MESSAGE FROM OUR CHAIRMAN & MD

Dear Fellow Shareholders,

On behalf of the Board of Directors, I take pleasure in addressing all of you at the 37th Annual General Meeting of your Company.

The Annual Report for the Financial Year 2023 - 24 has been circulated to all of you. You will be happy to know that your Company's total revenues have once again exceeded INR 1,000 million without any additions of rooms or public areas or any capital expenditure. We did not wish to take any major decisions given the current geo-politics and other major events playing out around the World and in India, which could impact our Company's future.

The World Travel & Tourism Council (WTTC) report titled "Economic Impact 2024" shows that the Travel and Tourism sector will contribute 10% of the GDP of India in 2024 as compared to 9.1% in 2023. They have also projected that the number of jobs in Travel & Tourism will increase from 330 million in 2023 to 348 million in 2024, which represents 10.4% of total jobs in India. The report also revealed that domestic tourists spent INR 14.64 trillion on travel and tourism within India in 2023, with 95% of this expenditure dedicated to leisure activities. The contribution of the Travel and Tourism sector to our economy is thus immense, especially when the focus is on job creation.

A recent report by HVS Anarock concluded that revenge travel by domestic tourists which was the main reason for the growth of the hospitality industry in the last two years, was gradually declining. They have determined that 27 million Indian nationals travelled

overseas during the last year, which is 26% higher than the previous year. In this context, it is reassuring that our Prime Minister, Mr. Narendra Modi has come out with a slogan "WED IN INDIA." Weddings are a big source of business for our hotel and other hotels in India and we are excited to share that FY24 has been a landmark year for Caravela Beach Resort, as we hosted the highest weddings in our Company's history. Our hotel has a big advantage owing to a 270-metre frontage on the beach with surrounding lawns for multiple venues for large weddings. A large percentage of the World's weddings occur in India and it is a Trillion Dollar industry for India.

As per the HVS report, occupancy of hotels in Goa in the year 2023 was about 72%. Our resort hotel achieved an average occupancy of 83.8% for the same year and an average occupancy of 89.8% in FY24. With a significant contribution to our exceptional occupancy rate, we are dedicated to sustain this momentum in FY25 with continued growth driven by MICE and leisure travel. HVS also reported that Goa had a drop in Average Room Rate this year. We have always believed that the Total Revenue Per Occupied Room is a better yardstick than Average Room Rate as Food and Beverage and Wedding revenues comprise a large part of the revenues of many hotels. The Revenue Per Occupied Room per night for financial year 2023 - 2024 for our resort was INR 18,798 as compared to INR 17,556 in the previous financial year.

Continuing our journey of eliminating single-use plastic we have installed, Caravela Aqua, an in-house water bottling plant, reducing reliance on single-use plastic bottles, and underscoring the Company's commitment to environmental stewardship.

Your Company's Total Income for Financial Year 2023 - 2024 was INR 1,084 million, which was 8% higher than the previous year. This was despite the opening of the new Mopa Airport and a diversion of several flights from Dabolim Airport in South Goa to the Mopa Airport in North Goa.

Your Company's Profit before tax was INR 335 million for the year ended FY24. The Net Profit after Tax for the financial year was INR 250 million. Your Company is debt free unlike other hotels in our industry. Despite being a single hotel property without the advantage of spreading fixed costs across multiple locations, we managed to achieve an impressive 46.6% Pre Tax Return on Equity Capital including free reserves.

The profit available for appropriation has increased from INR 503 million to INR 582 million. Our policy has been to reward our shareholders. With this objective, we have already declared two dividends for Financial Year 2023 - 2024 totaling to INR 166.4 million (Previous Year INR 157.1 million). This is the highest dividend payout declared by our Company for any year in its history of 34 years. In addition, we have rewarded our loyal shareholders by issuing bonus shares in the ratio of 1:1 in January and these shares were allotted to all of you on 21st March.

