Manager – Listing Department/Corporate Relations,  
Bombay Stock Exchange Limited,  
Floor 25, PJ Towers,  
Dalal Street, MUMBAI – 400001.

Dear Sir,

Sub: Corporate Presentation

Ref: Pursuant to Regulation 30(2) of SEBI Listing Obligation and Disclosure Requirements) Regulation 2015

We submit herewith the following Corporate Presentation on the performance of the Company, released to Analysts and Institutional Investors.

The Presentation is also being uploaded on the website of the Company.

Kindly take the information on your record.

Thanking you,

Yours faithfully,

For Eastern Treads Limited

CS BAIJU T.  
Company Secretary & Internal Auditor

About Us 31

# Financial Performance

**EASTERN  
TREADS<sup>®</sup>**

# **Q1 FY17 Performance**

## **Q1 FY17 Highlights**

- Revenue at Rs. 21.98 Crore, up 8.5% YoY
- EBITDA (excluding Other Income) at Rs. 2.05 Crore, higher by 23.5% YoY
  - EBITDA margins expand by 114 bps to 9.3%
- PAT enhanced by 20.0% to Rs. 0.91 Crore from Rs. 0.76 Crore in Q1FY16
- Q1FY17 EPS at Rs. 1.74 in the quarter

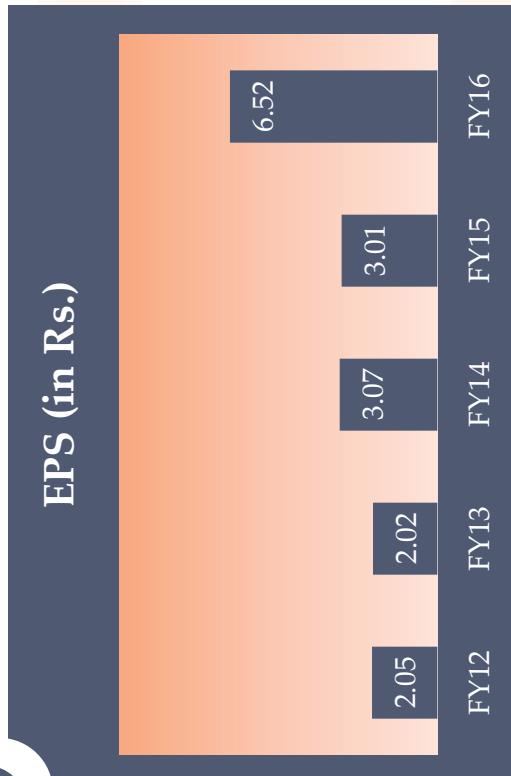

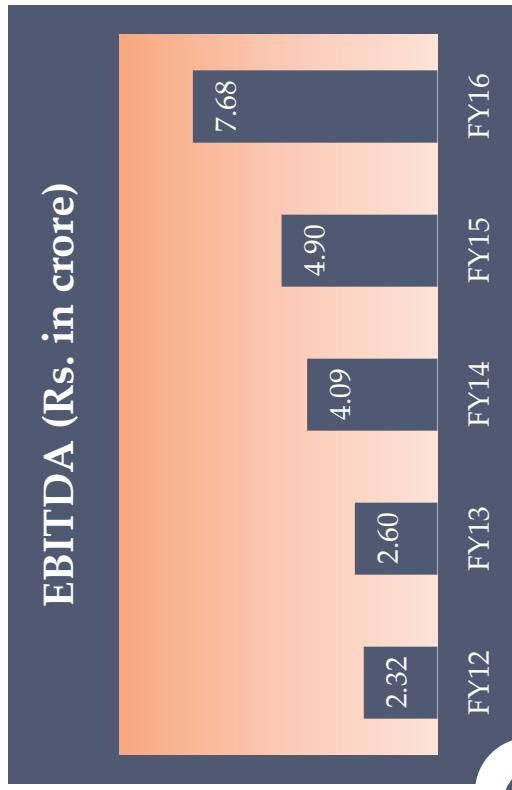

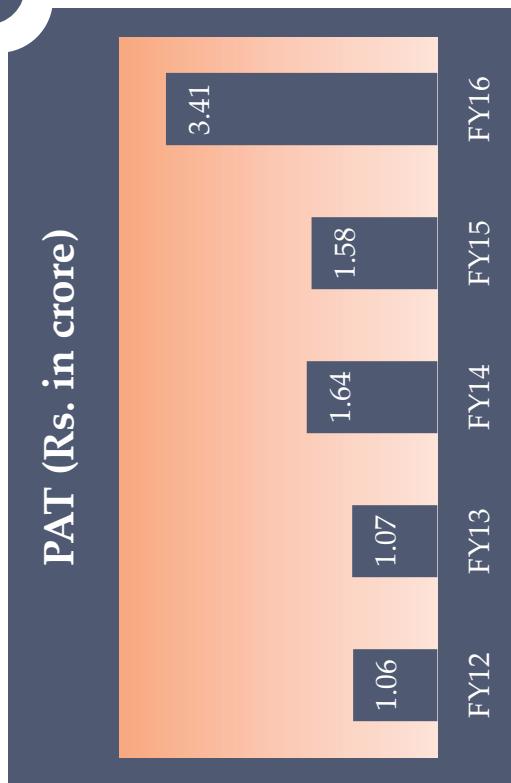

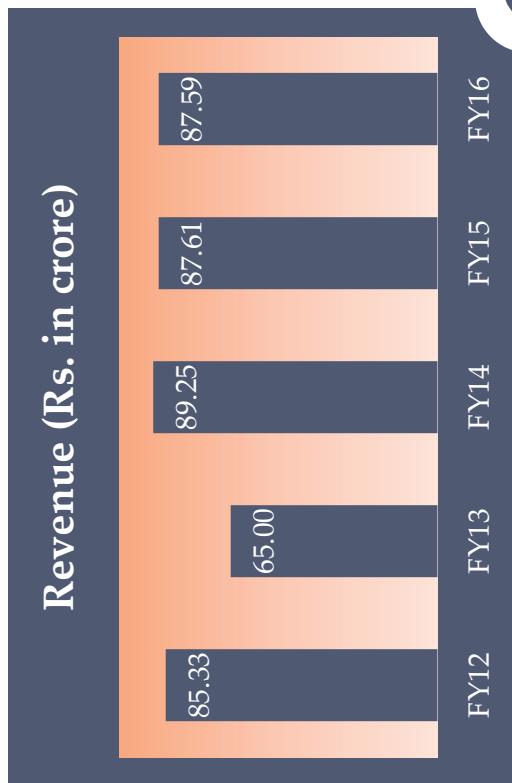

# Chairman's Message

*Commenting on Q1FY17 performance, Mr. Navas M Meeran – Chairman of Eastern Treads Ltd. said:*

