appear likely in the near foreseeable future from the Subject Property. The land component has been valued while considering the Comparable Sales Method (under the Market Approach), and built component and plant and machinery components have been valued considering the Depreciated Replacement Cost Method.