Testimony to your Company's commitment is to create shareholder value and reward all our shareholders. A recent research study that ranked our Company among the top 10 dividend-paying Companies by percentage among all listed corporations in India, based on dividends paid over the past 10 years. Even though our equity capital doubled to INR 184.8 million from 92.4 million as a result of our recent 1:1 bonus issue, we continue to be one of the highest dividend paying Companies in the hospitality industry. The number of shares traded in our Company has increased dramatically. Due to this, the number of shareholders of our Company has increased from a mere 20,115 on January 28, 2024 to 38,323 as on August 16, 2024.

Since our industry will be affected if the Russia-Ukraine conflict escalates any further, I had taken the initiative of handing over a letter to the head of G20 a year ago asking him to request our PM to meet President Putin and also President of Ukraine to start diplomatic efforts to end the War. Furthermore, I would like to thank our Prime Minister Mr. Narendra Modi for having visited Moscow for a meeting with President Putin in June and followed up with a meeting with President Zelensky of Ukraine in August. His efforts to promote a diplomatic resolution to the conflict are greatly appreciated.

I would like to express my sincerest gratitude to every member of our organisation for their dedication and commitment to the pursuit of excellence. We are optimistic about our future and remain committed to investing in our business to enhance our value proposition for our guests. Our efforts have delivered an exceptional and authentic hospitality experience for our guests that is synonymous with our Company's unique history and reputation.

I would also like to thank our Shareholders, Tour Operators, Travel Agents, Booking.com and Make My Trip and to our repeat guests. I am indebted to our Employees, Bankers and Government officials in the Ministry of Finance, Home, Commerce, External Affairs, Tourism, Civil Aviation, Labour, Road Transport and Niti Aayog. The Government of Goa, especially our Honorable Chief Minister, has assisted us in our efforts to increase tourism to Goa. I would also like to express my gratitude to the Village Panchayat of Varca for their continuous support. I wish to thank our Board of Directors for their wisdom and guidance and especially our CEO.

Lastly, I would like to acknowledge the immense contribution of each and every person associated with our organization which has enabled us to achieve these results.

With best wishes,

Chairman & Managing Director

MANAGEMENT DISCUSSION AND ANALYSIS

This discussion covers the financial results of your Company between April 1, 2023 and March 31, 2024. Some statements may be forward looking. Actual results will be dependent on many factors such as the geopolitical environment in the world and changes in Government policies at the Centre and in the State of Goa, the health of the Indian economy and exchange rate of countries from which your Company receives its guests, the supply and demand for guest rooms in Goa among other issues.

1. Global and India's Economy

In July 2024, the International Monetary Fund in its 'World Economic Outlook' study reported that Global GDP growth would be 3.2% in 2024 and 3.3% in 2025. This indicates that global economies are on a path of recovery and expansion, which can lead to better opportunities for everyone. The report projects that inflation will decline steadily. They have reported GDP of India to grow by 7.3% in FY 2024 and by 6.5% in FY 2025. According to the Economic Survey 2023-24 presented by the Ministry of Finance, India's real GDP grew by 8.2% in FY 2024, driven by stable consumption demand. India's GDP growth is far the highest. GDP of the USA is projected to grow by 2.6% and the Euro Area by 0.9% in 2024. There is a direct correlation between the growth of GDP and the growth of the hospitality industry. The future of the hospitality industry in India is bright.

2. Tourism and the Hospitality Industry in India and Goa

Tourism and Hospitality are part of the Services sector of the economy which constitutes about 60% of the GDP of India. As per the Economic Survey 2023-24, the Tourism sector in India is ranked at the 39th position in the World Economic Forums Travel and Tourism Development Index (TTDI) 2024. The Economic Survey pointed out that there were 92 Lakh foreign tourist arrivals in 2023, which represented an increase of 43.5% YOY. The World Travel and Tourism Council (WTTC) in their report Travel & Tourism, Economic Impact 2024 projects that Travel & Tourism will contribute almost ₹ 21.15 trillion to India's GDP, a marked 21 per cent improvement compared to 2019. In the last year alone, the contribution of Tourism & Travel increased by 10.6 per cent. In 2024, the Travel & Tourism sector in India contributed to about 6.8 per cent of the total GDP. The report estimated that domestic tourists spent ₹ 14.64 Trillion in 2023 in India which was a 16.6% increase over the previous year. 95% of this was for Leisure. In comparison, foreign visitors to India spent only ₹ 2.43 Trillion in India in 2023. As such, India's hospitality industry is not reliant on foreign visitors as there is a growing market within India itself. India will not be as severely impacted even if there is an escalation of War in the Middle East or in Ukraine. The substantial increase in GST collection speak volume of the growth of our industry. This sector of our Country's economy provided over 45 million jobs or 9.2% of the total employment in our country. The Government has given utmost importance to job creation in the Annual Budget presented by the Finance Minister in July this year. Our industry can provide substantial jobs. There is a growing gap between the buoyant demand for hotel rooms and the present inventory. New hotel projects are being planned across the country from bustling metros like Mumbai to popular leisure destinations like Jaipur and Goa.