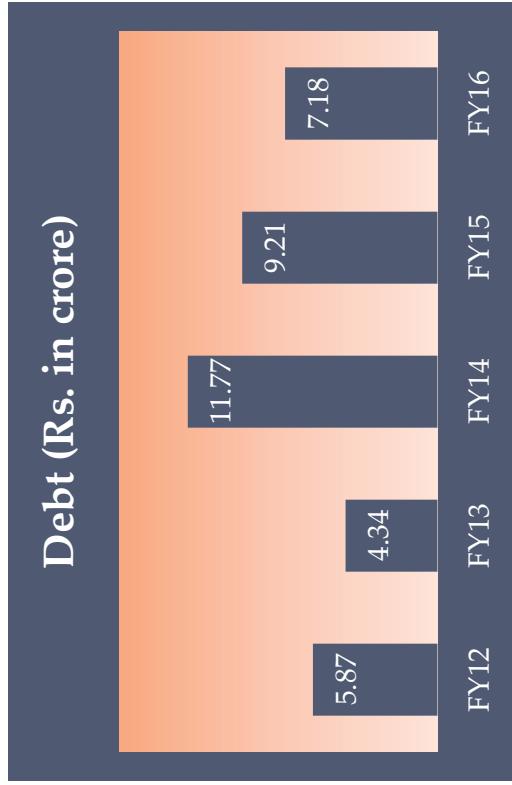

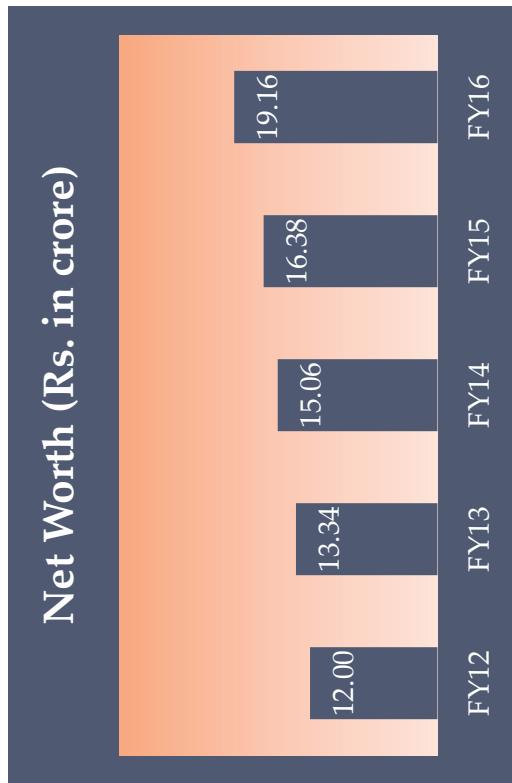

*"The Company has delivered a robust performance in the quarter under review where enhanced volumes aided higher utilizations levels leading to margin expansion and improved profit generation. The Company continues to expand its footprint by engaging in partnerships with our dealers and franchisees. With improving economic activity in the country and our increasing distribution reach, we only expect the domestic business to improve from here on. We are also aggressively focusing and ramping up our volumes in the exports market which is a highly lucrative but quality-conscious segment. Our aim is to emerge as a leading one-stop, high-quality retreading solution provider in the near future."*

# Five-Year Financial Trend

## Five-Year Financial Trend

# Company Overview

# **Eastern Treads Ltd. (ETL)**

## **Pioneers in Manufacturing and Marketing of Tread Rubber used for Retreading Tyres**

- Over two decades of growing presence with strong customer focus
- ISO 9001-2008 certified production capacity of 12,000 tons per annum at Oonnukal, Kerala

## **Building Comprehensive Ecosystem across the Entire Retreading Value Chain**

- Manufacturing quality tread rubber, cushion/bonding gum, black vulcanizing cement and tyre repair patches
- Creating access to high quality retreading equipment
- Providing skill enhancement/upgradation facilities within the supply chain

## **Extensive and Expanding Marketing Network**

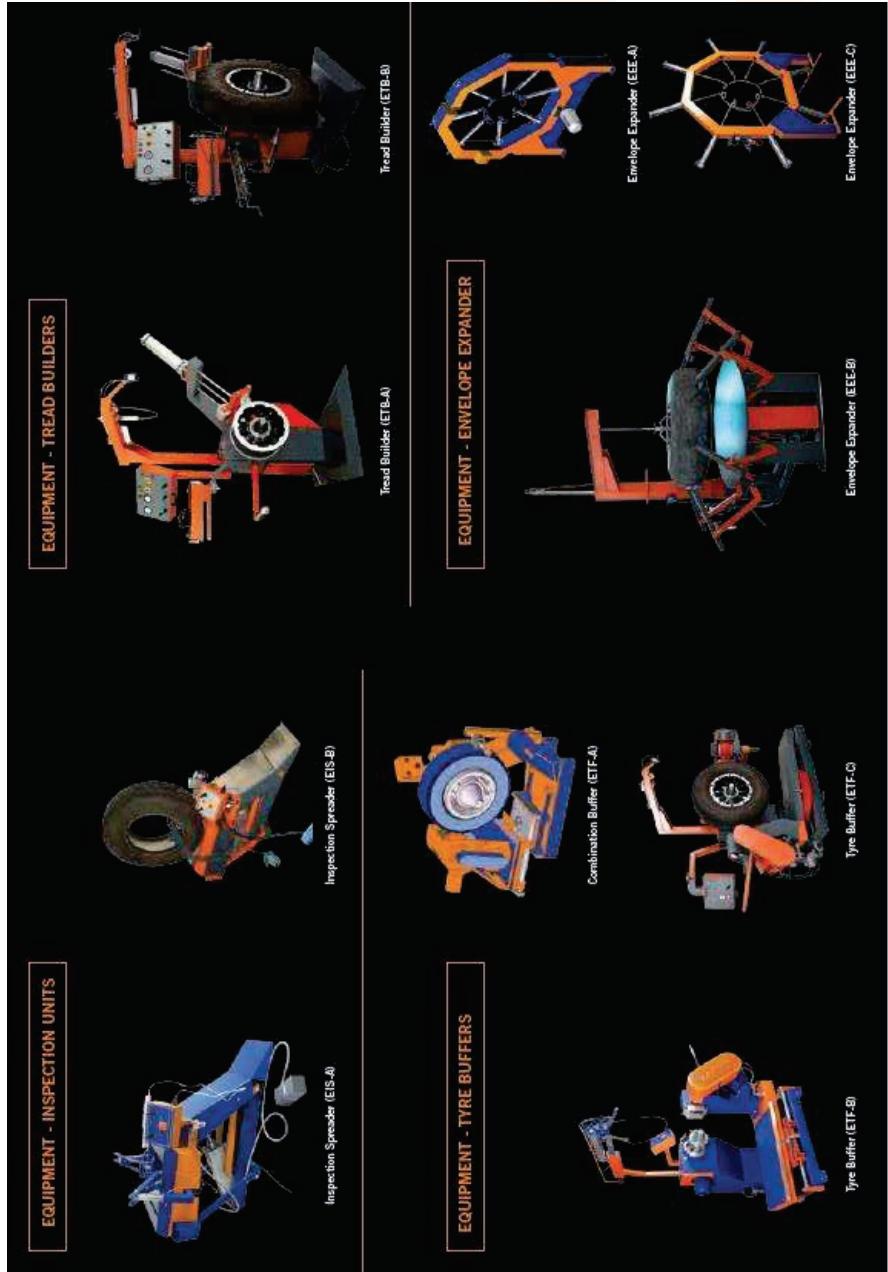

- Present across 17 states through 84 dealers servicing to 1,500 plus multi branded retreaders, 32 exclusive retreaders and 25 branded Infinity Zones
- 10 Company owned depots and 1 C&F's across the country for effective and aggressive servicing of all the above channels
- Company-operated, retreading experience outlets in Bengaluru and Chennai
- Working with Road Transport Corporations (RTC's) across six states

