## **TVS MOTOR COMPANY ROLLS OUT OBD-2B COMPLIANT RANGE STARTING WITH THE TVS JUPITER 110**

**Bengaluru, March 3, 2025:** TVS Motor Company (TVSM) - a leading global automaker in the two and three-wheeler segment has begun dispatching its range of OBD-2B compliant vehicles starting with the TVS Jupiter 110. It will be available across dealerships in India at Rs. 76,691(ex-showroom, New Delhi) for the base variant.

The Company will complete the transition of its entire portfolio to OBD-2B standards, before the end of March 2025.

The OBD-2B compliant TVS range of vehicles have gone through significant upgrade in sensor technology and on-board capability. OBD-2B deploys sensors that collect data for throttle response, air-fuel ratio, engine temperature, fuel quantity and engine speed. The on-board Engine Control Unit (ECU) does live analysis of such data on pre-programmed parameters for close monitoring. The on-board intelligence enables the vehicles to continue running in a clean and eco-friendly way, throughout its lifetime, with enhanced durability.