Goa continues to be a premier tourist destination of India. Goa emerged as a standout performer with an impressive 72% absolute growth in ARR between 2007 to 2023, complemented by the highest CAGR of 3.44% amongst the key markets, emphasizing Goa's evolution as the country's most popular leisure destination as per report of HVS Anarock.

Since there have been very few new large hotels built recently, the increased demand far exceeds the present supply of hotel rooms. There has been an increase in domestic tourists though many more are now going abroad for holidays. Conferences and Weddings are a major source for hotels such as ours as they require a larger hotel with various venues.

3. Opportunities and Threats

Opportunities

Prime Minister, Mr. Narendra Modi has given a boost to tourism by promoting "WED IN INDIA". Weddings are a huge source of business for hotels. Substantial financial resources for improving the infrastructure of our country continue. Large number of airports are coming up in tier-2 cities in India. The new International Mopa Airport and the existing Dabolim Airport are functioning well. This has opened up the ability for Goa to be connected from new cities in India. The domestic airlines have placed huge orders to purchase more airplanes. Airfares for travel to Goa will reduce in future. It will be more expensive to fly abroad due to war and closure of air corridors. The Expressway to reduce driving time from Mumbai to Goa in 7 hours is nearing completion, which will increase the size of the potential market from Mumbai and Pune. The new Vande Bharat Luxury express train from Mumbai lands

in Margao and is becoming popular. The Marmagao Harbour is 45 minutes from our resort and cruise ships have been given special incentives in the recent Budget announced by the Government of India. More international tourists are expected due to India becoming a major player in the world stage.

The Central Government has recognized Tourism as an important industry to generate employment and will make policies to assist the industry.

With the Government clear in its agenda for further economic liberalization, it is expected that India will get further integrated with the world economy. This will lead to increase in international and domestic business traffic in the future.

Threats

There is a recent increase in hostilities, as a result of the war between Israel and its neighbor. This would have a major impact on travel as several air corridors would be closed. Inbound travel from western countries may reduce.

The war between Russia and Ukraine is also escalating with NATO basing missiles in Germany. This may lead to retaliation by Russia and World War III. This would have a huge impact on the world as a whole.

There are several hotel projects being planned in Goa including some in South Goa. They would find it difficult to build as close to the beach as our resort, which was built before the 200-metre High Tide Line was moved further away from the sea.

4. Segment-wise or product-wise performance

The Company is primarily engaged in the business of hoteliering, which the management recognises as the sole business segment.

5. Risks and concerns

The hotel business is dependent on global and domestic economic conditions, which may get adversely impacted due to pandemic or war in any part of the World. Further, your Company has the risk of dependence on only one Hotel at Goa. There is also the risk of dependence mainly on luxury segment. However, the Company's hotel enjoys premium over many other competitors due to its repeat client base made over a period of 30 years, its beach-front location, service reputation and architectural design.

Our Company is totally debt-free and has ample liquid reserves. With debt-free status, we have reduced our risk profile and are more resilient to face any pandemic or adverse economic condition when compared to other companies.

Risk Management is an integral part of the company's business process. The Company has a robust risk management framework to identify, assess, and mitigate potential threats. Risks are continuously monitored and effectively controlled through ongoing efforts to conceive and implement mitigation strategies. Pertinent policies and methods are being reviewed and modified to mitigate such risks. The Company has taken several measures to protect the safety and security of its customers, employees and its assets. In addition to the physical security measures, the Company has also taken adequate and varied insurance covers to meet the financial obligations, which may arise from any untoward incidents. To counter the risk of competition, your Company focuses on providing exceptional guest-centric services on consistent basis.