## **Positive Business Outlook**

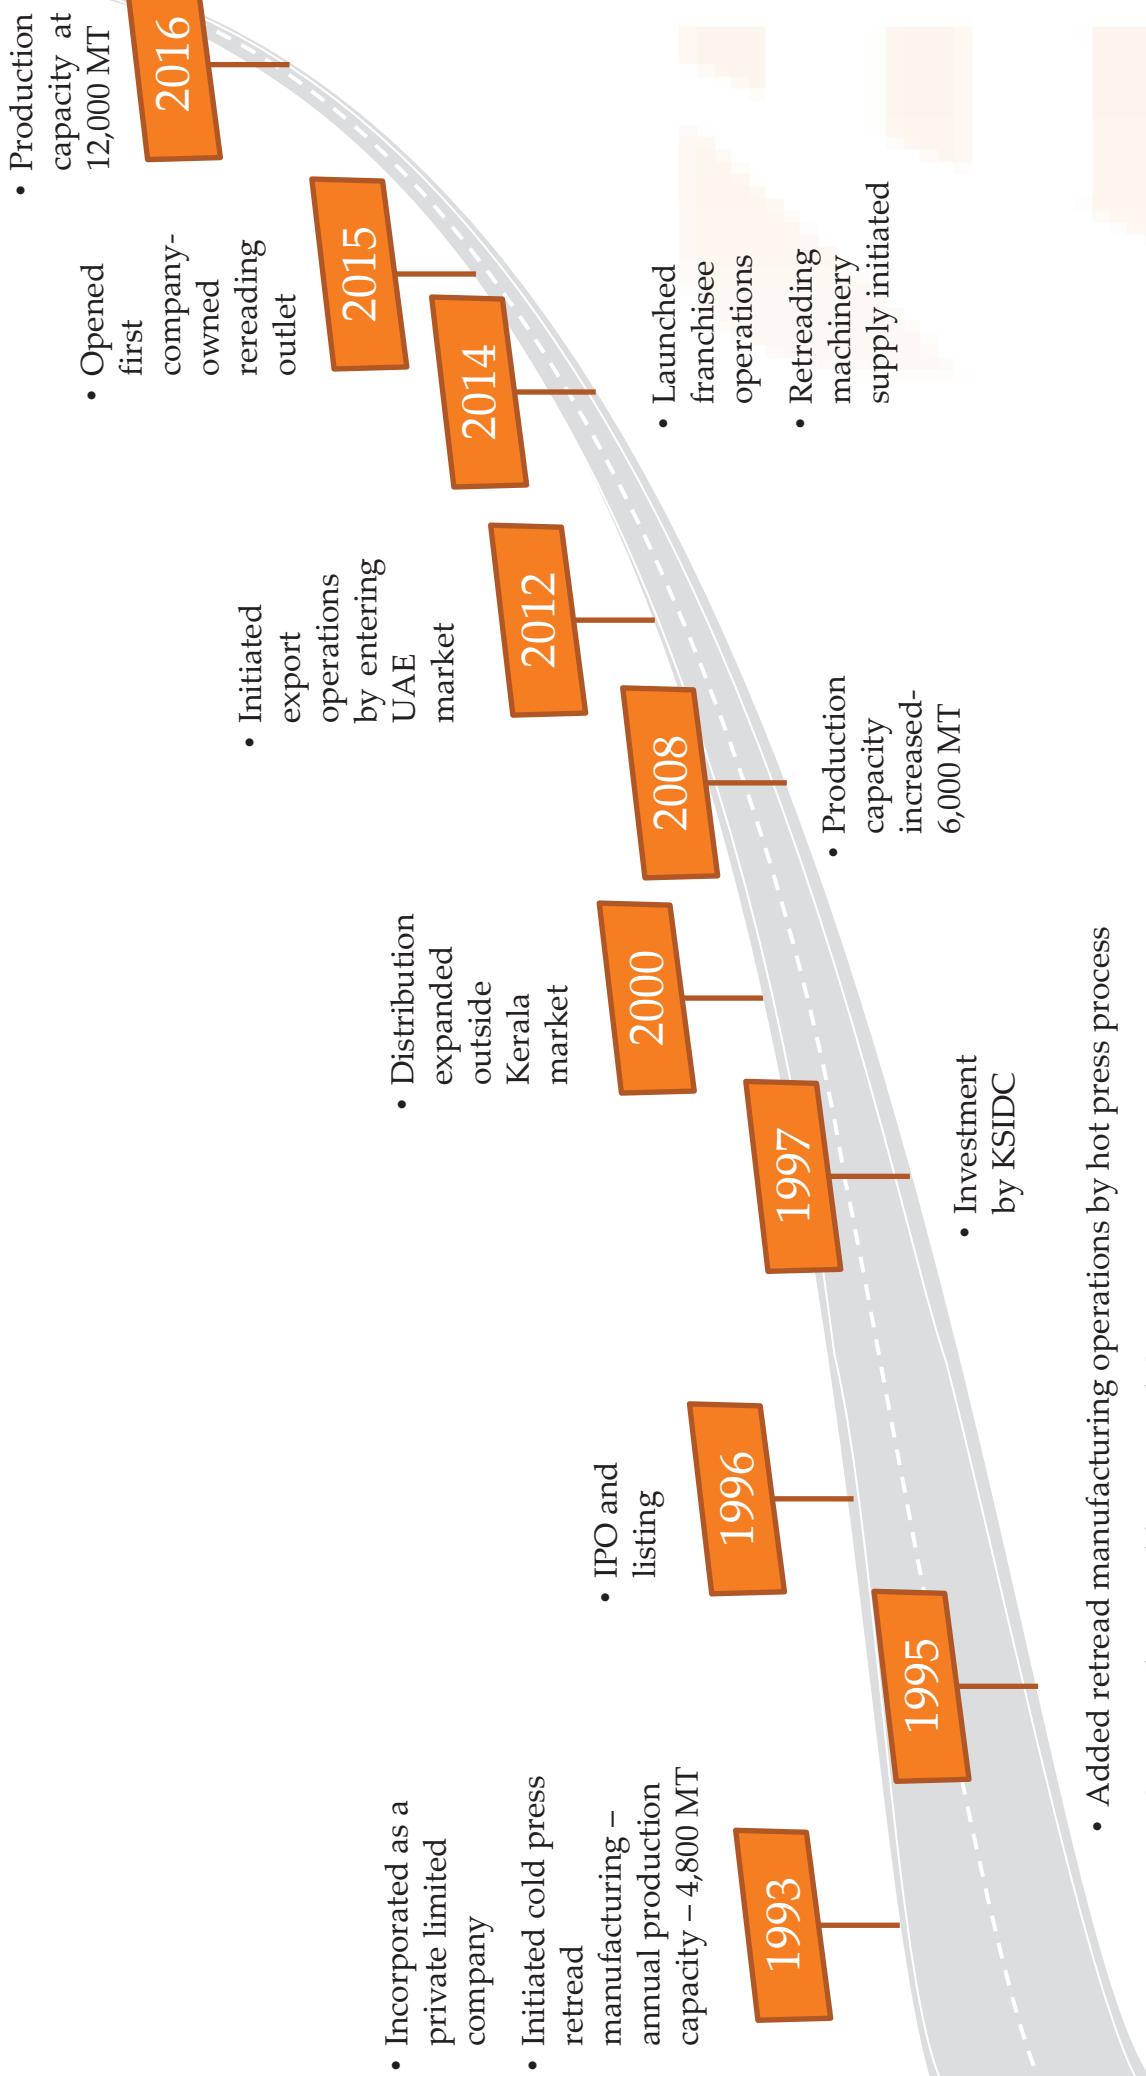

- Retreading is an established option for vehicle operators globally and becoming more mainstream in India
- Volume driven growth and value-enhancement initiatives have led to margin expansion
- Aggressive market development expected to result in medium to long term growth opportunities
- Availability of significant production capacities mean that limited capex is anticipated over next 2-3 years

