Arunish Chawla named revenue secretary

1992-batch IAS officer replaces Economic Affairs Secretary Ajay Seth

MONIKA YADAV
New Delhi, 25 December

About a month before the presentation of the Budget, the Appointments Committee of the Cabinet on Wednesday appointed secretary in the Department of Pharmaceuticals Arunish Chawla as the next revenue secretary.

A 1992-batch Indian Administrative Service (IAS) officer from the Bihar cadre, Chawla will take over from Economic Affairs Secretary Ajay Seth. Seth is holding additional charge of revenue secretary following Sanjay Malhotra's appointment as Reserve Bank of India (RBI) governor.

Chawla has been serving as secretary in the Department of Pharmaceuticals within the Ministry of Chemicals and Fertilisers since November 1, 2023.

The appointments' panel, in a notification, said Chawla will continue to hold additional charge of secretary in the Ministry of Culture until a regular appoint-

ment is made. Chawla has more than three years in service left with his tenure scheduled to end in July 2028.

Between 2014 and 2016, Chawla served as a joint secretary in the Expenditure Department of the finance ministry.

He has also held the position of minister (economics) at the Indian Embassy in the United States and worked as a senior economist at International Monetary Fund (IMF).

Chawla holds a postgraduate and PhD in economics from the London School of Economics.

Over the course of his career, Chawla has held numerous significant positions as well.

He served as additional chief secretary of planning and development, during which he also acted as secretary of the Bihar State Planning Board and project director of the Bihar Disaster Rehabilitation and

Reconstruction Society.

In addition, he also made contributions to urban development as additional chief secretary for urban development and housing. He was also managing director of the Patna Metro Rail Corporation.

Chawla's responsibilities will include implementing a comprehensive review of the Income Tax Act, rationalising goods and services tax (GST) rates, conducting a review of Customs duty, improving tax collection and digital transformations, among others.

Also, the appointments committee appointed textiles secretary Rachna Shah as new secretary in the Department of Personnel and Training.

Neelam Shami Rao, currently secretary in the National Commission of Minorities, is the new textiles secretary.

Amit Agrawal, chief executive officer (CEO) at the Unique Identification Authority of India (UIDAI), will become secretary in the Department of Pharmaceuticals.

Vineet Joshi has been appointed secretary in the Department of Higher Education.

Between 2014 and 2016, Chawla served as a joint secretary in the expenditure department in finance ministry. He also held the position of minister (economics) at the Indian embassy in the United States and has worked as a senior economist at IMF

Fresh formal hirings fall to 7-month low in October

EPFO data shows 750K new subscribers were added, down 21%

SHIVA RAJORA
New Delhi, 25 December

The monthly fresh formal hiring saw a sharp decline in October, signalling a downturn in the formal labour market during the month.

In October, the number of new monthly subscribers under the Employees' Provident Fund (EPF) decreased by 20.8 per cent month-on-month (M-o-M) to 750,000. This is a seven-month low from 947,000 in September, according to the latest monthly payroll data released by the Employees' Provident Fund Organisation (EPFO) on Wednesday.

The EPFO data is considered crucial as it reflects the state of the formal labour market and only the formal workforce enjoys social security benefits and is protected by labour laws.

Of the 750,000 new EPF subscribers in October, the share of young people belonging to the 18-25 age group also declined to 58.5 per cent (438,700) from 59.94 per cent (567,700) in September.

This is crucial because subscribers in this age group are usually first-timers in the labour market, thus reflecting its

robustness.

Meanwhile, the share of women among the new subscribers rose to 27.9 per cent (209,000) from 26.1 per cent (247,000) during the preceding month.

Meanwhile, net payroll additions — calculated by taking into account the number of new subscribers, the number of subscribers that exited, and the return of old subscribers to the social security organisation — stood at 1.34 million in October, down by nearly 5 per cent from 1.41 million in September. The net monthly payroll numbers are, however, provisional in

nature and are often revised sharply the following month. That is why the new EPF subscriber figure is considered more reliable than net additions.

"The data highlights that about 1.3 million exited and subsequently rejoined the EPFO. These members switched their jobs and re-joined the establishments covered under the EPFO. They opted to transfer their accumulations instead of applying for final settlement thus safeguarding long-term financial well-being and extending their social security protection," the labour ministry added.

Cotton association seeks ₹500 crore for drip irrigation units

SANJEEB MUKHERJEE
New Delhi, 25 December

The Cotton Association of India (CAI), the premier trade body for the sector, has asked the government to provide budgetary support of ₹500 crore to help farmers set up drip irrigation facilities in their fields to boost yield.

