Rational for Allcargo Terminals Limited (“ATL”/ “Company”):-

ATL is a leading operator in CFS business. For achieving long term strategic growth, the Company is interested in developing Inland Container Depots (ICD) and Multi Modal Logistics Parks (MMLP) business. In this context, the Company has plans to develop & operate the rail connected ICD facility at Farrukhnagar.

This facility would compete with other facilities in the region and hence needs to have strategic advantages in terms of location and connectivity.

Key rationale is to take this strategic equity to ensure the best rail connectivity for proposed ATL ICD near Farrukhnagar to DFCC through HORC and become leading operator in the market. It is further submitted that if not for HORCL connectivity, the Company would have had to explore alternative approaches which are suboptimal. For strategic connectivity to Dedicated Freight Corridor (DFC), the Company intends to take over the strategic equity stake in HORCL. This strategic equity will offer a strong competitive advantage to the Company.

Additional Project Details

Haryana Orbital Rail Corridor, 132 KM long double line corridor will cover the Logistic facilities at Farrukhnagar, Garhi harsaru, Patli Faridabad and over the NCR region. It will connect the Eastern DFC at Pirthala and Western DFC through Patli – Rewari existing double line feeder route. This route will also cater to both Freight (Exim) and passenger traffic of NCR Region and will decongest current routes in and around Delhi.

For proposed ICD at Farrukhnagar, the rail connectivity had some disadvantages. The train arriving from gateway ports will have halt at Garhi Harsaru (11 Km from Farrukhnagar Railway station). The engine reversal is must to ensure train being pulled to proposed ICD via Farrukhnagar railway station. To overcome this operational delay and better connectivity to DFC, it was essential that proposed ICD get connected to HORCL Rail link, passing 4 Km from Farrukhnagar railway station. Allcargo’s investment in HORCL ensured this strategic advantage by providing direct connectivity to DFC through HORCL Rail Link. ATL is interested to operate the PFT & ICD in Farrukhnager. With HORCL & DFC connectivity, proposed ICD will attract the northbound Exim container volume to and from Mundra & JNPT ports. Therefore, ATL will be the direct beneficiary of this equity investment in future when project is tentatively expected to be completed in December 2027 and therefore, ATL need to have direct control over this equity investment in HORCL.