# Creating a Sustainable Ecosystem

- ETL is transitioning from a tread rubber manufacturer to a leading enabler of tyre retreading ecosystem in India.
- For retread partners, ETL enables access to high quality tread rubber supply and world-class retreading equipment with low capital deployment.
- Partner relationships are also supported by customer/technical services and branding and marketing initiatives.
- ETL is looking to create a structured system for training and developing a sustainable workforce for the retreading industry.
- Retreading is an established industry in key global markets. ETL is creating comprehensive, industry leading capabilities that would deliver long term opportunities in India and globally.

# Milestones

# Tyre Retreading Products

## Precured Tread Rubber

- Guaranteed high mileage performance aiding reduction in operating cost
- Uniform tread wear providing good directional stability
- Consistency in quality & supply
- Product range from Auto to JCB
- Excellent grip for safety

## Black Vulcanising Cement

## Bonding Gum

- Made from 100% natural rubber
- Soft and superior tack, high bonding strength
- Compatible for 99°C, 125°C & 150°C curing operations
- Sufficient shelf life
- Can be used for splicing & nail hole/injury repair

## Hot Rubber Slab & Camel Back Treads

## Repair Patches

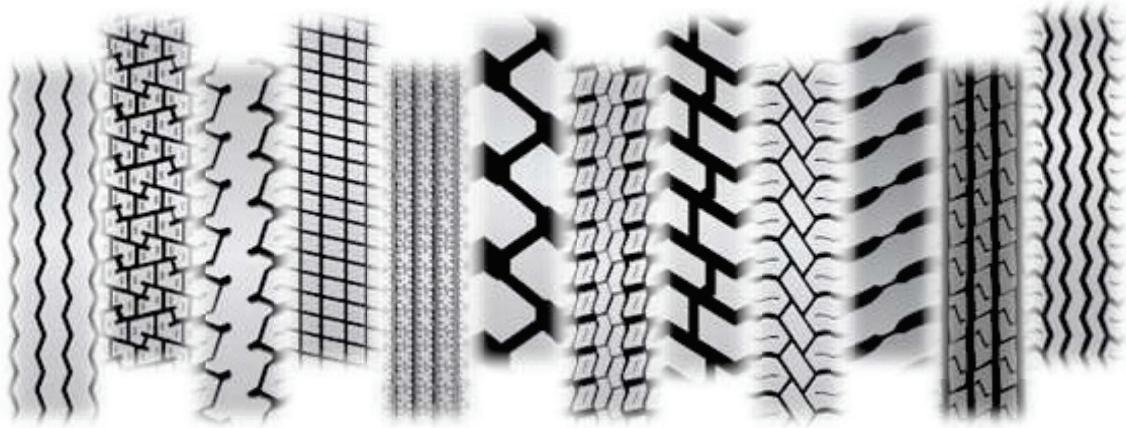

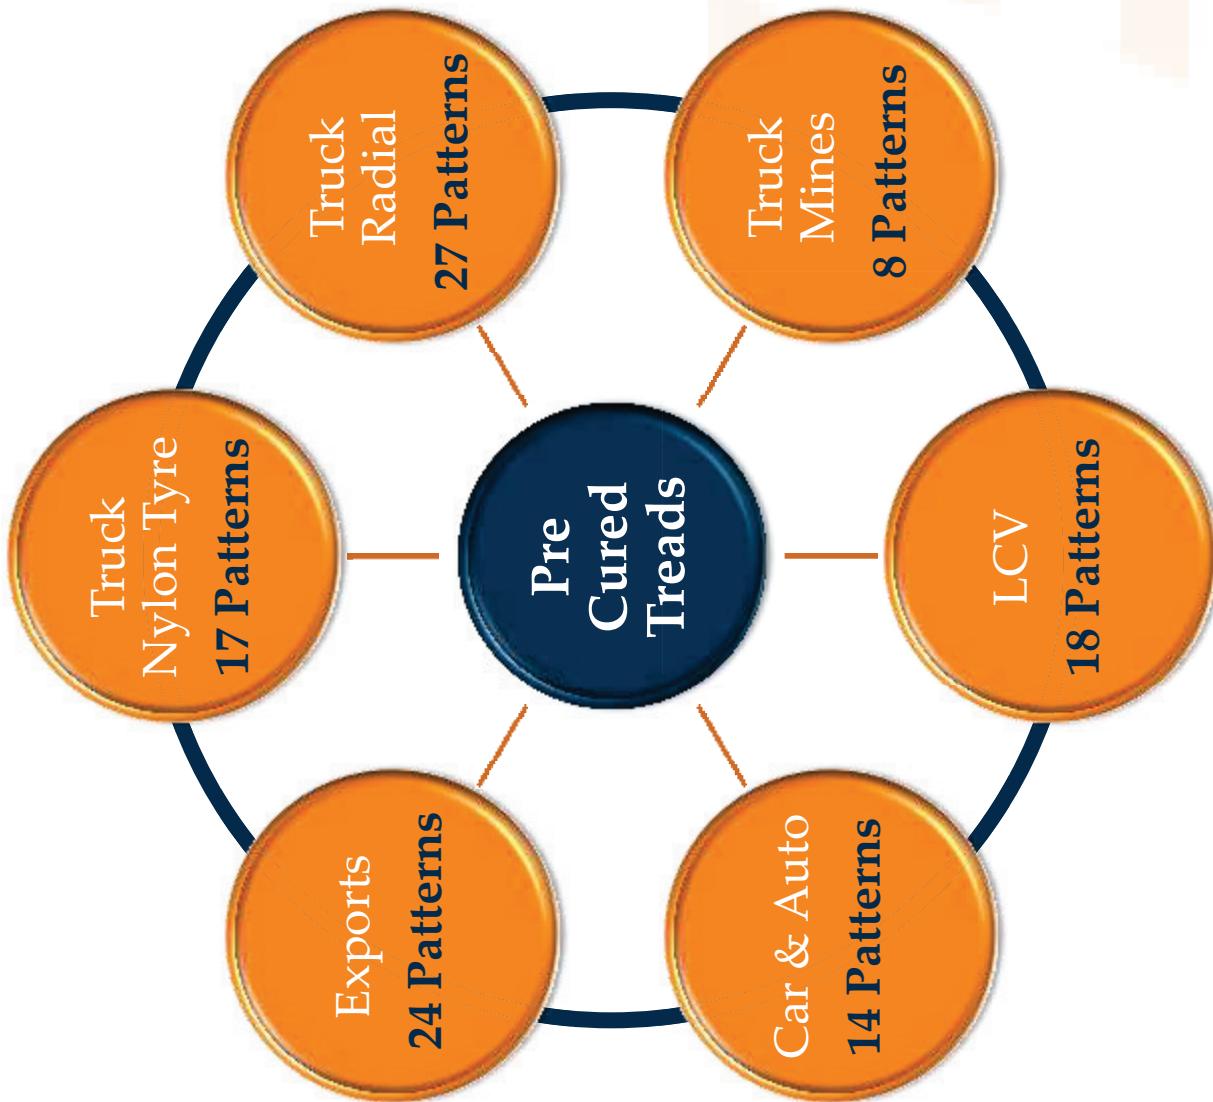

- Made from nylon fabric
- Applications available for nylon and radial tyres
- Wide range of patches for minor to major tyre injury repair
- Economic measure with safety