Around 67 per cent of India's cotton is produced in rain-fed areas, said CAI President Atul Ganatra at the annual general meeting (AGM).

Cotton is entirely dependent on rainfall in rain-fed areas and does not get adequate water during critical stages of flowering and fruiting when the water requirement is more than 80 per cent of the total need for the crop.

Ganatra said cotton yield in rain-fed areas is substantially lower compared to irrigated belts, especially in Maharashtra where about 95 per cent of the area is dependent on rain. The yield is also low in some areas of Madhya Pradesh, Andhra Pradesh, Tamil Nadu, Karnataka, and Gujarat due to scarcity of water.

"To overcome this, the association has suggested to the government to provide budgetary support to our farmers in these areas and encourage them to introduce drip irrigation technology," Ganatra said.

Besides substantially increasing cotton yield, he asserted drip irrigation will also be effective in saving 40-60 per cent of total water required for irrigation through flood irrigation.

"Since the cost of installing drip irrigation in India is very high, we have requested our government to provide for the farmers' benefit a budgetary support of at least ₹500 crore for setting up drip irrigation systems in farmers' fields," Ganatra said.

Govt launches 10K agricultural societies

Cooperation Minister Amit Shah on Wednesday said that the Centre was working to promote the establishment of agro-processing units under the cooperative sector and provide financial help to fishermen for deep sea fishing. Addressing an event to mark the registration of 10,000 new Primary Agricultural Cooperative Societies (PACS) in the country, Shah said he was confident that the target of establishing 20,000 new PACS over the next five years will be met before the set timeline. He also launched a new standard operating procedure for the liquidation of sick PACS.

Centre planning to shift mgmt of ERF to CPCB from Jan 1

NITIN KUMAR
New Delhi, 25 December

The Centre is planning to transfer the administration of the Environment Relief Fund (ERF) Scheme from United India Insurance Company Limited (UIICL) to the Central Pollution Control Board (CPCB) starting January 1.

According to sources in the Ministry of Environment, Forest, and Climate Change (MoEFCC), the decision is aimed at addressing longstanding issues, including the underutilisation of the fund and significant delays in disbursing compensation to victims of industrial accidents involving hazardous substances.

According to MoEFCC, the ERF held approximately ₹1,062 crore as of March 31, 2023. However, no disbursements have been made from the fund since 2019. In a written response to Parliament in August 2023, the ministry acknowledged, "No amount has been disbursed as compensation from the Environmental Relief Fund since 2019."

This proposed shift is expected to enhance the efficiency and transparency of fund management, with the CPCB leveraging its environmental expertise to ensure timely relief for affected individuals, a source working with MoEFCC said. The Centre is also planning to increase the annual service fee paid to the relief fund manager from 1 per cent to 2 per cent of the funds added to the corpus, or as determined by the central government from time to time. This fee is paid from the money collected in the corpus.

Instituted under the Public Liability Act, 1991 (PLIA) in the wake of the Bhopal Gas Tragedy, the ERF's primary purpose is to offer immediate relief to victims of accidents involving hazardous substances.

The PLIA mandates industries handling hazardous materials to mandatorily obtain public liability insurance. Apart from contributions from hazardous industries that opt for insurance under the PLIA, the ERF consists of compensation awarded by the National Green Tribunal (NGT) for damage to the environment under Section 24 of the NGT Act, 2010. The amount received under the relief fund is invested by the fund manager in

BRIEF ANALYSIS

- Move aims to improve fund utilisation and expedite compensation disbursement to victims of industrial accidents
- The ERF, as of March 31, 2023, and holding over ₹1,062 crore, has seen no disbursements since 2019
- CPCB's environmental expertise is expected to streamline fund management and ensure timely relief
- The Centre is also planning to increase the annual service fee for the fund manager from 1% to 2%

public financial institutions and savings accounts in such a way that the total relief amount can be made available to the district collector — who is responsible for disbursing the funds to the victims — within 15 days. When the victim approaches the collector, s/he issues an order for payment from the fund and forwards it to the fund manager, who releases the funds within 30 days.

However, despite these rules in place, no systematic study of the utilisation and effectiveness of the ERF has been conducted so far — not even by the Comptroller and Auditor General (CAG) of India. According to the research report titled "The Management of Environment Relief Fund", published in 2020 by Vidhi Centre for Legal Policy, there is neither a comprehensive record of accidents involving hazardous chemicals in industries, nor an assessment of the damage such accidents may have caused to life or property.
