TARIFF REVIEW PART OF STANDARD PROCESS: GROUP

Lanka project not cancelled: Adani

FE BUREAU
Mumbai, January 24

THE ADANI GOUP on Friday said the Sri Lankan government is reviewing the tariffs agreed upon under a power purchase agreement (PPA) for its wind power projects, but said this was part of a "standard review process".

Reports that Adani Group's 484 megawatt (MW) wind power projects in Sri Lanka's northern Mannar and Pooneryn districts have been cancelled are false and misleading, a spokesperson for the group said.

Sri Lanka Cabinet's decision on January 2 to reevaluate the tariff approved in May 2024 is part of a "standard review process", particularly with a new government, to ensure that the terms align with their current priorities and energy policies, the group said, adding Adani remains committed to investing \$1 billion in Sri Lanka's green energy sector.

The country suffered from crippling power blackouts and fuel shortages during an economic crisis in 2022. It has been trying to fast-track renewable energy projects to hedge against surges in imported fuel costs.

Daily FT, Sri Lanka's leading business newspaper, reported that the Cabinet, led by President Anura Kumara Disanayake, reversed the decision to give a contract for building wind power plants in Mannar and Pooneryn to Adani Green Energy SL. This decision, made in June last year and sanctioned by Disanayake's predecessor,

EMBROILED IN CONTROVERSY

- Adani confirms Sri Lanka is reviewing wind tariffs
- The review follows Sri Lanka's new energy policies
- Adani remains committed to \$1 bn investment in green energy
- Sri Lanka faced power blackouts, fuel shortages in 2022
- Renewable energy is vital for reducing fuel dependence
- Tariffs were ₹24.78/kWh, lower than ₹39.02/kWh
- Disanayake pledged to cancel the deal and invite tenders
- The 484 MW project was approved in June 2024

Sri Lanka's Cabinet re-evaluated Adani's wind project

Group's other stuck projects

BANGLADESH HAS DUES of nearly \$900 million as of late last year to Adani Power which supplies from its Jharkhand plant. Bangladesh has reportedly halved its power purchase from Adani amidst the payment dispute.

KENYA'S HIGH COURT in October last year suspended a \$736-million deal between a state utility and India's Adani Energy Solutions to build and operate power infrastructure including transmission lines after US indictment.

Ranil Wickremesinghe, involved a 484 MW wind power project. At the time, Sri Lankan power & energy minister Kanchana Wijesekera took to X to announce that the tariff under the agreement would be ₹24.78 per kWh, as compared to the average cost of energy in Sri Lanka at that time of ₹39.02 per kWh.

During his election campaign, the current President promised to cancel the deal and invite international tenders to develop wind power in Sri Lanka. Following through on this promise, the Cabinet decided on December 30 to revoke the previous cabinet decision made in May 2024, which had approved the Adani Green Energy project.

Godrej Consumer reports 14% drop in Q3 net profit

VIVEAT SUSAN PINTO
Mumbai, January 24

GODREJ CONSUMER PRODUCTS (GCPL) reported a 14.2% year-on-year (y-o-y) decline in consolidated net profit for the December quarter, missing analysts' estimates. The fast-moving consumer goods company posted a net profit of ₹498 crore for Q3FY25, falling short of the ₹525 crore consensus estimate from *Bloomberg*. The company had earlier warned of a weak Q3 performance in its quarterly update.

Consolidated revenue for the quarter rose 3% to ₹3,768 crore, compared to ₹3,660 crore in the same period last year, slightly surpassing the *Bloomberg* estimate of ₹3,709 crore. However, earnings before interest, tax, depreciation, and amortisation (Ebitda) fell 10.1% to ₹756 crore, down from ₹841 crore a year ago. Analysts had projected Ebitda at ₹775 crore. The Ebitda margin contracted to 20.1% from 23% in the prior year, missing the Street estimate of 21%.

In a post-results statement,

REPORT CARD

Sudhir Sitapati, MD & CEO of GCPL, said the surge in palm oil costs weighed on Ebitda margins. India sales, which account for 60% of the firm's total revenue, grew by 4% during the quarter, while volumes remained flat. Ebitda from India operations declined by 21% during the same period.

"Demand conditions in India have witnessed temporary headwinds over the past

few months, led by a slowdown in urban consumption. The increase in palm oil prices by more than 40%, along with weak seasonality in household insecticides, resulted in flat underlying volume growth," Sitapati said. He stated that premium formats within the household insecticides segment were impacted due to urban consumption slowdown and seasonal factors.

Ericsson India sales fall 53% in 2024

JATIN GROVER
New Delhi, January 24

TELECOM EQUIPMENT MAKER Ericsson on Friday reported a 53% year-on-year (y-o-y) decline in revenue from its India operations to 14.87 billion Swedish crowns (approximately ₹11,732 crore) in 2024, according to the company's earnings report. The drop is attributed to the reduced capital expenditure by

telecom operators.

In the October-December quarter, Ericsson's sales in India fell over 49% y-o-y to 2.91 billion Swedish crowns (around ₹2,295 crore), marking the fifth consecutive quarter of declining sales in the country. Sequentially, sales dipped by 5.8%.

Until the July-September quarter of 2023, Ericsson had experienced record sales in India due to increased investments by telecom operators in the rollout of 5G networks.