6. Internal control systems and their adequacy

The Company has adequate Internal Control Systems with documented procedures for main hotel operating functions. The Company's Internal Control System provide reasonable assurance of the effectiveness and efficiency of operations, reliability of financial controls and compliance with applicable laws and regulations.

The Company's Internal Auditors thoroughly examine various aspects of the Hotel's operations and submit their reports to the Audit Committee on regular basis. The Management takes necessary actions based on their observations. Since we have only one unit, the existing controls are adequate for safeguarding Company's assets.

TO THE MEMBERS OF ADVANI HOTELS & RESORTS (INDIA) LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the Financial Statements of **Advani Hotels & Resorts (India) Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2024, and the Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "**the Financial Statements**").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2024, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements Section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Sr. No.	Key Audit Matter	Response to Key Audit Matter
1	<p>Refer Note 32 of the Financial Statements.</p> <p>The Company has significant tax and other litigations against it. There is a high level of judgement required in estimating the level of provisioning required and appropriateness of disclosure of those litigations as contingent liabilities.</p>	<p>For legal, regulatory and tax matters, our procedures included examining external legal opinions obtained by management, meeting and discussions with the management and examining relevant correspondence; discussing litigations with the Company's legal and tax consultants, assessing management's conclusions through understanding precedents set in similar cases.</p> <p>We also involved our internal tax specialists to gain an understanding and to determine the level of exposure for direct and indirect tax litigations of the Company.</p> <p>Considering the above, we examined the level of provisions recorded and assessed the adequacy of disclosures in Financial Statements.</p>

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report but does not include the Financial Statements and our Auditor's Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and those charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the

ADVANI HOTELS & RESORTS (INDIA) LIMITED

Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's Report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure, and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work: and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and, are therefore, the key audit matters. We describe these matters in our Auditor's Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

The Annexure referred to in paragraph 2 (f) under “Report on Other Legal and Regulatory Requirements” in our report of even date to the members of **ADVANI HOTELS & RESORTS (INDIA) LIMITED** for the year ended 31st March, 2024. We report that:

We have audited the internal financial controls over Financial Statements of **Advani Hotels & Resorts (India) Limited** (“the Company”) as of 31st March, 2024 in conjunction with our audit of the Ind AS Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the Institute of Chartered Accountants of India (“the Guidance Note”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to the Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A Company’s internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control with reference to Financial Statement includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditure of the Company are being made only in accordance with authorizations of management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to Financial Statements and such internal financial controls were operating effectively as at 31st March, 2024, based on the internal control with reference to Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

1. Company Overview and Material Accounting Policies

1.1 Company overview

Advani Hotels & Resorts (India) Limited is a Public Limited Company, which was incorporated on March 13, 1987 in the name of Ramada Hotels (India) Limited. The name of the Company was changed from Ramada Hotels (India) Limited to **Advani Hotels & Resorts (India) Limited** in 1999. The shares of the Company are listed on Bombay Stock Exchange and National Stock Exchange. The Company is primarily engaged in the Hotel Business through its “**Caravela Beach Resort**”, a five-star Deluxe Resort situated in South Goa.

The Financial Statements were approved by the Board of Directors and authorized for issue on May 22, 2024.

1.2 Basis of preparation of Financial Statements

These Financial Statements are prepared in accordance with Indian Accounting Standards (Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments, which are measured at fair values, and the provisions of the Companies Act, 2013 ('Act') (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Accounting policies have been consistently applied except where a newly issued Accounting Standard is initially adopted or a revision to an existing Accounting Standard requires a change in the accounting policy hitherto in use.

1.3 Functional & Presentation Currency

These Financial statements are presented in Indian Rupees (INR) “In Lakhs” (₹), which is also the Company's functional currency.

1.4 Use of estimates

The preparation of the Financial Statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the Financial Statements and reported amounts of revenues and expenses during the period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods. Changes in estimates are reflected in the Financial Statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the Financial Statements.

