HYDERABAD, JANUARY 24, 2025

## Zen Technologies Limited Secures Patent for its “Basic Gunnery Training Simulator”

Zen Technologies Limited proudly announces the grant of an Indian patent for its ‘Basic Gunnery Training Simulator’ designed for the T-90 tank on 24<sup>th</sup> January 2025. This marks the 12<sup>th</sup> patent secured by Zen Technologies in the financial year 2024-25, solidifying its position as a leader in advanced military training technologies.

The patented product is a state-of-the-art training platform developed to enhance the technical and operational skills of a tank gunner. It replicates real-world battlefield conditions with features such as target acquisition, ammunition selection, and firing simulations. The system’s advanced motion platform realistically mimics pitch, roll, and surge dynamics, offering an immersive experience for trainees. The containerized design ensures easy deployment, enabling training in diverse environments with minimal logistical challenges.

While designed to address the training needs of the T-90 Tank crew gunner, the simulator can be easily reconfigured to serve the training needs of the crew gunner of any MBT in the World, making it suitable for global defence markets. With its cost-effective, indigenously developed approach, the simulator aligns with India’s Self-Reliance Mission, while its advanced features and customizable modules make it a compelling alternative to global counterparts.

Targeted at new recruits, experienced personnel, and defence training academies, the system’s realistic replication of the T-90 gunners’ sight, Sight picture and faithful replication of the fire control system dynamics, combined with integrated performance evaluation tools, ensures effective training outcomes at both, basic and advanced, levels. It supports individual and team-based exercises, fostering operational readiness at every level.

## **About Zen Technologies Limited**

Zen Technologies Limited is a pioneer and leader in providing world class state-of-the art Defense Training and Anti-Drone solutions and has a proven track record in building training systems for imparting defense training and measuring combat readiness of security forces. With a dedicated R&D (recognized by the Ministry of Science and Technology, Government of India) and production facility in Hyderabad, the company has applied for over 155 patents and shipped more than 1,000 training systems around the world. With over 30 years' experience fielding realistic combat training solutions to armed forces worldwide, Zen constantly updates its portfolio to include new solutions for emergent threats. Leveraging their world-class, in-house production facilities, Zen has developed strategic solutions tailored to the specific needs of End Users Ministry of Interiors and Ministry of Defence including customized training programs aligned with the requirements of the U.S. Army and U.S. Department of Defense.