# Production Facility

- Capacity 1,000 tons per month at Oonnukal, Kerala - Tread Rubber- 810 tons, Bonding gum- 78 tons and Black Vulcanizing Cement - 112 KL - Current utilization at ~45%
- Set up optimal manufacturing process driven by a technically proficient workforce and backed by extensive investments in R&D (having 12 member R&D team)
- Facility is on par with world standards having advanced technical hardware equipment

# PreCured Treads – Extensive Product Portfolio

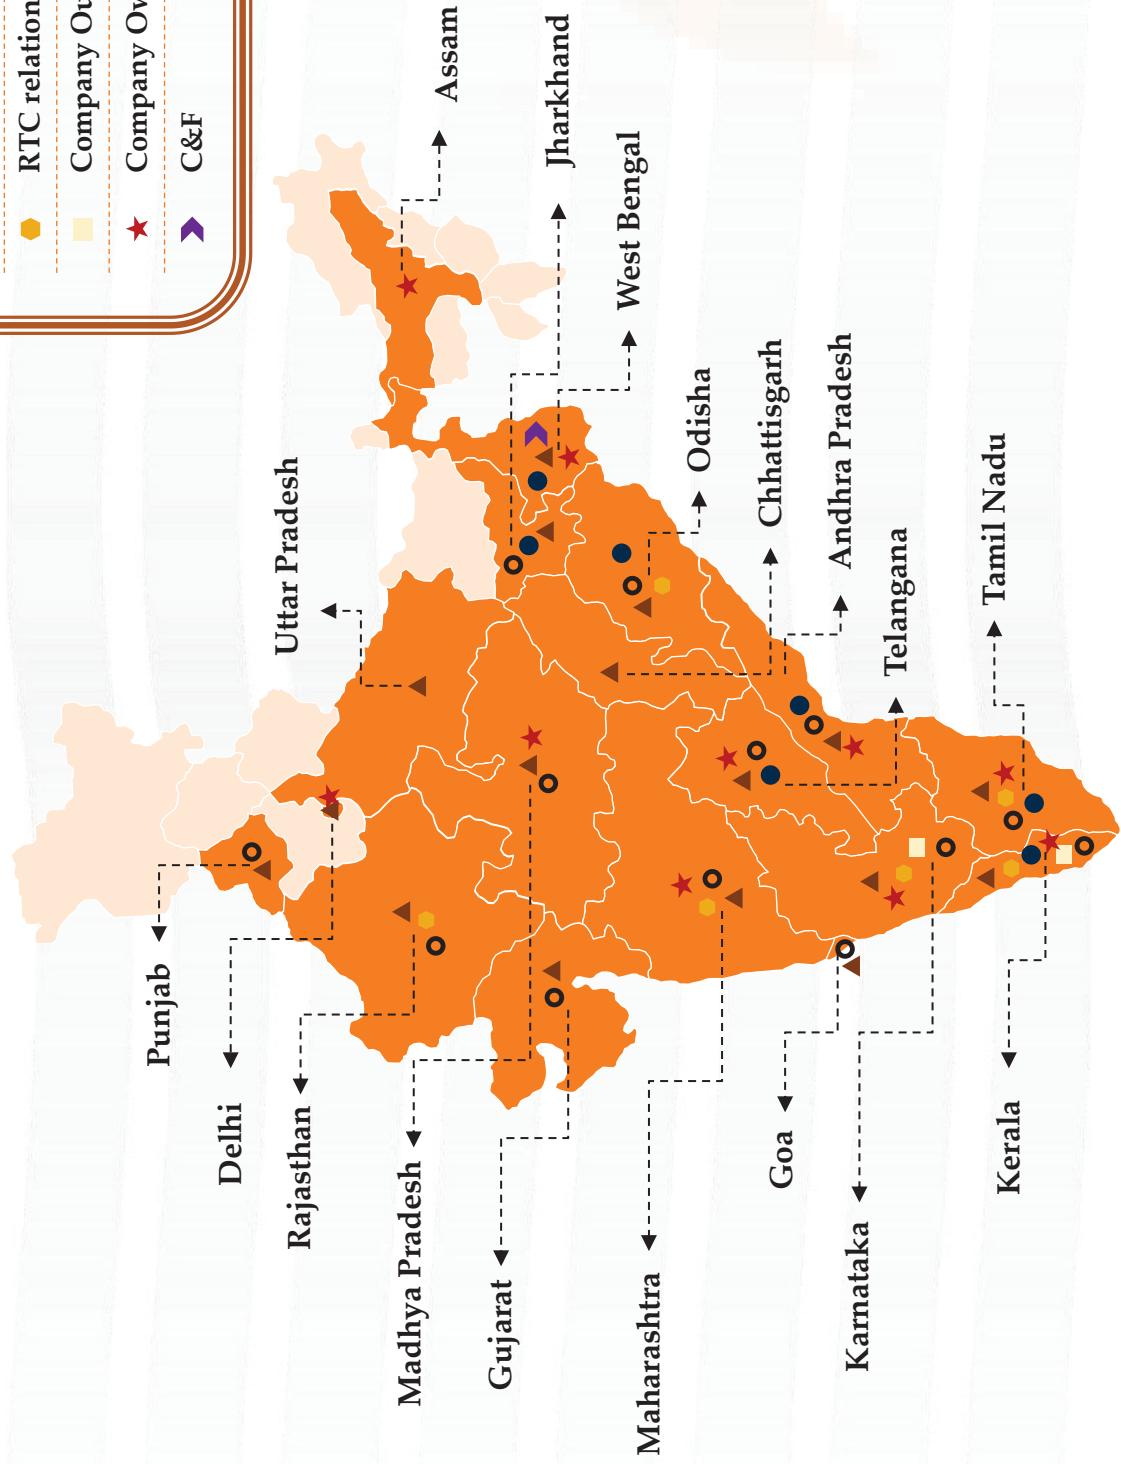

# Distribution and Support Channels

<b>Dealers</b>	<ul style="list-style-type: none"><li>84 dealers servicing 1,500 plus multi branded retreaders across 17 states – this open market channel constitutes the traditional sales network that uses ETL's products in the retreading process on a non-exclusive basis.</li></ul>
<b>Exclusive Retreaders</b>	<ul style="list-style-type: none"><li>32 Exclusive Retreaders across 13 states – ETL provides a world class ecosystem for its exclusive sales channel based on access to high quality and aesthetic products, improved packaging and reliable channel support resulting in a large number of retreaders aligning with the Eastern Treads brand.</li></ul>
<b>Road Transport Corporations (RTC's)</b>	<ul style="list-style-type: none"><li>ETL has developed strong relationships with Road Transport Corporations (RTC's) across six states namely Kerala, Tamil Nadu, Rajasthan, Karnataka, Odisha, and Maharashtra.</li></ul>
<b>Company Outlets</b>	<ul style="list-style-type: none"><li>ETL has launched two in-house model retreading centers in Bengaluru and Chennai (called Process Evaluation Centers) to demonstrate product application processes and at the same time enhance its brand image in key usage markets.</li></ul>
<b>Infinity Zone</b>	<ul style="list-style-type: none"><li>25 outlets across 7 states – exclusive dealer cum service points focus on providing quality retreading services to truck, bus and other fleets, equipped with sophisticated retreading machines that use high quality material and are operated by well-trained people.</li></ul>
<b>Corporate Sales Team</b>	<ul style="list-style-type: none"><li>Spear headed by persons having rich experience in a similar field with a team size of 46 across India.</li></ul>
<b>Company Depots &amp; C&amp;F</b>	<ul style="list-style-type: none"><li>10 Company owned depots and 1 C&amp;F's across the country for effective and aggressive servicing of all the above channels.</li></ul>
<b>Global Sales Network</b>	<ul style="list-style-type: none"><li>ETL initiated its overseas sales operations with the first consignment of tread rubber shipped to UAE in 2012. Since then, deep relationships have been developed in UAE/Middle East, Saudi Arabia, Kenya, Tanzania, Uganda, South America, Mauritius, Bangladesh, Bhutan, Nepal based on supply world class products. Many of these regions represent a strong, long-term growth opportunity for ETL.</li></ul>

# Board of Directors & Management Team

**Mr. Navas M Meeran - Chairman**

Chairman of Eastern Group of Companies with substantial experience in leading businesses across verticals  
Chairman, Southern Region Council, Confederation of Indian Industries (CII)

Received 'Kamal Patra' awarded by the Indian Junior Chamber for being an outstanding young entrepreneur of the year in 1994  
Previous held positions of Deputy Chairman, CII, Southern Region Council and Chairman, Kerala Chapter

**Mr. M.E Mohamed - Managing Director & WKMP**

Retired from Kerala State Housing Board as Executive Engineer  
Vast experience in planning and implementing projects  
Under his stewardship, ETL is scaling new heights, expanding operations and embarking on several new initiatives

**Mrs. Shereen Navaz - Director**

Actively involved in group businesses and occupying directorship in various companies

**Mr. M.S Ranganathan - Independent Director**

More than three decades of service in public sector banks in various capacities  
Specialized in Finance and Accounts with wide expertise in finance and administration

# Board of Directors & Management Team

**Mr. K.S. Neelacanta Iyer - Independent Director**

Vast experience and expertise in finance, accounts and company law matters  
Practicing Chartered Accountant, Senior Partner with M/s Iyer and Chetrian, Chartered Accountants, Cochin

**Mr. K.V. Rajagopalan Nair - Nominee Director of KSIDC**

Retired in 1996 as a Director General of Police, IPS cadre  
Recipient of Indian police medal for meritorious service and President's police medal for distinguished service  
During police service, was on deputation at CBI for eight years, also served as Managing Director at Travancore Titanium Products Limited, Kerala State Overseas Employment Promotion Consultants Limited and Kerala State Police Housing Corporation

**CS Bajju T - Company Secretary & Internal Auditor, WKMP**

Fellow Member of Institute of Company Secretaries of India.  
Vast experience and expertise in Finance, Accounts, Company Law matters, Listing regulations etc

**Mr. Naiju Joseph - Director**  
Hails from a business family of Vazhakulam engaged primarily in tyre retreading industry

**Mr. Rajesh S - Vice President & CFO , WKMP**  
Two decades of multi-functional experience across business operations, finance, planning, brand management, production, TQM, commercial, regulatory and HR.  
Leading operational and financial initiatives at ETL for over five years with P&L responsibilities.

# Strengths - One Stop Solution For All Retreading Needs

Ensure Quality Raw Material - High Quality Tread Rubber

Experts For Grading Rubber

Focus on R&D

- Setup for extensive training & monitoring program to the improve the skills of the employees
- Providing quality On the job Industrial and training

Invests heavily on employee development and training

- Experts For Grading Rubber
- Stringent Quality Plan For Incoming, In process & Finished Product Testing
- Testing And Lab Facilities