1.5 Material Accounting Policy Information

(a) Property, Plant and Equipment:

Under the previous Indian GAAP, Property, Plant and Equipment were carried in the Balance Sheet on the basis of historical cost. The Company has regarded the same as deemed cost and presented same values in Ind AS compliant financials.

Property, Plant and Equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement, if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the Statement of Profit and Loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset, if the recognition criteria for a provision are met.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

Depreciation on items of Property, Plant and Equipment assets is calculated on a straight-line basis using the rates based on the useful lives of the assets as prescribed in Schedule II to the Companies Act, 2013. Where the historical cost of a depreciable asset undergoes a change due to increase or decrease on account of price adjustments, changes in duties or similar factors, depreciation on the revised amount is provided prospectively over the residual useful life of the asset.

(b) Investment Property

Investment Property is property (land or a building or part of a building or both) held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in production or supply of goods and services or for administrative purposes. Investment properties are stated at cost net of accumulated depreciation and accumulated impairment losses, if any.

Any gain or loss on disposal of investment property is calculated as the difference between net proceeds from disposal and the carrying amount of investment property and is recognized in Statement of Profit and Loss.

(c) Inventories

Inventories are measured at lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion & selling expenses. Cost of operational items of circulating stock like crockery, cutlery, glassware, silver ware, plastic ware, linen, etc. issued from the stores department is charged to revenue.

(d) Financial Instruments

A financial instrument comes into existence as a result of a contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at Fair Value Through Profit or Loss, transaction costs that are directly attributable to the acquisition of the financial asset.

Subsequent measurement

For the purposes of subsequent measurement, financial assets are classified in three categories:

1. Financial Asset at amortized cost
2. Financial Asset at Fair value through other comprehensive income
3. Financial Asset at Fair value through profit and loss

Financial Asset at amortized cost

A 'Financial Asset' is measured at the amortized cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are Solely Payments of Principal and Interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Statement of Profit or Loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

Financial Asset at Fair Value Through OCI (FVTOCI)

A 'Financial Asset' is classified as at the FVTOCI if both of the following criteria are met:

- (a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- (b) The asset's contractual cash flows represent SPPI.

Financial Asset included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the Other Comprehensive Income (OCI).

Financial Asset at Fair Value Through Profit or Loss (FVTPL)

FVTPL is a residual category for Financial Assets. Any Financial Asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a Financial Asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity Instruments

All the equity investments in scope of Ind AS 109 are measured at fair value. For equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in other comprehensive income. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable if the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI.

De-recognition of Financial Asset

A Financial Asset (or, where applicable, a part of a Financial Asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired, or
 - The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
- (a) the Company has transferred substantially all the risks and rewards of the asset, or
 - (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- (a) Financial Assets that are debt instruments, and are measured at amortised cost, e.g., loans, debt securities, deposits, trade receivables and bank balance.
- (b) Financial Assets that are debt instruments and are measured as at FVTOCI.
- (c) Lease receivables under Ind AS 116.
- (d) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18 (referred to as 'contractual revenue receivables').
- (e) Loan commitments, which are not measured as at FVTPL.
- (f) Financial guarantee contracts, which are not measured as at FVTPL.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the Expected Credit Losses resulting from all possible default events over the expected life of a financial instrument.

Financial Liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. For financial liabilities maturing within one year from the Balance Sheet date, the carrying amount approximate fair value due to the short maturity of these instruments.

Subsequent Measurement

Financial liabilities at Fair Value Through Profit or Loss

Financial liabilities at Fair Value Through Profit or Loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at Fair Value Through Profit or Loss. Financial liabilities are classified as held for trading, if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognized in the profit or loss.

Financial Liabilities at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

(e) Dividend

Final dividend on shares is recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

(f) Cash and Cash Equivalents

Cash and Cash Equivalent in Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(g) Provisions, Contingent liabilities

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the Statement of Profit and Loss.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A contingent liability is disclosed in case of;

- a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from past events, when no reliable estimate is possible;

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

— a possible obligation arising from past events unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each Balance Sheet date.

(h) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government and discounts given to the customers.

Income from operations from revenue from rooms, food and beverage & banquets is recognised at the transaction price that is allocated to the performance obligation. Revenue includes room revenue, food and beverage sale and banquet services, which is recognised once the rooms are occupied, food and beverages are sold and banquet services have been provided as per the contract with the customer.

