GDP growth to decline to 7.1% for Q1: SBI economists

The economists said the growth in gross value added (GVA) will fall below 7% to 6.7-6.8% for Q1 this fiscal

OUR CORRESPONDENT

MUMBAI: Economists at the country's largest lender SBI on Monday joined other watchers forecasting a slip in the economic growth and estimated India's real GDP growth to come at 7.1 per cent for the June quarter. The economists said the growth in gross value added (GVA) will fall below 7 per cent to 6.7-6.8 per cent for the April-June period this fiscal when compared to the year-ago period.

"As per our 'Nowcasting Model', the forecasted GDP growth for Q1 FY25 would be 7.0-7.1 per cent, and GVA is at 6.7-6.8 per cent with a downward bias," the economists said.

It can be noted that the real GDP growth had come at 7.8 per cent in the June quarter last year and the preceding March quarter. A slew of analysts have been pointing to a moderation in economic activity in the June quarter, mainly driven by softer manufacturing and lower government spending due to the general elections.

The report also said that given the uncertain global growth outlook and the softening inflation, there is a space for monetary policy easing.

The SBI economists said its

The report also said that given the uncertain global growth outlook and the softening inflation, there is a space for monetary policy easing

growth estimates are based on 41 lead indicators, and pointed to a moderation in sales growth and an inching up in staffing costs for manufacturing companies. "Against this backdrop, profit margins have declined, and this will pull down manufacturing growth," it added.

If one were to exclude the banking, finance and insurance companies, corporates reported only 5 per cent revenue growth and a degrowth of 1 per cent in

operating profits in Q1 FY25, it said. SBI economists have, however, retained their 7.5 per cent growth estimate for the fiscal year 2024-25, which is higher than the 7.2 per cent made by the RBI.

The report said the global economic outlook remains uncertain, and the persistent geopolitical tensions, rekindled fears of a potential recession on signs of weaker than expected labour market outcomes in key

Key Points

- » It can be noted that real GDP growth had come at 7.8% in June quarter last year & preceding March quarter
- » SBI economists have, however, retained their 7.5% growth estimate for the FY25, which is higher than the 7.2% made by the RBI
- » If one were to exclude insurance banking, finance, firms, corporates posted only 5% revenue growth & 1% degrowth in operating profits in Q1 FY25

economies and financial market volatility in response to monetary policy divergence cast a shadow on prospects.

On the positive side for India, the South West monsoon picked up from early July, closing the deficit, it said, noting that as of August 25, the cumulative rainfall was 5 per cent above the LPA (long period average) against 7 per cent below the LPA during the same period last year.

India, Singapore commit to further enhance co-operation in emerging & futuristic areas

Indian delegation led by Finance Minister Nirmala Sitharaman deliberated upon six pillars identified under India-Singapore Ministerial Roundtable

SINGAPORE: India and Singapore on Monday pledged to further enhance cooperation in the emerging and futuristic areas.

The Indian delegation led by Finance Minister Nirmala Sitharaman deliberated upon six pillars identified under the India-Singapore Ministerial Roundtable (ISMR). Deputy Prime Minister Gan Kim Yong led the delegation of Singapore during the second ISMR.

"During the meeting, the leaders emphasised on ways of further enhancing co-operation between India and Singapore in emerging and futuristic areas. Both sides deliberated upon six pillars identified under ISMR, which include Digitalisation, Skill Development, Sustainability, Healthcare & Medicine, and Advanced Manufacturing and Connectivity," the finance ministry said in a post on X.

The leaders also discussed plans for commemorating the 60th Anniversary of diplomatic relations between India and Singapore, alongside regional and global cooperation, including ASEAN & G20 developments, it said.

The leaders noted that the discussions in the first round of ISMR have resulted in the successful conclusion of MoUs on healthcare, education & skill development, digital cooperation and semiconductor ecosystem cooperation, it said.

Union Ministers Nirmala Sitharaman, S Jaishankar, Piyush Goyal and Ashwini Vaishnav during the second ISMR, in Singapore

'Both sides deliberated upon six pillars identified under ISMR, which include Digitalisation, Skill Development, Sustainability, Healthcare & Medicine, and Advanced Manufacturing & Connectivity'

Along with Sitharaman, External Affairs Minister S Jaishankar, Commerce and Industry Minister Piyush Goyal and Railway Minister Ashwini Vaishnav were present for the meeting.

