Management Discussion & Analysis Report

> INDUSTRY STRUCTURE AND DEVELOPMENTS

The FMCG opportunity

The Fast-moving consumer goods (FMCG) sector is one of largest and fastest growing sectors in India. The high competition, ever-shifting consumer preferences and a mix of international and domestic players make the industry a dynamic and fast-growing industry with boundless potential for growth and innovation. Favorable demand drivers such as youth population, growing urbanization and rising income levels among others, have recently encouraged major and diverse investments in the FMCG sector, which offers huge runway for the growth.

Indian FMCG Sector

The Consumer Packaged Goods (CPG), or Fast-Moving Consumer Goods (FMCG), industry in India is one of the main drivers of the Indian economy. The food and beverage sector is one of the essential components of the FMCG market in India, which accounts for about 3% of its GDP. India's economy continues to grow at the highest rate in the world, outpacing that of emerging and developing Asia and economic expectations for China. India has been ranked as the fifth-largest economy in terms of exchange rate and the third-largest economy in terms of purchasing power parity.

Fast-moving consumer goods (FMCG) is the fourth-largest sector in the Indian economy. There are three main segments, the sector food and beverages, which accounts for 19% of the sector; healthcare, which accounts for 31% of the share; and household and personal care, which accounts for the remaining 50% share. The urban segment contributes to about 65% of the revenue share, while the rural segment accounts for 35%. The rise in rural consumption will drive the FMCG market. The Indian processed food market is projected to expand to US\$ 470 billion by 2025.

The outlook of the FMCG sector looks on track with the pandemic easing out. Rural consumption has increased, led by a combination of increasing income and higher aspiration levels. There is an increased demand for branded products in rural India. On the other hand, with the share of the unorganised market in the FMCG sector falling, the organized sector growth is expected to rise with an increased level of brand consciousness, augmented by the growth in modern retail.

Rapid digital transformation

India continues to undergo rapid digitization with new-age technologies transforming the FMCG market, bringing opportunities for brands, consumers, and customers alike. Digital commerce is gaining more relevance as consumers seamlessly move between online and offline channels of trade. Traditional trade players are reinventing their business models to play a key role in the new digital India.

Operating environment

FMCG sector demonstrated resilience in 2023, overcoming initial inflationary pressures with a strategic shift towards volume growth. The inflationary pressures resulted in a reduction in the volumes of goods sold by FMCG companies as consumers adjusted their purchasing behavior due to higher prices. Inflation influenced consumer behavior, leading to changes in spending patterns on

products like cosmetics, toiletries, and other FMCG items due to higher prices and reduced purchasing power. Overall, it remained resilient in 2023-24, showcasing its adaptability and growth potential.

Creating categories of the future

Urbanisation, increasing nuclear-family structures, and rising affluence is leading to the growth of new demand spaces and the premium segment. Leveraging our proven model of market development, we strive to address real and unmet consumer needs and, at the same time, build our portfolio across several categories. INDEPENDENT AUDITOR'S REPORT

To the members of Khemani Distributors & Marketing Limited,

Opinion

We have audited the standalone financial statements of Khemani Distributors & Marketing Limited ("the Company"), which comprise the balance sheet as at 31st March 2024, and the statement of Profit and Loss, and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and profit, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act

for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view, in order to design audit procedures that are appropriate in circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on financial Statements.
