'Light-touch registration soon for FPIs investing in govt bonds'

PRECISION BOOST. Trade settlement errors reduced with the T+1 cycle: SEBI official

Error rates on the settle-ment of trades for foreign portfolio investors (FPIs) have reduced under the T+1 settlement cycle from what it was under the T+2 cycle, a top regulatory official said on Thesday.

uesday. Speaking at the CH Fin-nce 3.0 Summit in Mumbai, EBI Whole-Time Member

SEBI Whole-Time Member Anarth Narayan said the reg-ulator was working on easing the PPI registration process. "We have ensured com-mon operating standards for all custodians that will do away with any regulatory ar-bitrage that was in play and are creating an online tracker to track new PPI ap-plications. A light-touch re-

gistration process will be in-troduced for FPIs that only want to invest in govern-ment bonds," he said.

FPI TRANSITION

Narayan said that earlier if an FPI licence expired, the FPI would stay in limbo forever and could not buy or sellanything.

"We have now allowed a

FPIs will now be able to FPIs will now be able to access their funds on the day of settlement. Today, FPIs can repatriate funds only on T+2 or T+3 as there are delays in getting tax certific-

'Transition from a nation of savers to investors marks a paradigm shift'

Transition from a nation of savers to investors signifies a paradigm shift in India's eco-nomic and financial land-

comic and financial land-scape, according to Depalk Mohanty, Chairperson, Pen-sion Fund Regulatory and Development Authority. "The transition underway from a nation of savers to in-westors marks a paradigm shift in our economic and financial landscape. It re-flects our growing confid-ence in the financial system and its regulatory underpin-nings, improving financial nings, improving financial literacy levels, and broader Interacy levels, and broader investment opportunities", Mohanty said during the session on 'From a nation of sawers to a nation of investors-The transition' at the Financing Summit 3.0 of the Confederation of Indian Industry (CII) in Mumbai on Theader.

Deepak Mohanty, Chairperson, PFRDA

Mohanty highlighted that the share of cash and bank deposits in household finan-cial assets is declining, while investments in bonds and equities have been rising in equities have been rising in recent years, alongside a steady increase in financial savings for social security, such as insurance, pension, and small savings.

CROWTH TARGETS

"As we aspire to be a high-in-come country over the next 25 years, we need to grow at an average rate of around 8.0

per cent per annum. This will require commensurate levels of investment," he said, adding that the import-ance of efficient conversion of savings to capital forma-tion to meet these growth targets is crucial, underlin-ing that "to achieve an an-nual GDP growth rate of 8 per cent we need an invest-

nual GDP growth rate of 8 per cent, we need an invest-ment rate of around 36 per cent of GDP per annum." Nilesh Shah, Managing Director, Kotak Mahindra Asset Management Company pointed out that many households still believe in keeping money at home rather than in banks, and are driven by greed, highlighting the need for financial

the need for financial literacy. Vishal Kampani, Non-Ex-ecutive Vice-Chairman, JM Financial, emphasised that the transition should lead to wealth creation that benefits a broader segment of the population rather than a se-lect few.

AU SFB seeks RBI nod for transition to universal bank

AU Small Finance Bank on Tuesday submitted an ap-plication to the Reserve Bank of India to seek approval for transition from a Small Fin-ance Bank (SFB) to a univer-

sal bank.

This application comes in the backdrop of Fincare Small Finance Bank amalgamating with and into AU SFB with effect from April J. 2024, marking the first such consolidation in the SFB

space.

"This strategic evolution will pave the way for our future growth, enhance our brand presence, reduce regulatory constraints, and improve operational efficiency," said Sanjay Agarwal. prove operational effi-ciency," said Sanjay Agarwal, Founder, MD & CEO of AU

SFB. In April 2024, the RBI is sued a circular allowing the voluntary transition of Small Finance Banks to Universal Banks and AU SFB is the first

Banks and AU SFBs it the first Bank to seek regulatory ap-proval for the transition. To qualify, as per the RBI guidelines, SFBs need a five-year track record, strong fin-hancials, and a stock exchange listing among various other parameters. As of June, AU SFB's de-posits and advances stood at \$79,290 crore and \$99,792 crore, respectively. The net profit at \$503 crore in Q1FY25 grew 30 per cent y-o y compared to \$387 crore in Q1FY24.

Grievances in the life insurance sector are about the product itself: IRDAI member

Insurance companies must reduce the number of policyholder complaints and also ensure that the subscriber gets the facilities they expect at the time of buying the policy, said Satyajir Tripathy, Member (Distribution), IRDAI.

IRDAI.

Referring to the three parts of insurance — pricing based on the actuarial calculation, the development and design of the product, and fidesign of the product, and mally selling the product, Tri-pathy said: "Having sold the product, what are the kind of grievances that come to the regulator? Very frankly, the grievances that are raised against life and non-life com panies are totally different.

"So when we talk about the next boom, the issue starts from the bottom, in the sense that from the end of the

atyajit Tripathy, lember (Distribution), IRDAI

product, that is from the grievance. Why are there so manygrievances?"

PRODUCT ISSUES

Speaking at CII's Financing 3.0 Summit, the IRDAI mem-ber said the grievances in the life insurance sector are not about the claim amount or the time taken for settle-ment, but about the product itself. "In case of death... the claim amount comes. That is not a grouse. The grouse is about the misselling of a product. And I must say that it is at an alarming level. It has caught the attention of the policymakers. The policy makers are very concerned and they want this to be

SECTOR CHALLENGES

SECTOR CHALLENGES
"And if we talk about the boom (in the insurance sector) in the coming days...that we increase the penetration, we increase the sale of varieus products, and we make it affordable, then we must address the girevances," Tri pathysaid.

He noted that the complaint or the grievance in the the non-lije sector are dynamically different.
"It is not about the mis-

selling of a product, it is par-ticularly about payment of claims, the claims being re-

jected. The amount of claims that are being paid is sub-stantially less than what was expected. And, of course, at that point in time, the exclu that point in time, the exclu-sions in the contract, though legally binding, are senti-mentally very much opposed. "You have a grievance re-dressal mechanism within the company. Above that, you

"Such delays were causing a huge amount of opportun-ity loss to FPIs. Concomit

ity loss to FPIs. Concomit-antly, custodians enjoyed the float income for an extra day, resulting in opaque, implicit charges stemming from inef-ficiencies in the system. The less of implicit charges we have, the better it is for everyone," said Narayan.

EASED REGULATIONS

make life easier for certain categories of FPIs, including insurance or pension funds and sovereign wealth funds. This could be achieved by allowing them to use the FPI license to invest in assets other than equities, reducing the KYC periodicity for such funds and doing away with wet signatures, Narayan said

04,09,2024

have the Ombudsman to settle the issues. Despite that, even in non-life also, majority of the grievances come from health, very few maybe from other areas,"Tri-pathy said.

MANAGING DIRECTOR

"The insurance industry can-not move on to the next level of penetration or growth without addressing the poor customer experience... The life industry needs to focus on protection products... To measure insurance penetra-tion, instead of looking at premiums paid by GDP, we should be looking at the sum assured (benefit customers get) by GDP and the sumassured by population.
"When it comes to health insurance, policy holder needs certainty in settlement of claims... The industry can

look at an awareness cam-paign to make policyholders aware of medical conditions and exclusions," she said.