ISMR is a unique mechanism established to set a new agenda for India-Singapore bilateral relations.

Its inaugural meeting was held in New Delhi in September 2022. This meeting will enable both sides to review various aspects of their strategic partnership and identify

new avenues to further elevate and broaden it.

Singapore has been a major source of FDI (foreign direct investment) for India. In 2023-24, Singapore was the largest source of these inflows with USD 11.77 billion investments into Indian markets. The cumulative inflow of FDI from Singapore from April 2000 to March 2024 was \$159.94 billion.

In bilateral trade, Singapore was the sixth largest global trade partner of India in 2023-24 with a total trade of USD 35.61 billion, which

Highlights

- » The leaders also discussed plans for commemorating 60th Anniversary of India and Singapore diplomatic relations

- » Inter-ministerial delegation led by Sitharaman also met Singapore President Tharman Shanmugaratnam

accounts for approximately 29 per cent of India's total trade with ASEAN (Association for Southeast Asian Nations).

India's exports stood at \$14.41 billion, while imports were \$21.2 billion. The trade gap is in the favour of Singapore.

Moreover, inter-ministerial delegation led by Finance Minister Nirmala Sitharaman also met Singapore President Tharman Shanmugaratnam and discussed boosting partnership between the two countries.

Telegram issue: IT Ministry asks MHA to check on violations in Indian context

NEW DELHI: In light of Telegram Chief Pavel Durov's arrest in Paris for offences related to his messaging app, IT Ministry has asked the Ministry of Home Affairs for an update on where things stand in the Indian context and if there are any violations here as well, sources said.

An email query sent to IT Ministry on the issue, elicited no immediate reply.

Sources, meanwhile, said, "In light of what has happened in France, IT Ministry has asked Ministry of Home Affairs to check on complaints pending against Telegram and what action can be taken."

They pointed out that IT Ministry is not an investigating agency in this regard, and that even CERT-In under the Ministry focuses on cybersecurity offences not cybercrimes per se.

"The basic question here is there are any complaints, is there similar situation in India, and what is the status, and what action is required," according to sources.

Asked if Telegram, being a messaging app, can cite safe harbour clause, sources said in that case they will have to collaborate with law enforcement agencies, provide information where needed and assist with any investigation.

Telegram's founder and CEO was detained at Paris airport on an arrest warrant alleging his platform was used for offences like money laundering and drug trafficking.

Call, messaging apps must comply with rules like telcos: COAI

NEW DELHI: Telecom operators expect internet calling and messaging apps like WhatsApp, Google Meet, and Telegram to comply with rules in the same manner as all service providers do, industry body COAI said on Monday.

The Cellular Operators Association of India (COAI) — whose members include Reliance Jio, Bharti Airtel and Vodafone Idea, among others — said it is misleading to demand to exclude over-the-top communication apps from the Telecommunications Act 2023 as they are subject to other regulations because various non-sectoral rules apply on telecom operators as well.

"COAI would like to state

that the 'Security of the Country' is of utmost importance and in this regard, all communication service providers, including OTT-based communication services, should adhere to the requisite directives of the country as done by the Telecom Service Providers," COAI Director General SP Kochhar said. He said that telecom operators have invested heavily in setting up the infrastructure for lawful interception and monitoring.

"However, despite these investments, the unregulated application-based communication services completely bypass this apparatus, which is a big security threat to the nation," Kochhar said.

'Enforcement of new mining cess may increase cost pressure for steel makers'

NEW DELHI: The enforcement of the new mining cess by some states following the Supreme Court ruling may bring challenges for the domestic steel industry by adding to the cost pressures, according to rating agency Icra.

On August 14, the Supreme Court upheld the power of states to levy tax on mineral rights and mineral-bearing land, and allowed them to seek refund of royalty from April 1, 2005 onwards.

This development is poised to compress operating margins across the sector, impacting both primary and secondary

steel producers, Icra said in a note.