Contract balances**(a) Contract Assets**

A Contract Asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

(b) Contract Liabilities

A Contract Liability is the obligation to transfer services to a customer for which the Company has received consideration from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made. Contract liabilities are recognised as revenue when the Company performs under the contract.

(i) Other Income

Other income is comprised primarily of interest income, dividend income, gain on sale of investments and exchange gain/loss on translation of assets and liabilities. For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recognised using the Effective Interest Rate (EIR). Dividend income is recognised when right to receive payment is established.

Export incentives / benefits are recognised as income when the right to receive payment/credit is established and no significant uncertainty as to measurability or collectability exists.

(j) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(k) Income Taxes

Income tax expense comprises current and deferred income tax. Income tax expense is recognized in net profit in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in other comprehensive income. Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the date of the Balance Sheet.

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statements. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(l) Earnings Per Share

Basic Earnings per share are calculated by dividing the net profit or loss for the period attributable to the equity shareholders by the weighted average number of Equity Shares outstanding during the period. Partly paid Equity Shares are treated as fraction of Equity Shares to the extent that they are entitled to participate in dividends relative to a fully paid Equity Shares during the reporting period. The weighted average number of Equity Shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a right issue, share split, and reverse share split (consolidation of shares) that have changed the number of Equity Shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to Equity Shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential Equity Shares.

(m) Leases

On inception of a contract, the Company assesses whether it contains a lease. A contract contains a lease when it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The right to use the asset and the obligation under the lease to make payments are recognised in the Company's statement of financial position as a right-of-use asset and a lease liability.

The right-of-use asset recognised at lease commencement includes the amount of lease liability recognised, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received. Right-of-use assets are depreciated over the shorter of the asset's estimated useful life and the lease term. Right-of-use assets are also adjusted for any re-measurement of lease liabilities and are subject to impairment testing. Residual value is reassessed annually. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments (including 'in-substance fixed' payments) and variable lease payments that depend on an index or a rate, less any lease incentives receivable. 'In-substance fixed' payments are payments that may, in form, contain variability but that, in substance, are unavoidable. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. The lease term includes periods subject to extension options, which the Company is reasonably certain to exercise and excludes the effect of early termination options where the Company is reasonably certain that it will not exercise the option. Minimum lease payments include the cost of a purchase option if the Company is reasonably certain it will purchase the underlying asset after the lease term. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the 'in-substance fixed' lease payments or as a result of a rent review or change in the relevant index or rate.

Variable lease payments that do not depend on an index or a rate are recognised as an expense in the period over which the event or condition that triggers the payment occurs.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

Short-term Leases and Leases of Low-Value Assets: The Company has opted not to apply the lease accounting model to intangible assets, leases of low-value assets or leases which have a lease term of 12 months or less and don't contain purchase option. Costs associated with such leases are recognised as an expense on a straight-line basis over the lease term.

Lease payments are presented as follows in the Company's Statement of Cash Flows:

- Short-term lease payments, payments for leases of low-value assets and variable lease payments that are not included in the measurement of the lease liabilities are presented within cash flows from operating activities;
- Payments for the interest element of recognized lease liabilities are included in 'interest paid' within cash flows from financing activities; and
- Payments for the principal element of recognized lease liabilities are presented within cash flows from financing activities.

Lease Income from operating leases where Company is a lessor is recognized as income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases.

(n) Fair Value Measurement

The Fair Value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A Fair Value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(o) Employee benefits

Provident Fund: Retirement benefit in the form of Provident Fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the Provident Fund. The Company recognizes contribution payable to the Provident Fund scheme as an expense when an employee renders the related service.

Gratuity (Funded through LIC) and Leave Encashment (Unfunded): Provision for Gratuity and Leave Encashment are based on actuarial valuation as on the date of the Balance Sheet. The valuation is done by an independent actuary using the projected unit credit method. Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to Profit or Loss in subsequent periods. Gratuity in certain applicable cases is provided for in accordance with the provisions of the Goa Shops & Establishment Act, 1973 and as per the policy of the Company.