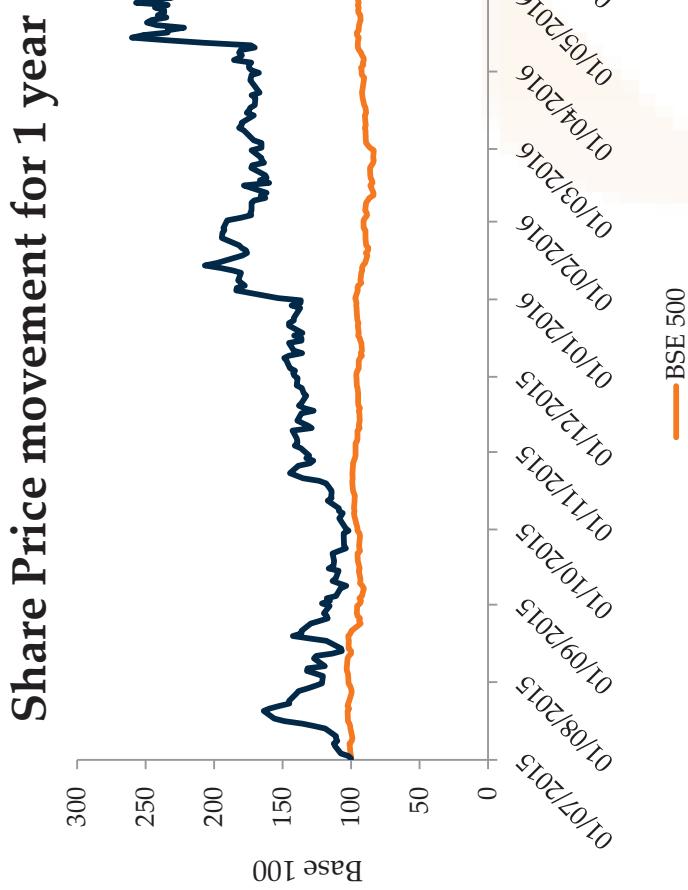

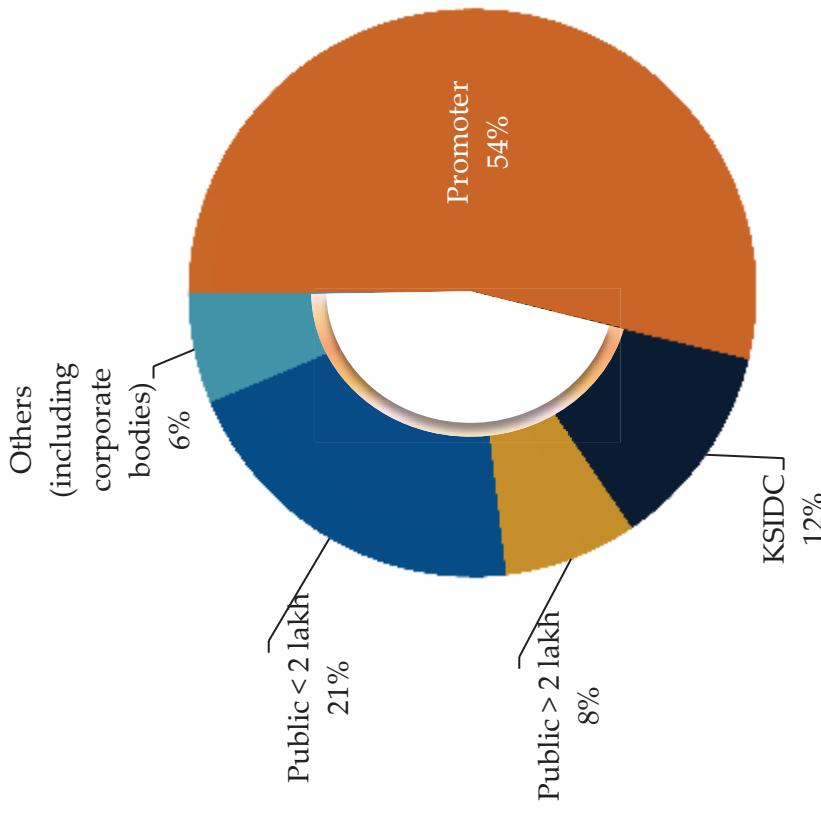

After Sales Service - Help In Tyre Maintenance

Strong Network

- Present across 17 States having tie-ups with 84 Dealers, 32 Exclusive Retreaders, 25 Infinity Zones
- 10 Company owned depots and 1 C&F

Quality Control & Quality Assurance

# Shareholding Pattern & Share Price Movement

# Retreading Industry

**EASTERN  
TREADS**

# Retreading and its types

Retreading is a safe, efficient and environmentally friendly way to breathe new life into worn tyres: The "worn-out" tread of the tyre is replaced with a brand-new one and this means that the tyre can be used again!  
There are two techniques for retreading:

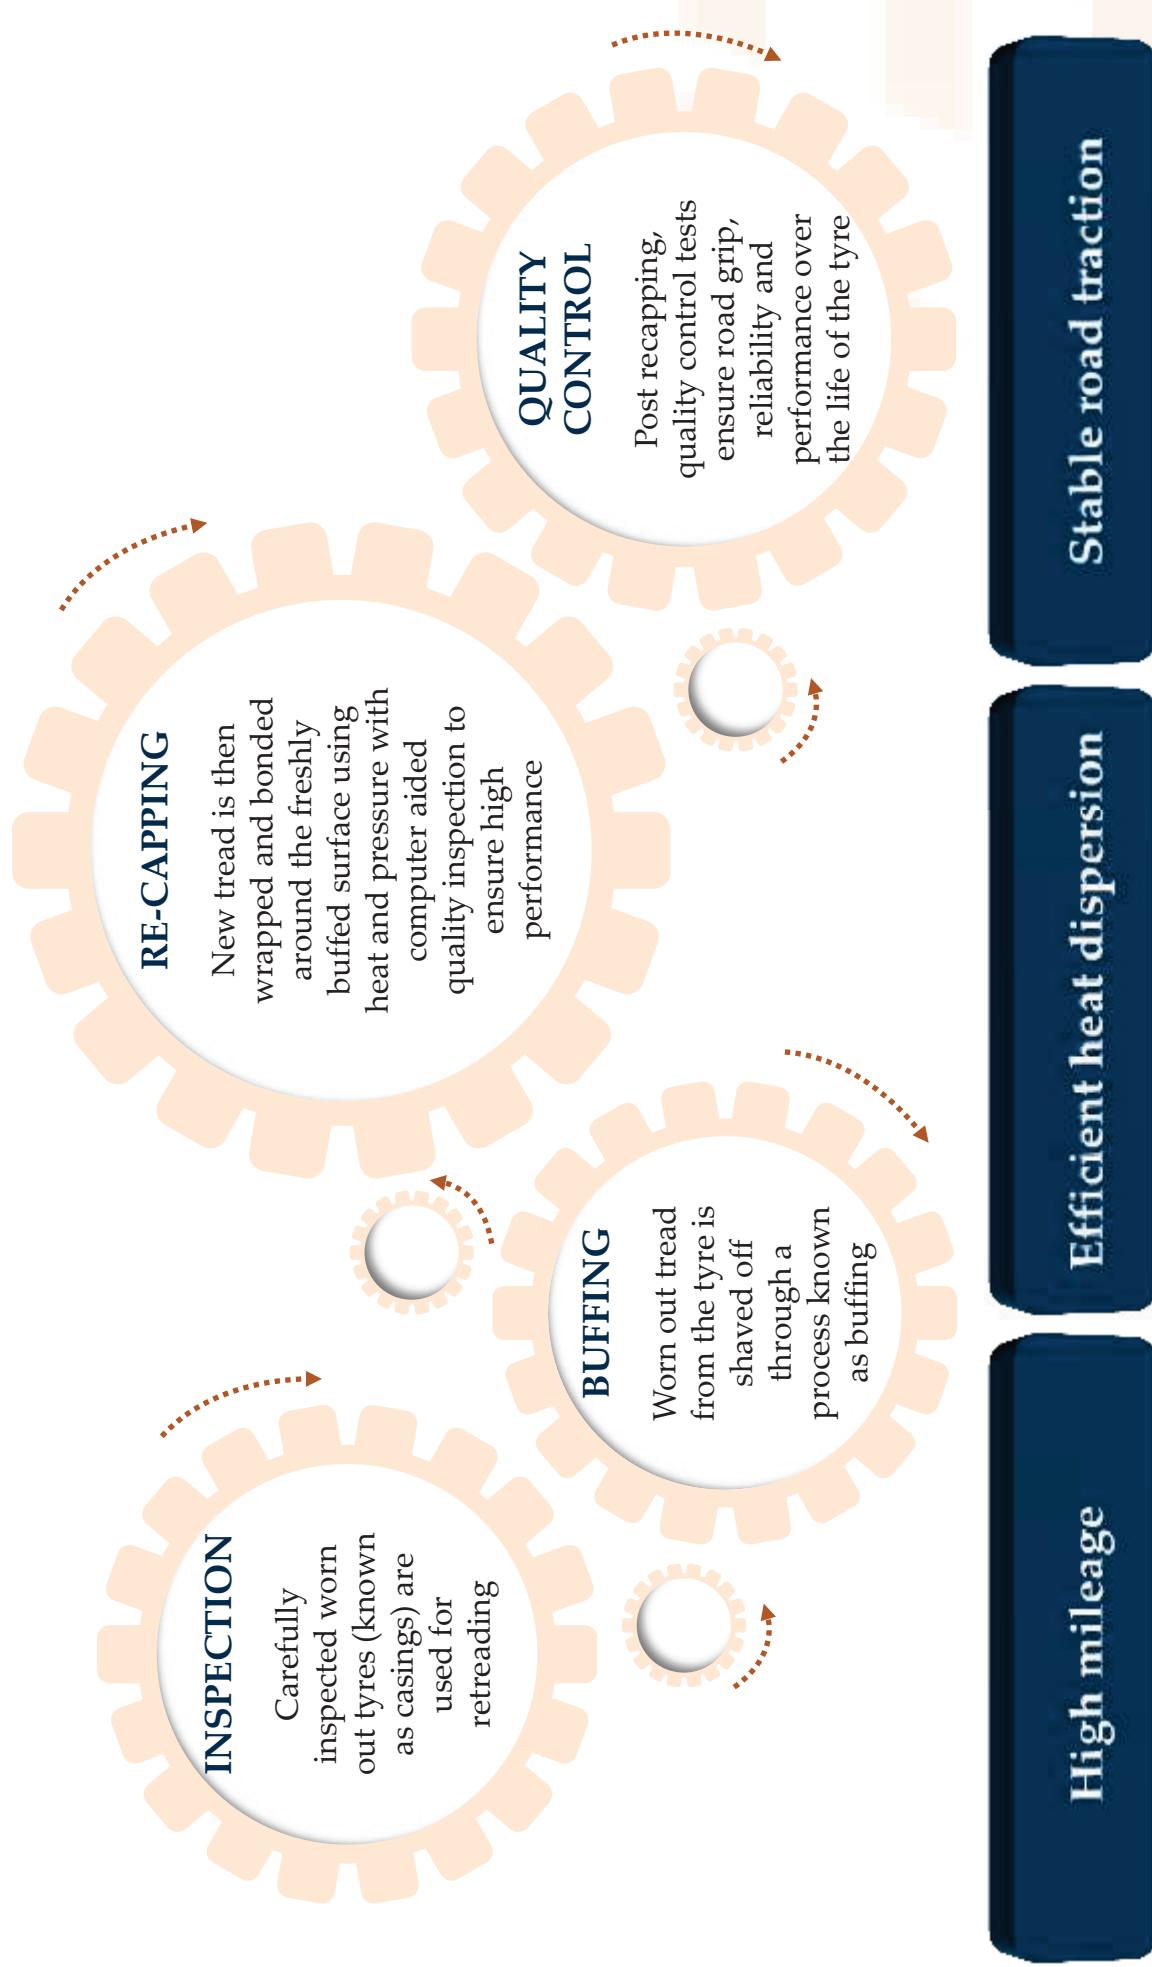

Precure or "cold" retreading involves vulcanisation without a mould at a temperature between 110 °C and 125 °C. The tyre is put together using a pre-vulcanised tread liner (= new tread) and a non-vulcanised bonding gum layer.

Hot retreading involves the vulcanisation of a tyre in a mould at a temperature of around 150 °C. The tread and the sidewall veneer of the tyre are made up of non-vulcanised rubber compounds. The shape and tread of the tyre are created in the heating press.

# Retreading Process

# Retreading - Global Usage

# Industry Trends

## Expanding Road Networks

- Government's targeted construction momentum now 30 kms per day, new project awards of 10,000 kms in F16 and targeted 12,000 kms in FY17
- Revival of stalled projects and new project momentum has led to completion of 6,300 kms in FY16, 10,000 kms targeted for FY17

## Rebounding CV Sales

- Benefits have started accruing from government's focus on developing infrastructure and mining
- Rail freight rates have increased by over 50% from FY12 to FY16, road freight rates remained unchanged
- Tyre replacement demand lags vehicle sales, lag is shorter in case of commercial vehicles

Sales ('000)	FY14	FY15	FY16E	FY17E	FY18E
CV	633	615	670	815	920
MHCV	201	233	299	374	402

# Industry Trends

## More Radialization of Tyres in India

- Improving highway and city road conditions are leading to more radialization of truck tyres
- By 2020, 50% of tyres on Indian roads are expected to be radial tyres, from 25% today
- Radial tyres have 20% longer life and provide better riding comfort
- Retreading a radial tyre consumes 10% more tread rubber and needs more sophisticated capability

## GST Implementation

- One-third of the Indian retreading market is currently unorganized and can potentially be consolidated following GST implementation
- Tax avoidance allows unorganized players to offer 20% lower cost – however, quality and safety preferences are already moving customers to industry leaders
- More radial tyres and larger share of market with large fleet owners also leads to consolidation to organized retreaders

## Greater Usage of Synthetic Rubber

- Demand from Indian tyre industry currently skewed 65% to natural rubber compared to 45% globally but trend is towards synthetic rubber
- Radial tyres use 70% synthetic rubber compared to 50% in conventional tyres

# Benefits of Retreading

<b>Cost Efficiency</b>	<ul style="list-style-type: none"><li>• Retreaded popular truck tyres cost 30%-50% of the price of new tyre</li><li>• During a 3 tyre run (1,80,000 km) cycle, about Rs. 43,000 can be saved by a popular size truck</li></ul>