While margins of the primary steel producers could shrink by 60-180 basis points, secondary producers may face a more severe impact, with margins declining by 80-250 basis points, based on various scenarios that cess rates could vary between 5-15 per cent.

The power sector, which is heavily dependent on coal, may see a rise in the cost of supply by 0.6-1.5 per cent, potentially leading to higher retail tariffs.

Further, primary aluminium producers will also be

impacted due to their high power consumption.

"The enforcement of the new mining cess by key mineral-rich states can heighten cost pressures for the steel industry. While most states haven't set the rates yet, any substantial cess implemented could adversely impact margins, especially for secondary steel producers, as the merchant miners are expected to pass on the increased costs," Girishkumar Kadam, Senior Vice-President and Group Head, Corporate Sector Ratings, the rating agency said.

sector, it said, adding that 90 per cent of the liabilities come from this avenue.

It, however, added that with the growth drivers in place, both capital and deposits, including other borrowings, need to be focused.

The agency said 30 per cent of the total deposits are the expensive bulk deposits, and added that the reliance on this avenue was just 23 per cent in FY22-end.

The share of low-cost current and savings account deposits has slipped to 28 per cent from 35 per cent.

Noting that the SFBs typically give up to 2.50 per cent higher interest offerings than banks, the report said reliance on term deposits will continue given the higher opportunity cost to maintain CASA balances for depositors in the current interest rate scenario.

Vedanta readies ₹30,000 crore war chest to pursue further deleveraging and growth

The mining major's debt stood at Rs 6,130 crore as of June 30

NEW DELHI: Anil Agarwal-led Vedanta Ltd has prepared a war chest of Rs 30,000 crore with recent funds raised through a qualified institutional placement (QIP), offer for sale and dividend to pursue further deleveraging and growth, sources said.

Proceeds from the Rs 8,500-crore QIP of Vedanta Ltd, HZL's OFS of Rs 3,200 crore, and Rs 5,100 crore from the second interim dividend, coupled with existing cash reserves of Rs 13,000 crore, will lead to the creation of a Rs 30,000-crore war chest after the company receives all the funds, sources said.

Vedanta may deploy this war chest for accelerated deleveraging of its balance sheet, improving capital structure, development of its transformational projects, an analyst said.

Vedanta continued to deliver strong quarterly numbers. For the first quarter, profit after tax grew 54 per cent year-on-year (YoY) and more than doubled

on a quarter-on-quarter basis to Rs 5,095 crore.

The company recorded highest-ever alumina production at Lanjigarh and mined metal product at the Zinc India unit. It brought down the overall cost of production by 20 per cent YoY due to structural changes and other initiatives.

The mining major's debt stood at Rs 6,130 crore as of June 30.

The proceeds generated from the private placement of non-convertible debentures as well as promoter stake sale between February and June (cumulatively 4.4 per cent)

will also contribute to the debt reduction at the group-level in the near-term.

Two major events — the proposed demerger and a series of transformational projects — is expected to help the company continue this trend.

Similarly, the company is on track with its demerger after receiving no-objection certificate from secured lenders and the stock exchanges. It has filed the scheme with the NCLT. The demerger will enable value unlocking and attracting big-ticket investment into the expansion and growth of each of its demerged businesses.

S. E. RAILWAY - TENDER
Tender Notice No. SNT_e_Tender_ADA_24_25_14. On behalf of President of India, Senior Divisional Signal & Telecom Engineer, S. E. Railway, Adra, Pin-723121, West Bengal invites following e-tender for the following works: Name of the work: S&T works at various LC Gates for Improving Reliability of Station & Mid Section Interlocked LC Gates through Casual Renewal and Directed Maintenance, Conversion from MLB to ELB gates for 10 nos of Traffic Gates and Shifting of LC Boom of LC Gate no. TB-15 (IPTNCHAS), TB-21 (NICABIN-IPTN) & MR-38 (RDF-BKSC A/C) in Adra Division of South Eastern Railway. Tender Value: ₹ 4,27,30,991.20. Closing date & time of tender is 12.09.2024, 11:00 hrs. Details are available at website: www.reps.gov.in (PR-520)