All employee benefits payable wholly within twelve months rendering services are classified as short-term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives, etc., and the expected cost of bonus, ex-gratia are recognised during the period in which the employee renders the related service.

(p) Foreign Currencies

Transactions and Balances

Transactions in foreign currencies are initially recorded by the Company at their functional currency spot rates at the date the transaction first qualifies for recognition. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2024

Exchange differences arising on settlement of long term monetary items recognized in the Financial Statements for the period ending immediately before the beginning of the first Ind AS financial period, in so far as they relate to the acquisition of a depreciable capital asset, are added to or deducted from the cost of the assets and depreciated over the balance useful life of the asset, and in other cases Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

2. Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Group.

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 103 - Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its Financial Statements.

Ind AS 16 - Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of Property, Plant and Equipment amounts received from selling items produced while the Company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact in its recognition of its Property, Plant and Equipment in its Financial Statements.

Ind AS 37 - Onerous Contracts

Cost of Fulfilling a Contract - The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification, and the Company does not expect the amendment to have any significant impact in its Financial Statements.

Ind AS 109 - Annual Improvements to Ind AS (2021)

The amendment clarifies, which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its Financial Statements.

Ind AS 106 - Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its Financial Statements.

36. FINANCIAL RISK MANAGEMENT

36.1 Risk Management Framework

The Company's Board of Directors has the overall responsibility for the establishment and oversight of the Company's Risk Management framework. The Board of Directors has established the Audit Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risk faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by the internal audit team. The internal audit team undertakes both regular and adhoc reviews of risk management controls and procedures and the results of which are reported to the audit committee.

The Company has exposure to the following risks arising from financial instruments:

- Credit Risk
- Liquidity Risk
- Market Risk

(a) Credit Risk

Credit risk arises from the possibility that customers, or counterparty to financial instruments may not be able to meet their obligations. To manage this, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, current economic trends, analysis of historical bad debts and ageing of accounts receivable. Credit risks arise from cash and cash equivalents, deposits with banks, financial institutions and others, as well as credit exposures to customers, including outstanding receivables.

The Company's policy is to place cash, cash equivalents and short term deposits with reputable banks and financial institutions.

The Company has established a credit policy under which each new customer is analysed individually for credit worthiness before entering into a contract. Sale limits are established for each customer, reviewed regularly and any sales exceeding those limits require approval from the appropriate authority. There are no significant concentrations of credit risk within the Company.

(b) Liquidity Risk

Liquidity risk is the risk that the Company may encounter in meeting the obligations associated with its financial liabilities which are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions. This needs to be done without incurring unacceptable losses or risking damage to Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times. The Management also ensures that the Company does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Company's debt financing plans, covenant compliance and taking into consideration the internal statement of financial position ratio targets.

Capital Risk Management

The Company manages its capital to ensure that it will be able to continue as a going concern. The structure is managed to maintain an investment grade credit rating, to provide ongoing returns to shareholders and to service debt obligations, whilst maintaining maximum operational flexibility.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by Equity. Net debt is calculated as total borrowings (including 'current and non-current term loans' as shown in the Balance Sheet) less cash and cash equivalents.

(c) Market Risk

Market risk is the risk that the changes in market prices such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

The Company uses derivatives to manage its exposure to foreign currency risk and interest rate risk. All such transactions are carried out within the guidelines set by the Risk Management Committee.

36. FINANCIAL RISK MANAGEMENT – CONTINUED

Foreign Currency Risk

The primary market risk to the Company is foreign exchange risk. The Company is exposed to foreign exchange risk through its purchases from overseas suppliers and payment of services availed in various foreign currencies. The Company pays off its foreign exchange exposure within a short period of time, thereby mitigating the risk of material changes in exchange rate of foreign currency exposure.

The following tables display foreign currency risk from financial instruments as at March 31, 2024 and March 31, 2023:

Interest Rate Risk

The Company adopts a policy to hedge the interest rate movement in order to mitigate the risk with regards to floating rate linked loans based on the market outlook on interest rates. This is achieved partly by entering into fixed rate instruments and partly by borrowing at a floating rate and using interest rate swaps as hedges of the variability in cash flows attributable to interest rate risk.