<b>Environment Friendly</b>	<ul style="list-style-type: none"><li>• Conserves natural resources –Rubber and Oil</li><li>• Reduces environmental pressure from elongating useful life 30kgs of rubber saved per tyre</li><li>• Requires ~7 gallons of crude oil to produce a retread as opposed to 22 gallons of oil to manufacture a new tyre</li></ul>
<b>Quality Performance</b>	<ul style="list-style-type: none"><li>• Globally, regulations around tyre retreading process have standardized quality; Studies have inferred that retreaded tyres fitted accordingly perform inline with new tyres</li></ul>
<b>Safety</b>	<ul style="list-style-type: none"><li>• Globally commercial airline and jet aircrafts use retreaded tyres. 80% of aircraft tyres in the US are retreaded</li><li>• Organised retreaded follows stringent industry practices backed by quality control and technical expertise</li></ul>
<b>Low Capital Investment</b>	<ul style="list-style-type: none"><li>• Capital expenditure in setting up a retreading manufacturing facility is comparatively very low</li></ul>

Going Forward

EASTERN  
TREADS®

# Outlook

## Retreading gaining prominence in the domestic market

- Monetary advantages and environmental considerations are aiding popularity of retreaded tyres
- Improving road network, increased economic activity, higher radialisation and potential implementation of GST are all positives for long term growth of the sector
- Rebounding CV sales will lead to expanding market size over the next few years translating to robust medium to long term growth opportunities

ETL aims to be the leading retreading player in India and export to key markets worldwide

- At the forefront of building a comprehensive ecosystem across the entire retreading value chain
- Extensive and expanding marketing network to penetrate further and establish a pan India presence
- Limited capex for expansion over next 2-3 years, as sizeable production capacities available currently
- To tap and further expand presence in key lucrative markets globally

## About Eastern Treads Limited (ETL)

ETL, a brand from the bouquet of the Eastern Group, focuses on manufacturing and marketing tyre-retreading materials like pre-cured rubber, bonding gum, vulcanizing solutions and many other accessories. The Company has a national presence across 17 States having tie-ups with 84 Dealers, 32 Exclusive Retreaders, 25 Infinity Zones and 2 own retreading units which being serviced through 10 depots and 1 C&F's across India. The Company has also a presence in overseas markets of UAE/Middle East, Saudi Arabia, Kenya, Tanzania, Uganda, South America, Mauritius, Bangladesh, Bhutan, Nepal to cater to the heightened demand in the world market for tread rubber.
